VACCINE DISTRIBUTION

Total doses already delivered (as of 1/23/21):
68,750

Total doses already administered:
51,421

Additional doses becoming available this week:
9,475
This week, DC is receiving 8,775 doses of the Pfizer vaccine and 5,600 doses of the Moderna vaccine.

**Moderna doses breakdown:**
- 2,975 doses for appointments that were made available through the portal last week
- 1,500 doses for appointments that were previously booked
- 300 doses to a pharmacy to vaccinate residents of Intermediate Care Facilities
- 100 doses to a pharmacy to vaccinate residents of community residential facilities/group homes
- 400 doses to Unity Healthcare to vaccinate individuals experiencing homelessness and patients at Unity
- 200 doses to United Medical Center for patients that will be booked directly through UMC
- 125 doses for pharmacy or provider staff, or to be allocated in the following week’s schedule

**Pfizer doses breakdown:**
- 3,900 doses to Children’s for DCPS in-person staff
- 1,950 doses to One Medical for public charter school in-person staff
- 1,950 doses to Kaiser for MPD and their eligible patients
- 975 doses to Sibley/Johns Hopkins for the Senior Housing-DCHA initiative and their patients
District hospitals and medical providers have started outreach to schedule their patient population of DC residents 65 years and older. Like the District’s COVID-19 vaccination scheduling portal, hospital appointments are limited.

- Howard University Hospital
- MedStar Georgetown University Hospital
- MedStar Washington Hospital Center
- The George Washington University Hospital
- Sibley Memorial Hospital
- United Medical Center
- Kaiser Permanente
Help spread the word:

Make sure your parents, grandparents, and neighbors who are **65 and older** know that they are eligible to get vaccinated and help them make a plan to get an appointment.
