A Plan For RELIEF, RECOVERY & GROWTH

MAYOR MURIEL BOWSER'S FY 2021 - FY 2025 Federal Recovery Budget

JUNE 2, 2021

Mayor Muriel Bowser's FY 2021 - FY 2025 Federal Recovery Budget: Summary of Federal American Rescue Plan Act Fund Investments

The Fiscal Year (FY) 2022 Fair Shot budget marks the turning of a corner on a global public health crisis that has killed millions of people worldwide and led to a swift and deep global recession. The Fair Shot Budget makes significant investments to provide relief, recovery, and growth for residents and businesses across all eight wards. In this budget, we focus on what we know to be the pillars of an equitable recovery: access to safe and affordable housing, high-quality job training, healthy neighborhoods, academic acceleration, increased access to quality child care, programs to reduce gun violence, safe and accessible transportation options, and supports for businesses and residents hit hardest by the economic crisis of the past year and a half.

During last year's budget cycle, we were very focused on providing our community an immediate response to COVID-19. At the time, we faced significant uncertainty, both in terms of the virus as well as our community's financial future. With so much uncertainty, we controlled what we could and made big investments in our DC Values and in keeping our community safe and healthy. Today, we have cause for more hope and a chance to look at how we comeback stronger and more equitable that before. Everyone 12 and older is now eligible for the vaccine; more than 50% of all DC residents are at least partially vaccinated; and through the American Rescue Plan, DC received a significant increase in federal relief funds.

The District is set to receive nearly \$3.3 billion in relief through the American Rescue Plan, largely made up of \$2.3 billion in state and local funds, \$017 million in capital infrastructure funds, and nearly \$980 million of specific grants that go directly to agencies with specific uses. In addition, more than \$2 billion is flowing directly to residents, businesses, hospitals, WMATA and other non-DC governmental entities. This assistance comes in the form of business grants, tax credits, stimulus payments, SNAP benefits, unemployment insurance and more.

This budget recognizes how the landscape has shifted over the past year and a half and seizes on this once-in-a-lifetime opportunity to put our city on a trajectory toward a more equitable future. This document outlines how the \$2.5 billion of state and local funds, plus some of the known agency grant funds, are proposed to be invested, starting in FY 2021 through FY 2024 in health care and housing, opportunity, prosperity, and equity. This document will be updated as we receive more guidance from the federal government on how specific funds can be used and final spend plans from DC agencies get approval from the federal government.

Below, please find details on how the funds will be spent, by initiative, by agency and by fiscal year. Please also find more detailed descriptions from each investment.

Since the start of the pandemic, Mayor Bowser has said many times: We are in this together, and we will get through this together. Time and again, we have seen this value come to life - in residents joining DC for a Day of Action to help neighbors get vaccinated; in hospitality workers passing out

meals to colleagues in need; in the health care workers, sanitation workers, and so many others who never stopped reporting in person to serve their communities. The Fair Shot Budget builds on this sense of togetherness. This is a budget that reflects the values of DC and the belief that when we work together, we can build a stronger, more equitable DC.

Boost Camps					
DPR is pleased to be introducing Boost Camps this summer. This new offering focuses directly on addressing learning loss and is available to students for free. Boost Camp participants will experience balanced human development, build strong positive connections with their peers, and learn in a safe environment. DPR is currently partnering with six District public and charter schools to offer 600 students a combination of high-quality enrichment and recreation in addition to an academic component to address learning loss attributed to the COVID-19 pandemic and accelerate learning	1,920	0	Ο	0	1,92
College Rising College Rising will provide 250 new dual enrollment opportunities and "to					
and through" mentorship to low-income high school students and first-time college goers. The College Rising program is designed to help students who have strong potential to succeed in college but need additional exposure, support, and mentorship to get there. Dual enrollment and early college high schools are evidence-based strategies that increase not only college access and enrollment, but also high school graduation rates, high school academic achievement, and high school attendance rates	0	1,545	2,220	2,220	5,98
Earning for Learning MBSYEP					
This investment will expand the Marion Barry Summer Youth Employment program for high school students in need to credit recovery or summer learning. Students participating in the SYEP "Earning for Learning" model are paid to complete summer course work at their school and complete meaningful workforce development projects, intern or engage in career focused skill building.
