Grocery Distribution Update

4

Beginning **Monday, November 2**, community-based providers will take over all grocery distribution operations.

Residents will still be able to get free groceries at grocery distribution sites across all eight wards. This shift to trusted community partners will ensure that as our response and recovery continues long-term, we can continue to meet the nutritional needs of DC residents.

Youth meal sites will continue operations at all current locations.

GROCERY DISTRIBUTION SITES

Community organizations throughout the District are distributing fresh and non-perishable groceries to District residents. Fresh fruits, vegetables and other food items are available for families who need them. Residents are encouraged to bring a cart and/or tote bag to transport groceries home.

NEW SCHEDULE | Effective Monday, November 2

 Masks required at grocery sites.

COMMUNITY SITES

WARD 1

The Table Church
1450 Columbia Rd., NW
1st and 3rd Saturday of the month
7:00 a.m. until the food is gone
202-618-6050

The Salvation Army To Sherman Ave
3335 Sherman Ave. NW
Monday to Friday: 9:00 a.m. - 2:30 p.m.
202-829-0100

YMCA Anthony Bowen
1325 W St NW
Monday: 4:00 p.m. - 6:00 p.m.
Tuesday: 9:00 a.m. - 12:00 p.m.

Mariha's Table NW at The Maycroft
1474 Columbia Road, NW
Monday to Friday: 11:00 a.m. - 3:00 p.m.
Saturday: 9:00 a.m. - 2:00 p.m.
202-328-6608

Spanish Catholic Center
1618 Monroe Street NW
Wednesday: 9:00 a.m. - 12:00 p.m.
202-939-2400

WARD 2

Greater New Hope Baptist Church
816 8th Street, NW
2nd Tuesday of the month
11:30 a.m. - 2:30 p.m. - 202-842-1036

Food For All

DC PUBLIC SCHOOLS TERM 2 UPDATES

#Reopen**Strong**

DISTRICT OF COLUMBIA
PUBLIC SCHOOLS

GOVERNMENT OF THE
DISTRICT OF COLUMBIA
DC MURIEL BOWSER, MAYOR

Our schools have been without students, and our students without their teachers and friends for **7 months**.

We are grateful to our teachers and staff who have worked tirelessly to transform virtual classrooms into places of creativity, curiosity, and encouragement - and to our families who have supported their children at home.

And yet, we know learning at home is not working for every student and family.

We must adapt to the revealed needs of our students and families and provide a way for those who choose it and need it to come back to school.

Students Learn Best in the Classroom

9

Our youngest learners started the school year less prepared than previous years:

- **11 percentage point reduction** in students meeting or exceeding beginning of year literacy benchmarks
- **11 percentage point reduction** in Kindergarten students meeting or exceeding benchmarks

Our students with IEPs and English Learners are even further behind their peers on these measures.

The data on this slide was updated on October 26, 2020.

Learning to read is a critical skill that will affect a child for the rest of his or her life: Students who cannot read on grade level by third grade are **four times less likely** to graduate by age 19 than children who do read proficiently by third grade, and the outcomes for children **growing up in poverty** are even more dire.

Planning for Term 2

11

- ✓ Since the onset of this pandemic that has affected too many families in our community, DCPS has remained grounded in the firm belief that to best serve students furthest from opportunity, **learning should take place in the classroom with clear safety precautions**. This responsibility has been at the center of our many discussions with parents, staff, and students around safely reopening schools.
- ✓ **DCPS will implement all health and safety precautions** outlined by DC Health, as well as additional safeguards recommended by our union partners.
- ✓ We will continue to act in good faith with everyone, including the WTU, to **ensure students are able to access high-quality instruction** and the resources they need and deserve.

Preparing to Come Back to School

The health, safety, and well-being of the communities we serve is paramount. DCPS is implementing comprehensive safeguards to keep students and staff safe in our school buildings.

- ✓ Safety First Space Design
- ✓ Facility Readiness
- ✓ Health and Safety Routines
- ✓ COVID-19 Testing and Response Protocols

Investing over \$31 million in safety measures for schools, including \$3.6 million for additional PPE, \$4.5 million in building readiness, and \$24 million toward HVAC enhancements

Safety First Space Design

- **Socially Distant Space Arrangement:** Schools are set up to facilitate social distancing with floor decals, signage, tape, cones, etc.
- **Signage:** Schools have COVID-19 health signage (in English and other languages) posted in arrival spaces, hallways, and classrooms.
- **Plexiglass Table-Top Dividers** for reception and security areas where staff will have to interact with visitors and families in closer proximity than six feet.
- **Cleaning Supplies & Procedures:** Schools have the necessary cleaning supplies and will be able to replenish those supplies as needed. All cleaning supplies are from the EPA-registered list in the CDC guidance. School custodial staff have been trained to implement enhanced and deep cleaning protocols.
- **Health Isolation Room:** Schools have a designated health isolation room set up to facilitate social distancing for symptomatic students to wait for pick up.

All elementary school HVAC systems will be updated by November 9.

HVAC Enhancements

- **\$24M** investment to increase the air change rates and filtration provided by HVAC systems to reduce any airborne concentrations of COVID-19 and related transmission risks in every school.
 - Schools with central HVAC: Installation of **MERV-13/MERV-14 filters**
 - Schools without central HVAC: Placement of High-Efficiency Particulate Air (HEPA) filters
- **All classrooms across the DCPS portfolio will receive a portable medical grade HEPA filter**, proven to filter particulates down to 0.3 microns at a 99.99% efficiency.
- **3,000** mobile medical grade HEPA filters will be placed in elementary schools and PK-8 education campuses.
- The work is being done to American Society of Heating Refrigeration and Air Conditioning Engineers (ASHRAE) standards and executed under the guidance and direction of a licensed professional engineer (PE) who is a standing member of ASHRAE's Epidemic Task Force on the Schools Team.

Plumbing Systems: School plumbing work orders related to bathrooms, sinks, and water supply systems are prioritized so that schools are ready to welcome students and staff.

Health and Safety Routines

15

Daily Health Screening: Ask, Ask, Look Protocol and temperature checks for anyone entering the building

Personal protective equipment (PPE): Provided to anyone who enters the building – masks for students, masks and face shields for staff

PPE Ready for Distribution

1.5 M Disposable Masks

320,000 Child Size Masks (PK-2)

80,000 Communicator Masks for special populations

87,000 Face Shields (school based staff/1 per week)

Stocking schools with hand sanitizer and cleaning supplies

Reduced class sizes: To minimize the impact of a positive case on an entire school, students will be grouped in cohorts that do not have close contact with other cohorts.

Adjusted routines: Students will eat breakfast and lunch in their classroom. Classrooms will have scheduled, staggered arrival, recess, and dismissal times to limit interactions between classrooms.

Additional medical professionals in every school, every day to support new health and safety routines

Modified visitor policy: Non-essential visitors will not be allowed; essential visitors will be required to schedule a visit in advance.

COVID-19 Testing and Response Protocols

16

DCPS will provide:

- ✓ On-site rapid testing for symptomatic individuals and follow-up PCR testing for anyone who receives a negative rapid test result
- ✓ DCPS staff working in-person will be prioritized at all public testing sites posted at coronavirus.dc.gov

Through the DCPS COVID-19 Response Protocol, every staff member will be trained to confidentially report potential exposure in a school building. When there is a confirmed, positive case of an individual in a school building, we will notify students and staff, provide self-quarantine instructions to close contacts, and follow all steps outlined by DC Health and the CDC for cleaning, disinfection, and sanitization.

Transparency and Accountability

- **Site-specific operational plans** for each school in accordance with health guidelines that will be posted online.
- **Written verification** of completed HVAC enhancements
- HVAC and all other operational metrics will be reviewed by a site-based walkthrough team using a detailed **Building Readiness Checklist** prior to school opening. Completed checklists will be posted online.
- On-going compliance monitoring throughout the school year
- Employee **concern** email mailbox and response protocol.

DCPS SCHOOL BUILDING READINESS CHECKLIST

SAMPLE
(NOT REAL DATA)

18

School **AITON ELEMENTARY SCHOOL**

Operations Plan <http://www.dcps.dc.gov/aiton-covidTEST>

Personal Protective Equipment (PPE) and Hygiene Supplies

- ☒ General PPE (masks and face shields) for students and staff
- ☒ Enhanced PPE (gloves, gowns, and shoe covers) for staff
- ☒ Hand sanitizer and disinfectant wipes

Socially-Distant Space Arrangements

- ☐ Classrooms
- ☒ Hallways and staircases
- ☐ Staff spaces, including reception and security areas

Plumbing Systems

- ☒ Sink maintenance, specifically to ensure hot-water delivery
- ☒ Toilet maintenance

Water Access

- ☐ Fountain spouts turned off, to mitigate unsanitary water consumption
- ☒ Bottle fillers or water coolers

Ward 77 Grades Served PK3-5

Address 533 48TH PLACE NE

Cleaning Supplies and Procedures

- ☐ Return-to-school deep cleaning
- ☐ Daily enhanced cleaning procedures
- ☒ Cleaning supplies

HVAC Enhancements

- Yes** MERV-13/MERV-14 filter compatible?
- ☒ MERV-13/MERV-14 filter ready
- ☐ Portable HEPA filter placed

Signage

- ☐ Arrival spaces and hallways
- ☐ Classrooms

Open/pending work orders that impact the safe opening and operations

6 Critical work orders

STATUS ☒ Complete ☐ In Progress

- Prepared to go beyond ensuring federally protected leave and federal and local **accommodations** to provide **additional flexibility** for employees requesting consideration for virtual staffing assignments due to personal circumstances
- Providing all teachers with **additional planning time** beyond Collective Bargaining Agreement requirements
- Allocating **additional professional development days** to Term 2, focused on health and safety protocols, trauma-responsive practices, and supporting students through learning transitions

Why In-Person Learning Is Critical

- For students receiving special education services, providers can offer supports that are difficult to do so virtually, such as physical or occupational therapy.
- For students who are not reading on grade level, the ability to have intensive language and literacy instruction is limited in a virtual environment, particularly for young learners.
- Educators are better able to accommodate the short attention spans of 3- to 5-years-olds in person.

Being at school also supports the emotional and physical wellbeing of our students. It ensures students receive a healthy meal each day. It allows them to build relationships with their peers, both in the classroom and outside on the playground.

Working with the Washington Teachers' Union

DCPS has been working closely and in good faith with the Washington Teachers' Union (WTU) over several months.

DCPS has engaged in more than 100 hours of discussions with the Washington Teachers' Union around reopening plans, including health and safety matters.

We remain at the table and continue our dialogue.

TERM 2 NEXT STEPS

#ReopenStrong

DISTRICT OF COLUMBIA
PUBLIC SCHOOLS

GOVERNMENT OF THE
DISTRICT OF COLUMBIA
MURIEL BOWSER, MAYOR

Returning to In-Person Learning

In Term 2, DCPS will offer **two types of in-person programming** for some elementary students: **in-person learning** and **Canvas Academics and Real Engagement (CARE) classrooms**.

In-Person Learning

Families who are being offered an in-person learning seat will begin receiving notification by email, followed by a phone call from the school, on October 23.

CARE Classrooms

Families who are being offered a seat in a CARE classroom will begin receiving notification by email, followed by a phone call from the school, on October 30.

Since only a limited number of in-person learning classroom seats are available, students furthest from opportunity are being prioritized.

Accepting an In-Person or CARE Classroom Seat

From the point of contact, families have **two school days** to confirm their seat.

If a family does not respond within that time frame, they **will lose their offer** and their student will continue with all-virtual learning.

If the school **cannot make contact** with a family, the offer **will expire after 5 school days**.

If you are matched for an in-person learning seat, **you must accept your space as soon as possible**.

Accepting your space requires **calling your school and confirming** that you want the seat.
