Be vigilant and call

(202) 399-7093

to request transportation
for neighbors in need of
shelter from the cold.

EMERGENCY UTILITY CONTACTS

3

**Washington Gas
Emergency Line:**

Call 911 or 844-
WASHGAS (844-
927-4427)

**DC Water
Emergencies:**

202-612-3400 or
send a tweet to
@dcwater

Pepco Outages:

1-877-737-2662

Text your outage:

- Text “ADD OUTAGE” to 48710
- Then, text “OUT” to 48710
- Get updates by texting “STAT” to 48710

Beginning today, the following populations are now eligible for the vaccine:

individuals who work in a grocery store setting

individuals who work in manufacturing

health and human services and social services outreach workers

individuals who work in food packaging

DC IS NOW VACCINATING:

As of 2/17/21

- Individuals who work in health care settings*
- Members of the Fire and Emergency Medical Services Department
- Residents of long-term and intermediate care facilities and residents of community residential facilities/group homes
- DC residents who are 65 years old and older*

- Individuals experiencing homelessness
- Members of the Metropolitan Police Department
- Teachers and staff who are, or will be, working in person at a DCPS school or a DC public charter school
- Department of Corrections Employees & Residents
- Continuity of Government Operations personnel

- Licensed Child Care Providers & Teachers and Staff of Independent Schools in DC
- Grocery Store Workers*
- Health and human services and social services outreach workers*
- Individuals working in manufacturing*
- Individuals working in food packaging*

**populations that are able to make appointments through vaccinate.dc.gov or by calling the Coronavirus Call Center (when appointments are available)*

Today, at 6:00 p.m., approximately 2,450 appointments will become available to DC residents **who live in priority zip codes** and are 65 years old or older and/or are members of an eligible workforce group.

Priority zip codes are focused on Wards 5, 7, and 8 and include:

- 20422
- 20011
- 20017
- 20018
- 20002
- 20001
- 20019
- 20020
- 20032
- 20593

On Friday, February 19 at 6:00 p.m., DC Health will make approximately **2,450 additional appointments** available for all District residents who are 65 years of age and older and/or individuals who are members of an eligible workforce group.

Go online: **vaccinate.dc.gov**

If you do not have internet access, call: 855-363-0333

WHERE WE ARE TODAY

12

Current Values (data through 2/16/21)

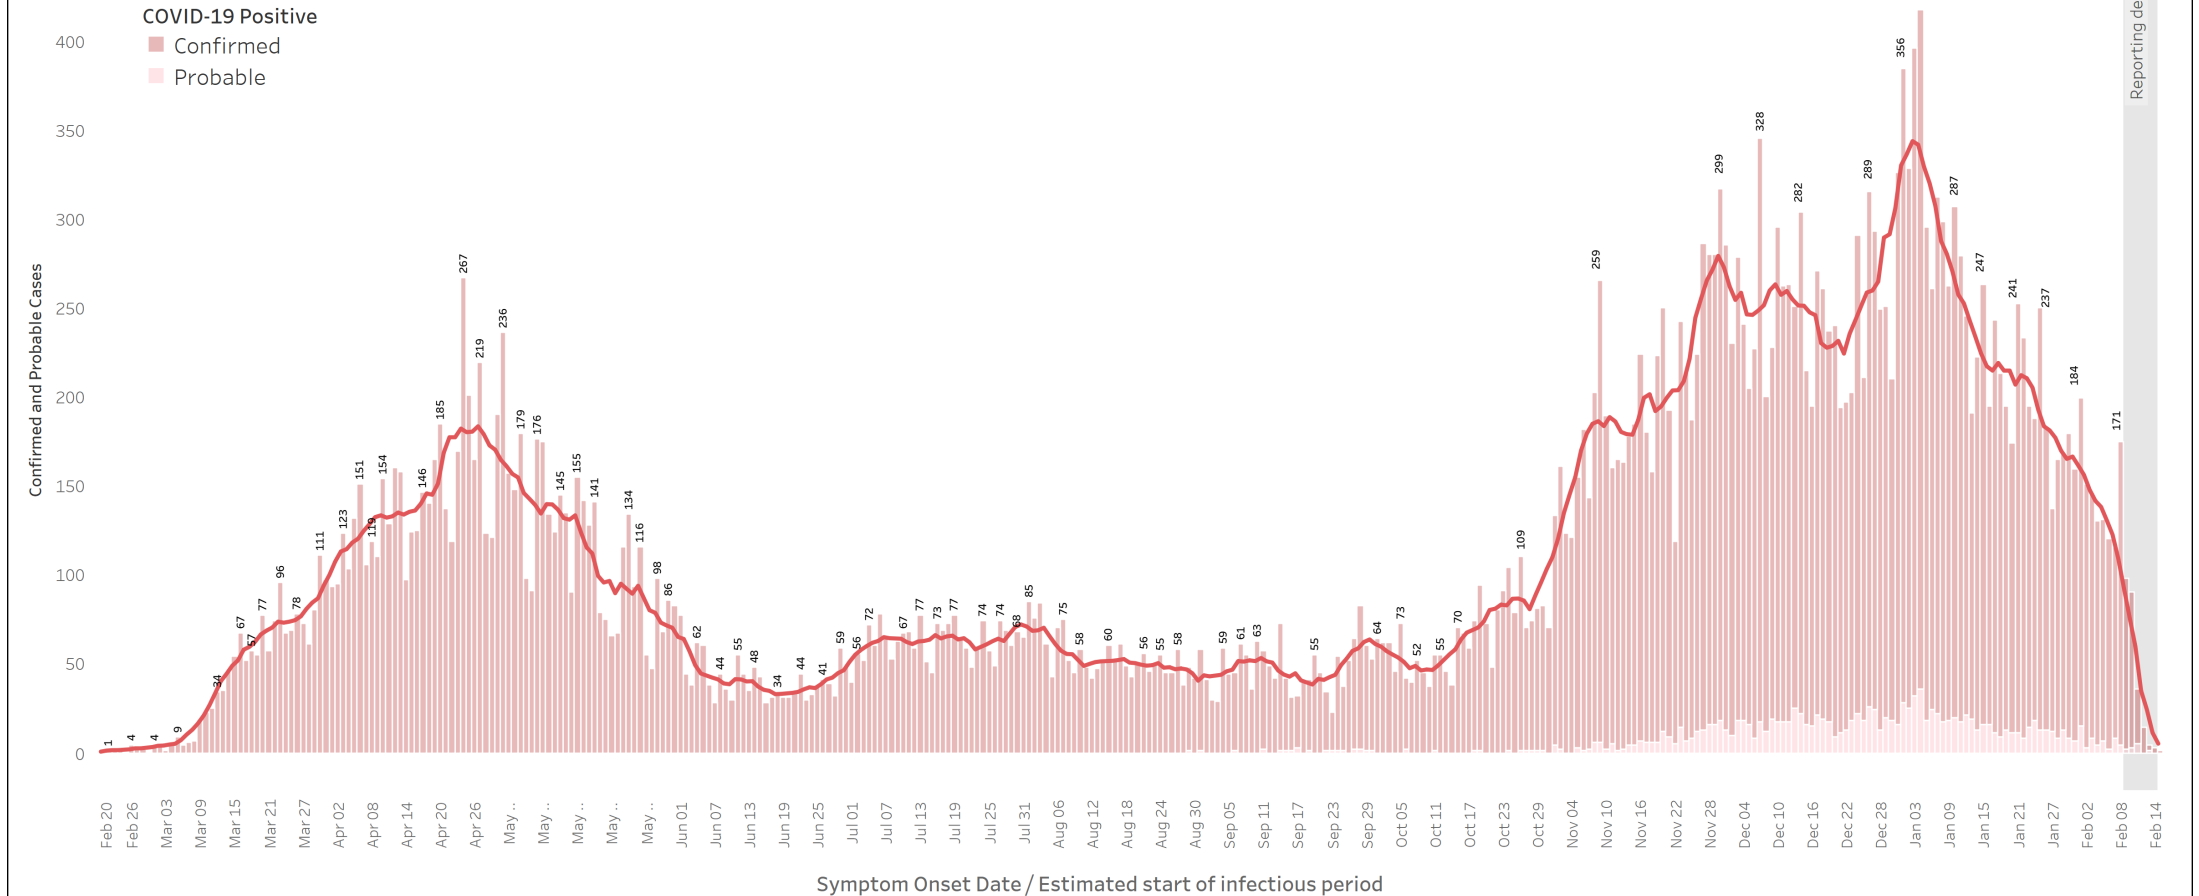

Level of Community Spread	Daily case rate		Rate of transmission		Test positivity rate		New cases from quarantined contacts	
	16.9 (Feb 16)	7-day avg. per 100,000 pop.	0.82 (Feb 6)	Effective reproduction number (R(t))	5.0% (Feb 14)	Percent positive from RT-PCR tests	16.3% (Feb 14)	7-day average
Health System Capacity	Percent hospital utilization		Percent COVID-19 patients		Mean test turnaround time		Diagnostic tests conducted	
	81.7% (Feb 16)	of available beds without surge	10.2% (Feb 16)	of daily hospital census, 7-day average	1.6 (Feb 16)	(days) 7-day average	6,414 (Feb 14)	7-day avg. per million pop.
Public Health System Capacity	Positive cases with contact attempt		Close contacts with contact attempt					
	99.1% (Feb 15)	7-day avg. attempt within 1 day	95.6% (Feb 14)	7-day avg. attempt within 2 days				
Community Engagement	Positive cases interviewed		Positive cases who provide close contacts		Mean number close contacts provided		Exposure Notification Opt-in	
	75.2% (Feb 14)	7-day avg. completed within 3 days	43.9% (Feb 14)	7-day avg.	1.2 (Feb 14)	7-day avg. mean per positive case	646,085 (Feb 16)	cumulative # of smart phones opted-in to official exposure notification system
	Correct mask-wearing		Percent full COVID-19 vaccine coverage					
	72.6% (Jan 14)	percent observed Updated every 3 weeks.	2.5% (Feb 14)	cumulative Updated weekly.				

Data Source: DC Health

COVID-19 Positive Case Incidence by Date of Symptom Onset

Labels show confirmed positive cases

Considerations: Cases with an unknown symptom onset and collection date excluded from this graph. The date reflects the date of symptom onset, not the date of report to DC Health. For the dates shaded in red we expect additional case reports. Cases with an unknown date of symptom onset are estimated by the average delay in lab collection date. This will include asymptomatic cases.

District of Columbia COVID-19 Daily Case Rate per 100,000 population (7-day average)

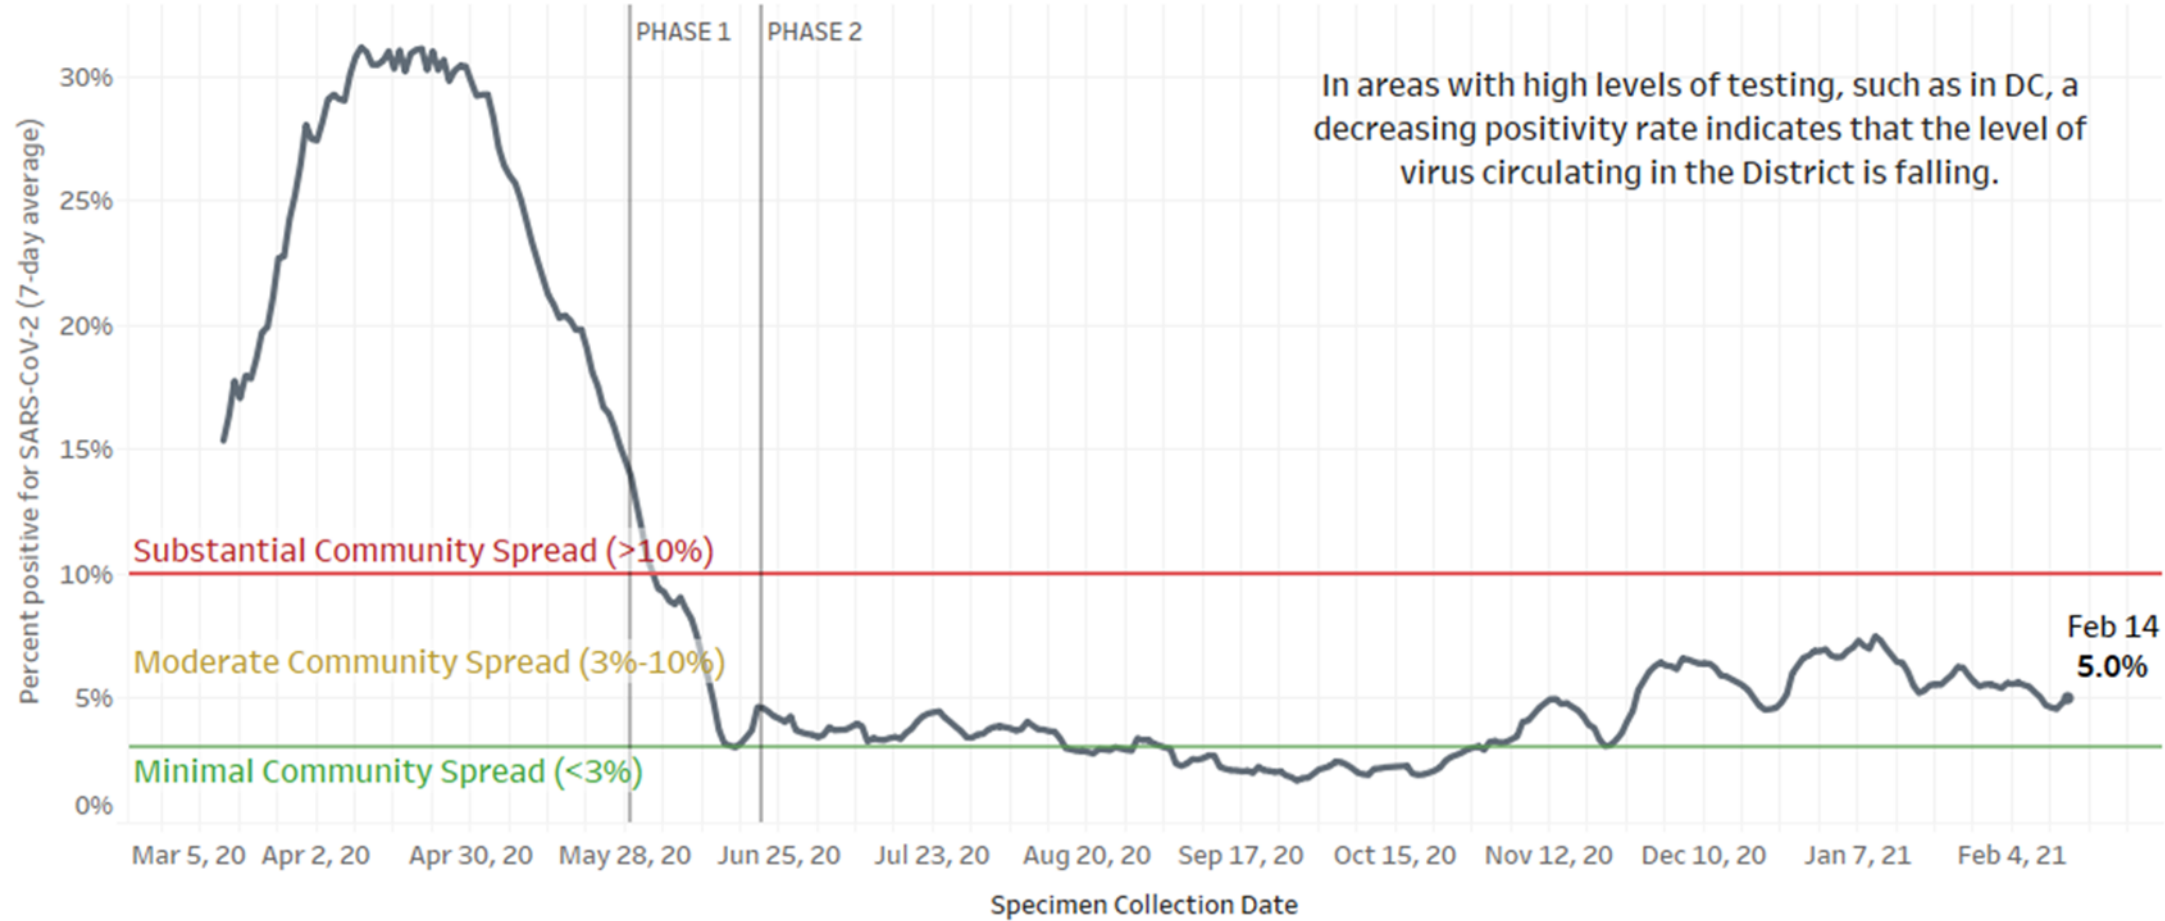

Weekly Case Rate: **118.4**
per 100,000 population

Data Source: DC Health. Data subject to change on a daily basis

Data Notes: The line represents a seven day average of the daily case rate per 100,000 population. The number of daily cases is subject to the timeliness of test results reported from laboratories and may not always reflect the number of new positive tests on a given day. Weekly case rate is the total number of new cases per 100,000 persons in the past 7 days. Data reflect ongoing data quality improvements.

Positivity Rate (7-day average)

Sources: DC Health and Public Health Labs. Data are subject to change on a daily basis.
Metric Definition: Test positivity rate is calculated by date of specimen collection and takes the number of DC residents who test positive in a screening or diagnostic test, divided by the number of DC residents with an adequate sample collection for a test on that date.

COVID-19 Diagnostic Tests Conducted

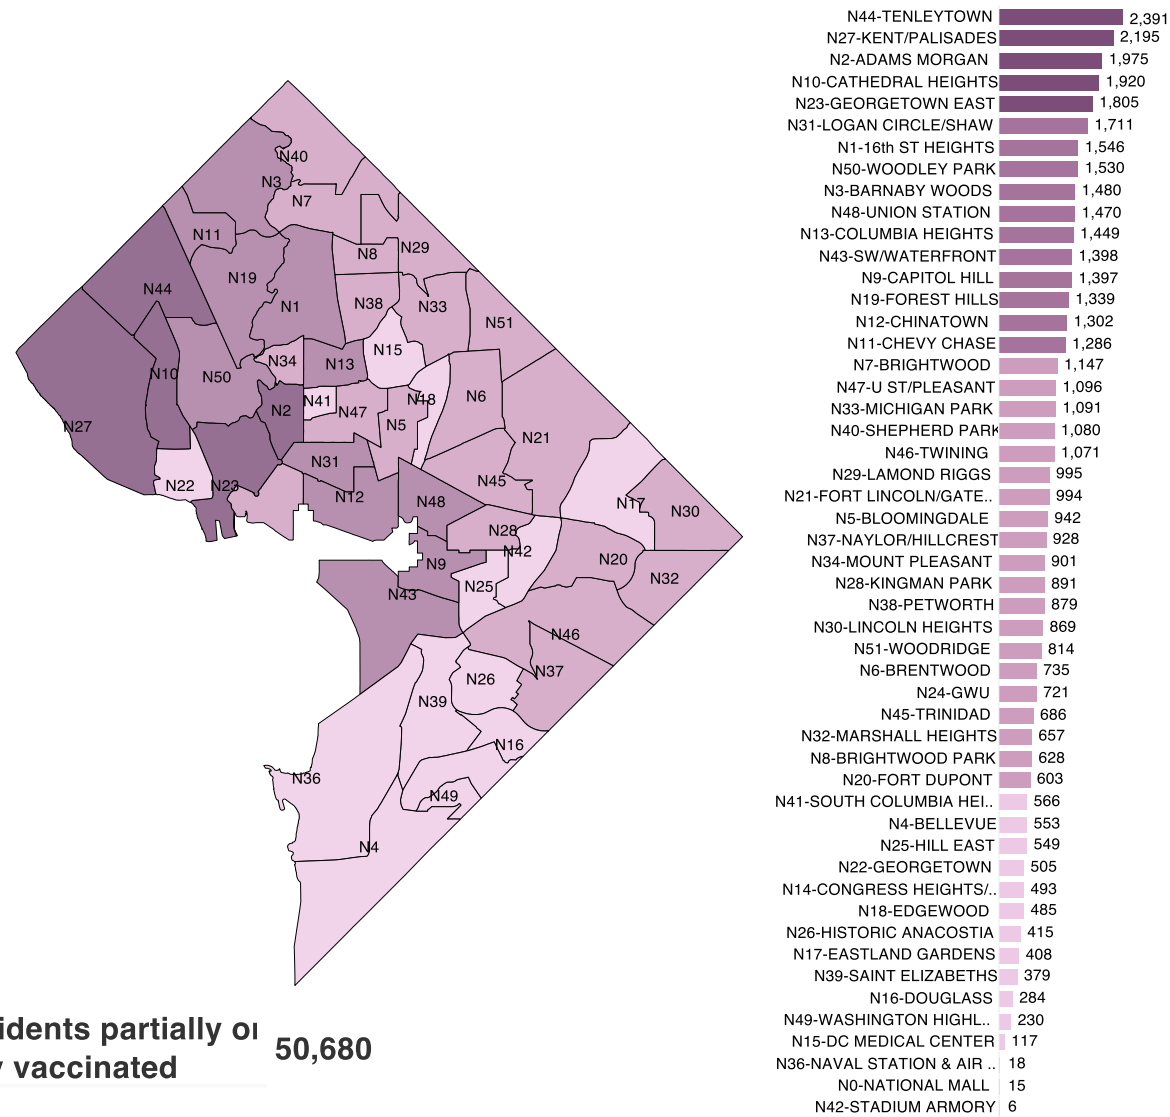

per million population (7-day average)

Sources: DC Health and Public Health Labs. **Data are subject to change on a daily basis.**
Data notes: The line represents a seven day average of the diagnostic tests conducted per 1,000,000 population. The daily report of tests conducted is subject to the timeliness of test results reported from laboratories. These data reflect ongoing data quality improvements.

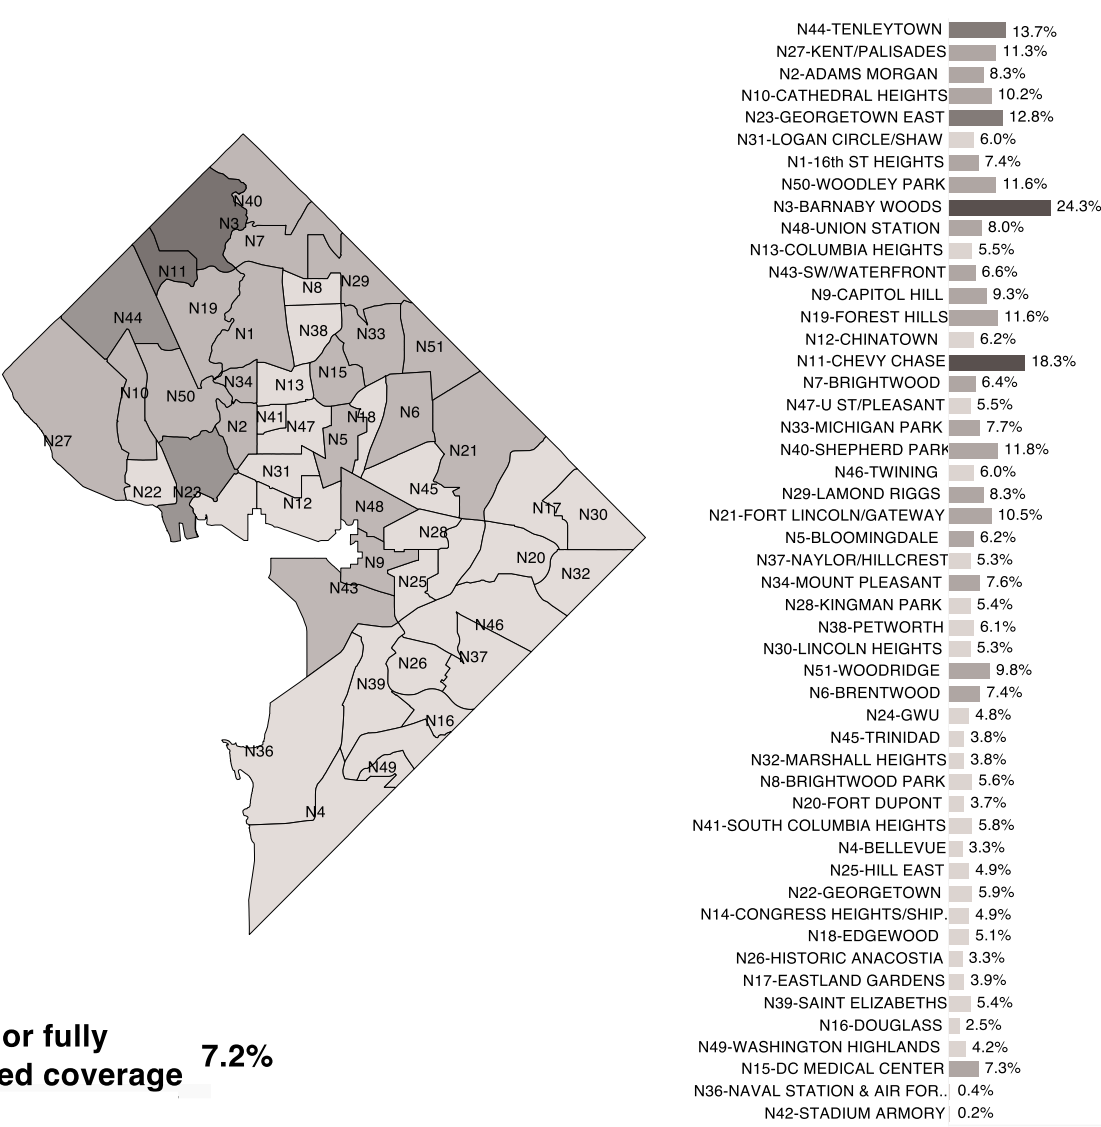

How have COVID-19 vaccines been administered in the District?

of DC residents partially or fully vaccinated by Planning Neighborhood

Residents partially or fully vaccinated 50,680

% of DC residents partially or fully vaccinated by Planning Neighborhood

Partially or fully vaccinated coverage 7.2%

Source:DC Health. Data are subject to change on a daily basis
Metric Definition:The number (of persons) and percent (coverage) of persons in each health planning neighborhood who received the first dose of the COVID-19 vaccine. Population denominator based on 2019 ACS estimates.

Source: DC Health; Data are subject to change.

Metric Definition: The number of DC residents who have been fully vaccinated across age groups, gender, race, and ethnicity. This information is carefully tracked to determine targetting and equity of vaccine rollout and administration.

Data Considerations: Demographic data are self-reported, and obtained from electronic health records. Demographic data from electronic health records can be incomplete, especially for race and ethnicity. These information may be updated from supplementary data. The chart above does not include non-residents which may have been vaccinated in DC, or residents who have not completed the vaccine regimen, or completed the regimen outside of DC.

DCPS BUDGET UPDATES

DISTRICT OF COLUMBIA
PUBLIC SCHOOLS

GOVERNMENT OF THE
DISTRICT OF COLUMBIA
DC MURIEL BOWSER, MAYOR

How School Budgets Are Made

School budgets are based on the expected student enrollment count for the upcoming school year.

Each school then receives an initial funding amount based on its unique population. This initial funding amount is determined by the Comprehensive Staffing Model (CSM).

After collecting input from parents, teachers, and staff, principals customize their proposed budgets to meet their school's needs.

The final budget for all of DCPS (including school budgets from principals) is compiled and added to the Mayor's citywide budget and submitted to the DC Council for approval.

 **GOVERNMENT OF THE
DISTRICT OF COLUMBIA
MURIEL BOWSER, MAYOR**

DCPS' FY22 Budget: Prioritizing Learning Acceleration and Resiliency for Students

By strategically blending local and non-local sources, such as federal stimulus dollars, DCPS will ensure continuity of core services and accelerate learning recovery and build resiliency for students most impacted by the pandemic.

\$15M+ in teacher growth, recruitment, and retention

\$27M in student and educator technology

\$33M+ in student learning acceleration and social emotional supports

\$9M to initiate learning innovations (e.g. outdoor learning)

\$3M+ in new school programs

Putting students at the center as we **build back stronger**

\$15M to stabilize school budgets, even with declining enrollment

\$9M continued investment in cluster support model

\$10M sustained core services for students, schools, and families

Securing a strong foundation for **schools' road to recovery**

School Budget Resources

New DCPS Budget Website viewable on all devices

- ✓ **Individual Budget Allocation Worksheets** list allocations for personnel and non-personnel funding
- ✓ **Year-Over-Year Budget Narratives** explain each school's budget, enrollment, program changes, and projected acceleration funding
- ✓ **DCPS Pocket Budget Guide** with FY22 investment and planning highlights

Learn more about FY22 school budgets at dcpsbudget.com

Integrated Academic and Social Emotional Learning – Supports for All Students

- ✓ Integrate social emotional learning, trauma-responsive and relationship building supports into the fabric of the school day
- ✓ Adjust curriculum and instruction to respond to student data; double down on practices that accelerate learning

Acceleration Academies – Targeted Supports (20-35% of Students)

- ✓ Provide additional small-group instructional time – led by effective teachers or qualified partners during summer, before/ after school, and/or non-school days
- ✓ Prepare students to achieve in grade level content by teaching pre-requisite skills they may have missed, while incorporating social emotional supports that will allow them to be successful in their academics

Tutoring – Individualized Supports (10% of Students)

- ✓ Match 1:1 or 3:1 students with a tutor for frequent and regular engagement, 2-5 times per week
- ✓ May occur within or outside regular school time, but does not replace core instruction

Each school will **engage with their teachers, staff, families, and community** to develop a **tailored learning recovery plan** for summer and beyond. Most **funds will be allocated directly to schools** based on their enrollment and population of students identified as at-risk.
