GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

District of Columbia Government

District of Columbia

For the Fiscal Year Beginning

October 1, 2018

Christopher P. Morrill

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to District of Columbia Government, District of Columbia, for its annual budget for the fiscal year beginning October 1, 2018. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device. This award is the eighteenth in the history of the District of Columbia.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

Transmittal Letters

MURIEL BOWSER
MAYOR

July 22, 2019

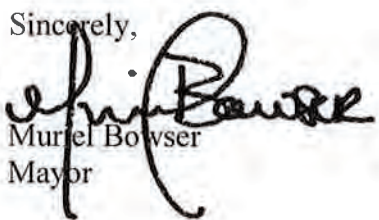

The Honorable Donald J. Trump
President of the United States
The White House
1600 Pennsylvania Avenue, NW
Washington, DC 20500

Dear President Trump:

On behalf of the residents of the District of Columbia, I am pleased to transmit the District of Columbia Fiscal Year 2020 Budget and Financial Plan, *A Fair Shot*. The budget before you reflects the ideas and priorities of Washingtonians and delivers on my commitment of a fair shot for every District resident. From investing \$116 million in the Housing Production Trust Fund—the highest commitment ever made to the Fund—to continued robust investments in our public schools, vulnerable communities, and infrastructure, this budget continues to move Washington, DC forward. The FY 2020 budget also maintains critical investments to build a safer, stronger DC and to ensure our residents have access to job training programs that will put them on pathways to the middle class. The budget also makes good on our commitments to provide significant funding for the Washington Metropolitan Area Transit Authority, a priority for federal workers, employees in Washington who live outside our boundaries, and visitors alike.

Our finances are the envy of cities across the country, and this budget reflects our growing population of 702,000 residents, along with the benefits, needs, and stresses such growth entails. In a city as prosperous as ours, it is imperative that we make all the critical investments in our Fiscal Year 2020 Budget and Financial Plan to ensure that residents in all eight wards can have a fair shot.

Sincerely,

Muriel Bowser
Mayor

COUNCIL OF THE DISTRICT OF COLUMBIA

THE JOHN A. WILSON BUILDING
1350 PENNSYLVANIA AVENUE, N.W.
WASHINGTON, D.C. 20004

July 17, 2019

The Honorable Nancy Pelosi
Speaker of the House
U.S. House of Representatives
Room H-204
United States Capitol
Washington, D.C. 20515

The Honorable Michael R. Pence
President of the Senate
United States Senate
Room S-212
United States Capitol
Washington, DC 20516

Re: Fiscal Year 2020 Local Budget Act of 2019

Dear Madam Speaker and Mr. President:

On behalf of the government and residents of the District of Columbia, I submit to you D.C. Act 23-78, the Fiscal Year 2020 Local Budget Act of 2019, in accordance with section 446 and section 602(c) of the District of Columbia Self-Government and Governmental Reorganization Act, P.L.93-198, as amended. The authority for this transmittal rests within the Local Budget Autonomy Amendment Act of 2012 (D.C. Law 19-321), upheld in *Council of the District of Columbia, et al. v. Jeffery S. DeWitt* (Case No. 2014 CA 2371 B, DC Superior Court; March 18, 2016).

The fiscal year 2020 budget is the District's twenty-fourth consecutive balanced budget and the fourth to be adopted under local budget autonomy. It consists of two bills: one dedicated to federal funding submitted separately as a budget request act, and another dedicated to local funding, transmitted through the regular process for District legislation. It is the latter of these that I hereby submit to you.

The District's fiscal year 2020 budget promotes the health, safety, and well-being of all residents. With this budget, the District continues to provide robust education and career training, expand housing opportunities, strengthen the social safety net, and improve transportation and infrastructure. In fiscal year 2020, the District *increases* its investments in producing, preserving, and protecting affordable housing by \$193 million. The District also provides *new* resources that include \$79 million for K-12 public education; \$40 million in supports and services for individuals

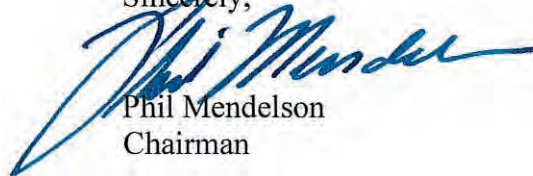

and families experiencing homelessness; \$25 million for expanding renewable energy and energy efficiency standards and practices; \$24 million for improving E-911 emergency response services; and \$11 million for early childhood services and supports. Further, the District will begin to offer paid family and medical leave benefits to eligible private sector workers in July 2020.

The District ushers in several tax reforms in fiscal year 2020 that will enable inclusive growth and shared prosperity. The District expands eligibility for its existing housing tax credit for low and moderate-income residents who have difficulty affording their rent or property tax payments. It also creates two new tax credits, one that lowers the costs of building workforce housing and a second that helps families pay for childcare.

The District's budget prioritizes principles of responsible budgeting, fiscal sustainability, and efficient use of public resources. Indeed, our fiscal position has become the envy of other states, counties, and cities. Both our pension and OPEB funds are fully funded, using conservative actuarial assumptions. At the conclusion of this fiscal year, our reserves ("rainy day fund") will be equal to 60 days operating costs – a Government Finance Officers Association (GFOA) best practice. We have established a system for multi-year capital planning to bring all capital assets to a state of good repair by fiscal year 2028; no other jurisdiction has this. Our independent Chief Financial Officer is developing resiliency strategies that include recession planning and cybersecurity analysis. The District continues to grow in population and jobs, and is diversifying our economy; as a result, revenues to support the budget are growing on average more than 3% annually. This fiscal strength has resulted in ratings for our general obligation bonds being upgraded by all three rating agencies, including AAA by Moody's.

As always, I appreciate your continued support of the District's efforts to provide quality services and support to our residents, visitors, and businesses. I also thank you for your support of home rule and self-representation for District residents.

Sincerely,

A handwritten signature in blue ink, appearing to read "Phil Mendelson", is written over the typed name and title.

Phil Mendelson
Chairman

Capital Improvements Plan

FY 2020 – FY 2025 Capital Improvements Plan

Introduction

The District’s approved capital budget for FY 2020 – FY 2025 calls for financing \$2.066 billion of capital expenditures in FY 2020. The FY 2020 budget highlights are:

- \$646.9 million for the District Department of Transportation, to include \$83.4 million for continued improvements to the South Capitol Street corridor and replacement of the Frederick Douglass Bridge, \$62.8 million for Streetscapes and Beautification, \$51.3 million for the expansion of the Streetcar line, \$42.0 million for the Circulator, \$38.3 million for local streets rehabilitation, \$38.2 million for sidewalk and alley maintenance and rehabilitation, and \$30.0 million for PEPCO Utility Lines Undergrounding;
- \$370.6 million for DC Public Schools, to include \$165.7 million for renovation of elementary schools, \$93.6 million for renovation of high schools, \$41.1 million for renovation of middle schools, \$39.2 million for renovation and capital maintenance of building components, and \$8.0 million for the swing space needed during construction;
- \$319.5 million for the Washington Metropolitan Transit Authority (WMATA), to include \$269.0 million for the inter-jurisdictional Capital Funding Agreement and \$49.5 million for the Passenger Rail Investment and Improvement Act (PRIIA) Funding Agreement;
- \$106.0 million for the Department of Parks and Recreation, to include \$73.5 million for recreation and community centers and \$26.5 million for parks and pools;
- \$60.1 million for the Office of the Deputy Mayor for Planning and Economic Development, to include \$20 million for New Communities and \$20 million for the Saint Elizabeths East Campus development;
- \$55.4 million for the Department of General Services, to include \$24.7 million for needed capital improvements in various municipal buildings;
- \$54.5 million for the Department of Human Services, to include \$33.6 million for temporary housing; and
- \$53.1 million for the Department of Health Care Finance, to include \$35.0 million to begin construction of a new Medical Center/hospital.

The approved capital budget calls for financing of general capital expenditures in FY 2020 from the following sources:

- \$1,262.7 million of tax-exempt General Obligation (G.O.) or Income Tax (I.T.) revenue bonds, \$294.2 million in short-term bonds, and \$19.3 million in taxable bonds;
- \$239.6 million of pay-as-you-go capital (Paygo) capital financing, which is a transfer of funds from the General Fund to the General Capital Improvements Fund for the purchase of capital-eligible assets;
- \$176.1 million of federal grants from Highway Trust Fund revenue;
- \$45.3 million of Local Transportation Fund special purpose (Rights-of-Way occupancy fees) revenue;
- \$27.6 million of Local Highway Trust Fund revenue (motor fuel taxes) for the local match to support federal highway grants; and
- \$1.3 million of private grant funding.

Table CA-1

Overview

(Dollars in thousands)

Total number of projects receiving funding	273
Number of ongoing projects receiving funding	222
Number of new projects receiving funding	51
FY 2020 new budget allotments	\$2,066,087
Total FY 2020 to FY 2025 planned funding	\$8,531,255
Total FY 2020 to FY 2025 planned expenditures	\$8,531,255
FY 2020 Appropriated Budget Authority Request	\$1,977,983
FY 2020 Planned Debt Service (G.O./I.T. Bonds)	\$799,767
FY 2020-FY 2025 Planned Debt Service (G.O./I.T. Bonds)	\$6,014,431

This overview chapter summarizes:

- The District’s approved FY 2020 – FY 2025 capital budget and planned expenditures;
- Major capital efforts;
- Fund balance of the District’s capital fund;
- An outline of this capital budget volume; and
- The District’s policies and procedures on its capital budget and debt.

The Highway Trust Fund and related projects are presented in Appendix H. The D.C. Water and Sewer Authority's capital program is presented in Appendix I.

The Approved FY 2020 – FY 2025 Capital Budget and Planned Expenditures

The District budgets for capital projects using a six-year Capital Improvements Plan (CIP), which is updated annually.

The CIP consists of:

- The appropriated budget authority request for the upcoming CIP six-year period, and
- An expenditure plan with projected funding over the next 6 years.

Each year’s CIP includes many of the projects from the previous year’s CIP, but some projects are approved to receive different levels of funding than in the previous year’s budget plan. New projects are added each year as well.

The CIP is used as the basis for formulating the District's annual capital budget. The Council adopts the budget as part of the District's overall six-year CIP. Inclusion of a project in an adopted capital budget and approval of requisite financing gives the District the authority to spend funds for each project. The remaining five years of the program show the official plan for making improvements to District-owned facilities in future years.

Following approval of the capital budget, bond acts and bond resolutions are adopted to authorize financing for the majority of projects identified in the capital budget. The District has issued Income Tax (I.T.) revenue bonds and General Obligation (G.O.) bonds (both tax-exempt and taxable) to finance some or all its capital projects. Where this chapter refers to G.O. bond financing for capital projects, the District might ultimately use I.T. bond financing depending on market conditions. Capital projects in the CIP are also financed with short-term bonds, GARVEE bonds, and pay-as-you-go (Paygo) financing. Taxable bonds may be issued by the District where that funding is appropriate for certain projects.

The District uses two terms in describing budgets for capital projects:

- Budget authority is given to a project at its outset in the amount of its planned lifetime budget; later it can be increased or decreased while implementing the project. The District's appropriation consists of changes to budget authority for all projects in the CIP.
- Allotments are planned expenditure amounts on an annual basis. A multi-year project receives full budget authority in its first year but only receives an allotment in the amount that is projected to be spent in that first year. In later years, additional allotments are given annually. If a year's allotment would increase the total allotments above the current lifetime budget amount, an increase in budget authority is required to cover the difference.

Agencies may obligate funds up to the limit of (lifetime) budget authority for a project but cannot spend more than the total of allotments the project has received to date (see Appendix D). The FY 2020 to FY 2025 CIP reflects a net increase in budget authority of \$1,978 million during the next six fiscal years, consisting of an increase of \$2,440 million of new budget authority offset by \$462 million of rescissions (see Appendix A).

Planned capital expenditures from local sources in FY 2020 total \$1,890 million to be funded primarily by bonds, Paygo, and the local transportation fund special purpose revenue. To finance these expenditures, the District plans to borrow \$1,282 million in new G.O./I.T. bonds (including \$19.3 million in taxable bonds), borrow \$294.2 million in short-term bonds, fund \$239.6 million using Paygo, use \$45.3 million in Local Transportation Fund Special Purpose Revenue, use \$27.6 million for the local match to the federal grants from the Federal Highway Administration and use \$1.3 million in private grants. Approved funding sources are shown in Figure CA-1 and approved borrowing is shown in Table CA-7.

In recent years, the District has increased its capital expenditures to reinvest in its aging infrastructure. The District is limited by funding constraints as well as multiple competing demands on capital and is not able to fund all identified capital needs. As a result of these demands, the District has taken action to meet its priorities while also maintaining a fiscally sound CIP. This plan has been accomplished by prioritizing capital projects and rescinding budget authority from projects deemed less important, and by reallocating budget to existing and new high priority projects to meet the most pressing infrastructure needs.

Figure CA-2 illustrates FY 2020 capital budget allotments by major agency. Funding for the District Department of Transportation constitutes the largest share of the planned expenditures. Large shares of funding also go toward the District of Columbia Public Schools and the Washington Metropolitan Area Transit Authority. In addition, as with all agencies, unspent capital budget allotments from prior years will be available to be spent in FY 2020.

Table CA-2 summarizes planned expenditure amounts for FY 2020 and budget authority approved for FY 2020 – FY 2025. It includes local funds (G.O./I.T., taxable and short-term bonds, Paygo, and local transportation funds), federal grants and private grants.

The capital fund pro forma, Table CA-3, summarizes sources and uses in the District's CIP. The Project Description Forms that constitute the detail of this capital budget document include projects receiving new allotments in FY 2020 through FY 2025, as included in the pro forma, totaling \$2,066 million in FY 2020.

Figure CA-2

FY 2020 Capital Budget Allotments, by Agency

(Dollars in thousands)

FY 2020 Operating Budget Impact

In general, each \$13.0 million in borrowing has approximately a \$1 million impact on the operating budget for annual debt service. The capital budget's primary impact on the operating budget is the debt service cost, paid from local revenue in the operating budget, associated with issuing long-term bonds to finance the CIP. Debt service is funded in the FY 2020 operating budget and financial plan.

A secondary impact on the operating budget is the cost of operating and maintaining newly completed capital projects. For example, the replacement of a building's roof, windows, and mechanical systems may decrease the cost of utilities, which would effectively lower the owner agency's operating costs. Conversely, the construction of a new recreation center is likely to increase the owner agency's operating costs for staffing the facility and operating programs there. Similarly, completed information technology projects will likely entail additional operating costs such as upgrades, license renewals, or training of staff to operate new systems as required.

Table CA-5 reflects the summary of the projected impacts, by agency, and by fiscal year for the 6-year CIP period. Individual project pages in the "Project Description Forms" section of this volume show more details of the operating impact resulting from placing a newly completed project into service.

Total Debt Service	\$950,835,157	\$1,035,542,305	\$1,089,900,836	\$1,194,375,630	\$1,245,560,232	\$1,299,404,224
Total Expenditures	\$10,024,021,055	\$9,992,325,597	\$10,221,890,307	\$10,503,602,538	\$10,793,687,977	\$11,060,110,171
Ratio of Debt Service to Total Expenditures	9.486%	10.363%	10.662%	11.371%	11.540%	11.749%
Balance of Debt Service Capacity	\$252,047,370	\$163,536,766	\$136,726,001	\$66,056,674	\$49,682,325	\$27,808,997

Table CA-5

Summary of Capital Estimated Operating Impacts for FY 2020 – FY 2025

Agency Code	Agency Name	FY 2020	FY 2021	FY 2022	FY 2023	FY 2024	FY 2025	6-Year Total
AT0	Office of the Chief Financial Officer	\$8,678,537	\$8,678,537	\$8,678,537	\$8,678,537	\$8,678,537	\$8,678,537	\$52,071,222
KG0	Department of Energy and Environment	-	134,706	137,400	140,148	142,951	145,810	701,015
HA0	Department of Parks and Recreation	-	200,000	200,000	200,000	200,000	200,000	1,000,000
CE0	District of Columbia Public Library	15,000	15,000	15,000	15,000	15,000	15,000	90,000
TO0	Office of the Chief Technology Officer	-	3,600,000	90,000	190,000	640,000	90,000	4,610,000
	Total	\$8,693,537	\$12,628,243	\$9,120,937	\$9,223,685	\$9,676,488	\$9,129,347	\$58,472,237

Note: The FY 2020 operating impacts for these agencies are already included in the agencies' Local funds budget, and the impacts for FY 2021 through FY 2023 are already included in the agency lines of the financial plan.

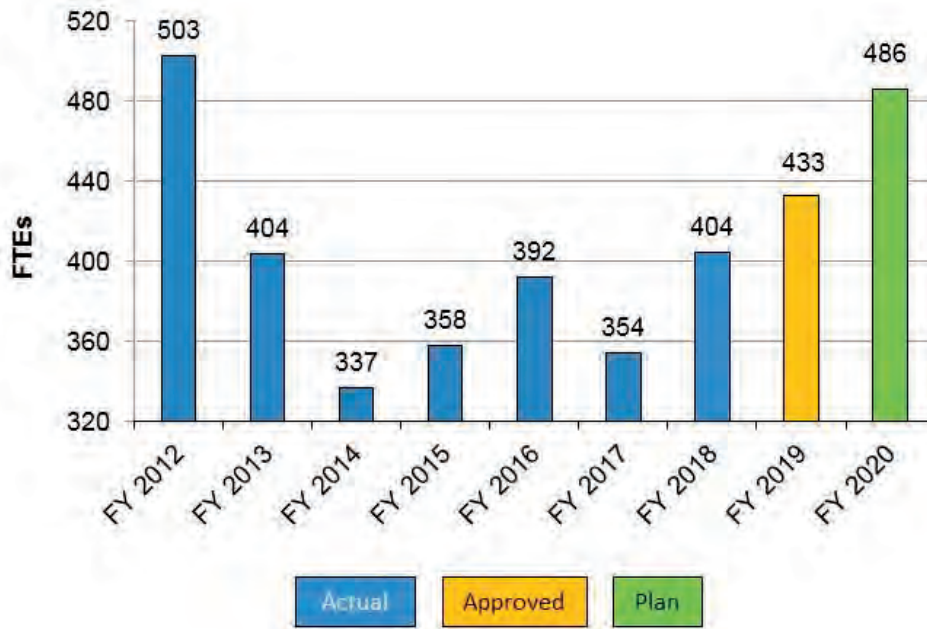

Table CA-6

FTE Data by Agency

Agency	FY 2018 Actual	FY 2019 Approved	FY 2020 Plan
AM0 – Department of General Services	28.9	36.7	32.0
AT0 – Office of the Chief Financial Officer	48.3	26.0	50.0
CE0 – D.C. Public Library	3.6	5.0	5.0
BD0 – Office of Planning	0.9	0.0	0.0
CF0 – Department of Employment Services	1.3	16.0	16.0
GF0 – University of the District of Columbia	4.1	5.0	5.0
HA0 – Department of Parks and Recreation	3.1	1.0	2.0
KA0 – Department of Transportation	311.3	340.3	366.8
PO0 – Office of Contracting and Procurement	0.0	1.0	7.0
TO0 – Office of the Chief Technology Officer	2.7	2.0	2.0
Total	404.2	433.0	485.8

Figure CA-3

Number of Capital-Funded FTE Positions From FY 2012 to FY 2020

Capital-Funded Positions

Agencies may receive approval to charge certain personnel expenses to capital projects. However, to qualify and receive approval, the primary duties and responsibilities of a position charged to capital funds must be directly related to a specific capital project. Full-Time Equivalent (FTE) positions that generally qualify are (a) architects; (b) engineers; (c) cost estimators; (d) project managers; (e) system developers; (f) construction managers; and (g) inspectors.

Table CA-6 reflects capital-funded FTE data for each agency for FY 2018 through FY 2020. Additional details on the FY 2020 FTEs, including the specific number of FTEs approved by project, can be found on the project pages in the “Project Description Forms” section of this volume. They are also summarized on the appropriate agency pages, for those agencies that have approved FTEs. The table includes total FTEs approved even if part of the funding is from prior capital project balances that remain available for use.

Figure CA-3 shows the total number of capital-funded positions between FY 2012 and FY 2018, the approved positions for FY 2019, and the planned positions in the CIP for FY 2020.

Table CA-7

Proposed Bond Borrowing, FY 2018 Through FY 2025

(Dollars in thousands)

Source	Actual FY 2018	Plan FY 2019	Proposed FY 2020	Proposed FY 2021	Proposed FY 2022	Proposed FY 2023	Proposed FY 2024	Proposed FY 2025	Total
G.O. and I.T Bond Borrowing Plan *	\$948,447	\$1,300,000	\$1,576,156	\$1,084,301	\$903,322	\$715,008	\$515,565	\$316,539	\$6,410,891
GARVEE Bond Borrowing Plan	-	-	\$266,100	-	-	-	-	-	266,100
Total Bond Borrowing	\$948,447	\$1,300,000	\$1,842,256	\$1,084,301	\$903,322	\$715,008	\$515,565	\$316,539	\$6,676,991

*Includes Bond Anticipation Notes and Commercial Paper.

Details on the District's Sources of Funds for Capital Expenditures

The District's approved FY 2020 – FY 2025 capital budget includes several funding sources. The District uses the following sources to fund capital budget authority across a large number of agencies that have capital programs:

- G.O. or I.T. bonds, including taxable, and short-term bonds;
- Paygo capital funding;
- Sale of assets;
- Federal Grants; and
- Private Grants.

In addition to the above sources, the District's Department of Transportation (DDOT) uses the following sources to fund its capital projects:

- Federal Highway Administration grants, for Highway Trust Fund projects;
- Grant Anticipation Revenue Vehicle (GARVEE) bonds, which are repaid from future federal funding;
- Dedicated motor fuel tax revenues and a portion of the Rights-of-Way Occupancy Fees for Highway Trust Fund projects (these provide the local match for the Federal Highway Administration grants); and
- Local Transportation Fund (a portion of the Rights-of-Way Occupancy Fees, Public Inconvenience Fees, and Utility Marking Fees).

Projects funded by these sources are detailed in the project description pages for DDOT and in Appendix H.

Major Capital Efforts

The FY 2020 – FY 2025 Capital Improvements Plan (CIP) provides for major investments in the following areas:

- Transportation and Infrastructure;
- Education;
- Public Health and Wellness;
- Environmental and Recreational Investments;
- Economic Development;
- Good Government and Service Delivery; and
- Public Safety.

Transportation Infrastructure

Metrorail and Metrobus. The continued growth and vitality of the city and region greatly relies on a safe, efficient, and reliable Metro system to transport residents and visitors alike. The CIP includes \$1.7 billion for safety improvements, improving the effectiveness of the current rail and bus networks, increasing system capacity, and rebuilding the Metro system. These funds include an average of over \$275 million per year as part of the regional commitment to fund long-term Metro capital improvements at \$500 million annually region-wide.

Local Streets, Sidewalks, and Alleys. The 6-year capital budget also invests over \$468 million in the District's local roadways, alleys, curbs, and sidewalks across all eight wards to ensure they are safe, reliable, and functional.

Streetcar. The CIP provides \$285 million for the Streetcar project, including \$188 million to fund the Benning Road Extension. When complete, the Streetcar will connect the Benning Road Metrorail station to Union Station, supporting increased economic development and increasing surface transit capacity through the H Street NE and Benning Road corridors.

Streetscapes, Tree Planting, and Urban Forestry. The 6-year capital budget plans for nearly \$241 million of investment in streetscapes, tree planting, and urban forestry. The plan includes reconstruction of the Virtual Circle at the intersection of Florida Ave, New York Ave, and 1st Street NE, a bike and pedestrian friendly redesign of New York Ave NE and Florida Ave NE, and major improvements to the Martin Luther King, Jr. Avenue corridor.

South Capitol Street. The CIP includes \$220 million to continue construction over the Anacostia River to replace the Frederick Douglass Bridge, and to fund improvements to the South Capitol Street Corridor. South Capitol Street will be transformed from an expressway to an urban boulevard and gateway to the Monumental Core of the city that will support economic development on both sides of the Anacostia River.

H Street Bridge. The CIP provides \$211 million for replacement of the H Street Bridge. A new bridge, designed specifically to accommodate buildings on either side, will make it possible to increase the capacity of the train station and develop the air rights above the railyard. The new bridge will be designed to accommodate access to an expanded Union Station and meet the demands of the multimodal transportation network around the station, including buses, streetcars, passenger and rideshare vehicles, taxis, and pedestrians.

Power Line Undergrounding. The CIP includes nearly \$151 million to move key overhead power lines to underground lines in the District to improve safety and reliability of the District's electrical system. Placing select power feeders underground will result in a reduction in the frequency and the duration of power outages experienced in affected service areas.

K Street Transitway. In a new investment that will transform one of the most congested arterials in the downtown core, the CIP includes \$122 million to redesign K Street NW and introduce dedicated bus lanes. The improvements will dramatically speed up bus transit for the over 40,000 riders who travel through the corridor on over 17 Metrobus and Circulator routes each day. In addition, the project will improve pedestrian safety at key high-traffic intersections that see over 4,000 pedestrian crossings during peak periods.

Circulator. The CIP includes \$72 million to support the creation of dedicated bus lanes along 16th St NW from Arkansas Ave NW to H Street NW, a new Ward 7 Circulator route, the purchase and retrofit of a new operations and maintenance facility, fleet maintenance, and bus stop ADA improvements.

Vision Zero. The Mayor's Vision Zero plan is supported by over \$63 million in capital investments, including bike and pedestrian safety improvements, a crosstown bicycle lane, an expansion of the District's trail network, and a major redesign of the District's most dangerous corridor, Alabama Ave SE, covering four miles from Ridge Road in Ward 7 to Randle Place in Ward 8.

Education

Public Schools Modernization. Since 2008, over \$4 billion has been invested in the District's comprehensive schools modernization initiative. As of Fall 2019, over 90 schools will have been modernized, including 56 elementary schools, 11 education campuses, 11 middle schools, and 14 high schools. This six-year capital budget commits to an investment of over \$1.1 billion over the next six years to renovate 23 school facilities.

University Facilities. The University of the District of Columbia is making campus improvements that will enhance the collegiate experience for its students, faculty, staff, and guests. The CIP continues a \$120 million investment for University improvements.

Early Childhood Education Centers. This CIP enhances the District's investment in childcare and early childhood education, including a \$52 million investment to transform three vacant school properties into early childhood

education centers: the Old Randle Highlands building in Ward 7, the Old Miner building in Ward 6, and the site of the Thurgood Marshall Elementary School in Ward 5.

21st Century Public Libraries. Completing efforts to fully modernize the Martin Luther King Jr. Memorial Library, the CIP includes a final installment of \$18 million that will be used to finish the renovation and reconfiguration of this historic landmark. The result will be a world-class central library offering residents and visitors a vibrant center of activity for reading, learning, and community discussion. The Southeast, Southwest, and Capitol View libraries also receive funds to complete renovations.

Public Health and Wellness

Saint Elizabeths Medical Center. The District places a high priority on providing public health services to all District residents. Since taking control of the operations of the Not-for-Profit Hospital Corporation, commonly referred to as United Medical Center (“UMC”), in 2010, the District has invested hundreds of millions of dollars in the District’s only acute care hospital on the city’s East End. The CIP includes \$7.5 million for additional improvements at that facility and \$317 million in additional funding for construction of a new facility to continue the repositioning of the hospital in the marketplace.

Replacement of D.C. General Shelter. The CIP includes \$72 million for the Department of Human Services for capital maintenance and construction of small-scale emergency and temporary housing for families in all eight wards.

Ward 8 Senior Wellness Center. Maintaining an \$11 million investment, the FY 2020 – 2025 CIP advances the construction of the Ward 8 Senior Wellness center, allowing it to open two years earlier than previously expected.

Environmental and Recreational Investments

Parks and Recreation Facilities. Public parks and recreation facilities enhance the quality of life and wellness of District residents. The District is committed to providing all residents of the District, and especially the District’s youth, with access to quality recreation centers, athletic fields, swimming pools, tennis courts, playgrounds, and parks. This 6-year capital budget plans for \$339 million for investments in parks and recreation facilities across the city, including renovations of the Therapeutic Recreation Center, the Douglass Community Center, the Brentwood Recreation Center, the Rosedale Pool, and the Takoma Aquatic Center.

Environmental Remediation and Watershed Clean-up. The six-year capital plan includes \$60 million for hazardous material remediation of the Anacostia River, Poplar Point, and Kenilworth Park. Once a pristine river, the Anacostia has been degraded by generations worth of unchecked urban runoff. The river, the former Kenilworth landfill and Poplar Point are now the focus of large-scale restoration efforts by the District of Columbia. The District’s goal is to restore the Anacostia to a fishable and swimmable river by the year 2032.

Economic Development

Saint Elizabeths East Campus Infrastructure. The 183-acre lot will be transformed into a marketplace of ideas, innovation, and communication. The CIP provides \$90 million to design and build public infrastructure on the site.

New Communities. The CIP provides \$75 million of budget that will be used to replace severely distressed housing and decrease concentrations of poverty by redeveloping public housing properties into mixed-use, mixed-income communities for current and future residents.

McMillan Redevelopment. The 25-acre former McMillan Reservoir Sand Filtration Plant site will be redeveloped into a mixed-use project that will include historic preservation, open space, residential, retail, office, and hotel uses.

The goal is to create an architecturally distinct, vibrant, mixed-use development that provides housing, employment, retail, cultural, and recreational opportunities for District residents. The project will include affordable and workforce housing, and 35 percent of the local contracting opportunities must go to Certified Business Enterprises. The CIP provides \$70 million for site infrastructure and public amenities over the 6-year CIP.

Good Government and Service Delivery

Financial and Procurement Systems Modernization. The Office of the Chief Financial Officer and the Office of Contracting and Procurement will complete a major overhaul of the District’s financial and procurement systems, which interface with over 40 other District information technology systems. Including prior year funding, the \$205 million investment will create modern functionality by supporting real-time financial management and increasing tax compliance and collections.

Service Delivery Modernizations. The District continues its investment in information technology with nearly \$61 million to modernize its unemployment insurance system, build an application to implement the Paid Family Leave Act, and improve records management and service delivery at the Department of Consumer and Regulatory Affairs (DCRA).

Cybersecurity. As digital attacks on local governments become more and more prevalent, the District is increasing its capital investment in Cybersecurity with \$23 million of critical information technology infrastructure upgrades.

Free Wifi in Wards 5, 7 and 8. In conjunction with its plan to upgrade all District streetlights to energy-efficient and “smart” LEDs, the CIP includes over \$4 million to install the capability for free, high-speed wireless internet throughout Wards 5, 7 and 8.

Public Safety

Emergency Vehicles. Older emergency vehicles must be replaced on a regular basis to ensure that first responders have reliable equipment and to that end, the District is investing \$114 million. The CIP provides \$78 million to Fire and Emergency Medical Services (FEMS) for the purchase of pumpers, ladder trucks, heavy rescue trucks, ambulances, and large support vehicles. An additional \$37 million is provided to the Metropolitan Police Department (MPD) for the replacement of police cruisers and specialty/support vehicles.

DC Jail. Built over 40 years ago, the layout of the DC Jail does not support the needs of a modern criminal justice system. This CIP includes \$76 million for critical maintenance and safety upgrades at the DC Jail, and an additional \$5 million in FY 2025 to begin the design of a new correctional facility.

Fund Balance of the Capital Fund

From FY 2008 through FY 2017, the District's Comprehensive Annual Financial Report (CAFR) showed a deficit for four of the years in the General Capital Improvements Fund (the "capital fund") (see Table CA-8). The shortfalls reflect that capital expenditures had exceeded financing sources by that amount on a cumulative basis. The timing and amounts of borrowing for all the deficit years resulted in the temporary negative fund balance. The District's General Fund had advanced funds to the capital fund to cover the expenditures.

The FY 2018 CAFR reports a General Capital Improvements Fund deficit of \$522 million. This level represents a net increase of \$120 million from the FY 2017 ending negative fund balance of \$642 million. This increase is due primarily to the difference in timing of revenues/borrowing and expenditures in the fund. The balance as of the end of FY 2018 is representative of the activity in the fund as of that date. The District borrowed \$800 million long-term financing in February of 2019, thereby erasing the deficit, and arranged an additional borrowing of \$500 million in commercial paper in the spring of 2019 to cover ongoing capital expenditures and ensure the fund has a positive balance.

Table CA-8

Fund Balance in the General Capital Improvements Fund, FY 2009-FY 2018

(Dollars in millions)

Fiscal Year	Positive/(Negative) Fund Balance
2009	406.9
2010	133.4
2011	5.0
2012	(116.3)
2013	102.4
2014	(114.2)
2015	35.8
2016	(228.9)
2017	(642.0)
2018	(522.3)

Outline of this Capital Budget Volume

The remainder of this overview chapter includes the District's policies on capital budget and debt. Projects detailed in the remaining sections of this volume are grouped by the owner (rather than the implementing) agency except where noted.

- **Agency Description Forms:** Provide details of the agency including the mission, background, and summaries of the capital program objectives and recent accomplishments. For those agencies with facilities projects, the page immediately following the description contains a map reflecting the projects and their geographic location within the District.
- **Project Description Forms:** Provide details on capital projects funded by G.O. or I.T. bonds and other sources. Ongoing projects with no new allotments scheduled for FY 2020 – FY 2025 are not included. The expenditure schedules shown display the planned allotments (1-year spending authorities) by year for FY 2020 through FY 2025.
- **Appendix A: FY 2020 Appropriated Budget Authority Request:** Summarizes the new budget authority the District proposes. Budget authority is established as the budget for a project's lifetime, so these requests are only for new projects or for changes in lifetime budgets for ongoing projects. Because budget authority is given to the implementing agency, projects are grouped by implementing agency in this appendix.
- **Appendix B: FY 2020 – FY 2025 Planned Expenditures from New Allotments:** Shows new allotments for ongoing and new projects for all six years of the CIP.
- **Appendix C: FY 2020 – FY 2025 Planned Funding Sources:** Shows the source of financing for the projects displayed in Appendix B.
- **Appendix D: Balance of Capital Budget Authority, All Projects:** Shows expenditures, obligations, and remaining budget authority for all ongoing capital projects. Because this report comes from budgets in the financial system, projects are grouped by implementing agency with subsections for the respective owner agency. The projects are listed alphabetically, by owner agency.
- **Appendix E: Capital Project Cost Estimate Variances:** Shows the variance between original budget estimate and current approved budget for all capital projects with approved FY 2020 – FY 2025 allotments. The appendix shows change to projects funded from local sources and from the local transportation program.
- **Appendix F: Rescissions, Redirections, and Reprogramming of Available Allotments:** Shows the project budgets that have been affected by agency reprogramming, legislated rescissions, and redirections year-to-date in FY 2019 (see date qualifier on page header).
- **Appendix G: Project Budget Revisions following publication of the FY 2019 budget document:** Shows the project budgets that have been affected by reprogramming between the publication cut-off date (June 15) of the FY 2019 – FY 2024, volume 5, and the end of FY 2018.
- **Appendix H: Highway Trust Fund (HTF):** Describes the planned sources and uses of all projects planned and/or undertaken that are funded through the Federal Highway Administration program.
- **Appendix I: D.C. Water and Sewer Authority Capital Program:** Describes the capital improvements undertaken by the District's independent instrumentality for the provision of water and sewage services, including the FY 2020 – FY 2025 capital budget request.

Note: Through the use of appendices F and G, along with the summary of project information in the “Additional Appropriations Data” table, all individual and collective budget revisions between publication of the FY 2019 – FY 2024 and the FY 2020 – FY 2025 Capital Improvements Plan budgets have been captured.

About the Project Description Forms in this Budget Volume

Elements in this budget volume include:

- **Photos.** Photos are included for some projects.
- **Narrative fields.** Narrative fields provide a project description, justification, progress toward completion, and any related projects.
- **Milestone Data.** Timeframes are shown for key events in the project's lifecycle and include both planned and actual milestone dates.
- **Funding Tables.** Each project that has received past budget allotments shows the allotment balance, calculated as allotments received-to-date less all obligations (the sum of expenditures, encumbrances, intra-District advances, and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project's budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Funding by Phases and by Sources Tables.** These tables provide information regarding the phases and sources of funding.

Additional Appropriations Data

Information has been added to the details of each project to aid in providing a summary of the budget authority over the life of the project. The table can be read as follows:

- **First Appropriation (FY)** – this represents the year of initial appropriation.
- **Original 6-Year Budget Authority** – represents the sum of the 6-year authority for all agency-owned projects, as shown in the first year they were authorized. The complete set of these projects may or may not be represented in this FY 2020 – FY 2025 CIP.
- **Budget Authority through FY 2024** – represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
- **FY 2019 Budget Authority Revisions** – represents the changes to the budget authority as a result of reprogramming, redirections, and rescissions (also reflected in Appendix F) for the current fiscal year.
- **Budget Authority Request FY 2020** – represents the 6-year budget authority for FY 2020 through FY 2025.
- **Increase (Decrease) to Total Authority** – This is the change in 6-year budget authority approved for FY 2020 – FY 2025 (also reflected in Appendix A).
- **Estimated Operating Impact** – If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data.** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the nonpersonal services portion of the budget in the agency's capital plan, and the percentage of the agency's CIP budget from either expense category.

District of Columbia Policies and Procedures: Capital Budget and Debt

The District of Columbia's Capital Improvements Program (the "Capital Program") comprises the finance, acquisition, development, and implementation of permanent improvement projects for the District's fixed assets. Such assets generally have a useful life of more than five years and cost more than \$250,000.

The text of the CIP is an important planning and management resource. It analyzes the relationship of projects in the capital budget to other developments in the District. It also describes the programmatic goals of the various District agencies and how those goals affect the need for new, rehabilitated, or modernized facilities. Finally, it details the financial impact and requirements of all of the District's capital expenditures.

The CIP is flexible, allowing project expenditure plans to be amended from one year to the next in order to reflect actual expenditures and revised expenditure plans. However, consistent with rigorous strategic planning, substantial changes in the program are discouraged. The CIP is updated each year by adding a planning year and reflecting any necessary changes in projected expenditure schedules, proposed projects, and District priorities.

The District's legal authority to initiate capital improvements began in 1790, when Congress enacted a law establishing the District of Columbia as the permanent seat of the federal government and authorized the design of the District and appropriate local facilities. The initial roads, bridges, sewers and water systems in the District were installed to serve the needs of the federal government and were designed, paid for, and built by Congress. During the 1800s, the population and private economy of the federal District expanded sharply, and the local territorial government undertook a vigorous campaign to meet new demands for basic transportation, water, and sewer systems.

From 1874 to 1968, commissioners appointed by the President and confirmed by Congress managed the District. One commissioner, from the Corps of Engineers, was responsible for coordinating the maintenance and construction of all local public works in accordance with annual budgets approved by the President and the Congress.

Legislation passed in the 1950s gave the District broader powers to incur debt and borrow from the United States Treasury. However, this authority was principally used for bridges, freeways, and water and sewer improvements. In 1967, the need for significant improvements in District public facilities was acknowledged. This awareness led to the adoption of a \$1.5 billion capital improvements program to build new schools, libraries, recreation facilities, and police and fire stations.

A 1984 amendment to the Home Rule Act gave the District the authority to sell general obligation bonds to finance improvements to its physical infrastructure. The District has more than \$3.5 billion of general obligation bonds outstanding, which were issued to finance capital infrastructure improvements.

In September 1997, the President signed the National Capital Revitalization Act (the "Revitalization Act"). The act relieved the District of its operations at Lorton Correctional Facility. It also transferred responsibility for funding the maintenance and operation of the DC Courts system to the Office of Management and Budget (OMB). The District therefore would not incur the significant capital expenditures required at these facilities. In return, the District no longer received a federal payment in lieu of taxes for these functions.

In addition, the Revitalization Act raised the allowable percent of annual debt service payable from 14 percent to 17 percent of anticipated revenues to compensate the District for the loss of the federal payment and broadened the District's debt financing authority. The primary impact of this aspect of the Revitalization Act was to increase the District's flexibility to finance capital requirements.

Legal Authority and Statutory Basis

The legal authority for the District's Capital Program comes from the District of Columbia Home Rule Act, P.L. 93-198, §444, 87 Stat. 800, which directs the Mayor to prepare a multi-year Capital Improvements Plan (CIP) for the District. This plan is based on the approved current fiscal year budget. It includes the status, estimated period of usefulness, and total cost of each capital project on a full-funding basis for which any appropriation is requested or any expenditure will be made in the forthcoming fiscal year and at least four fiscal years thereafter.

Mayor's Order 84-87 also supplements the legal authority and assigns additional responsibility for the District's Capital Program. This Order creates a Capital Program coordinating office to provide central oversight, direction,

and coordination of the District's capital improvements program, planning, budgeting, and monitoring within the Office of Budget and Planning. The administrative order requires the Office of Budget and Planning to develop a CIP that identifies the current fiscal year budget and includes the status, estimated period of usefulness, and total cost of each capital project, on a fully funded basis, for which any appropriation is requested or for which any expenditure will be made over the next six years. The CIP includes:

- An analysis of the CIP, including its relationship to other programs, proposals, or other governmental initiatives.
- An analysis of each capital project and an explanation of a project's total cost variance of greater than 5 percent.
- Identification of the years and amounts in which bonds would have to be issued, loans made, and costs actually incurred on each capital project. Projects are identified by applicable maps, graphics, or other media.

Why A Capital Improvements Program?

A Capital Improvements Program that coordinates planning, financing, and infrastructure and facilities improvements is essential to meet the needs of a jurisdiction uniquely situated as the Nation's Capital. As mentioned previously, capital improvements are those that, because of expected long-term useful lives and high costs, require large amounts of capital funding. These funds are spent over a multi-year period and result in a fixed asset.

The primary funding source for capital projects is tax-exempt bonds. These bonds are issued as general obligations of the District. Debt service on these bonds (the repayment of principal and the payment of interest over the lifetime of the bonds) becomes expenditures in the annual operating budget.

The Home Rule Act sets certain limits on the total amount of debt that can be incurred. Maximum annual debt service cannot exceed 17 percent of General Fund revenues to maintain fiscal stability and good credit ratings. As a result, it is critical that the CIP balances funding and expenditures over the six-year period to minimize the fiscal impact on the annual operating budget.

Principles of the Capital Program

Several budgetary and programmatic principles are invested in the CIP. These are:

- To build facilities supporting the District stakeholders' objectives;
- To support the physical development objectives incorporated in approved plans, especially the Comprehensive Plan;
- To assure the availability of public improvements;
- To provide site opportunities to accommodate and attract private development consistent with approved development objectives;
- To improve financial planning by comparing needs with resources, estimating future bond issues plus debt service and other current revenue needs, thus identifying future operating budget and tax rate implications;
- To establish priorities among projects so that limited resources are used to the best advantage;
- To identify, as accurately as possible, the impact of public facility decisions on future operating budgets, in terms of energy use, maintenance costs, and staffing requirements among others;
- To provide a concise, central source of information on all planned rehabilitation of public facilities for citizens, agencies, and other stakeholders in the District; and
- To provide a basis for effective public participation in decisions related to public facilities and other physical improvements.

It is the responsibility of the Capital Program to ensure that these principles are followed.

Program Policies

The overall goal of the Capital Program is to preserve the District's capital infrastructure. Pursuant to this goal, projects included in the FY 2020 to FY 2025 CIP and FY 2020 Capital Budget support the following programmatic policies:

- Provide for the health, safety and welfare needs of District residents;
- Provide and continually improve public educational facilities for District residents;
- Provide adequate improvement of public facilities;
- Continually improve the District's public transportation system;
- Support District economic and revitalization efforts in general and in targeted neighborhoods;
- Provide infrastructure and other public improvements that retain and expand business and industry;
- Increase employment opportunities for District residents;
- Promote mutual regional cooperation on area-wide issues, such as the Washington Area Metropolitan Transit Authority on transportation and the Water and Sewer Authority on solid-waste removal; and
- Provide and continually improve public housing and shelters for the homeless.

Fiscal Policies Project Eligibility for Inclusion in the Capital Improvements Plan (CIP)

In general, to be capital-eligible, the project must result in a new District-owned asset, increase the value of an existing District-owned asset, or increase the life of a District-owned asset by at least 2 years. Capital expenditures included as projects in the CIP must:

- Be carefully planned, generally as part of the District-wide Facility Condition Assessment Study in concert with the Comprehensive Plan. This planning provides decision-makers with the ability to evaluate projects based on a full disclosure of information;
- Be direct costs of materials and services consumed in developing or obtaining internal-use computer software;
- Have a useful life of at least five years or add to the physical infrastructure and District-owned capital fixed assets;
- Exceed a dollar threshold of \$250,000;
- Enhance the productivity or efficiency capacity of District services;
- Have a defined beginning; and
- Be related to current or future District-owned projects. For example, feasibility studies and planning efforts not related to a specific project should be funded with current operating revenues rather than with capital funds

Policy on Debt Financing

Capital improvement projects have long useful lives, serving current as well as future taxpayers. With a few exceptions (e.g. Paygo capital and Highway Trust Fund projects), the CIP is primarily funded with General Obligation (G.O.) and Income Tax Secured revenue bonds (ITSB). Long-term bonds, retired over 20 to 30 years, spread the cost of capital projects over generations, which is reasonable and fair. Capital improvement projects eligible for debt financing must:

- Have a combined average useful life at least as long as average life of the debt with which they are financed; and
- Not be able to be funded entirely from other potential revenue sources, such as Federal aid or private contributions.

Policy on Capital Debt Issuance

In formalizing a financing strategy for the District's Capital Improvements Plan, the District adheres to the following guidelines in deciding how much additional debt, including G.O. and/or revenue bonds may be issued during the six-year CIP planning period:

- **Statutory Requirements:** Per the Home Rule Act, no general obligation bonds can be issued if such issuance would cause maximum annual debt service to exceed 17 percent of General Fund revenues in a given fiscal year, and no tax-supported debt of any kind (including income tax secured revenue bonds and general obligation bonds) can be issued if such issuance would cause total debt service on all tax-supported debt to exceed 12 percent of total General Fund expenditures in any year during the six-year CIP period.
- **Affordability:** The level of annual operating budget resources used to pay debt service should not impair the District's ability to fund ongoing operating expenditures and maintain operating liquidity.
- **Financing Sources:** The District evaluates various financing sources and structures to maximize capital project financing capacity at the lowest cost possible, while maintaining future financing flexibility.
- **Credit Ratings:** Issuance of additional debt should not negatively impact the District's ability to maintain and strengthen current credit ratings, which involves the evaluation of the impact of additional borrowing on the District's debt burden. This includes having certain criteria and ceilings regarding the issuance of new debt.

Bond Rating

Credit ratings have an important effect on the cost of funding the CIP. The three major rating agencies, Moody's Investors Service (Moody's), Standard & Poor's (S&P), and Fitch Ratings (Fitch), evaluate the credit worthiness of thousands of municipal issuers and their bonds. The agencies assign letter grades ranging from AAA (the highest rating category denoting strong creditworthiness) to C (denoting a distressed credit, typically in default, with little prospect for meeting debt service obligations). The objective of the rating is to give market participants a mechanism to evaluate risk. Generally speaking, the higher the bond's rating, the lower the yield investors are likely to demand; in turn, lowering the issuer's cost of capital.

The District's G.O. Bonds rating has moved from Baa (deemed to be medium investment grade, subject to moderate credit risk and certain speculative characteristics) by Moody's in the mid-to-late 1990s to the current rating of Aaa/AA+/AA+ (deemed to be a high-quality credit, subject to very low credit risk) by Moody's, S&P Global, and Fitch respectively.

In FY 2009, the District began issuing Income Tax Secured Revenue Bonds secured by a pledge of the District's personal and business income tax revenues. This is viewed as a stronger pledge by rating agencies than the District's full faith and credit to repay G.O. bonds. Based on the pledge and the collection and set-aside mechanisms that accumulate debt service six months in advance, IT bonds are rated Aa1/AAA/AA+, higher than G.O. bonds.

Policy on Terms for Long-Term Borrowing

To mitigate the interest costs associated with borrowing, the District seeks to identify sources other than bond proceeds to fund its CIP, such as grants, Highway Trust Fund receipts, and Paygo capital. Furthermore, the District generally issues its bonds based on anticipated spending for the fiscal year, not on a project-by-project basis. The District has issued G.O., ITSB and GARVEE bonds to finance its CIP. The District will continue to analyze the benefits associated with issuing revenue bonds such as ITSB and GARVEE bonds for general capital purposes in the future. The pledge of a specific revenue source for the issuance of revenue bonds must not have a negative impact on the District's general fund or G.O. bond ratings and must provide favorable interest rates. The ITSB and GARVEE bonds meet these conditions. GARVEE bonds have the additional advantage of being debt that is excluded from the debt cap calculations.

To match the debt obligations with the useful life of the projects being financed, the District issues short-to intermediate-term financing (short-term bonds) for those projects that may not fit the criteria for long-term financing. The District amortizes long-term bonds over a 25 to 30-year period for those projects with an average 30-year useful life. Bonds may be issued by independent agencies or instrumentalities of the District as authorized by law. Payment of the debt service on these bonds is solely from the revenue of the independent entity or the project being financed.

Policy on Terms for Short-Term Bond Borrowing

The program assists the District in its asset/liability management by matching the useful life of the asset being financed with the amortization of the bond liability. Examples that are eligible are rolling stock such as automobiles, trucks, and public safety vehicles, as are some computer systems, hardware and software, with certain limitations.

For a piece of equipment to be eligible, it must have a unit value of at least \$5,000 and it must have a useful life of at least five years. The repayment (amortization) must not exceed the useful life of the equipment being financed.

Policy on the Use of Paygo Financing

"Pay-as-you-go" (Paygo) capital financing is obtained from current revenues authorized by the annual operating budget and approved by the Council in legislation to pay for certain projects. No debt is incurred with this financing mechanism. Operating funds are transferred to the capital fund and allocated to the appropriate project. The budget is then used for the requisition of a District-owned asset(s). The District has the following policies on the use of capital Paygo financing:

- Paygo should be used for any CIP project not eligible for debt financing by virtue of its very limited useful life (less than five years).
- Paygo should be used for CIP projects consisting of short-lived equipment replacement and for limited renovations of facilities.
- Paygo may be used when the requirements or demands for capital budgets press the limits of prudent bonding capacity.

Congressional Reporting

Notwithstanding any other provisions in the law, the Mayor of the District of Columbia is bound by the following sections of the 2000 D.C. Appropriations Act, included in P.L. 105-277 of the Omnibus Consolidated and Emergency Supplemental Appropriations for FY 2000. These sections were mandated by the 105th Congress and enacted for the fiscal year beginning October 1, 2000.

- **§113** – At the start of the fiscal year, the Mayor shall develop an annual plan, by quarter and by project, for capital outlay borrowings: Provided, that within a reasonable time after the close of each quarter, the Mayor shall report to the Council of the District of Columbia and to the Congress the actual borrowings and spending progress compared with projections.
- **§114** – The Mayor shall not borrow any funds for capital projects unless the Mayor has obtained prior approval from the Council of the District of Columbia, by act and/or resolution, identifying the projects and amounts to be financed with such borrowings.
- The Mayor shall not expend any monies borrowed for capital projects for the operating expenses of the District of Columbia government.

Trends Affecting Fiscal Planning

Several different kinds of trends and economic indicators are reviewed, projected, and analyzed each year for their impact on the operating budget and fiscal policy as applied to the CIP. These trends and indicators include:

- **Inflation:** Important as an indicator of future project costs or the costs of delaying capital expenditures.
- **Population Growth/Decline:** Provides the main indicator of the size or scale of required future facilities and services, as well as the timing of population-driven project requirements.
- **Demographic Changes:** Changes in the number and/or locations within the District of specific age groups or other special groups, which provide an indication of requirements and costs of specific public facilities (e.g., senior wellness and recreation centers, pre-K classrooms, etc.).

- **Personal Income:** The principal basis for projecting income tax revenues as one of the District's major revenue sources.
- **Implementation Rates:** Measured through the actual expenditures within programmed and authorized levels. Implementation rates are important in establishing actual annual cash requirements to fund projects in the CIP. As a result, implementation rates are a primary determinant of required annual bond issuance.

Spending Affordability

One of the most important factors in the CIP development process is determining spending affordability. Spending affordability is determined by the amount of debt service and Paygo capital funds that can be reasonably afforded by the operating budget given the District's revenue levels, operating/service needs, and capital/infrastructure needs. The size and financial health of the capital program is therefore somewhat constrained by the ability of the operating budget to absorb increased debt service amounts and/or operating requirements for Paygo capital expenditures. Realizing that maintenance and improvement in the infrastructure is important to the overall health and revitalization of the District, policymakers have worked diligently over the past several years to increase the levels of capital funding and expenditures. There is the ongoing need, however, to balance infrastructure needs with affordability constraints.

Capital Asset Planning

As with most state and municipalities, the fiscal realities that continue to face the District of Columbia require a high level of scrutiny of all government costs. The capital budget, a critical area of the annual budget, continues to undergo review and rationalization. Prompting this deeper analysis and decision-making is the reality that the borrowing capacity for capital projects is reaching the legislated cap level. To ensure continued good standing on Wall Street, the District limits its annual capital borrowing to a level not to exceed 12 percent of general fund expenditures. The District must not only cover its baseline capital costs (maintenance of existing facilities and infrastructure), it must provide funding for new construction of schools, libraries, wellness centers, transportation systems, and other facilities. Like most of the United States, the District's capital needs far exceed the available budget.

Recognizing the difficulty of developing an appropriate capital plan to support the District's needs, within the resources available, the District has implemented a new modeling tool called the Capital Asset Replacement Scheduling System (CARSS). The tool provides a set of mechanisms and models that: enable the District to inventory and track all assets; uses asset condition assessments to determine the needs and timing for replacement; provides a tool to then prioritize and rank the associated capital projects, both new and maintenance projects; and then determine the funding gap and assess the impact on out-year budgets from insufficient capital budget. Models are then developed to verify the effect of investing additional cash into the CIP. What-if scenarios are run to determine the effects of various funding amounts and the resulting timing of when the identified total funding needs gap could be filled in order to ensure the District has assets in proper condition to meet service expectations.

An annual report on CARSS is required by District legislation and is available on the web site of the OCFD.

Financial Management Targets

The District has established certain financial management targets that are consistent with maintaining a healthy debt management program to finance its capital needs. Key targets include the following:

- 1) Containing debt levels and maintaining prudent debt ratios relative to industry standards;
- 2) Maintaining or improving favorable bond ratings.

Financial Management Target: Containing Debt Levels and Maintaining Prudent Debt Ratios

As it emerged from its financial crisis of the mid-1990s and moved into the 2000s, the District had a backlog of infrastructure needs to address. These infrastructure needs were critical to providing for the District's economic revitalization and long-term health. Among other things, many of its schools and recreation centers were in need of rebuilding or renovation, and numerous economic development initiatives required District capital investment in order to be viable. In order to fulfill these important infrastructure needs and invest in the long-term economic

health and quality of life of the city, the District has committed substantial funding to its CIP over the past several years. Naturally, this has increased the District's debt levels and debt ratios, which are relatively high according to the rating agencies and industry standards. In order to ensure that the District's funding of its infrastructure needs is balanced with the need for prudent and responsible debt management, in 2009 the District instituted a new statutory debt cap. This debt cap, which is more restrictive than the prior statutory debt cap, requires that annual debt service on all tax-supported debt cannot exceed 12 percent of total General Fund expenditures in any year during the 6-year CIP period. As such, the District is now required by law to maintain this key debt ratio at a prudent level, which will help to ensure that its other debt ratios (such as debt to full property value, debt to personal income, and debt per capita) are constrained, and that its total outstanding tax-supported debt level is constrained.

Financial Management Target: Maintaining or Improving Favorable Bond Ratings

Credit ratings evaluate the credit worthiness of a jurisdiction and the credit quality of the notes and bonds that the jurisdiction issues. Specifically, credit ratings are intended to assess and measure the probability of the timely payment of principal and interest to bondholders on notes and bonds issued. Potential investors use credit ratings to assess their repayment risk when loaning the District funds for capital and short-term operating needs. There are three major agencies that rate the District's debt: Fitch Ratings, Moody's Investors Service, and Standard & Poor's Ratings Services.

The rating agencies rate the District's G.O. bonds and other major cities' bonds by criteria in the following categories:

- Economic base
- Management structure and performance
- Debt burden
- Financial performance
- Demographics

During FY 1995, the District's general obligation debt was downgraded by all three rating agencies to below-investment-grade or "junk bond" levels. Beginning in 1998, each rating agency issued a series of upgrades to the District's general obligation bond rating over the course of the subsequent decade. The upgrades that occurred in 1999 raised the District's ratings back to investment-grade levels. The numerous upgrades since then have raised the District's G.O. bond ratings to their current levels of Aaa, AA+, and AA+ by Moody's, Standard & Poor's, and Fitch Ratings, respectively, and represent the highest G.O. bond ratings the District has ever had. These upgrades represent a remarkable financial recovery by the District. The bond rating upgrades have made the District's bonds more marketable and attractive to investors, resulting in more favorable interest rates and a lower cost of capital to the District.

Moreover, the District also utilizes income tax (I.T.) secured revenue bonds, which have ratings even higher than the District's G.O. bonds, at rating levels of AAA, Aa1, and AA+ by Standard & Poor's, Moody's, and Fitch, respectively. As such, these bonds allow the District to borrow capital funds at even lower interest rates than the District's G.O. bonds, producing additional debt service savings.

The District's target is to maintain or further improve its bond ratings. Many jurisdictions have seen their bond ratings downgraded during the recent economic recession and its aftermath, as municipal governments have been severely challenged by declining revenues that have produced acute budget challenges. The District has also experienced some of these challenges but has managed to maintain its bond ratings. The District's elected leadership and financial management team intend to continue to take the prudent management actions necessary to avoid bond rating downgrades, and to obtain further bond rating upgrades as the economy improves and the District demonstrates a solid track record of managing through the current fiscally challenging environment.

Credit ratings are very important to the Capital Program. They affect the District's cost of capital as well as represent an assessment of the District's financial condition. The cost of capital also plays a role in determining spending affordability. Higher costs for capital financing diminish the ability of the Capital Program to proceed with programmatic objectives. In short, higher capital costs result in fewer bridges being rehabilitated, roofs

repaired, and facilities renovated. On the other hand, lower costs of capital increase the affordability of such projects.

FY 2020 Capital Budget Planning Major Assumptions

A number of assumptions must be established to develop a comprehensive Capital Improvements Plan budget. Because of the unique and changing nature of the District's organizational structure and financial position, it is difficult to forecast revenues, expenditure patterns, costs, and other key financial indicators in a precise manner. Nonetheless, the following primary assumption was used to develop this CIP:

- The capital expenditure target for the FY 2020 to FY 2025 CIP is based on designated revenue streams and remaining at or below the 12 percent debt cap.

The FY 2020 operating budget will be sufficient to provide for:

- Debt service on long and short-term bond financings.

Capital Improvements Plan Development Process

The Capital Improvements Program, as mandated by Public Law 93-198 – the Home Rule Act, has the annual responsibility of formulating the District's 6-Year Capital Improvements Plan. Each District agency is responsible for the initial preparation and presentation of an agency specific plan. Under the program, projects should complement the planning of other District agencies and must constitute a coordinated, long-term program to improve and effectively use the capital facilities and agency infrastructure. Specifically, the CIP should substantially conform to the Office of Planning's Comprehensive Plan, the District of Columbia Municipal Regulations Title 10 Planning and Development (Chapters 1 to 11).

Program Participants

The development and implementation of the CIP is a coordinated effort among the District's programmatic, executive, and legislative/oversight bodies.

Implementing Agencies (Programmatic)

For purposes of project management, each capital project in the CIP is owned and/or implemented by a specific District agency. In many cases, the project's owner agency manages and implements all of the project's phases to completion. To allow the District to leverage internal capabilities, in certain circumstances the owner agency is a different entity than the implementing agency. Implementing agencies manage actual construction and installation of a capital facility or supporting infrastructure. The implementing agencies are responsible for the execution of projects. This task includes the appointment of a Capital Financial Officer, who monitors the progress of the projects and ensures that:

- The original intent of the project is fulfilled as approved;
- The highest priority projects established by the user agency are implemented first;
- Financing is scheduled for required expenditures; and
- While many District agencies implement their own capital projects, several central agencies, such as the Department of General Services and the Office of the Chief Technology Officer, implement projects on behalf of many other agencies.

Office of Budget and Planning (Executive)

The Office of Budget and Planning (OBP) is responsible for issuing budget call instructions to District agencies. OBP provides technical direction to agencies for preparing expenditures plans, project/subproject justifications, priority ranking factors, operating budget impacts, cost estimates, milestone data, and performance measures. The budget call allows for updates to ongoing projects and requests for additional financing and appropriated budget authority for ongoing and new projects. OBP coordinates project evaluations to determine agency needs through careful analysis of budget request data, review of current available and future financing requirements, and comparison of project financial needs with the current bond sales and general fund subsidies anticipated to be available for CIP purposes.

Capital Budget Team (Executive)

The Mayor's Office of Budget and Performance Management leads the Capital Budget Team (CBT) along with representatives from the Office of the City Administrator, Chief Financial Officer, Deputy CFO for Budget and Planning, the Department of General Services, the Office of Planning, the Department of Parks and Recreation, the District Department of Transportation, the Office of Public Private Partnerships, the Department of Human Services, and the Office of the Chief Technology Officer. OBP provides analysis for, and staff support to, the CBT. The CBT evaluates agency requests using criteria developed jointly by the Mayor's Office of Budget and Performance Management and the OCFO's Office of Budget and Planning.

Mayor (Executive)

The CBT's recommendation is then submitted to the Mayor for review, approval, and finally, transmittal to the Council. The Council, following its review, approves the capital budget and the six-year plan. The CIP is included in the budget and financial plan transmitted to Congress for its passive review.

Authorizing Projects in the CIP

OBP and the CBT review and analyze the CIP. The CIP is developed in the four-step process described below.

Step 1: Budget Call

In the fall of the current fiscal year, District agencies are requested to provide OBP with updated information regarding ongoing projects (e.g. increases or decreases in funding or planned expenditures), as well as requests for new projects. The instructions call for agencies to provide detailed information on a project's expenditure requirements, physical attributes, implementation timeframe, feasibility, and community impact. In addition, agencies provide project milestones, estimated costs, FTE details, expenditure plans, operating budget impacts, and a prioritized list of potential capital projects. The agency requests are disseminated to all members of the CBT for review.

Step 2: Budget Analysis

Project requests submitted in Step 1 undergo a thorough analysis to determine if an agency's request merits inclusion in the CIP. This analysis is divided into the following three primary functions:

Function 1 – Project Justification: Each project request is evaluated by the CBT to determine its relationship with the agency's overall mission, whether the project is duplicative of efforts of another agency's ongoing project, whether the project is in concurrence with the District's Comprehensive Plan, and whether the planned expenditure is an operating rather than capital expense. In addition, project requests are reviewed based on priority criteria and must meet one or more of the factors below:

- Health/Safety
- Efficiency Improvement
- Revenue Initiative
- Project Close-out
- Legal Compliance
- Facility Improvement
- Economic Development

Function 2 – Cost Analysis: An important factor in the evaluation of a project request is the overall cost. Facility cost estimates are developed in conjunction with the Department of General Services while technology projects are reviewed by the Office of the Chief Technology Officer to validate the project costs proposed in the agency submissions. Furthermore, future operating costs are estimated to provide supplementary information regarding out-year requirements once the project is implemented (Operating Budget Impacts).

Function 3 – Financing Analysis: The Office of the Chief Financial Officer is committed to finance capital projects in a manner in which:

- Funding is committed for the entire CIP;
- The District receives the lowest cost of funding available; and
- The useful life of capital projects matches and does not exceed the average maturity of the liability used to finance the assets. As such, OBP reviews the useful life of each project and presents this information to the Office of Finance and Treasury (OFT). OFT develops a strategy to match the underlying assets with an appropriate means of financing.

Step 3: Recommendations

After reviewing all capital project requests with regard to scope of work, projected cost, and financing alternatives, the CBT evaluates the projects based on their physical attributes, implementing feasibility, and physical/economic

impact on the community. Subsequently, the Deputy Mayors and the City Administrator use a scoring model with a defined set of criteria for all projects proposed by agencies for additions (enhancements) to the budget. The Office of Budget and Performance Management then uses the collective recommendations of the CBT and the scoring model results to formulate a recommendation in the form of a CIP.

Step 4: Approval

The proposed CIP is then submitted to the Mayor for approval and inclusion in the proposed budget, with subsequent submission to the Council. The Council may make changes, and after Council approval and the Mayor's signature, the CIP is transmitted to Congress for passive review.

Phases of a Capital Project

Capital projects are actually the sum of a series of phases, each of which groups the types of tasks necessary to accomplish the project's goal. Other than Information Technology (IT) projects, each project in the CIP is approved and budgeted in five phases. However, in some instances, projects need funding for planned expenditures only in one particular phase, such as major equipment acquisition. The phases are:

- Feasibility Study (00)
- Site Acquisition (02)
- Construction (04)
- IT Requirement Development (06)
- IT Development and Turnout (08)
- Design (01)
- Project Management (03)
- Equipment (05)
- IT Development and Testing (07)
- Design and Construction (under \$1 million) (09)

- **Phase 0** -The feasibility phase includes all work required to perform an assessment to determine the overall feasibility of a project being considered for construction (this phase applies to the District Department of Transportation only).
- **Phase 1** – Design includes all work completed to define the scope and content of the project. Architects and engineers that agencies employ to analyze the planning for a project would be funded from the design phase. Costs associated with solicitations and proposals also fall within this phase. This phase also would be used to fund any processes necessary for selection of contracts.
- **Phase 2** – Site Acquisition covers costs for site preparation expenses, legal work or probable demolition and hauling expenses. Site appraisal and survey also would be funded through this phase.
- **Phase 3** – Project Management pays all internal agency management and support costs from design to construction. Activities within this phase include any work of the project manager and other staff.
- **Phase 4** – Construction includes any construction contract work done by other District agencies. This phase funds work on a particular construction contract.
- **Phase 5** – Equipment funds disbursements for specialized equipment. Equipment funded through capital has to be permanently connected to the physical plant designed as an integral part of the facility. Equipment defined for funding by this phase includes such items as the purchase and installation of elevators, boilers, generators, and HVAC systems. The Capital Program will not fund office equipment or personal computers. These are funded by the operating budget.
- **Phase 6** – IT Requirements Development phase encompasses both the definition of requirements and design of the system to be implemented. This phase defines requirements and design elements to a level of detail that allows technicians to decide upon development and configuration choices.
- **Phase 7** – IT Development and Testing is the phase in which project requirements and systems design are translated into a working version of the system. This phase also includes all testing stages from unit/component testing, to complete systems testing, to user acceptance testing.
- **Phase 8** – IT Development and Turnout includes all activities to make the system available to all users. During this stage, all functions necessary to make the system part of normal user activities are done. For technology systems, turnover means documenting processes and activities necessary to put the system into production.

- **Phase 9** – Design and Construction is for use in a “design build” type of facility construction contract, where the provisions of the contract require both activities, but for which there is no easily identifiable cost estimates for either specific phase. The use is limited to contracts that are under \$1 million, since anything above that level requires Council approval and thus greater cost breakdowns and tracking.

Project Milestones

Each phase of a project is monitored and tracked using milestone data. This lets the Capital Program determine if projects are being completed on time and within budget. Milestone data is provided by agencies in the annual budget submissions as justification for additional funding. Milestone data includes such items as project authorization dates, original project cost estimates, contract award dates, revised completion dates, construction start dates, and others. In an attempt to summarize the various elements of milestone data, the Capital Program includes status codes in the project description forms.

Project Description Forms

(AM0) DEPARTMENT OF GENERAL SERVICES

MISSION

The goal of the Department of General Services (DGS) is to ensure the delivery of new or modernized, well-equipped, well-maintained, safe and secure buildings and facilities for the benefit of District residents and employees. Further, the agency's mission is to promote the efficient and effective management of the District's real estate investments and interests through strategic portfolio management, construction, and facilities management. To this end, DGS will incorporate best management practices from both the public and private sectors where useful.

SCOPE

The Department of General Services (DGS) carries out a broad range of real estate management functions. In addition to managing capital improvement and construction programs for a variety of District government agencies, DGS also executes real property acquisitions by purchase or lease, disposes of property through sale, lease or other authorized method, manages space in buildings and adjacent areas, and provides building management services for facilities owned or operated by the District. Among the services provided are engineering, custodial, security, energy conservation, utility management, general maintenance, inspection, planning, capital repairs and improvement.

The Capital Construction Services Division implements and manages the public building needs through the Capital Improvements Plan (CIP) for most District government agencies. The CIP outlines agencies' capital needs, including the rehabilitation of existing properties and construction of new facilities. The Capital Construction Services Division ensures the timely and cost-effective delivery of superior quality engineering and design, construction, as well as a variety of other technical services on all relevant capital development projects in the CIP. The division is organized into five focus areas: Health & Human Services, Government Buildings/Tenant Improvement, Major Construction - Education, Major Construction - Public Safety, and Major Construction - Recreation.

Capital Program Objectives:

Ensure that DGS efficiently and effectively manages the planning, modernization, new construction and renovation projects for the District (public safety, municipal, education and recreation).

RECENT ACCOMPLISHMENTS:

In 2018, DGS completed 15 Municipal projects in the District. The agency also completed 15 school projects and 23 recreation projects. We are proud have set ever higher goals for environmental sustainability and attainment of LEED standards. It is also worth highlighting that school modernization projects have also consistently exceeded the District's goals for economic inclusion of Certified Business Enterprises (CBE) and District residents.

Percentage of Art Program - 200 Pieces of Art Commissioned - Bancroft Elementary School (8), Kenilworth Recreation Center (8), Marie Reed Elementary School (12), Murch Elementary School (4), Boone Elementary School (previously Orr) (8), Marvin Gay Recreation Center (3), Wards 4, 7 & 8 Short Term Family Housing projects (150)

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AM0-PL104-ADA COMPLIANCE POOL

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: PL104
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$11,051,000

Description:

This project brings District-owned buildings into compliance with the Americans with Disabilities Act (ADA).

Justification:

Compliance upgrades help ensure proper access by visitors with disabilities or limited mobility to public facilities under the guidelines of the ADA. In addition, the District's exposure to potential lawsuits and regulatory penalties is reduced by addressing ADA issues in a timely manner.

Progress Assessment:

ADA Compliance work is underway.

Related Projects:

DPR project QE511C-ADA Compliance and DCPS project GM303C-ADA Compliance.

AM0-PL902-CRITICAL SYSTEM REPLACEMENT

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: PL902
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 15
Estimated Full Funding Cost: \$50,346,000

Description:

The purpose of this project is to perform capital improvements and facility condition assessments in buildings operated by the District to ensure that public facilities remain in good condition, to support the cost-effective delivery of municipal programs and services, and to maintain the long term capital value of DC's owned facilities. Specifically, this project makes the essential upgrades needed to maintain adequate public facilities. Among the capital improvements required in District-owned facilities are roof replacements, window replacements, and HVAC (heating and air-conditioning systems) replacements. In addition, this project can be used for priority building improvement projects that may have not been planned for as part of the facilities condition assessment. Even with excellent planning, there is often a need to address critical infrastructure needs in District buildings.

Justification:

This project will allow for maximum use of capital improvement pool funding by allowing for proactive planning, maximizing the efficiency of upgrades, and permitting flexibility in delivering facility improvements. It is essential to ensure that adequate capital investments are being made in District-owned facilities to maintain their proper function and avoid disruption to needed public services.

Progress Assessment:

Progressing in multiple phases

FY 2020 Planned Spending

AM0-DLY19-DALY BUILDING REHABILITATION

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: DLY19
Ward: 2
Location: 300 INDIANA AVENUE NW
Facility Name or Identifier: DALY BUILDING
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$1,470,000

Description:

The Department of General Services (DGS) in coordination with the Office of Public-Private Partnerships (OP3), and Metropolitan Police Department (MPD), engaged private sector entities with the goal of partnering with them to design, renovate, finance, and operate/maintain the new facility under a long term contract. The funds in this project account will be utilized for the awarded private sector redevelopment partner availability payments that cover the O & M costs of the facility at a specified level. In addition –predetermined MILESTONE payments that allow the District to pay down a portion of the capital costs will be funded from this project account.

Justification:

The Metropolitan Police Department is headquartered in the Daly Building at 300 Indiana Avenue NW, a gracious historic landmark built in 1941 which has since fallen into disrepair.

Progress Assessment:

Potential uses are currently under consideration

AM0-EST01-EASTERN MARKET METRO PARK

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: EST01
Ward: 6
Location: 8TH STREET & PENNSYLVANIA AVENUE SE
Facility Name or Identifier: EASTERN MARKET METRO PARK
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$13,985,000

Description:

In FY 2016, DGS completed an Environmental Assessment for the Eastern Market Metro Park (EMMP) after the creation of a community-led draft design. The EMMP will enhance the public space surrounding the Eastern Market Metro by improving public safety with updated lighting and pedestrian infrastructure, adding Low Impact Development features to increase sustainability, installing a much-needed playground area for the growing number of nearby families, and creating an active, inviting community space with seating, shade, and interactive programming in collaboration with the soon-to-be modernized Southeast Library, which abuts the EMMP to the west. Given the favorable feasibility findings from the Environmental Assessment and broad community consensus on the need for the EMMP.

Justification:

Improving public safety with updated lighting.

Progress Assessment:

On-going project

AM0-PL901-ENERGY RETROFITTING OF DISTRICT BUILDINGS

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: PL901
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$42,661,000

Description:

This project will reduce environmental impact and energy costs in public buildings owned and operated by the District by incorporating green infrastructure, high performance technologies and modifying building systems, including windows, doors, roofs, and mechanical, electrical, and plumbing systems. Facility condition assessments of District buildings will identify specific improvements and upgrades with the potential to reduce consumption and achieve maximum savings. With environmental and energy costs continuing to increase, the District can realize savings – or offset increases – with appropriate retrofitting of public facilities to help reduce consumption.

Justification:

This project directly supports the comprehensive plan goal to provide adequate public facilities and to support cost-effective and environmentally conscious delivery of municipal programs and services.

Progress Assessment:

On-going subproject

AM0-PL402-ENHANCEMENT COMMUNICATIONS INFRASTRUCTURE

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: PL402
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: COMMUNICATION INFRASTRUCTURE
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$6,428,000

Description:

The purpose of this project is to reduce the likelihood of dead zones that may result in, or disrupt, the ability to access 911 or cellular communication.

Justification:

Communications infrastructure must be enhanced for public safety.

Progress Assessment:

On-going subproject

FY 2020 Planned Spending

1. Various locations-\$250,000

Related Projects:

AM0-BC101-FACILITY CONDITION ASSESSMENT

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: BC101
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$23,701,000

Description:

District facilities are assessed in a recurring cycle; immediate, urgent, and long term equipment, system, and structural costs are determined and used as an input to the capital budget development.

An FY20 enhancement of \$540,000 to accelerate the process of completing facility condition assessments for all District-owned properties and to specifically complete assessments for the Petworth Recreation Center and the Hamilton Recreation Center.

Justification:

Identifying present conditions of public facilities will help plan for future capital improvements.

Progress Assessment:

Assessments to quantify required mechanical, electrical, and structural repair and provide a time schedule for the repairs which are on-going.

AM0-PL103-HAZARDOUS MATERIAL ABATEMENT POOL

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: PL103
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$9,059,000

Description:

This project addresses the identification and removal of asbestos, lead, and underground fuel storage tanks from District-owned properties. The project allows the District to comply with U.S. environmental laws and regulations by assessing the extent of a potential abatement and the remedial action itself. Multiple subprojects are in various stages of completion, and additional subprojects are introduced on an as-needed basis.

Justification:

This project is necessary to ensure that there is sufficient capital funding to address hazardous material abatement as they are uncovered in facility assessments. The project protects the health of people using District facilities by allowing for the removal of dangerous materials from District properties.

Progress Assessment:

Hazardous material abatement addresses the health and safety of occupants of our facilities. Projects include removal of asbestos, lead, and underground fuel storage tanks from various District-owned properties and are on-going.

FY 2020 Planned Spending

1. Reeves Center: capital eligible work orders-\$150,000

AM0-EA710-EASTERN MARKET

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: EA710
Ward: 6
Location: NORTH CAROLINA AVENUE SE AND 7TH ST SE
Facility Name or Identifier: EASTERN MARKET
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$0

Description:

Renovation of Easter Market to bring the building into code compliance and to restore it to its original look while preserving the integrity of the building. Preparation of design and construction documents to construct the following: renovation/restoration of building infrastructure to bring itt into compliance with building, health, safety and historic preservation requirements including centrally located ADA handicapped accessible public bathrooms; redesign/reconstruction of the Farmers” line shed; restoration of building exterior to meet historic preservation requirements, restoration of brick sidewalks around the Market, and renovation of the basement for vendor storage.

An FY20 enhancement of \$250,000 to restore and preserve Eastern Market by providing resources to restore the brick and stone work, replace door hardware, and install integrated, historically sensitive signage.

AM0-BRM30-NON STRUCTURAL RENOVATIONS

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: BRM30
Ward: 8
Location: 3720 MARTIN LUTHER KING JR. AVE SE
Facility Name or Identifier: 3720 MARTIN LUTHER KING JR. AVE SE
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$7,866,000

Description:

Due to its age, the building has serious deficiencies and requires extensive modernization. This project will allow the District to perform selective renovations of the building for use as office space to house District government employees. These renovations will include, but are not limited to, improvements to the existing base building, such as roof and window replacement, and an update of existing infrastructure and tenant space.

Justification:

The scope will include but will not be limited to the following: Design and manage construction of office space; construct or renovate existing building shell, core and interior space to meet specifications established by the District government; replace existing mechanical system including all plumbing and major HVAC components, upgrade electrical service including providing new wiring and lighting. Provide emergency generator system; replace fire alarm system, provide smoke detectors throughout the building and combination standpipe sprinkler system for fire protection; renovate restrooms, update stairs and elevators to comply with ADA codes; Replace roofs, including insulation, metal openings, gutters, down-spouts and flashing; and Replace electrical and mechanical system components.

AM0-PL602-ROOF REPLACEMENT POOL

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: PL602
Ward:
Location: DISTRICT WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 50
Estimated Full Funding Cost: \$14,383,000

Description:

Perform roof repairs/replacement as needed on all District-owned facilities and installing green and cool roofs on some. Several roof repair/replacements will be designed and procured in the coming fiscal year to include green roofs, cool roofs, replacement of shingled, built-up, membrane, and metal roofs, flashing, drainage, and ventilation systems.

An FY20 enhancement of \$250,000 to repair or replace the roof of the historic John Mercer Langston school and to stabilize and preserve the building for future use.

Justification:

N/A

Progress Assessment:

AM0-WIL02-WILSON BLDG

Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: WIL02
Ward: 2
Location: 1350 PENNSYLVANIA AVENUE NW
Facility Name or Identifier: WILSON BUILDING
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$48,660,000

Description:

Survey the existing condition of the Wilson Building facade and interior and make the repairs and improvements needed to eliminate moisture penetrations and prevent weathering. Repair and replace damaged or deteriorated elements.

An FY20 enhancement of \$200,000 to replace the building's water fountains with water fountains that incorporate bottle filling stations to encourage environmental stewardship and to restore all fountains to use.

Justification:

The deteriorating condition of the Wilson Building facade requires that the District make the repairs and improvements needed.

Progress Assessment:

The project is progressing as planned

(AT0) OFFICE OF THE CHIEF FINANCIAL OFFICER

MISSION

The mission of the Office of the Chief Financial Officer (OCFO) is to provide financial management services to the government and the people of the District of Columbia to sustain the District's long-term fiscal and economic viability.

BACKGROUND

In accordance with the independent status of the District's Chief Financial Officer, the OCFO exercises independent control and management oversight over the District's financial systems, including SOAR, the Modernized Integrated Tax System (MITS), CFOSolve, and all other related and subsidiary systems. The OCFO is charged with the responsibility for maintaining and operating the District's independent financial systems to support the Mayor, the Council, and Congress.

CAPITAL PROGRAM OBJECTIVES

The OCFO maintains the integrity and reliability of the District's financial systems by maintaining independence in its relationships with program staff and assuring that systems modifications are transparent and auditable. This is accomplished by ensuring the financial systems can be maintained and supported by the OCFO workforce. This is a core function and cannot be outsourced to other parts of the government.

RECENT ACCOMPLISHMENTS

Highlights of our achievements include an unprecedented 22nd consecutive year of budget surpluses, and the Comprehensive Annual Financial Report (CAFR) once again submitted with an unqualified opinion and no material weaknesses, and the District receiving and maintaining the highest bond ratings ever from the major agencies including the first AAA rating for Income Tax Secured Revenue Bonds.

In August 2014 the CFO presented the OCFO strategic plan with 24 strategic initiatives supporting 7 key objectives. As plan initiatives are completed, new goals and projects are put forward. In April 2017, the CFO presented the updated OCFO strategic plan featuring 25 strategic initiatives. Three capital projects - the completion of MITS, the replacement of the accounting and budget systems, and the implementation of the Capital Asset Replacement System - are included in the plan as strategic initiatives. Another initiative let the OCFO to provide critical assistance to the area's jurisdictions that led to a dedicated funding arrangement for METRO.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AT0-CSP08-INTEGRATED TAX SYSTEM MODERNIZATION

Agency: OFFICE OF THE CHIEF FINANCIAL OFFICER (AT0)
Implementing Agency: OFFICE OF THE CHIEF FINANCIAL OFFICER (AT0)
Project No: CSP08
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$81,502,000

Description:

This project will completely modernize and refine the District's tax systems to bring them in line with industry best practices and add new functionality in the areas of compliance; collections; case management; individual, business and property tax collection; and processing and accounting. The tax system modernization will be achieved in stages to replace individual components starting with the case management module, real property system, and eventually the core tax management system.

This project represents a modernization of the Integrated Tax System (ITS). The current system will require a technology refresh, particularly on the reporting and middle-ware tools, to take advantage of web-based technologies that were not available when the system was installed. This will require replacement of the SAND and the Crystal server-based systems currently in use for report and query building as well as supporting platform software and related applications. This investment will allow the core underlying system to remain in place, while simplifying maintenance requirements and allowing for further consolidation of servers and reduced bandwidth requirements.

An FY20 enhancement of \$60,000 to enable all Schedule H returns to be accepted electronically.

Justification:

The first phase replaced the real property tax module, to address and reduce the risk of fraud and mismanagement by leveraging superior internal controls and industry best practices implemented in the replacement system. In addition, the new case management system provides intelligent case analytics, and review and analyses abilities that have increased tax compliance and collection, further resulting in increased revenues. The implementation of phases 1 & 2 have resulted in the capture of new tax revenue that is being recognized as Paygo transfers from the general fund to the capital project. This capital budget will help offset the project's costs.

Progress Assessment:

We are now in phase 3 and implementing the third new module

AT0-CSP10-IT SYSTEM UPGRADES

Agency: OFFICE OF THE CHIEF FINANCIAL OFFICER (AT0)
Implementing Agency: OFFICE OF THE CHIEF FINANCIAL OFFICER (AT0)
Project No: CSP10
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$4,942,000

Description:

This project will provide the necessary budget to support the Office of the Chief Financial Officer’s central IT system. IT systems infrastructure refers to the composite hardware, software, network resources and services required for the existence, operation and management of an enterprise IT environment. The additional resources will allow for the delivery of critical IT solutions. The additional resources is internal to the District and is deployed within OCFO facilities.

Justification:

This project will support the systems required to support OCFO IT needs, for both hardware and software. The IT support includes, COGNOS/CFO\$OLVE, Tableau, PROMS, GRAMS, the BFA, SPIN and CSPIN, along with the needed servers and routers to ensure continued operations and necessary security.

Progress Assessment:

Progressing as planned.

AT0-IFSMP-MP-NEW FINANCIAL SYSTEM

Agency: OFFICE OF THE CHIEF FINANCIAL OFFICER (AT0)
Implementing Agency: OFFICE OF THE CHIEF FINANCIAL OFFICER (AT0)
Project No: IFSMP
Ward:
Location: DISTRICT WIDE
Facility Name or Identifier: INTEGRATED FINANCIAL SYSTEM
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$204,956,000

Description:

The new Integrated Financial System (IFS) will support functionality for Financial Management, Grants and Project Accounting, Purchasing, Planning and Budgeting. In addition, the scope of the IFS project will include an integration of the new proposed Treasury Management System (TMS). TMS will automate the standard, day-to-day treasury transactions and reduce the risk of errors.

The IFS solution will also include enhanced grant management and reporting capabilities. The functionality of such a Grants Management System is necessary to provide support and reporting capabilities to a proposed central grants office. The implementation of a central grants organization will help achieve the full planned benefits of increased grant management capability which would be realized by the proposed IFS solution.

In summary, the new IFS will provide the data and processes to give the District the ability to quantify analytically the performance of its agencies, enhance the procurement/payment process and maximize the grant reimbursement function.

Justification:

The benefits of the project are:

- Move to a cloud environment
- Simplify and standardize our current data structure
- Innovative communication and training
- ‘Clean/scrub’ current data
- Automate data integration
- Phased Implementation approach
- Invest in reporting and analysis
- Create culture of change management

Progress Assessment:

RFP for implementing is in the process of award.

(BA0) OFFICE OF THE SECRETARY

MISSION

The Office of the Secretary of the District of Columbia is the official resource for protocol, legal records, history, and recognitions for the public, governments, and the international community.

CAPITAL PROGRAM OBJECTIVES

Currently requesting planning and design funds for the DC Archives project.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AM0-AB102-ARCHIVES

Agency: OFFICE OF THE SECRETARY (BA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: AB102
Ward: 3
Location: 4200 CONNECTICUT AVENUE NW
Facility Name or Identifier: ARCHIVES
Status: Site acquisition required
Useful Life of the Project: 30
Estimated Full Funding Cost: \$73,179,000

Description:

The Budget provides funding to allow the Archives to relocate to a site that meets several criteria outlined in a report commissioned by the Department of General Services, which found that the preferred alternative would be a stand-alone, purpose-built, new facility requiring approximately 135,000 gross building square feet. The Archives building is to be a mix of high-quality, environmentally controlled storage space, and several thousand square feet of space for the public to access the Archives, office space, and meeting space.

No operating, capital, contingency, or other District funds shall be used to construct any structure in Square 3574 or otherwise alter any property located in Square 3574 (including Penn Center located at 1709 3rd Street NE) for the purpose of serving as the District of Columbia Archives or District of Columbia Records Center, or for any other use by the Secretary of the District of Columbia.

Justification:

The District of Columbia Archives holds historical and permanently valuable records of the DC Government such as birth and death records, wills, land records and marriage records.

Progress Assessment:

The archival material inventory is underway, and will help in developing requirements for the design of the new facility

(BJ0) OFFICE OF ZONING

MISSION

The mission of the District of Columbia Office of Zoning (OZ) is to provide administrative, professional, and technical assistance to the Zoning Commission (ZC) and the Board of Zoning Adjustment (BZA) in support of their oversight and adjudication of zoning matters in the District of Columbia.

BACKGROUND

OZ administers the zoning application process for the ZC and the BZA. The agency reviews and accepts applications, schedules hearings to determine whether cases meet specified zoning criteria, schedules meetings to make determinations with respect to pending applications, and issues legal orders. Technology plays a critical role in support of this process by enhancing effectiveness and transparency. OZ also spearheads outreach to citizens of the District of Columbia to ensure a robust understanding of the zoning application process.

CAPITAL PROGRAM OBJECTIVES

1. Create a convenient, easy to use, and understandable zoning process through website development, expansive outreach, and educational programs for District residents and businesses.
2. Leverage new and existing technology to further ensure that the District of Columbia's zoning processes are easily understandable and accessible to the public.
3. Streamline zoning regulations to enhance efficiency and transparency of zoning processes.

RECENT ACCOMPLISHMENTS

A new zoning handbook with more than 300 pages of information was developed to assist the public in the understanding the new regulations. The pages include zoning rules, use categories and zone information with easy to use categories, and zone information with easy to use development standard charts.

A new interactive state-of-the art GIS map was developed to showcase the new zone designations of the Zoning Regulations of 2016. color coded zones were added to increase visual appeal and improve immediate understanding of the map. The map also includes additional data and features that allow easy access to wide range of Vital zoning information related to District Properties.

60,000 zoning case points were added to the map increase public access of zoning case and to create direct connections between the mapping applications and the IZIS Report pages.

OZ released an Electronics 3D Map that enables 3D models of Project to be electronically placed in context of the project site and reviewed for their impact on the built environment, and their compatibility with the surrounding zoning.

OZ overhauled the BZA and ZC external user interface to facilitate the filing of cases and documents into the case record. Much like turbo Tax user-interface, the new intake pages walk you through filing an application in an intuitive, user friendly way.

OZ updated its IZIS internal workflows to allow for increased efficiency in the processing of cases. The new system allows staff to locate pertinent case information at a glance, including agency reports and party status requests.

OZ built a zoning Data Dashboard that provides internal and external reporting on cases before the BZA and ZC. OZ continues to add new datasets on a monthly basis, and make additional datasets available to the public.

www.dcoz.dc.gov – OZ is very proud of the amount of searchable information that is available on its website and will continue to expand on the information already available 24/7 to the public. Along with the tremendous amount of searchable information that is available on its website, OZ also provides the following services and information that enhances agency transparency

The Interactive Zoning Information System (IZIS), including all case file documents for PUDs, map amendments, and appeals; and case information for all other case types (i.e. status, relief, action, order, transcripts, etc.);

IZIS- Interactive Zoning Information System

All case document for all ZC and BZA case types, including PUBS, map amendments, appeal rulemakings, time extensions of approved PUDs minor modifications of approved PUDs campus plans special exceptions, variances, and

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

BJ0-JM102-ZONING INFORMATION TECHNOLOGY SYSTEMS

Agency: OFFICE OF ZONING (BJ0)
Implementing Agency: OFFICE OF ZONING (BJ0)
Project No: JM102
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$1,558,000

Description:

This project funds the continued, multi-year implementation of a variety of mission-critical information technology systems relating to the Zoning Regulations, the Zoning Map, and the Interactive Zoning Information System. The funds will also support updates to the Zoning Map, including those that will become necessary upon passage of the new Zoning Regulations by the Zoning Commission; and the continued implementation of the zoning case management system designed to accept cases filed on-line, allow applicants to respond to requests for additional documentation, and allow users to track the progress of cases online.

Justification:

This project funds the continued, multi-year implementation of a variety of mission-critical information technology systems relating to the Zoning Regulations, the Zoning Map, and the Interactive Zoning Information System. This project aligns with Sustainable DC Actions: Built Environment 1.4, Food 1.1, and Water 2.5.

Progress Assessment:

The Office of Zoning is working to begin implementation of elements of its zoning data systems in FY 2010.

Related Projects:

BD0 project PLN37C-District Public Plans and Studies

(BN0) HOMELAND SECURITY/EMERGENCY MANAGEMENT

MISSION

The mission of the District of Columbia Homeland Security and Emergency Management Agency (HSEMA) is to lead the planning and coordination of homeland security and emergency management efforts to ensure that the District of Columbia is prepared to prevent, protect against, respond to, mitigate, and recover from all threats and hazards.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:

AM0-BRM26-HSEMA EMERGENCY OPERATIONS CENTER RENOVATION

Agency: HOMELAND SECURITY/EMERGENCY MANAGEMENT (BN0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: BRM26
Ward: 8
Location: 2720 MLK JR. AVENUE SE
Facility Name or Identifier: UNIFIED COMMUNICATIONS CENTER
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$4,250,000

Description:

This project will renovate the District’s Emergency Operations Center (EOC), located on the second floor of the Unified Communications Center (UCC). It will expand capacity, upgrade technology, and will allow for better, more effective strategic planning, operational coordination/communication, and public information/warning, during emergencies, that incorporates and anticipates the dynamic changes to the District’s geographic, social, and infrastructure features. The EOC facilitates state-level coordination and support through multi-agency coordination of information and resources during an emergency response or planned mobilization. The project will increase the number of EOC workstations, equip the center and workstations with updated technology, and improve the layout of the space to optimize its use for emergency response operations.

Justification:

By improving the resources in the EOC, this project will allow for better coordination and quicker response during emergencies to keep District residents and visitors safe.

Progress Assessment:

New project

(BY0) DEPARTMENT OF AGING AND COMMUNITY LIVING

MISSION

The mission of the Department of Aging and Community Living (DACL) is to advocate, plan, implement, and monitor programs in health, education, and social services that promote longevity, independence, dignity, and choice for older District residents (age 60 plus), people with disabilities (age 18 to 59), and their caregivers.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AM0-A0508-WARD 8 SENIOR WELLNESS CENTER

Agency: DEPARTMENT OF AGING AND COMMUNITY LIVING (BY0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: A0508
Ward: 8
Location: 3500 MLK JR AVENUE SE
Facility Name or Identifier: WARD 8 SENIOR WELLNESS CENTER
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$11,400,000

Description:

The project will provide major renovations to the Ward 8 Senior Wellness Center. The center serves as a center point for seniors for providing a full range of health, education, employment, and social services for DC residents. The improvements will entail architectural, mechanical, electrical, and site improvements for the replacement or upgrades to the existing building systems, roof, structure, plumbing, heating, ventilation, and air conditioning.

Justification:

The project will provide a means for correcting unforeseen health, safety, ADA, and fire code violations.

Progress Assessment:

New project

(CE0) DC PUBLIC LIBRARY

MISSION

The District of Columbia Public Library (DCPL) supports children, teens, and adults with services and materials that promote reading, success in school, lifelong learning, and personal growth.

BACKGROUND

The DC Public Library has a total of 25 neighborhood libraries and a downtown central library, Martin Luther King, Jr. Memorial Library. Since 2009, 19 libraries have been rebuilt, modernized or reopened in a renovated co-located structure. Another five are in varying stages of design and construction including Martin Luther King Jr. Library, Capitol View Library, Southwest Library, and Lamond-Riggs Library, and Southeast Library. The DCPL has several remaining facilities that need modernization.

CAPITAL PROGRAM OBJECTIVES

- Enhance neighborhood libraries to provide modern, flexible facilities that better serve District residents.
- Implement library buildings not currently scheduled for major renovation or rebuild.
- Fully renovate and modernize the Martin Luther King Jr. Memorial Library.

RECENT ACCOMPLISHMENTS

Cleveland Park Library	Opened June 16, 2018
Palisades Library	Opened June 20, 2018
West End Library	Opened December 9, 2017
Woodbridge Library	Opened September 28, 2016
North East Library	Opened February 3, 2014
Rosedale Library	Opened October 2012
Petworth Library	Opened February 28, 2011
Tenley-Friendship Library	Opened January 24, 2011
Georgetown Library	Opened October 18, 2010
Shaw (Watha T. Daniel) Library	Opened August 2, 2010
Deanwood Library	Opened June 25, 2010
Anacostia Library	Opened April 26, 2010
Benning (Dorothy I. Height) Library	Opened April 5, 2010
Northwest One Library	Opened December 2009
Parklands-Turner Library	Opened October 2009
Takoma Park Library	Opened March 2009

3. Southeast Library
4. Southwest Library

CE0-CAV37-CAPITOL VIEW LIBRARY

Agency: DC PUBLIC LIBRARY (CE0)
Implementing Agency: DC PUBLIC LIBRARY (CE0)
Project No: CAV37
Ward: 7
Location: 5001 CENTRAL AVENUE SE
Facility Name or Identifier: CAPITOL VIEW LIBRARY
Status: Developing scope of work
Useful Life of the Project: 25+
Estimated Full Funding Cost: \$8,200,000

Description:

Continuation of the ongoing renovation of the Capitol View Library. The initial effort was a renovation of the interior spaces and replacement of core systems. The second upgrade focused on the exterior and included the landscaping, hardscaping, and possibly extend the metal grillage on the façade to strategic areas of the rear of the building. This effort could include additional landscaping and hardscaping that could allow outside spaces to be used for library programming.

Justification:

The exterior library façade is dated. The proposed budget reflects the scope of work as an interior facility renovation, with exterior work limited to window and roof replacement along with code-required storm water tie-ins. There is strong support for updating the library exterior for the benefit of Ward 7 residents. A design competition is the intended procurement vehicle to solicit best solutions for updating the library's facade.

Progress Assessment:

Capitol View Library Exterior renovation was completed and the library opened to the public on March 23, 2019. In tandem with the reopening, the interim library was closed and the structures moved out from the grounds of JC Nalle elementary school on July 3, 2019. The site restoration of the playground at JC Nalle elementary school to its original condition is projected to be complete by Fall 2019.

CE0-LB310-GENERAL IMPROVEMENT- LIBRARIES

Agency: DC PUBLIC LIBRARY (CE0)
Implementing Agency: DC PUBLIC LIBRARY (CE0)
Project No: LB310
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$34,207,000

Description:

This project addresses critical capital upgrades and replacements at various library facilities. The work will include the design, project management and construction, upgrades or replacement of MEP systems, structural issues and upgrades to security, fire, life/safety and emergency power systems; ADA code compliance for restrooms and elevators; roof replacements; and interior upgrades to various libraries.

Justification:

The purpose of this project is to replace building systems as needed; to minimize deferred maintenance by replacing building systems and infrastructure before the end of their useful life with the result of a decrease in time that library services will be unavailable to the public; and to significantly upgrade building interiors to reflect the way that library use has evolved over time.

Progress Assessment:

The project is ongoing

CE0-ITM37-INFORMATION TECHNOLOGY MODERNIZATION

Agency: DC PUBLIC LIBRARY (CE0)
Implementing Agency: DC PUBLIC LIBRARY (CE0)
Project No: ITM37
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$1,540,000

Description:

Network infrastructure overhaul, including procurement, design, and installation of data distribution switches, redundant backup battery power, IP phone hardware, wi-fi hardware, and optic fiber construction/upgrade. Replacement of aging network equipment in 26 libraries on >5-year upgrade or replacement cycle. This project will support the replacement of public access and staff computers throughout the Public Library System. The modernization will include new servers, power supplies, storage area networks, and necessary support components including wiring.

Justification:

The library currently supports over 1,000 public access computers, servers for IT infrastructure, and various network support components. These computers and systems are reaching the end of their useful life. Replacements and modernizations are essential in order to supply District residents with access to information.

Progress Assessment:

Project is ongoing

CE0-MCL03-MARTIN LUTHER KING JR. MEMORIAL CENTRAL LIBRARY

Agency: DC PUBLIC LIBRARY (CE0)
Implementing Agency: DC PUBLIC LIBRARY (CE0)
Project No: MCL03
Ward: 2
Location: 901 G STREET NW
Facility Name or Identifier: MARTIN LUTHER KING JR. MEMORIAL CENTRAL LIBRARY
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$211,307,000

Description:

The renovated Martin Luther King Jr. Memorial Central Library will reflect the program and goals of the Library and the needs of the District of Columbia residents who use the library. While being respectful of the only Mies van der Rohe building in the District, the building will incorporate forward-thinking approaches to urban design, architecture, engineering, and environmental technologies in the public realm. The renovated MLK Library will be a destination that will attract and support hundreds of users a day, and promote a vibrant, mixed-use neighborhood and active street environment.

Enhancements of \$125,000 in FY19 and \$125,000 in FY20 were provided to cover the additional cost of interim space for the Washingtoniana Collection.

Justification:

The project is necessary because the existing Martin Luther King Jr. Memorial Library building is beyond its useful life and does not meet the District's needs as a central library. This project aligns with Sustainable DC Action: Built Environment 3.5.

Progress Assessment:

Project is ongoing

CE0-SEL37-SOUTHEAST LIBRARY

Agency: DC PUBLIC LIBRARY (CE0)
Implementing Agency: DC PUBLIC LIBRARY (CE0)
Project No: SEL37
Ward: 6
Location: 403 7TH STREET SE
Facility Name or Identifier: SOUTHEAST LIBRARY
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$23,576,000

Description:

This project is a general renovation of a 1922 Carnegie Library in the Eastern Market neighborhood of Capitol Hill. All major systems, electrical, mechanical, vertical transportation, etc will be modernized and the facility will be brought into compliance with ADA and all fire and life safety codes. This facility is located in the Capitol Hill Historic District and this renovation will preserve the historic fabric of the facility while adding as much additional square footage and library services as practicable.

Justification:

The historic Southeast Library is a 2-story structure with approx. 9600 SF of space. DCPL intends to expand the library's overall square footage to meet the needs of the community along with renovation of existing spaces. The goal is to expand and renovate the library and optimize space to meet the needs of the community.

Progress Assessment:

This is an on-going project. A feasibility study was commissioned by the Barracks Row Main Street, focusing on the revitalization of the Eastern Market Metro Station Plaza. DCPL undertook a feasibility study with McKissack & McKissack in 2016. The first community meeting was held in October 2018 & design-build and RFP formulation is underway.

CE0-SWL37-SOUTHWEST LIBRARY

Agency: DC PUBLIC LIBRARY (CE0)
Implementing Agency: DC PUBLIC LIBRARY (CE0)
Project No: SWL37
Ward: 6
Location: 900 WESLEY PLACE SW
Facility Name or Identifier: SOUTHWEST LIBRARY
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$18,100,000

Description:

This project involves the replacement of the existing neighborhood branch library with a newly constructed two-story library building. The work includes the complete demolition of the existing building and basement. The design of the new library honors the mid-century modern architecture of the neighborhood. Design started in July 2017 and included five community meetings, the last of which occurred in September 2018. The project sought and received zoning variance to increase the allowable footprint of the building and received final CFA approval in October 2018. The design is complete and construction is projected to start Spring 2019. The project is designed to Leed Gold standards with environmentally sensitive energy and water conservation strategies and incorporates a combination photovoltaic panel and green roof system, as well as a bio-retention landscaping area along the southern edge of the property.

An FY20 enhancement of \$100,000 was provided for opening day collections.

Justification:

The building is over 45 years old. The new design aligns the library built environment with the community's needs and aspirations and fits into the Mayor's educational priorities. This project aligns with Sustainable DC Action: Built Environment 3.5.

Progress Assessment:

Yes

(CF0) DEPARTMENT OF EMPLOYMENT SERVICES

MISSION

The Department of Employment Services (DOES) puts people to work. DOES achieves its mission by providing the necessary tools for the District of Columbia workforce to become more competitive using tailored approaches to ensure that workers and employers are successfully paired. DOES also fosters and promotes the welfare of job seekers and wage earners by ensuring safe working conditions, advancing opportunities for employment, helping employers find qualified workers, and tracking labor market information and other national economic measurements impacting the District of Columbia.

BACKGROUND

The Department of Employment Services (DOES) is the District of Columbia's lead labor and workforce development agency. DOES provides customers with a comprehensive menu of workforce development services funded through a combination of federal grants and local appropriations. DOES delivers basic income support services to unemployed or underemployed persons who lost their jobs through no fault of their own through the Unemployment Insurance Division. The Labor Standards Program ensures a safe and healthy work environment for workers in the District, administers a program to provide benefits to qualified individuals with employment-related injuries or illnesses, administers the District's wage-and-hour laws and provides hearing and adjudication services to settle worker's compensation disputes. DOES' Workforce Development Program provides job seekers with workforce development and training programs and services to ensure employers have access to qualified job candidates. The Workforce Development Program also provides District youth with job training, academic enrichment, leadership, and employment opportunities through its Year-Round, Marion S. Barry Summer Youth Employment Program, Marion S. Barry Youth Leadership Institute, and other youth programs. Lastly, DOES's Division of State Initiatives (DSI) is comprised of locally funded signature programs that seek to generate positive, long term employment outcomes through extensive collaboration with District agencies and with the local business community.

CAPITAL PROJECT INITIATIVES

Saint Elizabeths Infrastructure Academy

The Washington D.C. Infrastructure Academy at Saint Elizabeths East Campus will be a new facility that focuses on occupational skills training and work-based learning initiatives related to the infrastructure industry, including the utility, energy efficiency, and transportation and logistics sectors. At the Academy, industry partners, training providers such as the University of the District of Columbia, labor unions and trade associations, will offer diverse skills training allowing District residents to obtain the tools to begin and sustain careers in the infrastructure industry. The Academy will provide its services to District residents, with a focus on underserved, unemployed, and underemployed residents seeking entry-level training and job opportunities within the infrastructure industry. Academy participants will be able to access career counseling and planning, resume assistance, direct job placement, and information about local and regional infrastructure jobs and apprenticeships.

UI Modernization Project

The objective of this project is to develop and deploy a robust, fully-integrated Unemployment Benefits and Tax solution resulting in efficiencies and the ability to offer broader services to the residents of the District of Columbia. All systems within Unemployment Insurance will be integrated including the Document Imaging system and ACD/IVR system. Finally, with the deployment of the project, the agency will reduce its dependency on external contractors.

Paid Family Leave IT Application

The Universal Paid Leave project will provide for the development and implementation of the required Information Technology system, including the necessary software, to support the District's Universal Paid Leave legislation. The legislation creates a program to compensate private sector workers in the District for wages lost when taking time off to welcome a new child, care for a family member who has a serious health condition, or for one's own serious health condition.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AM0-SNTRC-DC INFRASTRUCTURE ACADEMY

Agency: DEPARTMENT OF EMPLOYMENT SERVICES (CF0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: SNTRC
Ward: 8
Location: 2330 POMEROY ROAD SE
Facility Name or Identifier: INFRASTRUCTURE ACADEMY
Status: In multiple phases
Useful Life of the Project: 25
Estimated Full Funding Cost: \$18,400,000

Description:

This project will support build-out of the Washington D.C. Infrastructure Academy, a program that will focus on occupational skills training and work-based learning initiatives related to the infrastructure industry, including the utility, energy efficiency, transportation and logistics sectors. At the Academy, industry partners, training providers such as the University of the District of Columbia, labor unions and trade associations, will offer a diverse skills training allowing District residents the tools to begin and sustain careers in the infrastructure industry.

Justification:

The project will provide the operating facilities for the infrastructure industry occupational skills training program which will focus on unemployed, underemployed and underserved populations

Progress Assessment:

On-going project

CF0-PFL08-PAID FAMILY LEAVE IT APPLICATION

Agency: DEPARTMENT OF EMPLOYMENT SERVICES (CF0)
Implementing Agency: DEPARTMENT OF EMPLOYMENT SERVICES (CF0)
Project No: PFL08
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Developing scope of work
Useful Life of the Project: 10
Estimated Full Funding Cost: \$61,041,000

Description:

The Universal Paid Leave project will provide for the development and implementation of the required Information Technology system, including the software, to support the District's Universal Paid Leave legislation. The proposed legislation would create a program to compensate private sector workers in the District for wages lost when taking time off to welcome a new child, care of a family member who has a serious health condition, or for one's own serious health condition.

Justification:

The legislation establishing the District's Paid Family Leave program has been passed and requirements for the collection of taxes and distribution of benefits established. The Paid Family Leave Program cannot accomplish these without a robust IT application. The application must support the mechanism for collecting the taxes and, for paying the benefits to qualified employees.

Progress Assessment:

Ongoing project should be complete by end of FY 2021.

CF0-UIM02-UI MODERNIZATION PROJECT-FEDERAL

Agency: DEPARTMENT OF EMPLOYMENT SERVICES (CF0)
Implementing Agency: DEPARTMENT OF EMPLOYMENT SERVICES (CF0)
Project No: UIM02
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$46,057,000

Description:

This project is focused on developing and deploying a fully integrated (Unemployment Benefits and Tax) robust solution resulting in efficiencies and the ability to offer broader services to the residents of the District of Columbia. All systems within Unemployment Insurance will be integrated including the Document Imaging system and ACD/TVR system.

Justification:

Due to the outdated mainframe technology currently in use, implementations of new legal requirements are complex, intense, and time consuming to deploy in a consistent manner to ensure claimants receive added or new benefits as quickly as possible. In this environment, the systems are highly fractured silos requiring costly contractors to maintain them.

Progress Assessment:

(CQ0) OFFICE OF THE TENANT ADVOCATE

Mission

The mission of the Office of the Tenant Advocate (OTA) is to provide technical advice and other legal services to tenants regarding disputes with landlords; to educate and inform the tenant community about tenant rights and rental housing matters; to advocate for the rights and interests of District renters in the legislative, regulatory, and judicial contexts; and to provide financial assistance to displaced tenants for certain emergency housing and tenant relocation expenses.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

CR0-RCCD1-RENT CONTROL DATABASE

Agency: OFFICE OF THE TENANT ADVOCATE (CQ0)
Implementing Agency: DEPT. OF CONSUMER AND REGULATORY AFFAIRS (CR0)
Project No: RCCD1
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$1,094,000

Description:

Implements the agency’s statutory duty to develop a demonstration project to establish the initial framework of a user-friendly, internet-accessible, and searchable database for the submission, management, and review of all documents and relevant data housing providers are required to submit to the RAD under the District’s rent control law. The project is being accomplished with the significant consultation with the Department of Consumer and Regulatory Affairs, Office of Tax and Revenue, Office of the Chief Technology Officer, and Department of Housing and Community Development’s Rental Accommodations Division and Housing Provider Ombudsman.

An FY19 enhancement of \$476,718 was provided in order to fund requirements of the BSA Rental Housing Registration Update Amendment Act of 2018.

Justification:

TBD

(CR0) DEPT. OF CONSUMER AND REGULATORY AFFAIRS

MISSION

The Department of Consumer and Regulatory Affairs (DCRA) protects the health, safety, economic interests and quality of life of residents, businesses and visitors in the District of Columbia by ensuring code compliance and regulating business.

BACKGROUND

DCRA is responsible for regulating construction and business activity in the District of Columbia. The agency operates a consolidated permit intake center, as well as reviews construction documents to ensure compliance with building codes and zoning regulations. Construction activity, buildings and rental housing establishments are inspected and housing code violations are abated, if necessary. To protect consumers, DCRA issues business licenses, professional licenses, registers corporations, inspects weighing and measuring devices used for monetary profit and issues special events permits.

In FY 2018, DCRA registered over 17,000 corporations, completed over 50,000 inspections, and issued over 56,000 permits, 30,000 business and 10,000 professional licenses.

RECENT CIP ACCOMPLISHMENTS

Business Portal – The most recent release of the DC Business Portal allows businesses to apply for and renew many types of DCRA Basic Business Licenses. The portal provides detailed information about the application process and a checklist of required steps for each category. The system offers many enhancements that benefit our customers, such as:

- Customers can completely conduct transactions online and never have to visit DCRA
- Customers can save and resume work on their application as they work through the process
- Customers can work through the “Wizards” to identify exactly what the requirements are for their specific type of business
- Customers can upload all required documents
- Customers can utilize the multi-agency search features for relevant information

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

CR0-ISM11-DCRA BUSINESS PORTAL

Agency: DEPT. OF CONSUMER AND REGULATORY AFFAIRS (CR0)
Implementing Agency: DEPT. OF CONSUMER AND REGULATORY AFFAIRS (CR0)
Project No: ISM11
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Under design
Useful Life of the Project: 10+
Estimated Full Funding Cost: \$6,675,000

Description:

This project will enhance businesses' ability to comply with D.C. Government business regulations when applying and renewing business license(s) by providing these resources:

An online information portal with regulatory information relevant to business licensing in one place and online wizards to provide step-by-step compliance guidance to businesses

An enterprise technology solution that would centralize information from the disparate systems used across agencies to manage the District's business licensing -single point of entry for all businesses to apply or review D.C. business license(s)

Justification:

The business-impacting regulations are enforced by a number of different agencies, primarily:
 1. DCRA, 2. DDOT, 3. DSLBD, 4. DOH, 5. ABRA, 6. OTR

Systems within DC Government are much improved over the last five years, but we have not reached a state of true interagency automation and communication.

Progress Assessment:

Progress is proceeding as planned

CR0-ISM07-IT SYSTEMS MODERNIZATION - DCRA

Agency: DEPT. OF CONSUMER AND REGULATORY AFFAIRS (CR0)
Implementing Agency: DEPT. OF CONSUMER AND REGULATORY AFFAIRS (CR0)
Project No: ISM07
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$26,597,000

Description:

This project funds the continued, multi-year implementation of a variety of mission critical information technology systems involving District licensing, permitting and inspection functions. It also provides for the establishment of interfaces with other District IT systems, facilitating data sharing with OTR, DOH, DDOT, Zoning, Planning and others. This project will improve compliance with District permitting and licensing requirements, increase efficiency and enhance revenues. This will also include the infrastructure to support DCRA's IT systems.

Justification:

DCRA will actively and continuously extend the functionality of its existing enterprise system (CPMS) which is based on Accela Automation and Accela Mobile Apps. This project will improve compliance with District permitting and licensing requirements, increase efficiency, and enhance revenues.

Progress Assessment:

This is an on-going project

(EB0) DEPUTY MAYOR FOR PLANNING AND ECON DEV

MISSION

The Office of the Deputy Mayor for Planning and Economic Development (DMPED) supports the Mayor in developing and executing the District of Columbia's economic development policy.

BACKGROUND

DMPED assists the Mayor in the coordination, planning, supervision, and execution of programs, policies, proposals, and functions related to economic development in the District of Columbia. DMPED sets development priorities and policies, coordinates how the District markets itself to businesses and developers, and recommends and ensures implementation of financial packaging for District development, attraction, and retention efforts. DMPED also works to achieve its mission by focusing on outreach to the business community and neighborhood stakeholders, and by forging partnerships between government, business, and communities to foster economic growth for residents of the District of Columbia.

CAPITAL PROGRAM OBJECTIVES

1. Oversee and coordinate economic growth and investment throughout the District of Columbia.
2. Add to the District's portfolio of affordable housing by promoting the construction of new affordable housing and preserving the District's affordable housing stock.

RECENT ACCOMPLISHMENTS

- The first stage of infrastructure for Saint Elizabeths commenced, paving the way for game-changing development of the first phase of mixed-use redevelopment, as well as the new Entertainment and Sports Arena.
- The Army transferred the Walter Reed Campus to the District of Columbia, in a ceremony with Mayor Muriel Bowser, Congresswoman Eleanor Holmes Norton, Ward 4 Councilmember Brandon Todd, Assistant Secretary of the Army Katherine Hammack, and Deputy Mayor Brian Kenner. Now the development team has begun implementing the first phase of horizontal development, and two schools have opened on the site.
- Deanwood Hills, a 150-unit affordable housing project, broke ground and is moving forward with critical offsite replacement units for the Lincoln Heights and Richardson Dwelling New Community.
- Bruce Monroe, a 400-unit affordable housing project received surplus and disposition approval. This project is a critical offsite component of the Park Morton New Community.
- Audi Field (DC United Stadium) began vertical construction, after the District completed its site preparations on time. The stadium opened July 2018.
- DMPED released a web-based tool to track all of its projects and milestones at <http://open.dc.gov/dmped-delivering/>.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AM0-AMS11-MCMILLAN SITE REDEVELOPMENT

Agency: DEPUTY MAYOR FOR PLANNING AND ECON DEV (EB0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: AMS11
Ward: 5
Location: NORTH CAPITOL ST & MICHIGAN AVE NW
Facility Name or Identifier: MCMILLAN SAND FILTRATION SITE
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$71,129,000

Description:

The 25-acre former McMillan Reservoir Sand Filtration Site, located at North Capitol Street and Michigan Avenue, will be redeveloped into a mixed-use project that will include historic preservation, open space, community center, residential, retail, office, and healthcare uses. The Historic Preservation Review Board, Zoning Commission, and the National Capital Planning Commission approved the master plan for McMillan. Further, the DC Council has approved the surplus and disposition of McMillan. The goal is to create an architecturally distinct, vibrant, mixed-use development that provides housing, employment, retail, cultural, and recreational opportunities for District residents.

The net proceeds from the disposition of the McMillan Sand Filtration Site will be deposited into the capital fund account associated with this project to help fund public capital eligible items.

Justification:

McMillan will be a transformative, large-scale redevelopment of its neighborhood. Transformative impact is expected within the context of the overall redevelopment timeline.

Progress Assessment:

The District's Department of General Services (DGS) solicited a general contractor for McMillan and selected Gilbane. Groundbreaking for the stabilization and restoration of the historic assets in the service courts occurred on December 7, 2016. These construction activities will commence shortly.

EB0-EB008-MP-NEW COMMUNITIES

Agency: DEPUTY MAYOR FOR PLANNING AND ECON DEV (EB0)
Implementing Agency: DEPUTY MAYOR FOR PLANNING AND ECON DEV (EB0)
Project No: EB008
Ward:
Location: VARIOUS
Facility Name or Identifier: NEW COMMUNITIES
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$185,956,000

Description:

The vision for the New Communities Initiative is for vibrant mixed-income neighborhoods that address both the physical architecture and human capital needs, where residents have quality affordable housing options, economic opportunities and access to appropriate human services. This comprehensive project is to provide the necessary budget for a defined group of projects supporting the District’s infrastructure assets associated with the New Communities Initiative.

This Master project will provide the necessary budget for a defined group of projects that support the District’s horizontal infrastructure assets. Individual projects, which are specific District assets, collectively provide and account for budget needs, so that the District can continue to provide needed upgrades to our system and its components, which will enable network maintenance and operations that utilize current technology. As projects are planned and ready for implementation, budget allocation requests will be made – through the Office of Budget and Planning – from the Master project, so that expenditures are properly recorded to the correct asset.

Justification:

This project includes the comprehensive redevelopment of neighborhoods with high concentrations of low income housing and high rates of crimes. The projects replace low density single use housing with stable neighborhood anchors such as schools, community centers, neighborhood servicing retail to create sustainable safe mixed income mixed use community.

Progress Assessment:

On an annual basis, the Office of the Deputy Mayor for Planning and Economic Development and the District of Columbia Housing Authority shall submit a written report to the Chairperson of the Committee on Economic Development for the District of Columbia, in accordance with the Fiscal Year 2014 Budget Support Act of 2013.

EB0-AWR01-SAINT ELIZABETHS E CAMPUS INFRASTRUCTURE

Agency: DEPUTY MAYOR FOR PLANNING AND ECON DEV (EB0)
Implementing Agency: DEPUTY MAYOR FOR PLANNING AND ECON DEV (EB0)
Project No: AWR01
Ward: 8
Location: 2700 MARTIN LUTHER KING JR AVENUE SE
Facility Name or Identifier: SAINT ELIZABETHS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$273,266,000

Description:

The 183-acre lot will be transformed into a marketplace of ideas, innovation, commercialization, and a new Entertainment and Sports Area. This project will fund public infrastructure improvements needed to support all planned future development at St. Elizabeths East, including roadways, water, gas, electric, telecommunications, streetscapes and street lighting, in addition to the demolition of certain non-contributing structures at the campus. This project will also fund a Chapel Renovation.

Justification:

The project will leverage the \$3.4 billion federal investment in the West Campus and stimulate revitalization and regeneration in Ward 8. This project aligns with Sustainable DC Action: Water 3.3.

Progress Assessment:

Development on the East Campus is guided by the Saint Elizabeths East Redevelopment Framework Plan, which was approved by the DC Council in December 2008. Implementation of the Plan recommendations are currently underway and involve a broad coalition of stakeholders.

(FA0) METROPOLITAN POLICE DEPARTMENT

MISSION

The mission of the Metropolitan Police Department is to safeguard the District of Columbia and protect its residents and visitors with the highest regard for the sanctity of human life. We will strive at all times to accomplish our mission with a focus on service, integrity, and fairness by upholding our city's motto, *Justitia Omnibus - Justice for All*.

BACKGROUND

MPD's capital program is categorized into two primary programs: fleet and technology. Facilities programs are under the management of the Department of General Services.

MPD's fleet program is a part of the citywide Short-Term financing program. MPD maintains approximately 1,640 vehicles in the fleet, including 935 marked cruisers, 480 unmarked cruisers, and 225 specialty/support vehicles. The Department funds the replacement cycle of patrol cars, motorcycles, and the related equipment required to operate these vehicles.

MPD's technology program seeks to modernize and automate the police force. Maintaining the replacement schedule for computers, establishing paperless records, and consolidating criminal databases are key to improving efficiency.

Refreshing the citywide camera network is critical for observing and monitoring high-crime areas. The inventory of computers includes approximately 2,000 desktops and 850 laptops (deployed in the field). The criminal databases consist of more than 30 data sources. The citywide camera network includes 167 cameras.

CAPITAL PROGRAM OBJECTIVES

1. Maintain the fleet of police vehicles according to an established replacement cycle.
2. Maintain current IT investments and continuously identify and implement new technology solutions to achieve greater efficiency, automation of police operations, and enhanced community safety.

RECENT ACCOMPLISHMENTS

- Additional funding has allowed MPD to replace some of its aging vehicles at the preferred replacement cycle. MPD projects two additional years of sustained funding will be required to return the entire fleet back to the preferred replacement cycle for the patrol fleet.
- MPD deployed Phase 1 of the *e-commerce* system. Current capabilities include online requests and payment for citizen reports as well as online boat registration.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

FA0-WAM40-DATA WAREHOUSE & ANALYTICS MODERNIZATION

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Project No: WAM40
Ward:
Location: 300 INDIANA AVENUE NW
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project: 20
Estimated Full Funding Cost: \$375,000

Description:

Modernize our data warehouse architecture. This includes but is not limited to curating more data in real-time or near real-time. We plan on doing this by building a data lake of almost all structured data as well as metadata for the unstructured data such as BWC, LPR, etc. Once this data is readily available, it can be easily and quickly integrated into our dimensional models and data marts for analysis and reporting.

Justification:

System Upgrade

Progress Assessment:

AM0-BRM20-DETENTION AREA RENOVATIONS

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: BRM20
Ward: 2
Location: 300 INDIANA AVENUE, NW
Facility Name or Identifier: DALY BUILDING
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$3,750,000

Description:

MPD is responsible for the booking/holding/transportation of all arrestees to the Central Cell Block. The detention areas of four of these facilities are in grave disrepair, and are functionally obsolete. The request will fund the complete renovation of each of the detention areas to bring them up to ACA standards for arrestee and officer safety.

AM0-PL110-MPD SCHEDULED CAPITAL IMPROVEMENTS

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: PL110
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$30,476,000

Description:

The project is the source of funding and life line for all planned and emergency capital replacement needs of MPD. In FY'19 – The projects scheduled to be funded include: Indoor Firing Range HVAC Upgrades, Harbor Patrol Floating Dock Replacement, HVAC Moderation/Upgrades at 1D/ 1D Sub, 4D Substation, Roof Stabilization/Replacement at 4D, Window glazing upgrades at 2D, 4D, 5D, and Structural Water Proofing Upgrades at 4D & 5D.

Justification:

The vast majority of MPD facilities were constructed over 30 years ago and the building systems and components are beyond the lifecycle capacity. As those systems and components fail, or Facility Condition Assessments require, they must be replaced and upgraded to ensure continuous operation in support of the MPD mission which operates on a 24/7/365 basis.

Progress Assessment:

FY 2020 Planned Spending

1. Police Stations: CCTV upgrades to IP cameras-\$615,000.00
2. 1D and 4D substations, 3D main station: HVAC Stabilization- \$750,000.00
3. Various Police Stations: Roofing Stabilization-\$362,500.00
4. 2850 NY Ave: Demo and Expansion of locker room and admin space-\$562,500.00
5. 4D and 5D: Locker room/Roll Call/Report writing water proofing upgrades-\$180,000.00
6. Police Academy: Renovations of basement class rooms and locker rooms-\$235,000.00
7. Fleet Maintenance Facility: Epoxy floor coating and exterior lighting upgrades-\$195,000.00
8. 1D, 4D and 5D: Parking lot stabilization-\$280,000.00
9. GLLU/ALU/LLU: Renovations of admin and locker room areas-\$190,000.00

FA0-PEQ22-SPECIALIZED VEHICLES - MPD

Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Implementing Agency: METROPOLITAN POLICE DEPARTMENT (FA0)
Project No: PEQ22
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$60,798,000

Description:

Supports the annual replacement of patrol cars for MPD, currently on a 5 year replacement schedule. This budget returns MPD to the required funding level. It is known that the CARSS replacement criteria needs to be modified.

Justification:

MPD maintains 1,639 vehicles in its fleet including 802 marked cruisers, 409 unmarked cruisers, and 428 speciality/support vehicles.

Progress Assessment:

This project is ongoing to facilitate more rapid replacement of fleet vehicles.

(FB0) FIRE AND EMERGENCY MEDICAL SERVICES

MISSION

The mission of the Fire and Emergency Medical Services Department (FEMS) is to preserve life and promote health and safety through excellent pre-hospital treatment and transportation, fire prevention, fire suppression, rescue activities, and homeland security awareness.

SCOPE

FEMS provides emergency medical services (EMS), fire suppression, homeland security and special operations response for the District of Columbia, including planned events and activities unique to the nation's capital. The department is responsible for fire and life safety code enforcement, along with community-based education and prevention programs. FEMS is the lead first-response agency for managing consequences resulting from natural disasters or other catastrophic events impacting the national capital region. To provide these services the department maintains a response fleet of 99 ambulances, 101 fire apparatus, 4 fire boats, and 162 support vehicles. The department has 34 neighborhood fire stations and 7 support facilities. Major facilities include: Headquarters, Logistics Warehouse, Training Academy and the Fleet Maintenance Facility.

CAPITAL PROGRAM OBJECTIVES

1. Plan for and provide a comprehensive renovation of each of the FEMS buildings to bring them into compliance with modern codes and standards as well as personnel and fleet requirements.
2. Design, equip, and install enhanced communication and information management systems that allow for greater efficiency of operations, accountability, and exchange of information with the Office of Unified Communications (OUC) 911 Center and other public safety agencies that coordinate emergency responses for the citizens and visitors of the District.
3. Replace FEMS vehicles to meet or exceed the National Fire Protection Association (NFPA) standards.
4. Develop plans for public or private development of stations that would provide the potential to sell the air rights above stations.

RECENT FACILITY CAPITAL ACCOMPLISHMENTS

- **Engine 2** Sitting room HVAC replacement October 2018
- **Engine 7** RTU replacement July 2018
- **Engine 12** Rear Training area concrete repair August 2018
- **Engine 17** Replace the RTU July 2018
- **Engine 23** New Bi-folding doors 2018 September 2018
- **Engine 24** Replaced rear training area concrete and exterior LED lights on the Ready Reserve Building August 2018
- **Engine 26** Water proofed basement new sump pump system July 2018
- **Upgrade to the key Fob security in the station** November 2018
- **New SCBA compressors at E-8 and E-4** E-8 was completed on November 2018 and E-4 was completed November 2018
- **Fleet RTU** October 2018
- **Engine 23** Renovation coming
- **Engine 8** Small renovation (kitchen, bunkroom, chief office and bunkroom etc...)
- **Engine 33** Kitchen Renovation
- **Engine 7, Engine 11, and Engine 31** Small appliance upgrade projects

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

FB0-206AV-ADMINISTRATIVE VEHICLES - FEMS

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Project No: 206AV
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: FEMS VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$2,490,000

Description:

This project funds the needed FEMS vehicle replacements for the fleet of administrative vehicles, auto’s pick-up trucks etc. To provide critical public safety service for the District, FEMS must have a fleet of fully functional vehicles in good working order, and that are operational at all times. As vehicles are used they naturally age, and their condition deteriorates with continued use, and additional mileage, thus driving up the costs to maintain the vehicle, and even to keep it in service. Timely replacement of vehicles when they reach a critical age, condition, or state of repair is essential for FEMS to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District’s fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours and, anticipated ongoing maintenance costs trends. This project represents the needs and timing of the vehicle replacements of this type which are needed to have a fully functional fleet that is in good condition and, available to serve the needs of the agency in providing service to the District.

Progress Assessment:

On-going project

FB0-206AM-AMBULANCE VEHICLES - FEMS

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Project No: 206AM
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: FEMS VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$18,302,000

Description:

This project funds the needed FEMS vehicle replacements for the fleet of ambulance vehicles. To provide critical public safety service for the District, FEMS must have a fleet of fully functional vehicles in good working order, and that are operational at all times. As vehicles are used, they naturally age, and their condition deteriorates with continued use and additional mileage, thus driving up the costs to maintain the vehicle, and even to keep it in service. Timely replacement of vehicles when they reach a critical age, condition, or state of repair is essential for FEMS to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District's fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours and, anticipated ongoing maintenance costs trends. This project represents the needs and timing of the vehicle replacements of this type which are needed to have a fully functional fleet that is in good condition and, available to serve the needs of the agency in providing service to the District.

FB0-206CV-COMMAND VEHICLES - FEMS

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Project No: 206CV
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: FEMS VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$2,732,000

Description:

This project funds the needed FEMS vehicle replacements for the fleet of command vehicles. To provide critical public safety service for the District, FEMS must have a fleet of fully functional vehicles in good working order, and that are operational at all times. As vehicles are used, they naturally age, and their condition deteriorates with continued use and additional mileage, thus driving up the costs to maintain the vehicle and even to keep it in service. Timely replacement of vehicles when they reach a critical age, condition, or state of repair is essential for FEMS to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District’s fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours and, anticipated ongoing maintenance costs trends. This project represents the needs and timing of the vehicle replacements of this type which are needed to have a fully functional fleet that is in good condition and, available to serve the needs of the agency in providing service to the District.

Progress Assessment:

On-going project

AM0-LC537-ENGINE COMPANY 23 RENOVATION

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: LC537
Ward: 2
Location: 2119 G STREET NW
Facility Name or Identifier: ENGINE COMPANY 23
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$7,500,000

Description:

The Department of General Services (DGS) in coordination with the Fire and Emergency Medical Services (FEMS) will utilize the funds in this project account for the design, renovation, project management, and commissioning costs associated with the renovation of the facility. Renovations at this facility will bring the facility into compliance with current DCRA & NFPA codes for buildings that house firefighters. The renovation will replace/upgrade the existing building systems and areas that are beyond their product lifecycle and provide emergency efficiency upgrades to the electrical HVAC, and exterior historic window system.

Justification:

Originally built in 1910, Engine 23 has not had a major renovation in over 28 years and the infrastructure of this station has long passed its useful life expectancy. It has only had minor improvements or upgrades since it was constructed in 1910 and none since 1984. All of the major systems are in poor condition. Renovating this station to modern LEED standards will result in an operating cost savings while preserving this historic landmark. This project aligns with Sustainable DC Action: Built Environment 3.5.

Progress Assessment:

On-going project

AM0-BRM22-ENGINE COMPANY 7

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: BRM22
Ward: 6
Location: 1101 HALF STREET SW
Facility Name or Identifier: ENGINE COMAPANY 7
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$14,750,000

Description:

Design and replacement of Engine 7 is co-located with the apparatus maintenance facility, so since it's a high priority for the apparatus facility to be moved, Engine 7 must be as well. EC7 replacement is closely associated with the construction of a new Fleet Maintenance facility (project FMF01), because the existing location is physically adjoined to the existing Fleet Maintenance facility. The first steps for this project will be site selection and design.

Justification:

Design and replacement of engine company 7 -- Engine 7 is co-located with the apparatus maintenance facility, so since it's a high priority for the apparatus facility to be moved, Engine 7 must be as well.

Progress Assessment:

N/A

Related Projects:

Apparatus maintenance facility (Project FMF01C). This project was prioritized in 2016 due to capacity constraints and facility deficiencies.

FB0-FEP00-FEMS SAFETY EQUIPMENT PURCHASES

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Project No: FEP00
Ward: 5
Location: 3170 V STREET NE
Facility Name or Identifier: FEMS SAFETY EQUIPMENT PURCHASES
Status: Developing scope of work
Useful Life of the Project: 10
Estimated Full Funding Cost: \$11,540,000

Description:

This project is the fund the acquisition of capital-eligible safety equipment purchases for Fire and Emergency Medical Services (FEMS), to include (but not limited to) Self Contained Breathing Apparatus (SCBA) equipment, and other capital-eligible safety equipment. This project excludes apparatus purchases, which are funded through other distinct capital projects.

Justification:

FEMS requires a capital project to identify and fund critical capital-eligible equipment purchasing needs.

Progress Assessment:

It has not started

AM0-LF239-FEMS SCHEDULED CAPITAL IMPROVEMENTS

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: LF239
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$34,586,000

Description:

The Department of General Services (DGS) in coordination with the Fire and Emergency Medical Services (FEMS), will utilize the funds in this project account for the design, renovation, relocation, project management, and commissioning costs associated with the RENOVATION PROJECTS that are reviewed/approved by the Fire Chief on an annual basis. The renovation projects occur across the entire FEMS facilities inventory (36 locations) and include, but are not limited to the following types of work: Demolition, Abatement, Concrete/Masonry, Thermal Moisture Protection, Framing, Drywall, Painting, Fire Suppression, Plumbing, HVAC, Electrical, Site Infrastructure, Physical Security/Force Protection Installations, Commercial Kitchen, Roofing, Conveying, Commercial Laundry, and Main Distribution Frames upgrades.

Justification:

The vast majority of FEMS facilities were constructed over 30 years ago and the building systems and components are beyond the lifecycle capacity. As those systems and components fail, or Facility Condition Assessments require, they must be replaced and upgraded to ensure continuous operation in support of the FEMS mission which operates on a 24/7/365 basis.

Progress Assessment:

Progressing in multiple phases

FY 2020 Planned Spending

1. FEMS PPE Gear Cleaning Equipment (Phase 2): \$500,000
2. FEMS Roofing Stabilization (Phase 2): \$350,000
3. FEMS Apparatus Bay Door Replacement: \$415,000
4. FEMS HVAC Stabilization (Phase 3): \$600,000
5. FEMS Neederman Upgrades: \$385,000

AM0-FMF01-FLEET MAINTENANCE RESERVE FACILITY

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: FMF01
Ward:
Location: TBD
Facility Name or Identifier: FLEET MAINTENANCE FACILITY
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$48,000,000

Description:

The Department of General Services (DGS) in coordination with the Fire and Emergency Medical Services (FEMS), will utilize the funds in this project account for the design, renovation, relocation, project management, and commissioning costs associated with the construction of a new FEMS Fleet Maintenance Facility. FEMS needs a new fleet maintenance facility to address capacity constraints and deficiencies with the current facility. To date, Requirements, Test Fit, and Project Cost Estimate are completed. Funding was provided in FY19 to hire an A/E to develop 35% drawing for the project. The request in FY20 is to fund the completion of the Contract. Drawings and Specifications and to fund the construction of the project in subsequent years. The new facility will provide the FEMS Apparatus Division the capacity to perform the mandated preventative maintenance, repairs, commissioning, and other vehicle upgrades required by the manufacturer. This project will extend the life cycle of ALL of FEMS vehicles and wheeled apparatus, and keep the fleet in front-line service. In addition, it will allow FEMS to store enough vehicles in a READY RESERVE status so when vehicles go out of service, another vehicle will be on standby to allow the unit to return to active duty.

Justification:

Modernization of FEMS Facilities and upgrade to overall Fleet readiness and maintenance capacity.

Progress Assessment:

On-going project

FB0-206LT-LADDER TRUCKS - FEMS

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Project No: 206LT
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: FEMS VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$21,713,000

Description:

This project funds the needed FEMS vehicle replacements for the fleet of ladder truck vehicles. To provide critical public safety service for the District, FEMS must have a fleet of fully functional vehicles in good working order, and that are operational at all times. As vehicles are used, they naturally age, and their condition deteriorates with continued use and additional mileage, thus driving up the costs to maintain the vehicle and even to keep it in service. Timely replacement of vehicles when they reach a critical age, condition, or state of repair is essential for FEMS to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District’s fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours and, anticipated ongoing maintenance costs trends. This project represents the needs and timing of the vehicle replacements of this type which are needed to have a fully functional fleet that is in good condition and, available to serve the needs of the agency in providing service to the District.

FB0-NFB01-NEW FIRE BOAT-1

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Project No: NFB01
Ward:
Location: ANACOSTIA & POTOMAC RIVERS
Facility Name or Identifier: FEMS VEHICLES
Status: New
Useful Life of the Project: 12
Estimated Full Funding Cost: \$12,290,000

Description:

The new Fireboat 1 (FB-1) should continue to be the largest vessel in the fleet and the National Fire Protection Association (NFPA) Type II vessel. Although the vessels in the Marine Firefighting Unit (MFU) fleet appear to complement each other in terms of speed and function, the John Glenn (current FB-1) lacks the speed, command platform capabilities, and air draft clearance needed to perform effectively and efficiently in the MFU area of responsibility (AOR), where the primary response mission is search-and-rescue rather than fire suppression. The new FB-1 should be a jet-propulsion boat of approximately the same length as the current FB-1. A jet propulsion system makes better sense for the FB-1 mission than a propeller-driven vessel for a number of reasons. Jets allow a shallower draft, they are more maneuverable, and they can get up "on plane" faster than propeller-driven boats. Finally, given the amount of debris and obstacles in the waterways of the AOR, a jet boat is less likely to sustain disabling damage than a propeller-driven one. Consider having the new FB-1 be capable of breaking ice up to 6 inches thick. By limiting the requirement for ice-breaking to having the capability to break up to 6 inches of ice, the Fire and Emergency Medical Services Department (FEMS) could purchase an aluminum fireboat, saving money and increasing the boat's operational flexibility and speed.

Justification:

It replaces the aged John Glenn as recommended by the BDA Global, LLC, final report dated July 2017

Progress Assessment:

New project.

FB0-206RV-OTHER RESPONSE VEHICLES - FEMS

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Project No: 206RV
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: FEMS VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$3,074,000

Description:

This project funds the needed FEMS vehicle replacements for the fleet of response vehicles. To provide critical public safety service for the District, FEMS must have a fleet of fully functional vehicles in good working order, and that are operational at all times. As vehicles are used, they naturally age, and their condition deteriorates with continued use and additional mileage, thus driving up the costs to maintain the vehicle and even to keep it in service. Timely replacement of vehicles when they reach a critical age, condition, or state of repair is essential for FEMS to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District’s fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours and, anticipated ongoing maintenance costs trends. This project represents the needs and timing of the vehicle replacements of this type which are needed to have a fully functional fleet that is in good condition and, available to serve the needs of the agency in providing service to the District.

Progress Assessment:

New project

AM0-LC837-RELOCATION OF ENGINE COMPANY 26

Agency: FIRE AND EMERGENCY MEDICAL SERVICES (FB0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: LC837
Ward: 5
Location: 1340 RHODE ISLAND AVENUE NE
Facility Name or Identifier: ENGINE COMPANY 26
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$10,600,000

Description:

The Department of General Services (DGS) in coordination with the Fire and Emergency Medical Services (FEMS) will utilize the funds in this project account for the design, renovation, relocation, project management, and commissioning costs associated with the construction of a new EC26 facility.

Relocation of Engine 26 to a more central location in its service area along the Rhode Island Avenue, NE and South Dakota Avenue, NE corridors. This project would be the final relocation of fire station facilities under the Department’s 50-year Master Plan. Funds in FY20 would be for site planning purposes and Phase I Architecture & Engineering.

The new facility will be constructed within the existing response area on DC Government owned land and significantly improve the capabilities of EC 26 and the surrounding 1st Battalion. The construction of the new facility will not only improve EC26 physical facilities, but it will also improve response time of the units stationed there because the location of the fire stations will be more centralized within the response area and from other FEMS fire stations.

Justification:

Ongoing modernization of FEMS facilities and upgrade of FEMS EC26 to local response area.

Progress Assessment:

Progressing as planned

(FL0) DEPARTMENT OF CORRECTIONS

MISSION

The mission of the District of Columbia Department of Corrections (DOC) is to provide a safe, secure, orderly, and humane environment for the confinement of pretrial detainees and sentenced inmates, while affording those in custody meaningful rehabilitative opportunities for successful community reintegration.

BACKGROUND

DOC operates and maintains the 450,000 SF Central Detention Facility (CDF or DC Jail), and the 450,000 SF Correctional Treatment Facility (CTF). Both facilities are nationally accredited by the American Correctional Association (ACA). DOC also operates the District's Central Cellblock (CCB) arrest booking center. CDF is located at 1901 D Street, SE, and was opened in 1976 with a total capacity to house 2,164 inmates. CTF is located at 1901 E Street SE, and was opened in 1992 with a capacity to house 1400 inmates. Facility populations include pretrial detainees, sentenced misdemeanants and felons, parole violators, writs and holds. Offenders include all custody levels, minimum to maximum security including high profile and protective custody inmates. Both facilities comprise of multiple buildings and housing units with high-tech security and control access systems including closed-circuit television cameras, programmable logic-control (PLC) based modern cell door systems, emergency generators, HVAC systems with associated chillers, integrated fire-alarm systems and an extensive plumbing and steam distribution system. In addition, construction of the new Inmate Reception Center has enlarged CDF's footprint while upgrading mission-critical communication systems such as the radio system and VOIP-based telephone system.

CAPITAL PROGRAM OBJECTIVES

1. Ensure safe, secure and hygienic working and living conditions for all within the Central Detention Facility, the Correctional Treatment Facility, and the Central Cellblock by implementing infrastructure and renovation projects that extend the useful life of all facilities and create new facilities while satisfying correctional institutional standards and court orders.
2. Implement engineering, technology and renovation projects to assist security and operational functions.

RECENT ACCOMPLISHMENTS

- Construction and opening of the Resources to Empower and Develop You (READY) Center and Video Visitation Center (VVC).
- Reconstruction of CDF external sewage line.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AM0-CGN02-CTF GENERAL RENOVATION

Agency: DEPARTMENT OF CORRECTIONS (FL0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: CGN02
Ward: 7
Location: 1901 D STREET SE
Facility Name or Identifier: DC JAIL/CENTRAL DETENTION FACILITY
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$14,500,000

Description:

The Department of General Services (DGS) in coordination with the Department of Corrections(DOC)), will utilize funds for design, renovation, relocation, project management, and commissioning costs associated with the RENOVATION PROJECTS that are reviewed/approved by the Director of DOC on an annual basis. The renovation projects occur across the entire DOC facilities inventory (5 locations) and include, but are not limited to the following types of work: Demolition, Abatement, Concrete/Masonry, Thermal Moisture Protection, Framing, Drywall, Painting, Fire Suppression, Plumbing, HVAC, Electrical, Site Infrastructure, Physical Security/Force Protection Installations, Detention Area Upgrades, Roofing, Conveying, and Main Distribution Frames upgrades

Justification:

The vast majority of DOC facilities were constructed over 30 years ago and the building systems and components are beyond the lifecycle capacity. As those systems and components fail, or Facility Condition Assessments require, they must be replaced and upgraded to ensure continuous operation in support of the DOC mission which operates on a 24/7/365 basis.

Progress Assessment:

On-going subproject

AM0-MA220-EMERGENCY POWER SYSTEM UPGRADES

Agency: DEPARTMENT OF CORRECTIONS (FL0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: MA220
Ward: 7
Location: 1901 D STREET, SE
Facility Name or Identifier: DC JAIL/CENTRAL DETENTION FACILITY
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$13,786,000

Description:

There are three 540 kilowatt generators that provide emergency power to the Central Detention Facility electrical sub-systems selectively. They cannot support the four chillers and the associated cooling towers and other related equipment along with the rest of the facility. Additionally, the automatic transfer switches are outdated and need replacement. Therefore, in order to provide a proper backup in the event of power failure in the facility, an additional new generator, new automatic transfer switches, and a reconfiguration of the electrical power system in the facility are urgently needed. The Central Detention Facility, which occupies approximately 450,000 square feet of floor area and houses up to 2,000 inmates, is comprised of a five-storied Administration Building and three-storied inmate housing area modules. Under this project, the electrical distribution in the facility will be reconfigured so that the three existing generators support all loads except the four chillers and the associated pumps and cooling towers. New automatic transfer switches and panels will replace the existing ones. A new generator with approximately 1300 KVA-rated capacity will be installed in the penthouse and it will be configured to support the four chillers and their associated equipment.

Justification:

Ensuring adequate emergency power is imperative for safety and security at the CDF.

Progress Assessment:

FY 2020 Planned Spending

1. Central Detention Facility & Correctional Treatment Facility & Ready Center/Video Visitation Center: Addresses the on-going refurbishments, renovations and rebuilds supporting temporary and permanent generators, switch gears, and supporting electrical/structural work-\$2,500,020.00

AM0-MA203-EXTERIOR STRUCTURAL FINISHING

Agency: DEPARTMENT OF CORRECTIONS (FL0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: MA203
Ward: 7
Location: 1901 D STREET SE
Facility Name or Identifier: DC JAIL/CENTRAL DETENTION FACILITY
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$11,687,000

Description:

Integrity of the external envelope of the Central Detention Facility has been compromised over time because of the deterioration of the subliminal fillers and the grout binding structural elements, including the pre-cast concrete panels forming the walls and stone and tile work on pavements. Because of such deterioration of the envelope, the building is unprotected from the natural elements and numerous water leaks, some of them major, show up all over the building following a rainfall as do many pockets of very cold or very hot air in various parts of the facility with fluctuating outside temperatures. These kinds of conditions urgently need to be corrected by tightly sealing up the external structural components together because, if unaddressed, they may result in significant health and safety hazards. The Central Detention Facility, which occupies approximately 450,000 square feet of floor area and houses over 2200 inmates, is comprised of a five store Administration Building and three storied inmate housing area modules. The total height of the housing modules is greater than the Administration Building because there is a mezzanine level on each of the three floors.

Justification:

The exterior walls are comprised of pre-cast panels with windows embedded in them. Most grouting there is flexible. The paved areas around the facility are topped with various kinds of materials such as stone, quarry tile, asphalt etc. All wall grouting needs to be cleaned out and redone. The pavement sub-base and the topping need to be repaired as needed and then sealed appropriately.

Progress Assessment:

FY 2020 Planned Spending

1. Central Detention Facility & Correctional Treatment Facility: Addresses the on-going refurbishments, renovations and rebuilds of external structural items including but not limited to: masonry, windows, drainage, foundation and roof-\$1,965,800.00

AM0-CGN01-GENERAL RENOVATIONS AT DOC FACILITIES

Agency: DEPARTMENT OF CORRECTIONS (FL0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: CGN01
Ward: 7
Location: 1901 D STREET SE
Facility Name or Identifier: DC JAIL/CENTRAL DETENTION FACILITY
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$16,209,000

Description:

Multiple Task Order Project addressing upgrading of various HVAC, Mechanical and other Building Systems. Task Order includes two phases. Phase 1 provides for the Assessment/feasibility study and Phase 2 provides for the design and construction of various systems upgrades based on the study.

Justification:

CDF is almost a 40 years old structure continuously used 24/7, 365 days a year that faces extreme wear and tear. Upkeep and maintenance of CDF is critical to the mission of the agency because it is required to safely house over 2,000 inmates and provide operational support, while complying with applicable standards and regulations.

Progress Assessment:

FY 2020 Planned Spending

1. Central Detention Facility & Correctional Treatment Facility: Addresses the on-going refurbishments, renovations and rebuilds of mechanical, electrical, plumbing, and interior structural needs of inmate housing units, culinary, laundry, educational, medical, recreational and administrative areas, while also supporting the needs of internal movement control and elevators-\$1,800,000.00

AM0-CGN08-HEATING SYSTEM REPLACEMENT

Agency: DEPARTMENT OF CORRECTIONS (FL0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: CGN08
Ward: 7
Location: 1901 D STREET SE
Facility Name or Identifier: JAIL
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$30,122,500

Description:

This project will replace the current heating system for the DC Jail, located at 1901 D Street, SE, with a total capacity to house 2,164 inmates. The CDF was opened in 1976 and is currently heated via a central steam plant. The project will install packaged boilers on the CDF to provide reliable heat to CDF facilities, and will allow for the closure of the steam plant. The boiler design would allow the new heating system to continue to be used following future renovation or replacement of the CDF. The project scope includes, but is not limited to, design, project management, construction services, including demolition and site work, and commissioning services.

Justification:

The DC Jail heating is currently supplied by a central steam plant located on DC General Hospital campus site. The steam plant is beyond its useful life and requires high maintenance due to its aging components. The planned demolition of DC General Hospital and other buildings will make the steam plant less efficient to operate, aside from the aging system components. A new engineered standalone heating system dedicated to DC Jail will ensure that reliable heat supply is provided to DC Jail and at an appropriate temperatures during cold weather, and will promote safe, secure and hygienic working and living conditions for all occupants

Progress Assessment:

FY 2020 Planned Spending

1. DC Correctional Campus:Replacement of Steam Plant that supplies heat and hot water to the entire DC Jail campus-\$12,187,500

AM0-CR104-HVAC REPLACEMENT FOR CDF

Agency: DEPARTMENT OF CORRECTIONS (FL0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: CR104
Ward: 7
Location: 1901 D STREET SE
Facility Name or Identifier: DC JAIL/CENTRAL DETENTION FACILITY
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$27,970,000

Description:

The heating, ventilation and air-conditioning system at the Central Detention Facility have had significant, on-going problems and the water supply to the facility has been extremely problematic. The main booster pumps are at the end of their useful life and no filters, softeners or strainers are installed on the system. All work that was part of the original contract has been completed. However, in order for the sytem to perform in accordance with the design parameters and deliver the requisite amount of air in the cellblocks, additional fine tuning is necessary; four large rooftop duct fittings need to be replaced, transitions from the large rooftop units need to be modified and final air and water balancing needs to be done for the system to work properly. Chiller, steam station and associated piping overhaul is also included.

Justification:

Air handling units serving the cellblocks are located in the respective mechanical rooms, which are overcrowded and in a poor state of repair. This project is needed to ensure that air quality in the jail, including CO2 levels, air flow, air temperature and humidity is maintained at acceptable levels. This project aligns with Sustainable DC Action: Energy 1.4.

Progress Assessment:

Progressing in multi-phases

AM0-CRB01-NEW CORRECTIONAL FACILITY FOR (CDT) AND (CTF)

Agency: DEPARTMENT OF CORRECTIONS (FL0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: CRB01
Ward: 7
Location: 1901 D STREET SE
Facility Name or Identifier: CENTRAL DETENTION & CENTRAL TREATMENT FACILITIES
Status: Predesign
Useful Life of the Project: 30
Estimated Full Funding Cost: \$5,000,000

Description:

The capital project will fund the design phase of a new correctional facility to replace the Central Detention Facility (CDF) and the Central Treatment Facility (CTF), as overseen by the Department of Correction (DOC). In addition, the new facility will be designed to detain sentenced felons as convicted under the District of Columbia Official Code.

Justification:

These two facilities are outdated, inefficient, and ill-conceived. The CDF and CTF have operated well below capacity for years, yet there remains a severe lack of programmatic space which is essential to positive reentry. With this, there is simultaneously an abundance of unused space and a dearth of necessary space. A new facility would be right-sized to accommodate the current jail population while recognizing what is needed to encourage true rehabilitation and reduced recidivism.

The District has not operated its own prison system since 2001. The National Capital Revitalization and Self-Improvement Government Act of 1997 provided for the closure of the Lorton Correction Complex and for the transfer of its felony population to a Federal Bureau of Prisons facility. Accordingly, from that point on, any person convicted of a felony under the D.C. Code was to be incarcerated within the Bureau of Prisons, not DOC.

One of the most pivotal consequences of this custodial transfer is that DC residents convicted of felonies could serve their sentence anywhere in the country, including states as distant as California. Such an arrangement makes it virtually impossible to maintain family visits. Furthermore, it does not promote successful reentry as the inmate is completely detached from the resources, community, and network to which he or she will eventually return.

Progress Assessment:

Predesign

(FR0) DEPARTMENT OF FORENSIC SCIENCES

MISSION

The mission of the Department of Forensic Sciences (DFS) is to produce high-quality, timely, accurate, and reliable forensic science with the use of the best available technology and practices, unbiased science, and transparency with the overall goal of enhancing public health and safety.

SCOPE

DFS provides independent analysis of evidence and samples submitted by agencies within the District of Columbia and its federal neighbors. The Forensic Science Laboratory division analyzes evidence submitted from criminal charges, including DNA, fingerprints, firearms and digital technologies. DFS also provides expert witness testimony in defense of their analytical reports in the District's courts of law. The Public Health Laboratory division provides diagnostic and analytical testing for biological pathogens and chemical agents from clinical, environmental, or food sources and provides emergency response testing. The Crime Scene Sciences division collects analyzes, processes, and preserves evidence found at crime scenes in the District. The DFS Directorate supports the work of the entire agency through strategic direction, training, quality assurance, research, recruitment and hiring of personnel, information technology, data management, fleet management, procurement, and other administrative support services.

CAPITAL PROGRAM OBJECTIVES

- Provide the infrastructure to retain data from high resolution cameras for crime scene photography, high resolution 3D Laser (LIDAR) Scanners for Crime Scene Mapping.
- Provide the infrastructure to facilitate a digital repository, called Mideo, to enhance the digital analysis of firearms and latent fingerprints.
- Provide the digital storage to utilize next generation sequencing equipment for DNA analysis and the analysis of public health samples.
- Support DNA mixture interpretation software, called STRMix, to accurately determine suspicious DNA on crime scene evidence.
- Invest in the digital infrastructure to market services provided by the Digital Evidence Unit to increase evidence intake.
- Maintain digital storage capacity for an operation that creates digital evidence at an average rate of 2-4 terabytes per day.

HIGHLIGHTS OF RECENT ACCOMPLISHMENTS

New software application investments:

Mideo – For digital workflow analysis in Fingerprints and Firearms as well as Digital Image Management.

STRMix – to accurately determine suspicious DNA on crime scene evidence.

MiSeq – Next Generation DNA Sequencing.

Leica 3D Imaging Solution – For constructing accurate 3D models of Crime Scenes.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

FR0-DCI19-CAPITAL AND I.T. EQUIPMENT - DFS

Agency: DEPARTMENT OF FORENSIC SCIENCES (FR0)
Implementing Agency: DEPARTMENT OF FORENSIC SCIENCES (FR0)
Project No: DCI19
Ward: 6
Location: 401 E STREET SW
Facility Name or Identifier: CONSOLIDATED FORENSIC LABORATORY
Status: In multiple phases
Useful Life of the Project: 5
Estimated Full Funding Cost: \$1,558,000

Description:

In FY19, DFS was allotted \$1.2 million in capital funding to procure new laboratory and IT equipment. New equipment assists the department with meeting accreditation standards, helping scientists solve complex analytical challenges, and provide faster turnaround time of results to our stakeholders.

In FY2020, the department requested continued funding.

Justification:

The Department of Forensic Sciences, collects, examines, analyzes, and reports on physical samples within the Public Health Laboratory, Forensic Science Laboratory, and the Crime Scene Sciences Unit. In order for the department to maintain integrity within its science, the DFS must keep up with industry standards and increased workload demands by employing new technology.

In FY2020, DFS is requesting \$347,036 to purchase the following equipment below.

Progress Assessment:

- Gerstel Multipurpose Sampler Robotic Pro 160cm (2) and Agilent 5977B HES MSD Turbo EI and 7890B GC system (2) (\$557,192.27) – Equipment provides rapid analysis of drug evidence for controlled dangerous substances, such as fentanyl or cocaine. The result of this technique will permit significantly shorter turn-around-times and overall casework output.
- Crime Scene Sciences Radios (\$140,399.19) – The District has an executed MOU with the Office of Unified Communications to procure 27 new radios for the department. DFS will equip each crime scene scientist with a radio to ensure the timely and accurate response to crime scenes in the District.
- Drying Chamber (\$20,000) – Critical for drying and preserving crime scene samples and evidence.
- Nucleic Acid Extractor and Liquid Handler (\$48,000) – This equipment will automate the extraction of DNA which streamlines the process creating great efficiencies with the Public Health Laboratory.
- Meridian Image Solutions (\$89,851.58) – DFS will procure 11 printers to replace older model printers that are currently out of warranty and require significant service due to malfunction.

FR0-FLE19-CRIME SCENE SPECIALIZATION VEHICLES

Agency: DEPARTMENT OF FORENSIC SCIENCES (FR0)
Implementing Agency: DEPARTMENT OF FORENSIC SCIENCES (FR0)
Project No: FLE19
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VEHICLES
Status: In multiple phases
Useful Life of the Project: 5
Estimated Full Funding Cost: \$375,000

Description:

In FY20, DFS requested \$154K for the second capital allotment to purchase ten DFS identified Crime Scene (CSS) specialized vehicles. CSS vehicles are utilized 24 hours each day to collect and preserve evidence from crime scenes in the District.

Justification:

The crime scene specialized vehicle replacement is critical to the effectiveness of our Crime Scene Sciences response to a crime within the District. Originally this responsibility was provided by the Metropolitan Police Department, since then DFS Crime Scene Sciences Division has taken over the role of collecting and transporting evidence from the crime scenes. These vehicles are used to transport evidence and maintain chain of custody from the time it is collected from the crime scene. The goal of DFS is to replace our vehicles at the optimal time to achieve greater productivity and lower costs. The vehicles are utilized up to 24 hours each day, with three different shifts of Crime Scene Sciences daily that can greatly impact the useful life of each vehicle being used. The capital project will meet the District Mayor's "Safer, Stronger DC" plan by strengthening tools and resources needed to investigate crimes in the District.

Progress Assessment:

On-going project

FR0-LIM20-DFS LABORATORY INFORMATION MANAGEMENT SYSTEM

Agency: DEPARTMENT OF FORENSIC SCIENCES (FR0)
Implementing Agency: DEPARTMENT OF FORENSIC SCIENCES (FR0)
Project No: LIM20
Ward:
Location: 401 E STREET SW
Facility Name or Identifier: CONSOLIDATED FORENSIC LABORATORY
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$4,500,000

Description:

DFS aims to replace its main LIMS system, because the current system (JusticeTrax) has not received support upgrades for several years due to difficulties at the supplying company, and needs to be replaced. DFS also aims to consolidate its LIMS systems. JusticeTrax is used by Forensic Science Laboratory and Crime Scene Sciences. Other systems to be integrated into seamless correspondence with the new system include the Public Health Laboratory (Horizon), the Forensic Biology Unit (STaCSDNA), and MPD's system (File on Q).

Justification:

DFS is very focused on the Mayor's priority for a "Safer, Stronger" DC. DFS was given \$1m in FY13 to implement JusticeTrax LIMS. It was subsequently successfully implemented using the best available system at that time. Unfortunately, JusticeTrax and File on Q are not integrated and DFS employees must maintain both systems in order to track evidence from collection through examination to final MPD storage. DFS has made significant improvements to its testing capability in recent years including next generation sequencing in DNA analysis, and Mideo for image management and examination in latent fingerprints and firearms testing. Additional funding is needed to move to a next generation LIMS that is capable of meeting the testing needs of the DFS and reduce redundancy as it delivers to the Mayor's priorities.

The four DFS systems (named above) are independent to each other, require specialists in-house for each system, and do not connect with the MPD evidence management system (Evidence on Q) requiring all evidence items to be transferred manually between the systems as they enter and leave DFS possession. It is well established that manual processes can lead to transcription errors. These can have a critical impact on court proceedings through the loss of integrity of evidence through broken chain of custody. This project will identify and implement a comprehensive modern LIMS for DFS.

Progress Assessment:

Currently, the Department of Forensic Sciences has an allotment of \$4.5m in FY19-FY20 capital funding for a new LIMS.

- In FY18, a consultant was engaged to gain an overview of DFS' LIMS needs and to scan the market for potential candidate suppliers. A report was provided in FY18 and will inform the project plan for FY19 and FY20.

FR0-DIG19-FORENSIC EVIDENCE DIGITAL STORAGE

Agency: DEPARTMENT OF FORENSIC SCIENCES (FR0)
Implementing Agency: DEPARTMENT OF FORENSIC SCIENCES (FR0)
Project No: DIG19
Ward:
Location: 401 E STREET SW
Facility Name or Identifier: CONSOLIDATED FORENSIC LABORATORY
Status: In multiple phases
Useful Life of the Project: 7
Estimated Full Funding Cost: \$2,803,000

Description:

In FY19, DFS was allotted \$803K in capital funding to acquire a fast, high capacity online storage solution. DFS will use the FY19 funding to close out the Forensic Digital Storage Project.

DFS is requested \$2 million in FY20, to meet the continually expanding needs of DFS data storage.

Justification:

Due to the unique nature of the services provided to the government of the District of Columbia and federal agencies, the DFS generates a large amount of digital information. This information needs to be stored, cataloged, and managed locally within DFS to ensure and demonstrate accountable chain of custody, limit and demonstrate access control, and to limit the number of persons potentially called to appear in court. Additional, this information needs to be stored locally since it might need to be accessed and processed by local systems, due to its sensitive nature (eg child exploitation, MPD internal affairs etc), or immediately accessed as required by the scientists and/or systems of DFS. The seized data under examination by DEU is also received in various forms and is likely to have significant amounts of malware that is required to be processed by DFS systems. This information can be required to be retained for up to 65 years.

The new storage capacity will need to be compatible with DFS' current storage systems (for DFS and for DEU). Specific functional systems have been employed for each of these capabilities to ensure the security of the housed data. In FY17, DEU's caseload increased by over 800% over its previous year. In FY18, it increased again by almost 100% over FY17. This need for larger data storage also meets the need to provide stakeholders with critical information in shorter timeframes.

DFS is highly focused on the Mayor's priority for a "Safer, Stronger" DC. DFS was given \$802,629 in FY19 to purchase and install additional storage. DFS has made significant improvements to its testing capability in recent years including next generation sequencing in DNA analysis, and Mideo for image management and examination in latent fingerprints and firearms testing. Additional funding is needed to ensure that DFS is capable of meeting the data storage, management, and access needs as it delivers to the Mayor's priorities.

Progress Assessment:

In FY18, DFS procured and implemented its Forensic Digital Storage System. This system is to support storage of analytical data, clinical data, and digital evidence for the Forensic Science Laboratory, Public Health Laboratory, and Crime Scene Sciences Division. We expect exponential growth in data storage needs of 1 to 3 Terabytes of data a day due to the implementation of several advanced scientific and information technology systems. DFS must continue work begun in FY17 including developing requirements and designing a scalable storage solution and then procuring and beginning the implementation of a storage solution. The agency is in the process of working with the Office of Contracting and Procurement to finalize the procurement strategy the next phase in FY 2019. DFS is also working with DC Net to upgrade the network in CFL server room in anticipation of the new storage solution.

Related Projects:

As new technologies have been recently introduced, such as next generation sequencing in forensic DNA analysis, Mideo for the management and examination of images in latent fingerprint and firearms examination, and the continually improving resolution of images captured as evidence, such as at crime scenes, latent fingerprints etc, the amount of data captured grows exponentially. These developments in technology have led to the current trend growth in case related, forensic evidence data of 2-4 terabytes per day. This solution will address the storage needs generated from these systems.

FR0-HDW02-LABORATORY & HOSPITAL EQUIPMENT - DFS

Agency: DEPARTMENT OF FORENSIC SCIENCES (FR0)
Implementing Agency: DEPARTMENT OF FORENSIC SCIENCES (FR0)
Project No: HDW02
Ward: 6
Location: 401 E STREET SW
Facility Name or Identifier: CONSOLIDATED FORENSIC LABORATORY
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$820,000

Description:

DFS requested capital funding allotments in FY20 – FY25 capital funding to replace outdated or aged equipment, according to the schedule established by the Capital Asset Replacement Scheduling System (CARSS).

Justification:

This project is needed to fund the replacement of mission-critical specialized laboratory and information technology that has become obsolete or is in disrepair.

Progress Assessment:

The Department of Forensic Sciences is in the process of procuring the following items in FY 2019. DFS is also working to connect the OCFO’s Capital Asset Replacement Scheduling System (CARSS) to inFlow, the department’s internal laboratory management system. CARSS identifies which laboratory and I.T. equipment has reached its useful life. While division directors and unit managers identify outdated equipment based on federal and accreditation standards.

- BioTek Microplate Washer (\$17,000) – Equipment washes reagents in between steps and helps with accuracy of antibody test results in immunology and in the bioterrorism program.
- MagNA Pure 24 Extraction (\$50,000) – Automatically extracts nuclei acids, such as DNA and RNA, for specimen testing.
- Tecan NGS Upgrade (\$29,877.144) - Robotic automation of liquid handling for preparation of samples for Next Generation Sequencing/Whole Genome Sequencing.

(FX0) OFFICE OF THE CHIEF MEDICAL EXAMINER

MISSION

The mission of the Office of the Chief Medical Examiner (OCME) is to ensure that justice is served and that the health and safety of the public is improved by conducting quality death investigations and certification and providing forensic services for government agencies, health care entities, and grieving families.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

FX0-FXEER-EQUIPMENT REPLACEMENT AT THE CFL

Agency: OFFICE OF THE CHIEF MEDICAL EXAMINER (FX0)
Implementing Agency: OFFICE OF THE CHIEF MEDICAL EXAMINER (FX0)
Project No: FXEER
Ward: 6
Location: 401 E STREET SW
Facility Name or Identifier: CONSOLIDATED FORENSIC LABORATORY
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$2,000,000

Description:

The agency moved into its current facility – the Consolidated Forensic Laboratory – in the fall of 2012. The agency’s Forensic Toxicology Laboratory’s equipment, purchased in May 2011, has either exceeded or is at the replacement target over this time period. Based on a replacement target of 7-10 years from a procurement date of 2011, the agency’s Equipment Replacement Plan utilizes a phased approach to purchase toxicology equipment upgrades prioritized based on the replacement target date.

Equipment replacement helps ensure the laboratory is utilizing up to date models which offer better turnaround times and improved service to families in completion of autopsy reports. This plan relates to the District strategy to address emerging drugs of abuse and drug epidemics (i.e., opioid/K2). Equipment replacement also supports toxicology laboratory accreditation

Justification:

There are a number of pieces of Laboratory equipment assigned to OCME that has reached its useful life and is in need of replacement.

Progress Assessment:

Progressing in multi-phases

(FZ0) D.C. SENTENCING COMMISSION

MISSION

The mission of the District of Columbia Sentencing and Criminal Code Revision Commission (SCCRC) is to implement, monitor, and support the District's voluntary sentencing guidelines, to promote fair and consistent sentencing policies, to increase public understanding of sentencing policies and practices, and to evaluate the effectiveness of the guidelines system in order to recommend changes based on actual sentencing and corrections practice and research.

BACKGROUND INFORMATION

The Commission has been informed that the D.C. Superior Court (DCSC) would be changing how court data is shared with partner criminal justice agencies and the amount of data that is shared with these agencies. It will have a direct impact on how Commission monitors guideline compliance and analyzes sentencing data because all of the disposition and sentencing data used by the agency is transferred directly from DCSC.

Currently sentencing related data used by the Commission is transferred from DCSC and filtered through JUSTIS. The interface with JUSTIS is designed to accept only specific data variables from the court, which are then transferred into the agency's database and web application. This data transfer system was designed in 2005, and provides for a daily transfer of individual case disposition and sentencing related data. The Commission annually receives offender and offense related data from approximately 4,300 felony counts. Data is initially transferred when a case disposition occurs and then updated when a sentence is imposed. Thus, there are approximately 10,000 data transmissions from the court to the Commission annually. This data has enabled the Commission to determine judicial compliance, analyze sentencing trends and evaluate the effectiveness of the sentencing guidelines. It is from this data that the agency creates its Annual Reports, Issues Papers and responses to various data requests from criminal justice professionals. Data analysis is the core function of the agency and it is the source of information from which modifications to the guidelines are developed and implemented as required in D.C. Code §3-101(b)(2)-(6).

DCSC will be implementing a new Integrated Justice Information System (IJIS) Outbound 12.1. This will replace the RAM Server—the technology by which data from the court is now transferred—with the new IJIS Broker. Currently, agencies pull data directly from the Agency Database; however, after the implementation of IJIS Outbound 12.1, agencies will pull data directly from JUSTIS and the agency database will cease to function as it is currently constructed. In addition, JUSTIS will use an XML to facilitate a full data transfer from the court without any filtering. The RAM Server and Agency Database are scheduled to be shut down six months after the IJIS Outbound 12.1 is fully implemented, which should tentatively occur in late 2012 or early 2013. At that time, agencies must have made the necessary changes to their respective data systems if they are to receive data from the court.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.

FZ0-FZ038-IT UPGRADE - DC IJIS INTEGRATION

Agency: D.C. SENTENCING COMMISSION (FZ0)
Implementing Agency: D.C. SENTENCING COMMISSION (FZ0)
Project No: FZ038
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project: 10
Estimated Full Funding Cost: \$1,242,000

Description:

IT - IJIS Software

The MPD Arrest Data Feed Enhancement Project will enable the agency’s Guideline Information Reporting Data (GRID) system to incorporate arrest related data to its current court and criminal history data to produce a comprehensive single offender/case record from time of arrest until time of sentencing. This will enable analysis of how cases proceed through the entire criminal justice system and the impact on the current sentence policy.

An FY20 enhancement of \$765,254 for the MPD Arrest Data Feed project, which will automate the direct transfer of arrest data into the GRID System and enable the District to follow case outcomes from arrest to sentencing.

Justification:

N/A

Progress Assessment:

Task 2 – Integrate MPD data into the GSS and GRID Systems
 Task Duration: 12 Months

(GA0) DISTRICT OF COLUMBIA PUBLIC SCHOOLS

MISSION

The mission of the D.C. Public Schools (DCPS) is to ensure that every school guarantees students reach their full potential through rigorous and joyful learning experiences provided in a nurturing environment.

SCOPE

The Department of General Services (DGS) is the agency responsible for implementing DCPS capital improvement projects. DGS executes the design and construction of new and modernized facilities, in addition to a host of targeted stabilization and small capital initiatives.

DCPS also works closely with the Deputy Mayor for Education (DME), who is responsible for managing the Master Facilities Plan, interagency and cross-sector coordination, and is a partner in the school modernization process.

CAPITAL PROGRAM OBJECTIVES

1. Ensure modernized facilities support instructional goals of DC Public Schools, provide accessible spaces for residents, and meet the District's sustainability goals.
2. Lead engagement with community members through the coordination of School Improvement Teams as well as community meetings to solicit input.
3. Direct DGS on the scope and need of school modernization, using a data-driven approach to prioritize modernization projects using equity, student demand, neighborhood population, and building condition as determining factors.
4. Advance equity through the creation of District-wide Educational Specifications that establish the facility standard for all school modernizations.
5. Coordinate small capital improvements and stabilization projects based on current needs.

RECENT ACCOMPLISHMENTS

DCPS is proud of the many projects that improved school facilities in FY2018 and enhanced the teaching and learning environment for students across the District. In FY2019, new or modernized facilities were opened across the District and many buildings received stabilization or small capital projects. Highlights include:

- For SY18-19, newly modernized facilities opened at Bancroft ES, Boone ES, MacFarland MS, Bruce Monroe at Parkview (gym and cafeteria) and Murch ES.
- Swing space locations were opened for CW Harris, Eliot-Hine, Houston, and Jefferson.
- Construction will begin or continue at CW Harris, Houston, Jefferson, Hyde-Addison, Eliot-Hine, Maury, Kimball, and Coolidge HS.
- Design and planning is underway for a number of modernization efforts, including: West ES, Capitol Hill Montessori @ Logan, Banneker HS and Eaton ES.
- Many schools received small capital investments to enhance accessibility and install, new roofs, new windows, new classrooms, and updated building systems. Projects include, but are not limited to: new windows at Adams EC, new bathrooms at Tubman, new flooring at Langley, and modular classrooms at Deal, Brent, and Key.
- The District has renovated over 8 million square feet of school facilities since 2002.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.

AM0-GM303-ADA COMPLIANCE - DCPS

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: GM303
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$27,432,000

Description:

Design and install ADA improvements at buildings across the DCPS portfolio. Projects may include bathroom improvements, elevator modernizations, internal or external ramps, lifts, and other miscellaneous projects to improve accessibility.

Justification:

Compliance with the Americans with Disabilities Act.

Progress Assessment:

FY 20 Planned/Forecasted Spending:

- * Malcom X ES - Elevator Installation \$1,272,000.00
- * Hart MS - Elevator Installation \$1,272,000.00
- * Langley ES - Elevator Installation \$1,272,000.00
- * Truesdell - Elevator Design \$63,600.00
- * Tyler ES - Elevator Design \$63,600.00
- * Aiton ES - ADA bathroom conversion \$95,400.00
- * Dorothy I. Height ES - ADA bathroom conversion \$95,400.00
- * Garfield ES - ADA bathroom conversion \$95,400.00

AM0-YY160-ADAMS EC MODERNIZATION/RENOVATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY160
Ward: 1
Location: 2020 19TH STREET NW
Facility Name or Identifier: ADAMS EC
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$70,564,395

Description:

Adams Education Campus modernization project will renovate the facility to support the instructional program. The modernization may include the renovation of classrooms and core spaces; upgraded mechanical systems; new windows; restoration of the building exterior; new roofing; other interior improvements; new fixtures, furniture, and equipment; site improvements; and technology infrastructure upgrades.

Justification:

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010. Improved learning environments contribute to student achievement. This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

AM0-SK120-ATHLETIC FACILITIES

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: SK120
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$19,152,000

Description:

Renovation and construction of various outdoor activity areas for DCPS facilities. The scope of work includes, but is not limited to the renovation and construction of playgrounds, play courts, athletic field, and running tracks. The goals of the project are to ensure students have facilities that support student wellness through physical activity.

An FY20 enhancement of \$500,000 to repair or replace the gymnasium floor at Columbia Heights Education Campus.

Justification:

Renovation of various DC Public School/DC Government Athletic Facilities/areas.

Progress Assessment:

FY 20 Planned/Forecasted Spending:

- * McKinley MS/Tech - Football Field Replacement - \$1,060,000.00
- * Drew ES - Playground Replacement - \$600,000.00

AM0-YY1BS-BANNEKER HS CONSTRUCTION @ 925 RI AVE NW

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY1BS
Ward: 6
Location: 925 RHODE ISLAND AVENUE NW
Facility Name or Identifier: BANNEKER HS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$152,643,000

Description:

Banneker HS @ Shaw MS Modernization/Renovation

Justification:

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010. Improved learning environments contribute to student achievement. This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

AM0-YY108-BROWNE EC MODERNIZATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY108
Ward: 5
Location: 801 26TH STREET NE
Facility Name or Identifier: BROWNE EC
Status: Under design
Useful Life of the Project: 30
Estimated Full Funding Cost: \$40,674,000

Description:

The Browne EC modernization project will renovate the facility to support the instructional program. The modernization may include the renovation of classrooms and core spaces; upgraded mechanical systems; new windows; restoration of the building exterior; new roofing; other interior improvements; new fixtures, furniture, and equipment; site improvements; and technology infrastructure upgrades.

Justification:

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010. Improved learning environments contribute to student achievement. This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

AM0-TB237-BURROUGHS ES MODERNIZATION/RENOVATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: TB237
Ward: 5
Location: 1820 MONROE STREET NE
Facility Name or Identifier: BURROUGHS ES
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$11,562,601

Description:

Burroughs will receive a full modernization of their facility and property. The work will build off of the previous "Phase I" modernization project to ensure the facility and property support the educational program.

Justification:

Burroughs was included and prioritized in the CIP based on the requirements outlined in the PACE Act of 2016, which outlines how schools should be sequenced in the Capital budget.

AM0-YY1SP-CENTRALIZED SWING SPACE

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY1SP
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$27,707,000

Description:

Modernization and capital upgrades to the centralized swing space will be necessary to accommodate students in the interim period during the modernization of their respective schools. Tasks include classroom, bathroom, and specialized space improvements such as cafeterias, gymnasium, libraries, playgrounds, and hallways. Building upgrades may also include new HVAC and technology systems, windows, and doors.

Justification:

A swing space will be used by multiple modernization projects.

AM0-YY178-CW HARRIS ES RENOVATION/MODERNIZATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY178
Ward: 7
Location: 301 53RD STREET SE
Facility Name or Identifier: CW HARRIS ES
Status: Under construction
Useful Life of the Project: 30
Estimated Full Funding Cost: \$52,065,149

Description:

"C.W. Harris is located at 301 53rd Street, SE. The original C.W. Harris campus consists of a single 1960s building that measures approximately 60,000 square feet.

The full modernization of C.W. Harris Elementary School will include a full renovation of the existing 1960s building and a 24,000 square foot addition that will house school administration, the gym and the cafeteria. This includes shifting the building from a double-loaded corridor to a single-loaded corridor, allowing for a significant increase in the size of classroom spaces and daylight exposure. The new C.W. Harris Elementary School will accommodate 411 students and be LEED Gold certified.

C.W. Harris Elementary School will spend school year '18-'19 in 'Viking Village' swing space, a modular classroom complex on the campus field that includes a modular kitchen and multipurpose tent. The school will spend school year '19-'20 in the fully renovated 1960s building while the 24,000 square foot addition is constructed and will continue its use of the modular kitchen and multipurpose tent"

Justification:

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010. Improved learning environments contribute to student achievement. This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

GA0-T2247-DCPS DCSTARS-ASPEN/ENTERPRISE APPLICATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Project No: T2247
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$20,319,000

Description:

Multi-year implementation of critical enterprise applications and data systems involving student information (DCSTARS – Aspen). These new applications will greatly improve efficiency, productivity and data compliance. This will also enable establishing automated interfaces with other many IT systems across DCPS and other agencies for accurate, secure, quick and easy data sharing/reporting capabilities, with DHS, DCL, OSSE, OCTO and many others.

Justification:

This application will enable establishing automated interfaces with other many IT systems across DCPS and other agencies for accurate, secure, quick and easy data sharing/reporting capabilities, with the Department of Human Services, D.C. Public Library, the Office of the State Superintendent of Education, the Office of the Chief Technology Officer and many others.

TO0-N8005-DCPS IT INFRASTRUCTURE UPGRADE

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Project No: N8005
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$25,871,000

Description:

Multi-year upgrades to the technology infrastructure at multiple sites. Projects ensure students and teachers will have full wireless coverage and the bandwidth to support teaching and learning.

Justification:

This project will upgrade information technology at DCPS facilities currently lacking modern technology infrastructure such as cabling and wiring, routers, switches, high speed internet connections, and other related improvements necessary for a fully functioning and technologically modern school.

Progress Assessment:

Progressing in multiple phases

AM0-ND437-DEAL MS MODERNIZATION/RENOVATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: ND437
Ward: 3
Location: 3815 FORT DRIVE NW
Facility Name or Identifier: DEAL MS
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$23,476,782

Description:

The funding is included in the CIP to design and construct an addition to provide additional permanent capacity to meet the projected enrollment at the school. The addition would contain additional classrooms, academic support areas, and administrative functions. Deal has previously received a modernization and this work will be to add to that previous capital investment.

Justification:

"The funding is included in the CIP to add an addition to provide additional permanent capacity to meet the projected enrollment at the school. The PACE Act of 2016 allows for inclusion of projects outside if prioritization sequence for the following factors: • Availability of capital funding in the budget;• Availability of appropriate swing-space;• Immediate life and safety concerns;• Need for additional planning for a project;• New education program space requirements; and• Scope and sequence of projects due to planned grade configuration changes, boundary changes, school facility considerations, or school facility closures"

Progress Assessment:

Progressing as planned

AM0-YY1DH-DOROTHY HEIGHT ES MODERNIZATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY1DH
Ward: 4
Location: 1300 ALLISON STREET NW
Facility Name or Identifier: DOROTHY HEIGHT ES
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$60,057,000

Description:

The Dorothy Height modernization project will renovate this school to support the instructional program. The modernization may include the renovation of classrooms and core spaces; upgraded mechanical systems; new windows; restoration of the building exterior; new roofing; other interior improvements; new fixtures, furniture, and equipment; site improvements; and technology infrastructure upgrades.

Justification:

Dorothy Height has not been modernized. DCPS is committed to modernizing all campuses.

AM0-GI5PK-EARLY ACTION PRE-K INITIATIVES

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: GI5PK
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$11,100,000

Description:

These small capital improvements include the creation of new Early Childhood Education (ECE) spaces and/or the conversion of spaces to ECE classrooms by expanding the size of existing rooms and/or adding restrooms to classrooms.

Justification:

DPCS is dedicated to expanding access to early childhood education across the city. Renovations and new classrooms will be needed to accommodate the expansion of this program.

Progress Assessment:

On-going subproject

FY 20 Planned/Forecasted Spending include:

-Various Schools: Upgrades in Pre-K Spaces - \$1,350,000

AM0-YY180-EATON ES RENOVATION/MODERNIZATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY180
Ward: 3
Location: 3201 34TH STREET NW
Facility Name or Identifier: EATON ES
Status: Predesign
Useful Life of the Project: 30
Estimated Full Funding Cost: \$67,470,000

Description:

The Eaton ES modernization project will fully renovate the facility to support the instructional program. Based on an initial evaluation of projected program requirements, DCPS anticipates Eaton will require a renovation of the existing facility with an approximately 39,000-square-foot addition.

Justification:

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010. Improved learning environments contribute to student achievement. This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

Progress Assessment:

In design

AM0-YY181-ELIOT-HINE JHS RENOVATION/MODERNIZATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY181
Ward: 6
Location: 1830 CONSTITUTION AVENUE NE
Facility Name or Identifier: ELIOT-HINE MS
Status: Under construction
Useful Life of the Project: 30
Estimated Full Funding Cost: \$88,649,975

Description:

The school will receive a full modernization. The project is currently under construction to meet the educational specification program requirements.

The facility is large enough to meet the program requirements in the educational specification, but due to accessibility and circulation concerns, the project demolished the 1960's wings and will rebuild a more efficient addition to the 1930's facility.

The students are currently swinging internally for SY18-19 and then will move to a modular trailer complex on-site for SY19-20. The modular trailer complex is currently being used by Maury ES.

Justification:

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010. Improved learning environments contribute to student achievement. This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

Progress Assessment:

Under construction

Description:

The Garfield ES modernization project will renovate this school to support the instructional program. The modernization may include the renovation of classrooms and core spaces; upgraded mechanical systems; new windows; restoration of the building exterior; new roofing; other interior improvements; new fixtures, furniture, and equipment; site improvements; and technology infrastructure upgrades.

Justification:

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010. Improved learning environments contribute to student achievement. This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

AM0-YY144-HOUSTON ES RENOVATION/MODERNIZATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY144
Ward: 7
Location: 1100 50TH PLACE NE
Facility Name or Identifier: HOUSTON ES
Status: Under construction
Useful Life of the Project: 30
Estimated Full Funding Cost: \$55,755,000

Description:

"Houston Elementary School, located at 1100 50th Place, NE in Ward 7 currently offers a dual language program and serves students in Prek through grade 5. The Houston ES modernization will receive a full modernization, aligning with the District-wide Educational Specifications (Ed Specs), to increase an enrollment capacity of 336 students to 400 students by SY 2025-2026. The modernization will right-size classrooms, include new and enhanced outdoor spaces, as well as a new addition to provide a welcoming entrance, new Welcome Center, and a multipurpose room. Houston ES, built in 1977, is 54,057sq ft and will increase to 82,457sq ft after the modernization is completed and will achieve LEED BD+C Schools - Gold certification.

During the modernization, the school will swing on-site in modulars for 1 year (SY2018-19) and will move into the modernized building the 2nd year (SY2019-20) while still utilizing large modular spaces (Cafeteria/Gym) during the construction of the addition. Project construction will begin in Summer 2018 and will be completed SY2020."

An FY20 enhancement of \$250,000 for the construction of an educational green house.

Justification:

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010. Improved learning environments contribute to student achievement. This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

GA0-T22DI-IT - DATA INFRASTRUCTURE

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Project No: T22DI
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project: 10
Estimated Full Funding Cost: \$1,000,000

Description:

DCPS believes that decisions at all levels must be informed by robust data. Teachers and school-based staff should be able to access a complete view of each student’s situation – including attendance, behavior, courses, assessments, interventions, learning progress, and more. Principals need real-time visibility into the key performance indicators for their buildings. Parents should know how their child is doing in school and this means that teachers and parents need a platform that captures a complete view of student progress. Central office leaders and program managers must be able to monitor compliance and track key performance indicators to tier supports, planning and resources. All the above processes must be built on a common, reliable data infrastructure that is flexible to the organization’s needs and changing priorities with accuracy built-in.

Justification:

DCPS faces a common problem among school districts. There are numerous source systems for collecting student data. However, the data points these systems collect are not integrated to create a full picture of student performance. While the source systems collect the data, they do not provide staff a way to review high stakes data. As a recent audit of DCPS attendance and grading showed, “Attendance and grading are not linked in Aspen in a way that facilitates reporting of excessive absences relative to grading.” The student information system also does not provide registrars a straightforward way to identify which enrollment forms students are missing; registrars are forced to rely on managing lists in Excel to ensure they are complying with the law. Similarly, discipline information is collected in the Student Behavior Tracker (SBT) and the systems must be cross-referenced by behavior and attendance personnel to ensure that records are aligned in compliance with regulation and the law.

AM0-PW337-JO WILSON ES MODERNIZATION/RENOVATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: PW337
Ward: 6
Location: 660 K STREET NE
Facility Name or Identifier: JO WILSON ES
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$40,361,000

Description:

JO Wilson will receive a full modernization of their facility and property. The work will build off of the previous "Phase I" modernization project to ensure the facility and property support the educational program.

Justification:

JO Wilson was included and prioritized in the CIP based on the requirements outlined in the PACE Act of 2016, which outlines how schools should be sequenced in the Capital budget.

Progress Assessment:

AM0-GI5JA-JUNIOR ACHIEVEMENT LAUNCHPAD

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: GI5JA
Ward: 1
Location: TBD
Facility Name or Identifier: JUNIOR ACHIEVEMENT LAUNCHPAD
Status: Developing scope of work
Useful Life of the Project: 20
Estimated Full Funding Cost: \$10,000,000

Description:

To provide a Junior Achievement Discovery Center facility, which will be used to educate students in grades K-12 about entrepreneurship, work readiness and financial literacy through experiential, hands-on programs. If the program operator is a non-District Government entity, the activities funded through this project must meet the District's CIP eligibility guidelines.

Justification:

Potential sites include 3149 16th Street NW and 945 Rhode Island Avenue NW.

AM0-SG403-KEY ELEMENTARY SCHOOL MODERNIZATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: SG403
Ward: 3
Location: 5001 DANA PLACE NW
Facility Name or Identifier: MODERNIZATION
Status: In multiple phases
Useful Life of the Project: 50
Estimated Full Funding Cost: \$20,500,000

Description:

Key has received a full modernization, which included the renovation of the existing facility. To address current and projected overcrowding in the school, additional funding is included in the FY20-25 CIP for the construction of an addition at Key to replace trailers on site and add additional permanent capacity. The addition will be new construction and will meet the DCPS Educational Specifications.

Justification:

The funding is included in the CIP to add an addition to provide additional permanent capacity to meet the projected enrollment at the school. The PACE Act of 2016 allows for inclusion of projects outside if prioritization sequence for the following factors:

- Availability of capital funding in the budget;
- Availability of appropriate swing-space;
- Immediate life and safety concerns;
- Need for additional planning for a project;
- New education program space requirements; and
- Scope and sequence of projects due to planned grade configuration changes, boundary changes, school facility considerations, or school facility closures.

Progress Assessment:

Progressing as planned

AM0-YY187-LAFAYETTE ES MODERNIZATION/RENOVATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY187
Ward: 4
Location: 5715 BROAD BRANCH ROAD NW
Facility Name or Identifier: LAFAYETTE ES
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$81,279,000

Description:

The funding is included in the CIP to design and construct additional permanent capacity to meet the projected enrollment at the school. The addition would contain additional classrooms, academic support areas, and administrative functions. Lafayette has previously received a modernization and this work will be to add to that previous capital investment.

Justification:

The funding is included in the CIP to add an addition to provide additional permanent capacity to meet the projected enrollment at the school. The PACE Act of 2016 allows for inclusion of projects outside if prioritization sequence for the following factors:

- Availability of capital funding in the budget;
- Availability of appropriate swing-space;
- Immediate life and safety concerns;
- Need for additional planning for a project;
- New education program space requirements; and,
- Scope and sequence of projects due to planned grade configuration changes, boundary changes, school facility considerations, or school facility closures.

AM0-GM304-LIFE SAFETY - DCPS

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: GM304
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$19,864,000

Description:

Installation and replacement of life safety systems across the DCPS building portfolio. Projects may include fire alarms, exterior lighting, intrusion detection, and security systems.

Justification:

This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

Progress Assessment:

- * Drew ES - Access control - replace card readers, security and detection systems \$106,000.00

AM0-GM121-MAJOR REPAIRS/MAINTENANCE - DCPS

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: GM121
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$78,161,000

Description:

Critical small capital and stabilization projects are required to ensure that school facilities can operate and support the academic needs of DCPS students.

FY20 enhancements of \$500,000 were provided for the following:

- *\$250,000 for Amidon-Bowen Elementary School to improve the flooring in the school's cafeteria and gymnasium;
- *\$150,000 for fencing surrounding the Walker-Jones Education Campus' two playgrounds; and
- *\$100,000 for hydration centers at Brightwood Education Campus, Dorothy Heights Elementary School, and Barnard Elementary School.

Justification:

This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

AM0-YY193-RAYMOND ES MODERNIZATION/RENOVATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY193
Ward: 4
Location: 915 SPRING ROAD NW
Facility Name or Identifier: RAYMOND EC
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$63,586,000

Description:

The Raymond ES modernization project will renovate this school to support the instructional program. The modernization may include renovation of classrooms and core spaces; upgraded mechanical systems; new windows; restoration of the building exterior; new roofing; other interior improvements; new fixtures, furniture, and equipment; site improvements; and technology infrastructure upgrades.

Justification:

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010. Improved learning environments contribute to student achievement. This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

AM0-GM101-ROOF REPAIRS - DCPS

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: GM101
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$35,556,000

Description:

This project will facilitate the design, replacement, and repair of roofs across the DCPS portfolio that have gone beyond their useful life. Projects may also be included to prolong the remaining useful life of existing roofs through capital-eligible repair.

Justification:

This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

Progress Assessment:

FY 20 Planned/Forecasted Spending include:

- * Hearst ES - Partial Roof Replacement \$158,943.00
- * Bruce Monroe ES @ Parkview - Partial Roof Replacement \$275,201.44
- * Hendley ES - Partial Roof Replacement \$848,182.32
- * Powell ES - Partial Roof Replacement \$1,272,000.00
- * Various Schools - Design, CQA \$636,000.00

AM0-NR939-ROOSEVELT HS MODERNIZATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: NR939
Ward: 4
Location: 4301 13TH STREET NW
Facility Name or Identifier: ROOSEVELT HS
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$140,061,000

Description:

Theodore Roosevelt High School is located at 4301 13th Street, NW, Washington, DC, which is located in the Petworth neighborhood in Ward 4. Roosevelt High School, home of the Rough Riders, was first constructed from 1930 to 1932 for a student population of approximately 1200 students. The Roosevelt S.T.A.Y. program shares space at Roosevelt High school. S.T.A.Y. is an alternative education program for the District of Columbia residents who wish to continue their education or participate in specialized job training programs. The school features a rigorous academic program and many strong college and career-related programs, including media and mass communications, business and entrepreneurship, culinary arts, barbering, and cosmetology.

An FY20 enhancement of \$2 million was provided to construct an exterior entrance to the Roosevelt High School swimming pool in order to allow public access outside school hours.

Justification:

This project is included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010. Improved learning environments contribute to student achievement. This project aligns with Sustainable DC Actions: Equity and Diversity 1.1, Built Environment 3.5, and Food 2.4.

Progress Assessment:

Completion in 2016.

AM0-YY153-ROSS ES RENOVATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY153
Ward: 2
Location: 1730 R STREET NW
Facility Name or Identifier: ROSS ES
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$6,789,818

Description:

The funding is included in the CIP to design and build out additional space in the attic at Ross to meet projected enrollment demand and provide additional academic support areas. Ross has previously received a modernization and this work will be to add to that previous capital investment.

Justification:

"The funding is included in the CIP to add an addition to provide additional permanent capacity to meet the projected enrollment at the school. The PACE Act of 2016 allows for inclusion of projects outside if prioritization sequence for the following factors: • Availability of capital funding in the budget;• Availability of appropriate swing-space;• Immediate life and safety concerns;• Need for additional planning for a project;• New education program space requirements; and• Scope and sequence of projects due to planned grade configuration changes, boundary changes, school facility considerations, or school facility closures"

AM0-OA737-STODDERT ELEMENTARY SCHOOL MODERNIZATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: OA737
Ward: 3
Location: 4001 CALVERT STREET NW
Facility Name or Identifier: STODDERT ES
Status: In multiple phases
Useful Life of the Project:
Estimated Full Funding Cost: \$20,502,077

Description:

Stoddert has received a full modernization, which included the renovation of the existing facility. To address current and projected overcrowding in the school, additional funding is included in the FY20-25 CIP for the construction of an addition at Stoddert to replace trailers on site and add additional permanent capacity. The addition will be new construction and will meet the DCPS Educational Specifications.

Justification:

The funding is included in the CIP to add an addition to provide additional permanent capacity to meet the projected enrollment at the school. The PACE Act of 2016 allows for inclusion of projects outside if prioritization sequence for the following factors:

- Availability of capital funding in the budget;
- Availability of appropriate swing-space;
- Immediate life and safety concerns;
- Need for additional planning for a project;
- New education program space requirements; and
- Scope and sequence of projects due to planned grade configuration changes, boundary changes, school facility considerations, or school facility closures

Progress Assessment:

On-going project

TO0-AFM04-TECHNOLOGY MODERNIZATION INITIATIVE

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Project No: AFM04
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$9,638,000

Description:

This project will provide budget to support DCPS in efforts to improve, retire, or replace existing information technology systems to enhance cybersecurity, and improve efficiency and effectiveness. Further, it provides for the migration and implementation of DCPS' Active Directory and Exchange Migration; development, operation, and procurement of information technology products and services for use by DCPS to gain efficiency and cybersecurity in accordance with the requirements of the agency. It includes the purchase and deploy of student and teacher devices for instruction across the District.

Justification:

DCPS to gain efficiency and cybersecurity in accordance with the requirements of the agency.

AM0-YY1VN-VAN NESS RENOVATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY1VN
Ward: 6
Location: 1150 5TH STREET SE
Facility Name or Identifier: VAN NESS
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$36,421,979

Description:

The funding is included in the CIP to build out additional permanent capacity to meet the projected enrollment at the school on the adjacent Joy Evans DPR property. The new space would contain additional classrooms, academic support areas, and administrative functions. Van Ness has previously received a modernization and this work will be to add to that previous capital investment.

Justification:

The funding is included in the CIP to add an addition to provide additional permanent capacity to meet the projected enrollment at the school. The PACE Act of 2016 allows for inclusion of projects outside if prioritization sequence for the following factors: • Availability of capital funding in the budget;• Availability of appropriate swing-space;• Immediate life and safety concerns;• Need for additional planning for a project;• New education program space requirements; and• Scope and sequence of projects due to planned grade configuration changes, boundary changes, school facility considerations, or school facility closures.

AM0-YY173-WEST ES MODERNIZATION/RENOVATION

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: YY173
Ward: 4
Location: 1333 FARRAGUT STREET NW
Facility Name or Identifier: WEST ES
Status: Predesign
Useful Life of the Project: 30
Estimated Full Funding Cost: \$78,475,000

Description:

The West ES modernization project will modernize the school to support the instructional program. Based on an evaluation of projected program requirements and the current building through a feasibility study in 2018, West will require the demolition of the existing building and construction of a new building.

Justification:

This project was included in the Master Facilities Plan adopted by Section 4111 of the Fiscal Year 2011 Budget Support Act of 2010. Improved learning environments contribute to student achievement. This project aligns with Sustainable DC Actions: Equity and Diversity 1.1 and Built Environment 3.5.

Progress Assessment:

In design.

AM0-SG106-WINDOW REPLACEMENT - DCPS

Agency: DISTRICT OF COLUMBIA PUBLIC SCHOOLS (GA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: SG106
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$37,028,000

Description:

This project entails strategic, prioritized window replacements throughout the DCPS inventory.

Justification:

Window replacements allow for an improved educational environment and a more energy efficient building.

Progress Assessment:

Progressing as planned

FY 20 Forecasted Plan includes:

- * Meyer ES - Window replacement \$1,590,000.00
- * Sharpe Health - Window replacement \$1,060,000.00
- * Kelly Miller - Design \$79,500.00

(GD0) STATE SUPERINTENDENT OF EDUCATION (OSSE)

MISSION

The mission of the Office of the State Superintendent of Education (OSSE) is to remove barriers and create pathways so District residents receive an excellent education and are prepared for success in college, careers, and life.

SUMMARY OF SERVICES

OSSE plays many roles in the lives of children, teens, and adults seeking an education in the District. As the State Education Agency for the District of Columbia, OSSE: distributes federal and District funding to education providers and ensures high quality and compliance in their programs; sets statewide policies; provides resources and support; collects and analyzes District-wide student and education data within its technology systems; and exercises accountability for all public education in the District. OSSE additionally administers payments for the Division of Special Education Transportation (Agency Code GO0), the District's Non-Public Tuition account (Agency Code GN0), and uniform per student funding formula payments to public charter schools in the District (Agency Code GC0).

BACKGROUND

OSSE's capital program has historically covered the development of three separate information technology systems: its statewide longitudinal education database (SLED), its special education data system (SEDS), and its enterprise grants management system (EGMS). OSSE's SLED project aims to create a data warehouse populated with student and education information extracted from disparate system—OSSE's development of SLED was included as an objective in the District's Race to the Top application to the U.S. Department of Education. OSSE's SEDS project aims to create a comprehensive data system designed to support high quality, seamless service delivery for children with educational disabilities within the District—OSSE has mandated the use of SEDS by District of Columbia Public Schools and all public charter schools in the District. OSSE's EGMS project aims to create an online portal, accessible by both OSSE and its sub-grantees, to facilitate nearly all aspects of grant management and thereby greatly reduce the administrative burden of this work for OSSE and its sub-grantees—EGMS enables OSSE to hold grant competitions online and to issue grant awards electronically; it allows sub-grantees to complete narrative and budget applications for grant awards and to submit reimbursement requests against these grant awards; it houses many of OSSE's sub-recipient monitoring activities and documents; etc.

OSSE CAPITAL PROGRAM OBJECTIVES FOR FY19:

Enterprise Grants Management System – Phase II

OSSE's goal is to continue implementing Phase II of the EGMS build out, which is providing additional functionality to the system in the areas of sub-recipient monitoring, system reporting, auditing, and user experience. Through a more modern and streamlined system, users in OSSE and its sub-grantees will: have accurate, current data available at all times; receive and provide more positive and pre-emptive technical assistance; and be able to make more informed financial decisions.

Data Infrastructure

OSSE's goal is to fully document the agency's information architecture, develop and begin implementing modernizations and enhancements to the agency's data infrastructure, develop a unified early childhood data system, and improve OSSE's special education data system. A fully documented information architecture will provide a singular view of all of OSSE's data systems, data assets, applications, platforms, and technologies, as well as how data flows through these various parts of the architecture and enhance OSSE's ability to integrate data across the agency. Modernization and enhancements to the data infrastructure will allow OSSE to properly support the growing data needs of the agency and the increase volume of data being collected and used by the agency. A unified early childhood data system will modernize outdated systems, reduce burden on providers and OSSE staff, integrate with other data systems, and allow OSSE staff to quickly analyze quality data in order to inform policy and programmatic changes. An improved special education data system will improve special education compliance and monitoring while reducing the burden on LEAs and replacing the current antiquated system that is difficult to maintain and enhance.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

GD0-GD001-DATA INFRASTRUCTURE

Agency: STATE SUPERINTENDENT OF EDUCATION (OSSE) (GD0)
Implementing Agency: STATE SUPERINTENDENT OF EDUCATION (OSSE) (GD0)
Project No: GD001
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 15
Estimated Full Funding Cost: \$9,429,000

Description:

OSSE has become the central education-related data repository and reporting office within the District. OSSE has also increasingly interfaced with District agencies such as the DC Public Charter School Board and the Deputy Mayor for Education to craft data-driven policies. Existing data systems are old and obsolete. As OSSE expands the scope of the Student Longitudinal Education Database (SLED) to include additional data, the need for enhancement in both SLED and the source data systems has become a critical area for improvement for the District as a whole. In addition, OSSE's early childhood subsidy and uniform per-student funding formula (UPSFF) payments, including supplemental UPSFF payments, are manual exercises and prone to serious risk of inaccurate payments and non-compliance with Federal and/or District Law. Furthermore, OSSE has several applications for mandated activities (e.g., teacher licensure and childcare licensure) that are not technologically sufficient for the needs of their users. With these issues corrected, OSSE would be in a unique position to steer future analysis of and publish key findings regarding the early childhood to career pathways for District residents.

Justification:

IT issues have become a critical area for improvement, such as OSSE scope expansion of the Student Longitudinal Education Database (SLED) to include additional data, and the need for enhancement in both SLED and the source data systems. In addition, OSSE's early childhood subsidy and uniform per-student funding formula (UPSFF) payments, including supplemental UPSFF payments, are manual exercises prone to serious risk of inaccurate payments and non-compliance with Federal and/or District Law. Furthermore, OSSE has several applications for mandated activities, e.g. teacher licensure and childcare licensure, that are not sufficient for the needs of their users. With these issues corrected, OSSE would be in a unique position to steer future analysis of and publish key findings regarding the early childhood to career pathways for District residents. The remaining funding will allow for the development of a public data dissemination portal, including public application program interface (APIs).

Progress Assessment:

On-going project. OSSE's goal is to fully document the agency's information architecture, develop and begin implementing modernizations and enhancements to the agency's data infrastructure. A fully documented information architecture will provide a singular view of all of OSSE's data systems, data assets, applications, platforms, and technologies, as well as how data flows through these various parts of the architecture and enhance OSSE's ability to integrate data across the agency. Modernization and enhancements to the data infrastructure will allow OSSE to properly support the growing data needs of the agency and the increase volume of data being collected and used by the agency. The remaining funding will allow for the development of a public data dissemination portal, including public application program interface (APIs).

GD0-MODAR-NEW STATEWIDE SPECIAL EDUCATION DATA SYSTEM

Agency: STATE SUPERINTENDENT OF EDUCATION (OSSE) (GD0)
Implementing Agency: STATE SUPERINTENDENT OF EDUCATION (OSSE) (GD0)
Project No: MODAR
Ward: 6
Location: 1050 FIRST STREET NE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project: 7
Estimated Full Funding Cost: \$2,000,000

Description:

This project is the implementation of a new statewide special education data system that meets the growing needs of District schools and provides OSSE with the flexibility to quickly make functional changes to the system to accommodate regulation changes. The scope of this project starts after the procurement of the new data system and covers the 9-12 month initial setup of the data system; development of training materials for state-, LEA-, and school-level staff; transfer of all historical data and documents from the existing special education data system to the new system; and the integration of this data system into OSSE operational data warehouse.

Justification:

This project will allow OSSE to fully implement new regulations on special education services, fully integrate the new system with other applications and data systems, ensure that all historical special education data will be loaded into the new system, allow OSSE to implement the new system by the start of the 2020-21 school year, and ensure that all appropriate OSSE, LEA, and school staff have the necessary training and training materials to successfully use the system at the start of the 2020-21 school year. The current special education data system cannot support the new Chapter 30 regulations without significant and very costly modifications to the system. The design of the current system results in repeated data system errors that require exhaustive support by OSSE staff and the current vendor. The current system does not allow for true system/application integration, so OSSE staff are forced to maintain integration work-arounds to ensure that the needs of the schools and students are met.

"This is extremely urgent. We must have a special education system that can support the new regulations by July 1, 2020."

(GF0) UNIVERSITY OF THE DISTRICT OF COLUMBIA

MISSION

The University of the District of Columbia (UDC) is an urban land grant institution of higher education. Through its community college, flagship, and graduate schools, UDC offers affordable post-secondary education to District of Columbia residents at the certificate, baccalaureate, professional, and graduate levels. These programs prepare students for immediate entry into the workforce, the next level of education, specialized employment opportunities, and life-long learning.

BACKGROUND

UDC operates its programs in 11 buildings on its Van Ness campus located at 4200 Connecticut Avenue, totaling approximately 1.28 million square feet of space. The University also operates a main campus garage with approximately 730 parking spaces and a physical plant containing two chillers and two boilers. The University facilities, in addition to the Van Ness Campus, include: the Bertie Backus site at 5171 South Dakota Avenue, NE; the PR Harris site at 4600 Livingston Road, SE; the 143.5-acre Firebird Farm in Beltsville, Maryland; and a hangar at National Airport. Nine of the eleven buildings on the Van Ness Campus and the parking garage were built starting in the early 1970s. The newest building on the campus is the recently completed Student Center.

CAPITAL PROGRAM OBJECTIVES

Provide a healthy, safe, and appealing higher education environment where all facilities meet academic accreditation standards, comply with building codes and ADA requirements, and are equipped with advanced technology. Develop financial support for campus capital improvements by meeting the university president's fundraising goals for gifts from individuals, corporations, and private foundations.

RECENT ACCOMPLISHMENTS INCLUDE:

- Mechanical, Electrical, Plumbing Condition Assessment – Campus-Wide
- Building #32/#42 Window Replacements
- Bertie Backus Site Development (Phase III) - Auditorium Renovation
- Plaza Irrigation System Upgrades Phase II
- Campus Wayfinding Enhancements (Phase I) Exterior Building Signage
- Aquaponics Facilities at Van Ness, Backus, and P.R. Harris

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

GF0-UG706-RENOVATION OF UNIVERSITY FACILITIES

Agency: UNIVERSITY OF THE DISTRICT OF COLUMBIA (GF0)
Implementing Agency: UNIVERSITY OF THE DISTRICT OF COLUMBIA (GF0)
Project No: UG706
Ward:
Location: 4100 CONNECTICUT AVE NW
Facility Name or Identifier: UNIVERSITY OF THE DISTRICT OF COLUMBIA
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$355,914,000

Description:

The project will renovate the Van Ness Campus and facilities at other locations at the University of the District of Columbia. The projects will include work at the University' College of Arts and Sciences (CAS), School of Business and Public Administration (SBPA), School of Engineering and Applied Sciences (SEAS), College of Agriculture, Urban Sustainability, and Environmental Sciences (CAUSES), the School of Law, as well as the Community College sites and the Firebird Farms agricultural research site. The scope of work will include much needed renovations and updates to classrooms, academic laboratories, physical education facilities, auditoriums, student gathering and study spaces, faculty offices, book and material storage areas, learning resources, and unique study areas. The scope of work will also include required upgrades to the mechanical, electrical, and plumbing systems, life safety systems, structural systems, drainage systems, including upgrades to the plaza pavement and irrigation system, roof replacements, and the installation of new energy efficient windows throughout the campus. The projects will be designed and constructed with enhancing campus sustainability as a primary objective.

Justification:

This project will provide urgently needed facility upgrades to university facilities throughout the District. This project aligns with Sustainable DC Action: Built Environment 3.5.

Progress Assessment:

Progressing in multi-phases

(GO0) SPECIAL EDUCATION TRANSPORTATION

MISSION

The mission of Special Education Transportation, also known as the Office of the State Superintendent of Education, Division of Student Transportation (OSSE DOT), is to provide safe, reliable, and efficient transportation services that positively support learning opportunities for eligible students from the District of Columbia. The agency's work is designed to achieve four main objectives: Safety, Efficiency, Reliability, and Customer Focus.

BACKGROUND

OSSE DOT provides safe and efficient student transportation services for eligible students as determined by Local Education Agencies (LEAs). The agency maintains the means to transport eligible students safely and on-time and continuously aims to improve service levels by collaborating with parents, guardians, school staff, and special education advocates.

SCOPE

The Division of Student Transportation continues its vehicle replacement program for the bus fleet. This project ensures that OSSE DOT will continue to successfully support learning opportunities for District of Columbia students and help in the District's efforts to comply with Local and Federal air quality standards. The useful life of a school bus is between five and eight years (depending on driving conditions; typically, driving conditions in urban areas reduce the useful life of school buses).

CAPITAL PROGRAM OBJECTIVES

Justification for Vehicle (Bus) Replacement:

As the replacement program continues, the agency seeks to retire the oldest, most costly to repair units to achieve the goal of maintaining a healthy reliable fleet at 5 years of age or younger. Additionally, repairs on older vehicles tend to include major work that is significantly more expensive than maintaining newer vehicles.

The current bus fleet consists of 632 vehicles; of these vehicles, 151, are 2011 models or older. As new buses have been purchased and as OSSE-DOT reduces the average vehicle age, maintenance costs will continue to decrease and vehicle reliability will continue to increase.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AM0-BRM15-1601 W STREET NE BUILDING RENOVATION

Agency: SPECIAL EDUCATION TRANSPORTATION (GO0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: BRM15
Ward: 5
Location: 1601 W STREET NE
Facility Name or Identifier: SCHOOL BUS TERMINAL
Status: Ongoing Subprojects
Useful Life of the Project: 25
Estimated Full Funding Cost: \$18,800,000

Description:

Building Renovations and Modernizations at SET facilities, required upgrades to meet OSSE's need of a 4.27 acres site currently with some maintenance infrastructure, office space and parking space. The agency's immediate need for taking possession of the property in FY 2017 is the relocation and consolidation of the Adam Place Terminal at this location as the agency's main bus depot.

Upgraded plans, which are in line with the new zoning requirements, will include upgrading of existing and installation of new parking pavement throughout with appropriate storm water management features. Existing office area will be rehabilitated.

Justification:

The agency's immediate need for taking possession of the property in FY 2017 is the relocation and consolidation of the Adam Place Terminal at this location as the agency's main bus depot.

Progress Assessment:

Ongoing project.

GO0-BU0B0-BUS-VEHICLE REPLACEMENT

Agency: SPECIAL EDUCATION TRANSPORTATION (GO0)
Implementing Agency: SPECIAL EDUCATION TRANSPORTATION (GO0)
Project No: BU0B0
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: BUSES
Status: Ongoing Subprojects
Useful Life of the Project: 8
Estimated Full Funding Cost: \$48,685,000

Description:

The Office of the State Superintendent of Education (OSSE)'s Division of Transportation (DOT) current fleet of buses range in age from 3-15 years old. DOT seeks to sustain a replacement schedule of 8-year useful life for its bus fleet. Under this plan, DOT would replace 100 vehicles per year in 5 tranches spaced evenly throughout the year. This plan would allow DOT to replace each of their 800 vehicles every 8 years.

Justification:

The useful life of a school bus is typically 8 years. Of OSSE DOT's current fleet of approximately 800 buses, 308 are over 8 years and some are as old as 15 years. 186 have over 100,000 miles of use. These older buses also affect over-time payments to drivers and attendants and on-time statistics due to increased breakdowns on the road. The current cost to maintain these older vehicles is more than \$7.2M annually. This project aligns with SustainableDC Action: Transportation 4.2.

Progress Assessment:

On-going project

(HA0) DEPARTMENT OF PARKS AND RECREATION

MISSION

The Department of Parks and Recreation mission is to promote health and wellness, conserve the natural environment, and provide universal access to parks and recreation services.

SCOPE

The DPR manages and maintains over 365 parks, including 74 recreation facilities, 95 playgrounds, over 50 aquatic facilities and amenities, and hundreds of play courts, athletic fields, and green spaces. The Department provides a wide range of recreational activities to individuals and groups of all ages throughout the District, including aquatics, athletics, fitness, urban camps, therapeutic recreation, environmental education, personal enrichment programs, and food and nutrition programs.

CAPITAL PROGRAM OBJECTIVES

1. Plan and design accessible, safe and fun facilities that support high quality, outcomes-based recreational programming.
2. Plan and design spaces that meet or exceed green infrastructure requirements
3. Prepare guidelines for designing state of the art recreation facilities.
4. Align the capital budget to ensure funding of projects from planning and design, through construction.

HIGHLIGHTS OF RECENT ACCOMPLISHMENTS

- New recreation centers: DPR opened Marvin Gaye Recreation Center, Palisades Recreation Center and Friendship Recreation Center and continued efforts to construct new recreation center at Edgewood Recreation Center
- Renovated playgrounds and parks: DPR completed park improvements at Marvin Gaye Trail- installation of new community gardens and completed its first meditation garden in Ward 4.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.

AM0-QE8TP-17TH & C SE TRIANGLE PARK PLAYGROUND

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QE8TP
Ward: 6
Location: 17TH AND C STREET SE
Facility Name or Identifier: 17TH & C STREET SE TRIANGLE PARK
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$750,000

Description:

Replace the aging play equipment in the triangle park bounded by 17th Street, S.E., C Street, S.E, and Massachusetts Avenue, S.E. These improvements will better serve the community by aligning with the completion of the redevelopment of the adjacent Eastern Branch Boys and Girls Club site.

Justification:

TBD

Progress Assessment:

New project

AM0-KMS20-ANACOSTIA RECREATION CENTER @ KETCHAM ES

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: KMS20
Ward: 8
Location: 1919 15TH STREET SE
Facility Name or Identifier: NEW ANACOSTIA RECREATION CENTER
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$15,000,000

Description:

This project entails construction of a new recreation center with improved programs and services for children, teenagers, adults and seniors for this east of the river community. A new center will bring an enhancement to community and will also provide safe and secure facilities for residents, as well as preserving and protecting the city’s natural resources.

Justification:

This center will bring an enhancement to the community neighborhood.

AM0-QP5AR-ARBORETUM COMMUNITY CENTER

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QP5AR
Ward: 5
Location: 2412 RAND PLACE NE
Facility Name or Identifier: ARBORETUM COMMUNITY CENTER
Status: Under preliminary study
Useful Life of the Project: 30
Estimated Full Funding Cost: \$10,710,000

Description:

Build a new recreation center that will feature a gymnasium, classrooms, flex computer lounge, kitchen, other program spaces and improvements to the exterior park site. If funding is sufficient a new playground will be included.

An FY20 enhancement of \$3.51 million was provided to implement the full scope of planned renovations, to include a half-court gym.

Justification:

Build a new facility to allow for expanded and new program opportunities. This area of the District has been blighted for many years and this new community center will be a great asset to nearby communities.

Progress Assessment:

New project

AM0-QN702-ATHLETIC FIELD AND PARK IMPROVEMENTS

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QN702
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 8
Estimated Full Funding Cost: \$14,525,000

Description:

This funding source will allow DPR to improve fields, playground surfaces and park infrastructure.

An FY19 enhancement of \$100,000 was provided for improvements to Virginia Avenue Park, which is bounded by 9th and 11th Streets, SE, the Southeast Freeway, and Potomac Avenue, SE, in an area of Capitol Hill just east of the Navy Yard neighborhood. In 2015, CSX Corporation began using the park as a staging area for construction of two new rail tunnels. The tunnel projects' Record of Decision requires CSX to renovate the portion of the park it has disturbed and to add a dog park. The community moved forward with a design process for the whole park, and in March 2017, ANC 6B voted to support a conceptual design that was later approved by CSX, DPR, and DDOT. The park design requires \$200,000 from the District, and \$100,000 was allocated to the project in FY 2018.

Justification:

This project will be used to improve the fields throughout the DPR inventory based of the new interagency workgroup recommendation. In addition, there are playground surfaces that need to be renovated as well.

Progress Assessment:

Progressing as planned

FY 20 Planned/Forecasted Spending

* Ward 3: Shepherd Field - \$400,000.00 - Replace field

* Ward 7: Marvin Gaye Playground - \$100,000 - Replace playground surface

AM0-QF4RC-BENNING PARK RECREATION CENTER - REHAB

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QF4RC
Ward: 7
Location: SOUTHERN AVENUE AND FABLE STREET SE
Facility Name or Identifier: BENNING PARK RECREATION CENTER
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$11,250,000

Description:

Modernize the existing facility. New program spaces will be added and better utilization of existing spaces. Renovation to the boxing arena and outdoor pools will also be made.

Justification:

This community is in dire need of a modernized facility that allowed for better and more functional programming space.

Progress Assessment:

This project is progressing as planned

AM0-BRC37-BRENTWOOD RECREATION CENTER

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: BRC37
Ward: 5
Location: 3211 14TH STREET NE
Facility Name or Identifier: BRENTWOOD REC CENTER
Status: Pre-design
Useful Life of the Project: 30
Estimated Full Funding Cost: \$2,642,000

Description:
 Full interior renovation, re-design of interior spaces to increase capacity, new classrooms.

Justification:
 Built in 2005, the center is in a Safer Stronger PSA - * 7,247 new residents by 2025, 26% increase. In opportunity zone tract- so there will be a need for expanded community use and new program offerings. The current facility is 4600sf. there is space to increase capacity by adding a multipurpose room (annex).

Progress Assessment:
 Pre-design

AM0-QM701-CHEVY CHASE COMMUNITY CENTER

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QM701
Ward: 3
Location: 5601 CONNECTICUT AVENUE NW
Facility Name or Identifier: CHEVY CHASE COMMUNITY CENTER
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$19,567,444

Description:

Make ADA improvements, new elevators, new multipurpose rooms and new and expanded program space.

Justification:

This center is old and underutilized. The community is quite diverse and there is a need for more expanded programming opportunities-especially for seniors.

Progress Assessment:

On-going subproject

AM0-COM37-CONGRESS HEIGHTS MODERNIZATION

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: COM37
Ward: 8
Location: 611 ALABAMA AVENUE SE
Facility Name or Identifier: CONGRESS HEIGHTS RECREATION CENTER
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$22,759,000

Description:

Demolish and build a new recreation center that will have a gymnasium, kitchen, flexible computer lounge and multipurpose spaces.

An FY20 enhancement of \$3 million was provided for additional family-oriented amenities, to include a bowling alley and a multi-purpose room with a stage and the capacity to screen motion pictures.

Justification:

The community has been lobbying for a new recreation space for years. The small field house is small and does not allow for expanded program opportunities. There is an increased request to use the facility for kids programming and the population in this community has also increased exponentially .

Progress Assessment:

Interior renovations completed

AM0-QK438-DOUGLASS RECREATION CENTER

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QK438
Ward: 8
Location: FREDERICK DOUGLASS CENTER & STANTON SE
Facility Name or Identifier: DOUGLASS RECREATION CENTER
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$18,733,000

Description:

The community surrounding the Douglas Recreation Center has grown and the existing facility is not meeting the needs of the community. This project will allow for much needed additional programming and educational spaces in a better facility. The project will consist of modernizing and possibly expanding the current facility.

Justification:

Existing facility is not meeting the needs of the community.

Progress Assessment:

Pre-design

AM0-QD738-FORT DUPONT ICE ARENA REPLACEMENT

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QD738
Ward: 7
Location: 3779 ELY PLACE SE
Facility Name or Identifier: FORT DUPONT ICE ARENA
Status: Under design
Useful Life of the Project: 30
Estimated Full Funding Cost: \$31,425,000

Description:

Complete modernization of the current ice arena. The goal is to build 2 new ice sheets if adequate funding is available and if additional funding is not available, 1 new ice sheet will be built.

Justification:

This is a new recreation amenity in the DPR inventory and the opportunity to program and offer this as a unique fresh program to all residents in the District makes this project beneficial.

Progress Assessment:

In 2010 the National Park Service transferred property in Fort Dupont Park to the District of Columbia. A portion of the property serves as the location of the Baseball Academy to be constructed by the Washington Convention and Sports Authority (Events DC) and the Washington Nationals Foundation. The Fort Dupont Ice Arena is on the remaining portion of the property along with a shared surface parking lot.

AM0-QN751-FRANKLIN SQUARE PARK

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QN751
Ward: 2
Location: 1332 I STREET NW
Facility Name or Identifier: FRANKLIN SQUARE PARK
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$18,100,000

Description:

Design and construct new park elements such as new playground, new hardscaping through pathways, new café and seating options throughout, new lighting and signage all to make Franklin Park a destination location in downtown DC.

Justification:

This is going to be a destination park space that will be on the levels of some famous NYC parks and will become a hub in the district for events, festivals, food and entertainment.

Progress Assessment:

On-going subproject

AM0-RG001-GENERAL IMPROVEMENTS - DPR

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: RG001
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$31,693,000

Description:

These funds provide a pool of funding that will be readily available to address planned capital eligible work such as HVAC and small capital events.

Justification:

Funds will be used to replace HVAC systems at Columbia Heights and Takoma. In addition, funds will be used to renovate the roof at the Takoma Aquatic Center.

Progress Assessment:

Progressing as planned.

FY 20 Planned/Forecasted Spending:

- * Ward 5: Edgewood Recreation Center - \$1,000,000 - To meet shortfall in dedicated project budget
- * Ward 8: Ferebee Hope - \$1,000,000 - To be Added to existing project budget for ADA improvement and pool renovation
- * Citywide: HVAC and Boiler Renovation - \$750,000 - 3 Recreation sites from DGS FM

AM0-QN754-LANSBURGH PARK IMPROVEMENTS

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QN754
Ward: 6
Location: 1098 DELAWARE AVENUE SW
Facility Name or Identifier: LANSBURGH PARK
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$1,300,000

Description:

Lansburgh Park was constructed in 1964 as part of the District’s urban renewal effort in Southwest. The park provides critical gathering and green space in the Southwest Waterfront. A previous allocation funded the development of a dog park on the property, but additional funding is necessary for rehabilitation of the park’s historic metal domed pavilion area, stage, and park seating. In addition, replacement of lighting on the underside of the pavilion and installing additional lighting around the pavilion perimeter would enable the park to hold evening programming and enhance park security. Additional needs include electrical capacity to the stage, water fountain installation, and general sidewalk and grounds improvement.

An FY19 enhancement of \$400,000 was provided for rehabilitation of the park’s historic metal domed pavilion area, stage, and park seating. In addition, replacement of lighting on the underside of the pavilion and installing additional lighting around the pavilion perimeter would enable the park to hold evening programming and enhance park security. Additional needs include electrical capacity to the stage, water fountain installation, and general sidewalk and grounds improvement.

Justification:

The park is used by the community daily and having pedestrian and safety lighting in the parks offers expanded use of the space later in the evenings.

Progress Assessment:

On-going subproject

NOMA BID for parkland acquisition and improvements to existing and building new park spaces for DPR to own and program.

Justification:

With expanded populations there is a need for more park spaces, dog parks and small recreational opportunities. DPR is pleased to partner with NOMA Bid for these projects to provide new parks for District residents.

AM0-QL201-OFF-LEASH DOG PARKS

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QL201
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: OFF-LEASH DOG PARKS
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$1,801,000

Description:

DPR is opening new dog parks across the District. Since this project started, we have opened new dog parks at 5 locations. Three additional dog parks will be opened in early 2011 (Gage Eckington, Langdon and Kingsman). This funding will allow DPR to design and construct two dog parks already approved by DPR (Virginia Avenue and Francis Field).

An FY20 enhancement of \$250,000 to provide lighting for Langdon Dog Park.

Justification:

AM0-LEDPK-PARK AT LEDROIT

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: LEDPK
Ward: 1
Location: V STREET AND 2ND STREET NW
Facility Name or Identifier: PARK AT LEDROIT
Status: Developing scope of work
Useful Life of the Project: 30
Estimated Full Funding Cost: \$1,650,000

Description:

Renovate the field space and improve other park elements such as lighting, fencing and signage.

An FY20 enhancement of \$900,000 to install a new spray park or splash pad facility at the Park at LeDroit.

Justification:

This park was renovated a few years ago, but there were remaining projects to be completed. Also the community is requesting better utilization of the field and park spaces.

AM0-RE017-PARKVIEW RECREATION CENTER

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: RE017
Ward: 1
Location: 693 OTIS PLACE NW
Facility Name or Identifier: PARKVIEW RECREATION CENTER
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$14,583,000

Description:

Plan, design and construct a new recreation facility that allows for more efficient use of the space.

Justification:

This site is heavily used throughout the day, including the playground, small pool and historic field house, the field and other park amenities. The recreation center does not offer efficient use of the space, so by renovating the center, DPR is better able to program the space for the community.

Progress Assessment:

AM0-QE238-RIDGE ROAD RECREATION CENTER

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QE238
Ward: 7
Location: 810 RIDGE ROAD SE
Facility Name or Identifier: RIDGE ROAD RECREATION CENTER
Status: In multiple phases
Useful Life of the Project: 30
Estimated Full Funding Cost: \$18,726,000

Description:

The existing site easily accommodates 150-200 children by utilizing outdoor program space; however, DPR’s goal is to provide adequate indoor recreation space that the community can benefit from during adverse weather conditions. The existing facility was built in the early 1960s and is a 2,000 square ft. one-room masonry building, which is not meeting the needs of the community. This project will include but not be limited to the following work in accordance with DPR’s standards: (1) public consultations; (2) examination of the existing conditions; (3) construction document preparation, (4) field inspections; (5) design and construction of a new state-of-the-art ADA-compliant facility; (6) landscaping; (7) installation of new playground; and (8) construction of site amenities, parking and lighting.

Justification:

DPR plans to demolish the existing facility and replace it with a new recreation center.

Progress Assessment:

On-going project

AM0-QE834-SMALL PARK IMPROVEMENTS

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QE834
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$7,368,000

Description:

This fund will provide a pool of funding that will be readily available to address planned capital events for triangle, pocket and circle parks throughout the District.

FY20 enhancements of \$1.36 million were provided for the following:

\$1.26 million for improvements to the unused green space at Riggs LaSalle Recreation Center; improvements to the Crestwood triangle park located at 18th Street, Allison Street, and Argyle Terrace NW; improvements to Emery Heights Park; improvements to Lorenzo Larry Allen Memorial Park; and \$100,000 for improvements to the triangle park at Kalorama Road, Columbia Road, and 19th Street NW, recently renamed Ann Hughes Hargrove Park. Work is necessary to maintain the park's benches, paving, landscaping, and water infrastructure.

An FY21 enhancement of \$357,691 was provided for improvements to Ward 1 pocket, triangle, or circle park. Despite the District's high acreage of parkland per capita, there are significant residential portions of Ward 1 – particularly the eastern portion of the Ward – that are not within a reasonable walking distance of meaningful open space.

Justification:

DPR has over 200 small parks that are in need for enhancements. These gems are perfect spaces to add unique amenities in neighborhoods. DPR envisions a new tech park featuring solar powered stations, space for tech demonstrations with Google and Amazon. Goal is to enhance 2 small parks per year.

Progress Assessment:

Progressing as planned

FY 20 Planned/Forecasted Spending:

* Ward 2: Ann Hughes Hargrove Park and Kalorama Erosion - \$100,000 - Renovate small triangle park

* Ward 6: SW Duckpond - \$900,000 - To be added to existing project budget to reach \$1,100,000

AM0-SET38-SOUTHEAST TENNIS AND LEARNING CENTER

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: SET38
Ward: 8
Location: 701 MISSISSIPPI AVENUE SE
Facility Name or Identifier: SOUTHEAST TENNIS AND LEARNING CENTER
Status: In multiple phases
Useful Life of the Project: 15
Estimated Full Funding Cost: \$31,955,000

Description:

Expand the tennis courts in Oxon Run Park.

Justification:

Tennis is a huge sport in the District and there is a need for expanded opportunities to teach and play. This center is for all District residents to come and learn how to play the sport.

Progress Assessment:

On-going subproject

AM0-STDDP-STEAD PARK REC CENTER IMPROVEMENTS

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: STDDP
Ward: 2
Location: 1625 P STREET NW
Facility Name or Identifier: STEAD PARK REC CENTER
Status: Under preliminary study
Useful Life of the Project: 30
Estimated Full Funding Cost: \$16,000,000

Description:

Modernize the existing facility and make the center fully ADA accessible.

Justification:

The community has been lobbying for a new recreation space for years. The building is not ADA accessible and there is an increased need to use the facility for children's programming. The population in this community has increased exponentially and there is a need for space to expand programming for all residents. Also, the Stead Trust has funds to add to this project which would be helpful.

Progress Assessment:

New subproject.

AM0-RG0TA-TAKOMA AQUATIC CENTER RENO AND NEW ROOF

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: RG0TA
Ward: 4
Location: 300 VAN BUREN STREET NW
Facility Name or Identifier: TAKOMA AQUATIC CENTER
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$5,004,000

Description:

Replace the aquatic center roof due to leakage, new flashing around building, new HVAC (new boiler/cooling/heating infrastructure).

Justification:

The Takoma Aquatic center is a heavily used indoor pool with many programming opportunities- it features the well known Black Swim Meet - but the HVAC has not been functioning properly for the past 6 years- the center is too hot and humid. The roof was not installed properly and has been leaking for the past 7 years. Its to the point now that repairs are not working. the roof needs to be replaced

Progress Assessment:

New project

AM0-THELC-THEODORE HAGANS CULTURAL CTR-THURGOOD MARSHALL ECE

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: THELC
Ward: 5
Location: 3201 FORT LINCOLN DRIVE NE
Facility Name or Identifier: THEODORE HAGANS CULTURAL CENTER
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$35,756,000

Description:

Modernize the facility to upgrade the existing lap pool; renovate the existing pool house. This project will also demolish Thurgood Marshall Elementary School, which has been vacant since 2013. Once demolished, DPR will construct a new multi-use recreation and early childhood education center. The recreation center will also accommodate seniors and will have multi-purpose athletic space. The early childhood education center will serve the growing birth-to-four population that is projected in this area (by 2025, the Office of Planning is projecting a 14.8% increase for this population, which equates to 3,512 0-4-year-old children).

Justification:

The population in this area of DC has increased exponentially. There are plans for new economic development, commercial development and housing. DPR has to provide programming space for these new residents in the community.

Progress Assessment:

On-going subproject

AM0-QN637-UPSHUR RECREATION CENTER

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: QN637
Ward: 4
Location: 4300 ARKANSAS AVENUE NW
Facility Name or Identifier: UPSHUR RECREATION CENTER
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$12,000,000

Description:

Expand the footprint of the existing field house and connect the rec to the pool house- making a better use of the space for expanded programming. A larger teaching kitchen, lounge, multipurpose room and maybe a half-court gym may be able to fit on the site and within the budget.

Justification:

The community's population is on the rise. The nearby Powell school has hundreds of kids that need recreation space for recess and lunch. The community has also been lobbying for years for expanded space so that they could have more program offerings and permitted events.

Progress Assessment:

On-going project

AM0-W4PLC-WALTER REED POOL

Agency: DEPARTMENT OF PARKS AND RECREATION (HA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: W4PLC
Ward: 4
Location: 6900 GEORGIA AVENUE NW
Facility Name or Identifier: WALTER REED POOL
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$5,200,000

Description:

The DPR Capital Improvements Plan includes \$5,000,000 for a new outdoor pool at the Walter Reed site in FY 2023. \$200,000 is provided in FY19 for development of a plan for the pool. The planning stage is seen as being crucial to ensuring that construction of the pool begins on time.

Justification:

Funds are needed in FY 18 to begin the planning and design for the ward 4 upper NW outdoor pool.

Progress Assessment:

Progressing as planned

(HT0) DEPARTMENT OF HEALTH CARE FINANCE

MISSION

The mission of the Department of Health Care Finance (DHCF) is to improve health outcomes by providing access to comprehensive, cost-effective, and quality health care services for residents of the District of Columbia.

CAPITAL PROGRAM OBJECTIVES

DC Access System (DCAS)

As an umbrella eligibility and enrollment system for Health and Human Services, DCAS provides access to cross agency automated databases for case data, such as demographics, beneficiary data, and benefit issuance; which will allow new case information data to be added. The system will also determine Medicaid eligibility.

Medicaid Management Information System (MMIS)

The Centers for Medicare and Medicaid Services (CMS) requires each Medicaid state and the District to maintain and operate a Medicaid Management Information System (MMIS). The MMIS serves as the District's Medicaid claims processing engine and supports DHCF staff in their day-to-day duties. CMS requires that the system technology be refreshed every five years to ensure it is up to date and contracts are completed openly. To remain compliant with CMS, the District must begin procuring a new MMIS.

United Medical Center

Assist the Mayor, Council, and consultant team in evaluation of the operational and facility needs of United Medical Center.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

HT0-MPM05-MEDICAID DATA WAREHOUSE- GO BOND

Agency: DEPARTMENT OF HEALTH CARE FINANCE (HT0)
Implementing Agency: DEPARTMENT OF HEALTH CARE FINANCE (HT0)
Project No: MPM05
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$12,143,000

Description:

One of the comments made by the Centers for Medicare and Medicaid Services (CMS) during the MMIS certification exit conference was that the District was one of the few states that lacked a Medicaid data warehouse. Utilizing a data warehouse for data analysis and trending would greatly improve the District's ability to manage the Medicaid program. In order to facilitate more efficient Medicaid program administration and support intelligent decision-making, DHCF needs a Medicaid Data Warehouse (MDW) to provide easy access to Medicaid program data from the Medicaid Management Information System (MMIS) through the use of analytical reporting tools.

This project will provide the agency the ability to quickly access over 10 years of Medicaid claims data to do data and trend analysis to better identify past and future areas of fraud. Additionally, the DW will get continuous claims data feeds from the MMIS. The DW appliance is set to be delivered to OCTO for hosting within the month, which will allow DHCF to begin testing the applications in house.

Phase 1 of this project has been completed, but there is a 2nd phase of development that will support a number of new Public Health Challenges facing DC Residents as well as inter-operability with the new Hospital systems in DC to allow faster and more reliable data for better machine learning. MDW 2.0 will have a standard technology infrastructure using .NET and take advantage of the Restful API on DHCF business use cases. The key benefits in the new MDW 2.0 will support Medication Therapy Management for our DHCF Pharmacist plus being able to meet all CMS Home Health measures, Artificial Intelligence and other interfaces that is needed to support stakeholders outside DHCF like HIE/CRISP plus the new DC Hospital PH systems.

Justification:

The key benefits in the new MDW 2.0 will support Medication Therapy Management for our DHCF Pharmacists while also being able to meet all CMS Home Health measures, Artificial Intelligence and other interfaces that are needed to support stakeholders outside DHCF like HIE/CRISP plus the new DC Hospital PH systems.

Progress Assessment:

The project to date has progressed as planned.

HT0-CM102-REPLACE CASE MANAGEMENT SYSTEM

Agency: DEPARTMENT OF HEALTH CARE FINANCE (HT0)
Implementing Agency: DEPARTMENT OF HEALTH CARE FINANCE (HT0)
Project No: CM102
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$5,707,000

Description:

Implementation of a case management system to track the activities related to beneficiaries enrolled in the EPD Waiver and other programs managed by DHCF. This proposal is to replace the existing case management system with one that can track EPD Waiver beneficiaries as well as those in other DHCF managed programs, has all of the additional functionality needed, and is integrated with the claims processing system (MMIS). DHCF's current case management system for tracking beneficiaries in the waiver for the elderly and people with disabilities (EPD Waiver) is antiquated, lacks key functionality, and is not integrated with MMIS. Additionally, in December 2016, Congress enacted the 21st Century Cures Act. Section 12006 of the Act requires States to implement electronic visit verification (EVV) for Medicaid-financed Personal Care Services and Home Health Services.

Justification:

Implementation of the Case Management System would enable DHCF to track the activities related to beneficiaries enrolled in the EPD Waiver and other programs managed by DHCF. DHCF's current case management system for tracking beneficiaries in the waiver for the elderly and people with disabilities (EPD Waiver) lacks key functionality, and is not integrated with the claims processing system (MMIS).

HT0-UMV01-SAINT ELIZABETHS MEDICAL CENTER

Agency: DEPARTMENT OF HEALTH CARE FINANCE (HT0)
Implementing Agency: DEPARTMENT OF HEALTH CARE FINANCE (HT0)
Project No: UMV01
Ward: 8
Location: 2700 MARTIN LUTHER KING JR AVENUE SE
Facility Name or Identifier: MEDICAL CENTER
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$325,500,000

Description:

The Office of the City Administrator, in coordination with the Department of Health Care Finance, Department of Health, and the Office of the Deputy Mayor for Planning and Economic Development, will develop a plan to partner with a financially strong, high quality health care institution to build a new acute care hospital and ancillary facilities on the Saint Elizabeths East Campus. The hospital shall include a financially viable inpatient facility, emergency department and ambulatory care pavilion, parking, retail, medical office space and necessary diagnostic facilities for all District residents. The final hospital size and services to be provided will be determined in coordination with the future hospital partner and long-term operator and based on the reports completed on behalf of the District.

The hospital will include partnerships with community providers to build a system of care and comprehensive strategy for providing high quality health services to all District residents – with a focus on the residents and communities of Wards 7 and 8. In addition, constructing a state-of-the-art hospital on the grounds of the Saint Elizabeths East campus may include entering into a public-private partnership agreement with a private operator.

Justification:

Building a new hospital with a robust system of care will help address health disparities and improve health outcomes for all District residents, with a focus on residents of Wards 7 and 8. In addition, construction of a state-of-the-art, centrally located, hospital will continue the redevelopment of the Saint Elizabeths East campus.

Progress Assessment:

On-going project

Related Projects:

1. Emergency and Temporary Housing for Men (Project THK19C) – Building a new facility for emergency and temporary housing for men will replace the current facility, 801 East Men’s Homeless Shelter. The new facility on the Saint Elizabeths campus is necessary to provide high quality emergency and temporary housing for men with daytime and health services. The current facility is beyond its useful life and cannot accommodate the necessary programming space needed to effectively serve residents experiencing homelessness. Building a new facility will allow the new hospital to be situated appropriately on Parcel 2 of the Saint Elizabeths campus.

2. Saint Elizabeths Infrastructure (Project AWR01C)

HT0-UMC02-UNITED MEDICAL CENTER IMPROVEMENTS

Agency: DEPARTMENT OF HEALTH CARE FINANCE (HT0)
Implementing Agency: DEPARTMENT OF HEALTH CARE FINANCE (HT0)
Project No: UMC02
Ward: 8
Location: 1310 SOUTHERN AVENUE SE
Facility Name or Identifier: UNITED MEDICAL CENTER
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$81,593,000

Description:

The purpose of the project budget is to support the costs of capital improvements at the existing hospital facility, United Medical Center (UMC). The proposed cost and scope of the improvements should be reviewed and approved by DHCf and will be performed by UMC management.

Justification:

Huron Consulting Group states that "UMC Facilities are in relatively good condition" and that "investments to make the facilities competitive without other District providers could differentiate UMC and attract (Primary Service Area) PSA residents."

Progress Assessment:

On-going project

(JA0) DEPARTMENT OF HUMAN SERVICES

MISSION

The mission of the Department of Human Services (DHS) is to empower every District resident to reach their full potential by providing meaningful connections to work opportunities, economic assistance and supportive services.

BACKGROUND

The Department of Human Services works closely with the Department of General Services to design, maintain and upgrade the District's portfolio of shelters for families and individuals experiencing homelessness. DHS currently oversees 26 low barrier, emergency and transitional homeless shelter buildings, not including the short-term family housing sites under construction. Capital projects are implemented by the Department of General Services, with DHS ensuring facilities support the unique needs of our customers.

CAPITAL PROGRAM OBJECTIVES

To design small dignified community-based buildings that allow for the delivery of supportive services and facilitate rapid exit into stable and permanent housing.

To upgrade and renovate buildings to ensure stable and safe system operations, particularly during extreme weather conditions.

RECENT ACCOMPLISHMENTS

Construction of short-term family housing buildings in neighborhoods across the District to facilitate the closing of DC General by the end of 2018.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AM0-THK17-EMERGENCY AND TEMPORARY HOUSING UPGRADES

Agency: DEPARTMENT OF HUMAN SERVICES (JA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: THK17
Ward: 5
Location: 1725 LINCOLN ROAD NE & 635 I STREET NE
Facility Name or Identifier: EMERY MEN'S SHELTER/BLAIR MEN'S SHELTER
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$15,897,000

Description:

The purpose of the project is to increase the useful life of Emery and Blair Shelter infrastructure by performing critical upgrades.

Justification:

Both the Emery and Blair shelters have completed a feasibility study which concluded that each site is in need of significant upgrades. Recommendations include replacing subfloors throughout the space, replacing existing doors with fire-rated doors which comply with national fire codes, replacing damaged hand rails, replacing existing ramps to comply with ADA renovating existing bathrooms, upgrading HVAC, Roof replacement, etc. Subsequent studies and analysis of the original proposal to provide new Condensing Boilers and Fin-Tube Radiators for heating while reusing the existing AC window units cooling is not viable. Additional funding is necessary to install new VRV throughout the buildings to allow for a unified system that is more energy efficient, resilient and effective at cooling.

Progress Assessment:

Project is currently in design. Construction is expected to begin in July 2019

AM0-THK18-NEW YORK AVENUE UPGRADES/RENOVATIONS

Agency: DEPARTMENT OF HUMAN SERVICES (JA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: THK18
Ward: 5
Location: 1355 NY AVENUE NE
Facility Name or Identifier: NEW YORK AVENUE SHELTER
Status: Ongoing Subprojects
Useful Life of the Project: 15
Estimated Full Funding Cost: \$11,575,000

Description:

The New York Avenue Men's Shelter desperately needs a renovation to transform it from a worn facility that has outlived its life cycle into a clean, safe, inviting, state of the art facility that will house approximately 380 single men during hypothermia season. The renovated space will also be designed to support a daytime program to allow for additional case work and a clinic to serve the homeless community.

Justification:

New York Avenue renovation project has received much needed funding to renovate the interior spaces and upgrade mechanical, electrical and plumbing systems, however, additional funding is required to renovate the exterior/façade of the building as well. The windows have reached their life expectancy and the breaches around the window openings contribute to the insufficient heating and cooling of the building. The old aluminum storefront doors need to be upgraded, along with several of the existing exterior doors, which are damaged and have received multiple repairs over the years. The existing brick masonry needs to be repointed and painted. In addition to addressing these deficiencies, the building exterior will be upgraded to better fit with the adjacent improvement along the New York Avenue corridor.

Progress Assessment:

DGS is in the process of developing solicitation for design services.

AM0-PSH01-PSH UNITS FOR SENIOR WOMEN

Agency: DEPARTMENT OF HUMAN SERVICES (JA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: PSH01
Ward: 7
Location: 1910 MASSACHUSETTS AVENUE SE
Facility Name or Identifier: HARRIET TUBMAN WOMEN'S SHELTER
Status: Developing scope of work
Useful Life of the Project: 30
Estimated Full Funding Cost: \$58,332,000

Description:

The District has identified a space to design and construct a new 50 unit Site Based Permanent Supportive Housing Facility for women and a new 200 bed emergency housing facility for women on District owned property. The construction of site based PSH units and emergency housing both support the Mayor's Homeward DC plan to make homelessness in the District rare, brief, and non-recurring. This project for unaccompanied adults will deliver on promises by creating a model for site base permanent housing for women and a model for women's emergency housing that continues the transformation of our homelessness crisis response system for single adults. In addition to the 50 unit PSH facility, the District intends to design and construct a facility that will provide 200 beds, a health clinic, day program, computer lab and enough programmatic space to provide quality case management. The co-located facilities would have separate entrances and operate independently. In addition, there is FY20 funding allocated for the Tubman Replacement which is part of this project.

Justification:

While funding has already been allocated to provide site based permanent supportive housing, there is currently a shortage of emergency shelter for women. The shortage is complicated by the fact that the Board of Zoning Adjustments limited the District's use of this building as a shelter for five years (through Dec 2019). The District desperately needs to maintain an emergency shelter for 200 women. The opportunity to develop two facilities on the same property will not only fill both programmatic needs but will also allow the District to realize savings significant construction cost.

Progress Assessment:

DGS preparing solicitation for design services

AM0-HSW01-WARD 1 TEMPORARY HOUSING FOR FAMILIES

Agency: DEPARTMENT OF HUMAN SERVICES (JA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: HSW01
Ward: 1
Location: 2500 14TH STREET NW
Facility Name or Identifier: WARD 1 TEMPORARY HOUSING FOR FAMILIES
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$32,096,000

Description:

The construction of new, smaller apartment style short-term family housing options will allow the District to meet the Mayor's Priority to create more dignified shelters. This is consistent with the District's strategic plan to end homelessness and advance overall efforts to make homelessness rare, brief and non-reoccurring in DC. The property is located at 2500 14th Street NW and will support 50 families experiencing homelessness. The site will also include 15 units of Permanent Supportive Housing (PSH) for seniors and upgrades to the Rita Bright Family and Youth Center.

The District seeks to issue tax-exempt bonds to finance these projects and the Chief Financial Officer of the District must be satisfied that the proposed business arrangements, with respect to the use and user(s) of the proposed project, will not create a private business use within the meaning of the applicable Internal Revenue Service rules and regulations.

Justification:

The construction of new, smaller apartment style short-term family housing options will allow the District meet the legislative mandate for creating apartment style short term family housing.

Progress Assessment:

On-going project to be completed in Spring 2020.

AM0-HSW03-WARD 3 TEMPORARY HOUSING FOR FAMILIES

Agency: DEPARTMENT OF HUMAN SERVICES (JA0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: HSW03
Ward: 3
Location: 3320 IDAHO AVENUE NW
Facility Name or Identifier: WARD 3 TEMPORARY HOUSING FOR FAMILIES
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$38,173,000

Description:

To construct a facility to provide short term housing for families experiencing homelessness containing 50 DC General Family Shelter replacement units on District-owned land at 3320 Idaho Avenue NW, Square 1818, Lot 0849. A contract for the construction of the facility has been awarded pursuant to a request for proposals to be issued by the Department of General Services. This project will also include the construction of a parking garage at the Metropolitan Police Department (MPD)'s Second District. The new garage will have the capacity of approximately 200 parking slots to accommodate MPD's on-site parking requirements.

The District seeks to issue tax-exempt bonds to finance these projects and the Chief Financial Officer of the District must be satisfied that the proposed business arrangements, with respect to the use and user(s) of the proposed project, will not create a private business use within the meaning of the applicable Internal Revenue Service rules and regulations.

Justification:

The construction of new, smaller short-term family housing options will allow the District to close down the DC General Family shelter. This is consistent with the District's strategic plan to end homelessness and advance overall efforts to make homelessness rare, brief, and non-reoccurring in DC.

Progress Assessment:

On-going project to be completed in December 2019.

(JZ0) DEPARTMENT OF YOUTH REHABILITATION SVCS

MISSION

The mission of the Department of Youth Rehabilitation Services (DYRS) is to improve public safety and give court-involved youth the opportunity to become more productive citizens by building on the strengths of youth and their families in the least restrictive, most home-like environment consistent with public safety.

BACKGROUND

DYRS is the juvenile justice agency for the District and is responsible for the supervision, confinement, treatment, and support services for court-involved youth.

The Department is responsible for the supervision, custody, and care of young people charged with a delinquent act in the District in one of the following circumstances:

- Detained in a DYRS facility while awaiting adjudication.
- Committed to DYRS by a DC Family Court judge following adjudication.

RECENT ACCOMPLISHMENTS

New Beginnings Youth Development Center -

- Designed, procured, and implemented a Personal Alarm Duress System (PADS) campus-wide;
- Replaced and upgraded housing unit patio walls to detention-grade HM frames, doors, and hardware;
- Replaced and upgraded two gym doors to a detention-grade frame, door and hardware; and,
- Replaced and upgraded double door from Administration to Culinary to a detention-grade frame, door, and hardware.

Youth Services Center (YSC) -

- Designed and installed a new retaining wall grade-beam system to stabilize the retaining wall structure and water leakage to the adjacent new housing development; and,
- Engaged a security consultant to evaluate YSC's surveillance system and make proven net recommendations (in progress and ongoing).

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

AM0-SH734-BACKUP GENERATOR

Agency: DEPARTMENT OF YOUTH REHABILITATION SVCS (JZ0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: SH734
Ward:
Location: 8400 RIVER ROAD LAUREL, MD
Facility Name or Identifier: OAK HILL
Status: Ongoing Subprojects
Useful Life of the Project: 15
Estimated Full Funding Cost: \$2,295,000

Description:

New Beginnings is a 24/7 secure residential facility that requires power at all times. Presently, the housing units, culinary, and educational areas of the facility are connected to a single backup generator. However, the single generator does not have the capacity to support connection of the administration building and key administrative support functions. The requested action is necessary in order to avoid the loss of power during outages caused by natural occurrences which directly impacts on critical service delivery to youth and staff including Human Resources, Procurement and other key administrative support functions of the agency. Further, the additional generator will provide backup to the existing generator should it fail; thereby assuring continued power to total operations with no impact on resident life and key support functions. DYRS has identified this item as essential, in its Emergency Continuation of Operations Plan (COOP); a high priority for the agency.

Justification:

The cost to connect the administrative functions alone without redundant protection would be \$250,000. Without this project, the only alternative is to instruct staff to telecommute during extended power outages and/or temporarily relocate staff to an alternative worksite

(KA0) DEPARTMENT OF TRANSPORTATION

MISSION

The District Department of Transportation (DDOT)'s mission is to enhance the quality of life for District residents and visitors by ensuring that people, goods, and information move efficiently and safely, with minimal adverse impact on residents and the environment.

BACKGROUND

DDOT oversees and maintains 7,787 intersections (1,678 signalized); 1,495 linear miles of sidewalks; 1,042 linear miles of roadways (interstate highways and neighborhood streets); 350 linear miles of alleys; 232 bridges (208 vehicle, 24 pedestrian); 16 tunnels and underpasses; 10,905 parking meters for 19,410 metered parking spaces; 160,000 street trees in the public right-of-way and another 75,000 on District-owned land; 75,000 streetlights; 500,000 street signs (excluding street name signs), 85 miles of bike lanes and 60 miles of trails; 72 DC Circulator buses operating 6 routes covering 44.23 miles; 6 DC Streetcars covering 2.4 miles on H Street NE; and 277 Capital Bikeshare stations across the District. Additionally, DDOT has responsibility for the District's traffic and pedestrian safety and managing the District's public space and rights-of-way.

CAPITAL PROGRAM OBJECTIVES

1. Maintain and enhance the District's transportation infrastructure.
2. Increase non-vehicular transportation modes to meet the mobility and economic development needs of the District.
3. Improve the safety of pedestrians, cyclists, and drivers throughout the District.

Transportation is critical to the safety, health, and welfare of residents and visitors of the nation's capital. The six-year CIP continues to support Mayor Bowser's Vision Zero Plan, by providing budget for dynamic Safety and Mobility projects, such as expanding production and installation of street signs, bicycle and pedestrian safety improvements, and planning, designing, constructing, and enhancing bike lanes and trails.

Delivering a safe and accessible transportation network is DDOT's top priority. At the core of the District's transportation infrastructure is the vast network of streets, alleys, and sidewalks. The six-year CIP makes significant investments to rehabilitate this network; significantly improving their overall condition. Additionally, the CIP provides budget to invest in streetscape projects that support safety, multi-modal, economic development, and livability goals along major corridors in the District

The six-year CIP includes funding to reconstruct two major bridges in the District: Frederick Douglass (South Capitol Street) Bridge and H Street NE (Hopscotch) Bridge. The 69-year old Frederick Douglass Bridge is functionally obsolete and in need of replacement due to condition. This project, which is expected to be completed in the winter of 2021, makes significant safety improvements and enhances beautification and public space offerings along the Anacostia River. The reconstruction of H Street (Hopscotch) Bridge will expand the transit network and foster further economic development, as it will incorporate the streetcar line and expand multi modal offerings, and enable Amtrak to increase its capabilities and provide for future development at Union Station

The six-year CIP also provides budget for DDOT to deliver significant modernization and innovation to DC's power infrastructure, by completing conversion of all District streetlights to LED technology, as well as undergrounding the most vulnerable electrical feeders in the District (DC PLUG). Both of these projects combine innovations in technology, project delivery, and finance. The streetlight conversion will utilize the District's first ever Streetlight Public-Private Partnership to fund a long-term contract (15 years) to complete this modernization. While most of the DC PLUG project cost will be offset by PEPCO rate payers, this CIP supports undergrounding of six electrical feeders. DDOT anticipates delivering the groundbreaking of the first feeder in winter of 2019.

The six-year CIP also establishes funding for dynamic transit system enhancements; spanning buses, bicycles, and streetcar. DDOT continues work to improve bus transit options for the District; with planned replacement of 18 Circulator buses in FY 2019 with clean diesel buses, as well as continued funding for the 16th Street NW Bus Priority Project. Budget is also provided for the design and construction of the streetcar extension to Benning Road and the expansion of Capital Bikeshare by 1,000 bikes and 100 stations across all eight wards of the District.

Finally, this CIP provides for the enhancement of the vitality, health, and beautification of the District by allocating resources to expand the urban tree canopy to meet the Sustainable DC Goal of 40%, and invests more than \$68 million in stormwater and green infrastructure projects.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

KA0-ED0D5-11TH STREET BRIDGE PARK

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: ED0D5
Ward: 8
Location: 11TH STREET BRIDGE
Facility Name or Identifier: 11TH STREET BRIDGE PARK
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$39,350,000

Description:

The 11th Street Bridge Park project will transform the aged, unused span of the 11th Street Bridge into a signature, elevated park for the District— comparable to the High Line in New York City. Spanning the Anacostia River, the park would link Historic Anacostia with the Navy Yard. Preliminary plans include bike and pedestrian trails, outdoor performance spaces, play areas, gardens, posted information about the river and its ecosystem, and a dock to launch boats and kayaks to explore the river. No funds allocated for the purpose of the 11th Street Bridge Park project may be awarded or disbursed to any entity for purposes of construction until at least 50 percent of the total projected project construction costs have been raised from private donors. No District funds may be awarded or expended for the purpose of operations or maintenance of the 11th Street Bridge Park.

Justification:

The 11th Street Bridge Park will provide a gateway to events with strong roots in the adjacent communities; encouraging both visitors and residents of the District of Columbia to bike and walk, by connecting the bridge park with trails. Paths from each side of the river operate as scenic lookouts - sloped ramps that elevate visitors to maximize view points to landmarks in either direction. Extending over the river, the Anacostia paths join to form a loop, embracing the path from the Navy Yard side and linking the opposing banks in a single gesture, encouraging transportation modes other than cars and at the same time, serving as a destination for the local community to have a park environment with lots of activity.

Progress Assessment:

This is an on-going project

KA0-LMB26-AFRICAN AMERICAN CIVIL WAR MUSEUM STREETSCAPE

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMB26
Ward: 1
Location: 1925 VERMONT AVENUE NW
Facility Name or Identifier: AFRICAN AMERICAN CIVIL WAR MUSEUM
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$444,000

Description:

Design and construct streetscape improvements for the 1900 block of Vermont Avenue NW. The streetscape project includes specialty pavers to visually connect the African American Civil War Museum to the African American Civil War Memorial across Vermont Avenue NW, as well as a curb extension and improvements to pick-up and drop-off for groups at the Museum.

KA0-LMALL-ALLEYS

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMALL
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: ALLEYS
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$116,964,000

Description:

This Local Capital Master project consolidates rehabilitation, reconstruction, and maintenance projects for the District's 350 linear miles of alley assets. This will include preventive maintenance activities such as pothole repair, asphalt deep patching, crack sealing, asphalt overlay, brick patching and replacement, as well as complete reconstruction of an alleyway. The project will also accommodate alley condition assessments, which will be used to develop annual alley work plans.

An FY20 enhancement of \$25,000 was provided for targeted Alleypalooza in the Deanwood area.

Justification:

This project is critical to prevent continued extensive deterioration of the District's alleys. District taxpayers also benefit from alleys that are in a state of good repair, as they improve accessibility to residences and businesses.

Progress Assessment:

On-going

KA0-CE307-BRIDGE MAINTENANCE

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: CE307
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: LOCAL STREETS
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$16,889,000

Description:

The Bridge Reconstruction and Rehabilitation program helps ensure safe and efficient use of the District's 232 bridges and structures (208 vehicle and 24 pedestrian). This project includes critical activities that extend the useful life of the District's bridges; including joint replacement and sealing, surface rehabilitation, and localized reconstruction, as well as the DDOT labor required to perform this work.

Justification:

The project is necessary to prevent extensive deterioration of the District's bridges. District taxpayers benefit from safe and improved bridges, as well as the realized cost savings associated with regular bridge maintenance.

Progress Assessment:

This project is ongoing, and includes joint replacement and sealing, surface rehabilitation, and localized reconstruction.

Related Projects:

Related projects are the federally funded projects or locally funded resurfacing or reconstruction projects.

KA0-BIDCR-BUSINESS IMPROVEMENT DISTRICT CAPITAL REIMBURSEMENT

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: BIDCR
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$1,750,000

Description:

The Business Improvement District (BID) Capital Reimbursement Project will be used to support the work occurring under the Public Space Maintenance Contracting Authorization Amendment Act of 2014, which allows the Mayor to pay or reimburse to a BID corporation or DC Surface Transit Inc. for reasonably incurred expenses in maintaining or improving public space, such as sidewalks and signage, within the boundaries of the BID. This Project will only cover costs associated with capital eligible activities.

Justification:

This project is needed to execute the work outlined under the Public Space Maintenance Contracting Authorization Amendment Act of 2014. The Act provides a vehicle for DDOT to expedite the improvement of asset conditions by partnering with BIDs. If this project is not approved, DDOT will not have a clear funding source to deliver this program on an annual basis.

KA0-CBS02-CAPITAL BIKESHARE EXPANSION

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: CBS02
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: CAPITAL BIKESHARE
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$14,434,000

Description:

This project is to support maintenance, operations, and expansion of the Capital Bikeshare program (“Bikeshare” or “CaBi”). Capital Bikeshare is metro DC’s bikeshare system, with more than 3,700 bikes available at 440 stations across five jurisdictions: Washington, DC; Arlington, VA; Alexandria, VA; Montgomery County, MD; and Fairfax County, VA. Capital Bikeshare provides residents and visitors with a convenient, fun, and affordable transportation option for getting around the DC area. Capital Bikeshare consists of a fleet of specially designed, sturdy, and durable bikes that are secured at a network of docking stations throughout the region. They are ideal for both one way or round trips, as the bikes can be unlocked from, and returned to, any station in the system. Due to the accessibility and convenience of use, Bikeshare is a popular option for commuting to work or school, traveling to social engagements, touring the District, and more.

The District currently operates 277 Capital Bikeshare stations, and over 2,000 bicycles, and plans to grow that number to over 300 stations and over 2,300 bicycles in FY 19. This project will support the continued growth of the system to meet goals outlined in the moveDC and Sustainable DC plans, and maintain the system in a state of good repair as outlined in the “Pioneering a State of Good Repair for Capital Bikeshare” study, by replacing assets as they reach the end of their useful life.

Justification:

This project will allow DDOT to expand the Capital Bikeshare system in all eight wards of the District; funding over 100 new stations and 1,000 bikes. This project will also allow the Program to replenish old equipment in need of replacement. Capital Bikeshare is the most cost effective form of transportation in the District for both the government and the user. CaBi boasts the highest farebox recovery rate of any transit system in the region, covering roughly 85% of its cost from system revenues.

While Capital Bikeshare is continuing to expand within the District, its oldest bicycles (launched in September 2010) are at the end of their manufacturer-specified useful life, and stations are also approaching the end of their useful life.

Progress Assessment:

KA0-LMCIR-CIRCULATOR

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMCIR
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: CIRCULATOR
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$182,460,000

Description:

This Master project includes all capital sub-projects that support bus infrastructure across the District as well as the infrastructure needs of the DC Circulator program. Projects could include, but are not limited, to the following areas:

- The mid-life overhaul program provides for midlife repairs for eighteen (18) 2014 New Flyer buses, twenty-six (26) 2016 New Flyer buses, and fourteen (14) 2017 Proterra buses.
- Support the 16th Street NW Bus Priority project that will provide dedicated bus lanes and related improvements on the corridor from Arkansas Ave NW to H Street NW.
- Improvements to District-wide bus stops, including DC Circulator stops, that are currently noncompliant with the Americans with Disabilities Act.
- Design and construction of a new maintenance garage facility at the South Capitol Street storage and charging facility owned by the District and other improvements.
- Purchase and retrofit of a New Circulator Operations and Maintenance Facility
- Purchase of additional buses

Justification:

All projects within this Master Project enable the safety and reliability of the District's bus transit network. Operational efficiencies in the network yield savings in travel time for riders as well as in the cost of bus services. On major bus corridors such as 16th Street NW, during the AM peak, more than 50% of all people who travel on this corridor are carried by bus. Priority investments to move buses through the corridor will yield quicker trips at a lower cost. DDOT has also identified more than 800 bus stops in need of ADA improvements, limiting access to the bus network for many would-be riders. Improving these stops will grow bus ridership and improve mobility across the District. Nearly half of the DC Circulator fleet is reaching the end of its useful life, so this project will replace aging buses and improve fleet availability and reliability, which will translate into improved service. Fleet maintenance will continue to limit performance until adequate facilities are in place to support the State of Good Repair of the fleet.

KA0-LMEQU-EQUIPMENT

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMEQU
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: EQUIPMENT
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$7,400,000

Description:

This Master Project envelopes any project that has a primary focus on the acquisition and/or substantial rehabilitation of equipment and IT hardware and software that supports the mission of the District Department of Transportation. Projects could include, but are not limited to, the following areas:

- a. Acquiring new parking meter assets
- b. Construction associated with the installation of parking meters
- c. Replacement of parking meter system
- d. Rehabilitation of specialized equipment rehabilitation which could include pavers, millers, hotboxes, etc.
- e. Labor associated with rehabilitation of equipment, if performed in-house
- f. Replacement of DDOTs Transportation Online Permitting System (TOPS)

This Master project will provide the necessary budget for a defined group of projects that support the District’s horizontal infrastructure assets. Individual projects, which are specific District assets, collectively provide and account for budget needs to continue to provide needed upgrades to our system and its components so that it can be maintained and operated with current technology. As projects are planned and ready for implementation, budget allocation requests will be made – through the Office of Budget and Planning – from the Master project, so that expenditures are properly recorded to the correct asset.

Justification:

All projects within this Master Project will be utilized to support the mission of the DDOT by ensuring that all specialized equipment is working properly to facilitate project delivery.

KA0-BR005-H STREET BRIDGE

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: BR005
Ward: 6
Location: UNION STATION & H STREET NE
Facility Name or Identifier: H STREET BRIDGE
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$220,211,000

Description:

This project funds the full replacement of the H Street “Hopscotch” Bridge. The H Street Bridge spans over 1st Street NE, WMATA tracks, Amtrak tracks and platforms, and 2nd Street NE at Union Station in the District of Columbia. The bridge will be reconstructed to accommodate the H/Benning Streetcar Line, allow for Amtrak to increase its capacities in its Union Station rail yard, and allow for development of the air rights above the rail yard. The project includes funding for a Project Labor Agreement (PLA).

Justification:

The reconstruction of H Street (Hopscotch) Bridge will expand the transit network and foster further economic development, as it will incorporate the H/Benning streetcar line and expand multi modal offerings, and enable Amtrak to increase its capabilities and provide for future development at Union Station.

Progress Assessment:

KA0-LMHTS-HIGHWAY TRUST FUND SUPPORT

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMHTS
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: FEDERAL-AID HIGHWAYS
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$1,000,000

Description:

This project envelopes any projects that support the highway trust fund activities, including, but not limited to:

- a. Providing funding for contract and direct labor costs associated with Highway Trust Fund projects that are not eligible for federal reimbursement (non-participating costs). This project also provides funding for DC Water and Sewer Authority (“DCWASA” or “DC Water”) costs that are eligible for DCWASA reimbursement.
- b. Collecting indirect non-personnel project costs that may be eligible for federal reimbursement through indirect or additive rates, such as material testing, Davis-Bacon, and manual costs. This project will be allocated budget authority for contractual services. However, all expenditures posted to this cost transfer project during a fiscal year shall be reallocated to active projects, based on approved indirect and additive rates; reallocated to local transportation projects, reallocated to the operating budget, or otherwise removed from this project by the end of that fiscal year.

Justification:

The project is needed to collect and obtain federal reimbursement indirect project costs. This Master project is to provide the necessary budget for a defined group of projects supporting the District’s horizontal infrastructure assets. Individual projects, which are specific District assets, collectively provide and account for budget needs to continue to provide needed upgrades to our system and its components so that it can be maintained and operated with current technology. As projects are planned and ready for implementation, budget allocation requests will be made – through the Office of Budget and Planning – from the Master project, so that expenditures are properly recorded to the correct asset.

KA0-LMITS-INFORMATION TECHNOLOGY SYSTEMS

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMITS
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$4,475,000

Description:

This Master Project envelopes any project that is a significant information technology investment acquisition and/or substantial rehabilitation of equipment that supports the mission of the District Department of Transportation. Projects could include, but are not limited to, the following areas:

- Hardware purchase
- Software purchases including the manufacturer's standard term of warranty
- Major information technology projects (with a 5 year minimum useful life and \$250,000 cost).
- Replacement of DDOTs Transportation Online Permitting System (TOPS)

This Master project will provide the necessary budget for a defined group of projects that support the District's horizontal infrastructure assets. Individual projects, which are specific District assets, collectively provide and account for budget needs to continue to provide needed upgrades to our system and its components so that it can be maintained and operated with current technology. As projects are planned and ready for implementation, budget allocation requests will be made – through the Office of Budget and Planning – from the Master project, so that expenditures are properly recorded to the correct asset.

Justification:

All projects within this Master Project will be utilized to support the mission of the DDOT by ensuring that all information technology systems are working properly to facilitate project delivery.

KA0-LMC02-K STREET TRANSITWAY

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMC02
Ward: 2
Location: 900 K STREET & 2100 K STREET NW
Facility Name or Identifier: K STREET TRANSITWAY
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$122,134,000

Description:

The K Street Transitway is a dedicated transitway for buses on a reconfigured K Street NW between 9th Street and 21st Street NW to have two center-running dedicated transit lanes and two to three lanes in each direction for general traffic. The configuration of the transitway could be built for future conversion to streetcar. This project encompasses planning, design, and construction of the transitway.

Justification:

The east-west corridor between Union Station and Georgetown includes some of the most highly developed, heavily traveled areas in the District. However, existing transit operations in the study area face problems of congestion, low speeds, and insufficient capacity. Overall reliability and quality of service for transit in the corridor suffer due to the existing operational issues, traffic congestion, and infrastructure constraints. Transit improvements are needed to support existing and future land uses, enhance connectivity of major destinations in the study area corridor, and support underserved and growing markets. The K Street Transitway can improve bus speeds, reliability, and efficiency in the District's downtown core.

Progress Assessment:

KA0-CE309-LOCAL STREET MAINTENANCE

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: CE309
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: LOCAL STREETS
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$28,711,000

Description:

This project provides labor, equipment, and materials necessary to rehabilitate and reconstruct local streets throughout the District. Activities under this project include, but are not limited to:

- a. Reconstruction and preservation efforts for streets
- b. Elimination of safety hazards and resolution of ADA issues
- c. Support for FTEs, equipment, material and contractual services associated with improving local streets program
- d. Addressing resident's requests, to mitigate local street deterioration, and resolve unsafe street conditions

Justification:

The project is necessary to prevent extensive deterioration of the District's local streets. District taxpayers benefit from safe and reconstructed streets.

Progress Assessment:

On-going project

KA0-SR301-LOCAL STREETS WARD 1

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: SR301
Ward: 1
Location: WARD 1
Facility Name or Identifier: LOCAL STREETS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$64,632,000

Description:

Ward 1 has 29 local roadway miles that require preservation, maintenance, and repair. DDOT has developed an annual work (construction) schedule that continuously assesses the needs of every local street in the District. Depending on the condition of the roadway, DDOT will provide service from basic mill and overlay (for resurfacing needs) to complete reconstruction and upgrade. Annual work (construction) plans are based on the available funding, and fulfill the Mayor's initiatives and objectives and benefit the traveling public as well. The project will support FTEs, equipment, materials, and contractual services associated with improving and expanding the local streets program.

Justification:

DDOT's goal is to preserve our current roadway system and provide maintenance as needed. This service helps to avoid the more costly reconstruction and upgrading repairs. DDOT's local roads are an integral part of the District's infrastructure system. Residents, commuters, tourists, and those in the business community rely on DDOT for the city's streets to be safe, reliable and functional; thus the maintenance of these roads is critical. PaveDC (<https://arcg.is/Gieb8>) is an interactive map of DDOT's paving work for residents and visitors of the District to track our progress as we enhance the safety of the roadway and improve the ride comfort of the road surface.

Progress Assessment:

On-going project

Related Projects:

There is a separate road construction project for each ward.

KA0-SR305-LOCAL STREETS WARD 5

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: SR305
Ward: 5
Location: WARD 5
Facility Name or Identifier: LOCAL STREETS
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$64,437,000

Description:

Ward 5 has 87 local roadway miles that require preservation, maintenance, and repair. DDOT has developed an annual work (construction) schedule that continuously assesses the needs of every local street in the District. Depending on the condition of the roadway, DDOT will provide service from basic mill and overlay (for resurfacing needs) to complete reconstruction and upgrade.

Annual work (construction) plans are based on the available funding, and fulfill the Mayor's initiatives and objectives and benefit the traveling public as well. This project will support FTEs, equipment, materials, and contractual services associated with improving and expanding the local streets program.

Justification:

DDOT's goal is to preserve our current roadway system and provide maintenance as needed. This service helps to avoid the more costly reconstruction and upgrading repairs. DDOT's local roads are an integral part of the District's infrastructure system. Residents, commuters, tourists, and those in the business community rely on DDOT for the city's streets to be safe, reliable and functional; thus the maintenance of these roads is critical. PavementDC (<https://arcg.is/Gieb8>) is an interactive map of DDOT's paving work for residents and visitors of the District to track our progress as we enhance the safety of the roadway and improve the ride comfort of the road surface.

Progress Assessment:

On-going project

Related Projects:

There is a separate road construction project for each ward.

KA0-LMGGR-POWERLINE UNDERGROUNDING

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMGGR
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: POWER LINES
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$180,948,000

Description:

This project envelops any projects that have a primary focus of undergrounding electrical feeders that are most vulnerable to outages during storm conditions. DDOT will construct underground vaults and buried conduits to accommodate Pepco's feeder lines and transformers. The project will support, but is not limited to, the following activities:

- Pre-Program and Program Management
- Construction Management
- Design and construction of Feeder 308
- Design and construction of Feeder 368
- Design and construction of Feeder 14007
- Design and construction of Feeder 14758
- Design and construction of Feeder 15009
- Design and construction of Feeders co-located with opportunity projects such as Feeder 14900

Justification:

Over the past several years, powerful storms have caused considerable damage and disruption of electric service. This project will support efforts to improve the reliability of the District's electricity distribution system, in accordance with the recommendations of the Mayor's Power Line Undergrounding Task Force, the Electric Company Infrastructure Financing Act of 2013, and the Electric Company Infrastructure Improvement Financing Amendment Act of 2017.

KA0-LMRES-RESTORATION MATERIALS

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMRES
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: LOCAL STREETS
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$4,800,000

Description:

This Master Project supports the rehabilitation and reconstruction of concrete, asphalt, and brick infrastructure throughout the District, through the acquisition of material, including, but not limited to, asphalt, bricks, and concrete. Sub-projects ensure that DDOT has material and equipment necessary to improve the condition and life span of alleys, sidewalks, and roadways.

Justification:

The sub-projects are necessary for the purchase of material that extends the useful life of transportation infrastructure, by mitigating damage to sidewalks, alleys, and bridges. Without this funding, DDOT will not be able to purchase materials necessary to improve asset conditions and mobility throughout the District.

Progress Assessment:

On-going project

KA0-AW031-S CAPITOL ST/FREDERICK DOUGLASS BRIDGE

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: AW031
Ward:
Location: SOUTH CAPITOL STREET
Facility Name or Identifier: FREDERICK DOUGLASS BRIDGE
Status: Ongoing Subprojects
Useful Life of the Project: 40
Estimated Full Funding Cost: \$504,269,000

Description:

This project funds replacement of the Frederick Douglass Bridge and improvements to the intersections of South Capitol Street with Suitland Parkway and the Anacostia Freeway (I-295). Key Project Elements include:

- Building a new six-lane Frederick Douglass Memorial Bridge
- Creating a new traffic oval west of the river that connects South Capitol Street, Potomac Avenue and Q Street SW
- Creating a new at-grade traffic oval east of the river that connects South Capitol Street, Suitland Parkway and Howard Road SE
- Reconstructing the Suitland Parkway/Interstate 295 interchange
- Increasing bicycle and pedestrian facilities

Justification:

The project calls for replacing the 69-year-old bridge and reconstruction of the Suitland Parkway/I-295 interchange. The bridge has been classified functionally obsolete and must be replaced due to its condition, age, and functional limitations. This project will increase pedestrian and vehicular safety, improve multimodal transportation options, increase community accessibility and support economic development on both sides of the Anacostia River.

Progress Assessment:

On-going project

KA0-LMSAF-SAFETY & MOBILITY

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMSAF
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: LOCAL STREETS
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$63,364,000

Description:

This project envelops any projects that have a primary focus of improving safety and efficiency of the District’s transportation system. By the year 2024, Washington, DC will reach zero fatalities and serious injuries to travelers of our transportation system. Projects under this Master Project will support the objectives outlined within Vision Zero Plan which include, but are not limited to, the following activities:

- Improving and expanding bicycle lanes and infrastructure
- Improving and expanding trails
- Improving the production, distribution, and placement of signage throughout the District
- Advancing plans to preliminary design
- Delivery of Arboretum bridge and trail
- Planning, design, and construction of safety improvements on high crash corridors, such as Alabama Avenue SE

This Master project will provide the necessary budget for a defined group of projects that support the District’s horizontal infrastructure assets. Individual projects, which are specific District assets, collectively provide and account for budget needs, so that the District can continue to provide needed upgrades to our system and its components, which will enable network maintenance and operations that utilize current technology. As projects are planned and ready for implementation, budget allocation requests will be made – through the Office of Budget and Planning – from the Master project, so that expenditures are properly recorded to the correct asset.

\$300,000 of FY20 allotment was transferred to subproject LMS11C-EASTERN DOWNTOWN CYCLETRACK and FY20 enhancements of \$530,000 were provided for the following:

\$130,000 for the installation of rapid flashing beacons at Irving Street NW where it intersects with Hiatt Place NW and Georgia Avenue NW where it intersects with Girard Street NW;

\$250,000 for a traffic turnaround at the intersection of Kenilworth and Eastern Avenues NE; and

\$150,000 for Vision Zero safety improvements at 48th Street, Nash Street, and Minnesota Avenue NE.

Justification:

This project is necessary to expand and enhance transportation safety improvements within the District.

Progress Assessment:

KA0-LMPDW-SIDEWALKS

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMPDW
Ward:
Location: DISTRICTWIDE
Facility Name or Identifier: SIDEWALKS
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$110,000,000

Description:

This master project consolidates rehabilitation, reconstruction, and maintenance activities for the District's 1,494 miles of sidewalk assets. The scope of projects could include but are not limited to the following:

- Upgrading intersections and sidewalks for Americans with Disabilities Act (ADA) compliance, through the creation of an annual work plan.
- Managing an inventory of locations for upgrade, an assessment to identify further upgrades that are necessary, as well as construction.
- Addressing Cityworks requests, to mitigate sidewalk deterioration, resolve unsafe conditions, and construct new sidewalk sections where there are missing segments.
- The projects will support FTEs, equipment, material, and contractual services associated with improving and expanding the sidewalk program.

Justification:

This project is necessary to improve and expand the District's sidewalk network. It will serve to mitigate safety hazards, expand ADA compliance in the District, and improve mobility for residents and visitors to the District.

KA0-LMWWM-STORMWATER AND FLOOD MITIGATION

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMWWM
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: STORMWATER INFRASTRUCTURE
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$22,146,000

Description:

Any projects with a primary focus of stormwater management. The scope of projects could include but are not limited to the following:

- Repairing and maintaining culverts throughout the District.
- Capital improvements to stormwater pump stations
- Implementation of various initiatives to reduce stormwater run-off and improve area water quality
- Special flood mitigation projects
- Stormwater credit bank

This Master project is to provide the necessary budget for a defined group of projects supporting the District's horizontal infrastructure assets. Individual projects, which are specific District assets, collectively provide and account for budget needs to continue to provide needed upgrades to our system and its components so that it can be maintained and operated with current technology. As projects are planned and ready for implementation, budget allocation requests will be made – through the Office of Budget and Planning – from the Master project, so that expenditures are properly recorded to the correct asset.

Justification:

This project is necessary because of its safety impact on roadways. Flooding and overtopping of structures causes safety hazards, street closures and failures, and repeated maintenance work.

Progress Assessment:

On-going project

KA0-LMTCE-STREET CAR

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMTCE
Ward:
Location: H ST/BENNING RD NE
Facility Name or Identifier: STREETCAR
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$188,139,000

Description:

The Streetcar Master project will provide another transit option for those traveling H Street-Benning Road NE and promote economic development along the corridor. This project will link the Benning Road Metrorail station to Union Station, and include, but is not limited to, the following elements:

- Design and construction of a Benning Road Extension;
- Environmental analysis, design, land acquisition, and construction of a new storage and maintenance facility;
- Streetscape improvements for multimodal transportation, including bicycle and pedestrian infrastructure, along the four-mile, east-west corridor
- Procurement of vehicles for Benning Road extension; and
- Project management and construction management for the H/Benning Streetcar Line

Justification:

Due to high ridership and traffic congestion, average bus speeds during peak hour along the streetcar corridor are as low as 3.5 miles per hour, with low reliability. Additional surface transit capacity can improve access for underserved transit markets. Capital funding for the streetcar addresses the jobs and economic opportunity section of the Mayor’s priorities. As the District grows and sees increasing development around Union Station and the H Street/Atlas District, additional surface transit capacity and reliability will be critical to maintaining mobility and economic opportunity for residents and visitors to the District. This project aligns with the Sustainable DC Plan Goal to “improve connectivity and accessibility through efficient, integrated, and affordable transit systems.” It also aligns with the following moveDC goals:

- Increase the person-carrying capacity of the transportation system
- Improve system reliability
- Increase the coverage of all modal networks throughout the District

Progress Assessment:

On-going project

KA0-LMLIG-STREETLIGHT MANAGEMENT

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMLIG
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: STREETLIGHTS
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$76,200,000

Description:

This master project supports the rehabilitation, replacement, and expansion of the District's streetlight portfolio via a public-private partnership.

Justification:

This master project is critical for the safety of District residents and drivers. The performance-based contract has proven to be the most cost-effective way to ensure that the District's streetlights are adequately illuminating the streets.

KA0-LMBSS-STREETSCAPES AND BEAUTIFICATION

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMBSS
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: LOCAL STREETS
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$177,647,000

Description:

Any project with the primary focus on the streetscape improvements which include vehicular, pedestrian, and bicycle safety improvements and beautification efforts such as green space, lighting, and signage that support the mission of the District Department of Transportation.

This Master project is to provide the necessary budget for a defined group of projects supporting the District’s horizontal infrastructure assets. Individual projects, which are specific District assets, collectively provide and account for budget needs to continue to provide needed upgrades to our system and its components so that it can be maintained and operated with current technology. As projects are planned and ready for implementation, budget allocation requests will be made – through the Office of Budget and Planning – from the Master project, so that expenditures are properly recorded to the correct asset.

An FY20 enhancement of \$1 million to complete the planned beautification of New York Avenue NW from 13th Street to Mount Vernon Square, to include median irrigation and lighting needed for landscaping and the New York Avenue Sculpture project.

Justification:

The sub-projects are necessary to provide supplemental funding to FHWA eligible streetscape construction, which will allow DDOT to perform additional work within its federal program to improve asset conditions.

KA0-LMMIT-TRANSPORTATION MITIGATION

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMMIT
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VARIOUS
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$28,000,000

Description:

This master project will support transportation mitigation activities throughout the District. The project will allow the District Department of Transportation to expedite project delivery by assigning budget received from outside parties more quickly to the appropriate sub-project.

Justification:

This project is necessary to allow DDOT to perform work based on payments from outside parties in support of conditional obligations and requirements. This project allows the agency to use the funds received for work, per the legislation authority more easily.

Progress Assessment:

On-going project

KA0-CG314-TREE PLANTING

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: CG314
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: GREENSPACE
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$34,322,000

Description:

This project funds the annual planting of street trees and trees located in other District right-of-way spaces. The District Department of Transportation plants approximately 8,000 street trees each year, from October through April.

Justification:

This project allows the District to maintain its tree canopy population and reputation as a “City of Trees.” Having healthy and plentiful trees improves and sustains the District’s quality of life, public health and wellness, and environmental condition. In FY 2018, Urban Forestry installed 8,216 new trees and achieved a 90% stocking level percentage of total street tree spaces which are planted, across all 8 Wards. In FY 2019, DDOT is once again on track to install more than 8,000 new trees. This aggressive planting approach has positioned DDOT to extend the public health benefits conveyed by Urban Tree Canopy to every Ward, Advisory Neighborhood Commission and Single Member District. Furthermore, this level of funding has resulted in stocking levels that now exceed 95%. Continued progress toward planting every available street tree location has allowed DDOT to begin focusing more systematically on tree planting opportunities on other public spaces, such as parks and schools. For additional information on the program, please visit: <https://urban-forestry-dcgis.opendata.arcgis.com/>

KA0-LMURF-URBAN FORESTRY

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMURF
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: GREENSPACE
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$70,361,000

Description:

Any project that funds the on-going maintenance and care of street trees, trees within District right-of-way spaces, and trees within areas in Department of General Services's portfolio. The District Department of Transportation aims to ensure the health and longevity of its publicly owned trees through a comprehensive plant health initiative. This project includes, but is not limited to, the following activities:

- Activities associated with tree planting and extending the life of the asset;
- Maintenance of trails;
- Design and construction of low impact design sites and bio-retention areas;
- This project supports the majority of Urban Forestry's FTEs labor charges;

This Master project is to provide the necessary budget for a defined group of sub-projects supporting the District's horizontal infrastructure assets. Individual projects, which are specific District assets, collectively provide and account for budget needs to continue to provide needed upgrades to our system and its components so that it can be maintained and operated with current technology. As projects are planned and ready for implementation, budget allocation requests will be made – through the Office of Budget and Planning – from the Master project, so that expenditures are properly recorded to the correct asset.

Justification:

This Master project is critical to the rehabilitation and expansion of the District's urban tree canopy, both within the right-of-way space and on District owned properties. These funds directly support the capacities of the Urban Forestry Program.

Progress Assessment:

KA0-LMVAE-VEHICLE FLEET

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: LMVAE
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: VEHICLES
Status: Ongoing Subprojects
Useful Life of the Project:
Estimated Full Funding Cost: \$25,300,000

Description:

Any project that supports the acquisition of vehicles and/or specialized equipment that supports the mission of the District Department of Transportation (DDOT); the project(s) could include, but are not limited to, the following areas:

- a. Replacement of DDOT vehicles and equipment that are at the end of their useful life;
- b. Acquisition of equipment for the snow removal program;
- c. Purchase of equipment that improves asset conditions for roads, bridges, and trees

This Master project is to provide the necessary budget for a defined group of projects supporting the District’s horizontal infrastructure assets. Individual projects, which are specific District assets, collectively provide and account for budget needs to continue to provide needed upgrades to our system and its components so that it can be maintained and operated with current technology. As projects are planned and ready for implementation, budget allocation requests will be made – through the Office of Budget and Planning – from the Master project, so that expenditures are properly recorded to the correct asset.

Justification:

Vehicles and equipment are critical for executing the mission of DDOT. Monitoring vehicle and equipment needs can better equip the agency for project delivery and can help to lower the operating cost associated with their use.

Progress Assessment:

(KE0) MASS TRANSIT SUBSIDIES

MISSION

The mission of the Washington Metropolitan Area Transit Authority (WMATA) is to provide the public with a safe, efficient and affordable means of travel. This budget reflects only the District of Columbia government appropriation to the agency, and provides funding policy recommendations and coordination of services under the direction of the District's Department of Transportation (Transit Delivery Division).

BACKGROUND

Capital funding for the Washington Metropolitan Area Transit Authority (WMATA) is governed by a multi-jurisdictional capital funding agreement. Projects in WMATA's Capital Improvement Program funded under this agreement include WMATA's new 7000 series railcars, replacement and repair of bus and paratransit vehicles, track replacement, power and communication system upgrades, on-going escalator and elevator rehabilitations, and rehabilitation of transit storage and maintenance facilities.

CAPITAL PROGRAM OBJECTIVES

The continued growth and vitality of the city and region greatly relies on a safe, efficient, and reliable Metro system to transport residents and visitors alike. The CIP includes \$1.7 billion for safety improvements, improving the effectiveness of the current rail and bus networks, increasing system capacity, and rebuilding the Metro system. These funds include an average of over \$275 million per year as part of the regional commitment to fund long-term Metro capital improvements at \$500 million annually region-wide.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

KE0-SA503-NOMA PEDESTRIAN TUNNEL

Agency: MASS TRANSIT SUBSIDIES (KE0)
Implementing Agency: MASS TRANSIT SUBSIDIES (KE0)
Project No: SA503
Ward: 6
Location: NOMA-GALLAUDET U METRO STATION
Facility Name or Identifier: NOMA PEDESTRIAN TUNNEL
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$23,049,000

Description:

Build a new eastern entrance for the NoMa-Gallaudet Metrorail station and a pedestrian tunnel under the Amtrak tracks.

Justification:

Transit accessibility is a priority for the Council, and a proposed eastern entrance to the NoMa-Gallaudet Metrorail station would reduce the walk from the station to Union Market by about two-tenth of a mile. The Council added \$23 million to the capital budget for a pedestrian tunnel under the Amtrak tracks, which will make it possible to build this new entrance.

Progress Assessment:

KE0-TOP02-PROJECT DEVELOPMENT

Agency: MASS TRANSIT SUBSIDIES (KE0)
Implementing Agency: MASS TRANSIT SUBSIDIES (KE0)
Project No: TOP02
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: LOCAL TRANSIT
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$14,144,000

Description:

This project funds cost-sharing with WMATA for the planning and development of new transportation projects such as the Circulator and Streetcars.

Justification:

The District is committed to improving connectivity and accessibility through efficient, integrated, and affordable transit systems.

Progress Assessment:

This is an ongoing project.

KE0-SA501-WMATA CIP CONTRIBUTION

Agency: MASS TRANSIT SUBSIDIES (KE0)
Implementing Agency: MASS TRANSIT SUBSIDIES (KE0)
Project No: SA501
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: REGIONAL TRANSIT
Status: Ongoing Subprojects
Useful Life of the Project: 20
Estimated Full Funding Cost: \$2,029,840,000

Description:

District funding to support WMATA's Capital Improvement Program, as defined in the current inter-jurisdictional Capital Funding Agreement. Typical projects to be funded are acquisition of buses and subway cars, mid-life rehabilitation of buses and subway cars, improvements to bus storage, track replacement, power system upgrades, and rehabilitation of storage and maintenance facilities.

Justification:

Capital investment is needed to rehabilitate and maintain the WMATA transit system.

Progress Assessment:

This is an on-going project.

KE0-SA311-WMATA FUND - PRIIA

Agency: MASS TRANSIT SUBSIDIES (KE0)
Implementing Agency: MASS TRANSIT SUBSIDIES (KE0)
Project No: SA311
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: REGIONAL TRANSIT
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$506,598,000

Description:

The Federal Government passed the Passenger Rail Investment and Improvement Act of 2008 (PL 110-432) to provide WMATA with \$1.5 billion over a 10-year period but conditioned the receipt of funds on an equal amount of funds being pledged by the District and other contributing jurisdictions. Projects may include vehicles and vehicle parts, rail system infrastructure rehabilitation, maintenance facilities, systems and technology, track and structures, passenger facilities, maintenance equipment, other facilities, program management and support, safety and security projects, and preventive maintenance. A contribution of \$50 million will be made, contingent upon annual appropriation from Congress in the amount of \$150 million along with \$50 million annual appropriations from both the State of Maryland and the Commonwealth of Virginia.

Justification:

This project is necessary to maintain the reliability of rail service. Current WMATA capital spending levels are inadequate to maintain the system in a state of good repair and provide for continued growth in system use. The additional \$300 million per year in capital funding will allow WMATA to accelerate infrastructure repairs to maintain the system, replace the original subway cars in the system that are now at the end of their useful life, and proceed with system improvements such as power upgrades to accommodate longer trains and the purchase of new subway cars to accommodate ridership growth.

Progress Assessment:

This project is on-going.

(KG0) DEPARTMENT OF ENERGY AND ENVIRONMENT

MISSION

The mission of the Department of Energy and Environment (DOEE) is to improve the quality of life for the residents and natural inhabitants of the nation's capital by protecting and restoring the environment, conserving our natural resources, mitigating pollution, increasing access to clean and renewable energy, and educating the public on ways to secure a sustainable future.

BACKGROUND

DOEE is the leading authority on energy and environmental issues affecting the District of Columbia. The agency works collaboratively with other government agencies, residents, businesses, and institutions to promote environmentally responsible behavior that will lead to a more sustainable urban environment.

CAPITAL PROGRAM OBJECTIVE

DOEE envisions a nation's capital that sets the standard for environmentally responsible and sustainable practices. DOEE envisions a city whose rivers and waters are fishable and swimmable; whose buildings and infrastructure help protect our health and environment; and whose residents, businesses, and visitors embrace and employ smart environmental practices in their daily lives.

EXAMPLES OF RECENT ACCOMPLISHMENTS

- Construction of 11 stormwater bioretention best management practices (Potomac Watershed).
- Construction of 1,560 feet of Alger Park stream restoration (Anacostia Watershed).
- Design and construction of erosion controls and stormwater retrofits at Takoma Recreation Center (Rock Creek Watershed).
- Design and construction of outdoor classrooms at three DCPS schools – Payne, Seaton and Hart (Citywide).
- Design of 1,100 feet of stream restoration in Spring Valley Park (Potomac Watershed).

EXAMPLES OF ONGOING AND CURRENT INITIATIVES

- Retrofit of five alleys with pervious pavers for stormwater treatment covering a combined area of 31,605 square feet (citywide).
- Design and construction of stormwater retrofits to impervious surfaces at seven DPR parks and recreation centers (citywide).
- Construction of 1,100 feet of stream restoration in Spring Valley Park.
- Design and construction of pollution prevention and stormwater treatment best management practices at the Benning Road and Fort Totten Trash Transfer Stations (Anacostia Watershed).

PLANNED PROJECTS

- Installation of a trash capture device in a tributary to the Anacostia River.
- Planning for Oxon Run stream restoration effort.
- Continue remedial investigation/feasibility study of Anacostia River sediments.
- Planning for Pinehurst Run stream restoration effort.
- Planning for Fort Dupont stream restoration effort.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

KG0-IFM20-DC INTEGRATED FLOOD MODELING

Agency: DEPARTMENT OF ENERGY AND ENVIRONMENT (KG0)
Implementing Agency: DEPARTMENT OF ENERGY AND ENVIRONMENT (KG0)
Project No: IFM20
Ward:
Location: 1200 FIRST STREET NE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$5,777,000

Description:

This project for developing the first-ever integrated urban flood model for the District to identify gaps that can be targeted by the District’s Resilience Strategy and better realize the goals of Climate Ready DC. The expected impact of the enhancement would enable the District government to more effectively plan for and respond to flooding events, both those currently projected and those expected under climate change. This will enable more effective resource allocation by District government, improve the quality and efficiency of city services provided to District residents, provide a higher level of service to developers and property and business owners to mitigate increasing flood risks, and build community resilience.

Justification:

The District of Columbia is located at the intersection of two tidal waterways – the Potomac and Anacostia Rivers – and is built upon floodplains. As a result, large swaths of the city are at risk of periodic flooding. Urban development has also led to an increase in impervious surfaces, further exacerbating flooding and stormwater runoff in the District. Adding to this, climate change predictions of more frequent, longer and stronger rain events are increasing the likelihood of severe flood events throughout the District. The known areas of high risk include some of the District’s most economically and socially vulnerable neighborhoods, along with important corridors of commerce and the buildings that serve as headquarters for multiple federal government agencies.

Currently, there is no integrated flood modeling tool to assist District agencies, urban planners, engineers, and emergency managers in understanding the risks of flooding in the District that result from three combined sources of flooding: coastal surge, upriver flow from the Potomac and Anacostia Rivers (“riverine” or “fluvial” flooding), and inland flooding from intense rainfall (“pluvial” flooding). Without the modeling that includes all three types of flooding, it is difficult for the District to effectively plan and allocate resources to prevent and respond to flooding.

Without this modeling, the District could inadvertently evacuate a vulnerable population from an area that is expected to experience coastal flooding to an area that is likely to experience inland flooding. The District expects these challenges to be exacerbated as a result of climate change, the associated rise in sea level, and an increase in the intensity and frequency of storms and storm surges. The lack of adequate modeling of these three sources of flooding undermines the District’s ability to protect its residents, its workforce, and its businesses, as well as important cultural and historical resources.

KG0-HMRHM-HAZARDOUS MATERIAL REMEDIATION - DOE

Agency: DEPARTMENT OF ENERGY AND ENVIRONMENT (KG0)
Implementing Agency: DEPARTMENT OF ENERGY AND ENVIRONMENT (KG0)
Project No: HMRHM
Ward:
Location: ANACOSTIA RIVER
Facility Name or Identifier: ANACOSTIA RIVER
Status: Ongoing Subprojects
Useful Life of the Project: 30
Estimated Full Funding Cost: \$95,630,000

Description:

The Anacostia estuary has several major clean-up sites located along its banks. Funding is needed to characterize the sediments in the entire estuary area of the Anacostia and develop a cleanup remedy. The sediments are an on-going source of contaminants and need to be addressed before the Anacostia River can be returned to a “fishable and swimmable” river. Testing needs to be conducted on the Anacostia River sediment and water toxins (when present) to determine proper clean-up methods and potentially isolate the source of contamination from the clean-up sites. Park sites along the Anacostia River also needs to be sampled and remediated to prevent recontamination of the Anacostia River, specifically Poplar Point and Kenilworth Park.

Justification:

The Anacostia estuary has several major clean-up sites located along its banks. Funding is needed to characterize the sediments in the entire estuary area of the Anacostia and develop a cleanup remedy. The sediments are an on-going source of contaminants and need to be addressed before the Anacostia can be returned to a “fishable and swimmable” river. Testing needs to be conducted on Anacostia sediment and water toxins (when present) to determine proper clean-up methods and potentially isolate the source of contamination from the clean-up sites.

Progress Assessment:

On-going project

KG0-KINGI-KINGMAN ISLAND EDUCATION CENTER

Agency: DEPARTMENT OF ENERGY AND ENVIRONMENT (KG0)
Implementing Agency: DEPARTMENT OF ENERGY AND ENVIRONMENT (KG0)
Project No: KINGI
Ward: 7
Location: KINGMAN & HERITAGE ISLAND
Facility Name or Identifier: KINGMAN ISLAND EDUCATION CENTER
Status: Ongoing Subprojects
Useful Life of the Project: 15
Estimated Full Funding Cost: \$4,700,000

Description:

The project lays out educational and recreational improvements at Kingman & Heritage Islands that include several outdoor classrooms, bathrooms, and accessible routes and pathways. The project will enhance this unique natural resource for greater use by District residents and facilitate the already successful school and volunteer programs carried out on the Islands. The first phase of the project will include construction of pathways, three outdoor classrooms, and a Kingman Island Ranger Station (\$2,500,000). The second phase will include construction of more pathways, a canopy walk and viewing tower, a resting area, and two outdoor classrooms (\$2,100,000).

Justification:

In 1999, Kingman and Heritage Islands were transferred to the District of Columbia with the intent that their use be focused on children. The FY17 Budget Support Act required the Department of Energy and Environmental to issue a grant for a planning and feasibility study. The Kingman Island and Heritage Island Planning and Feasibility Study assessed the feasibility and cost of developing, maintaining, and managing a state-of-the-art nature center and other possible structures and uses of the islands consistent with the National Children's Island Act of 1995, the Anacostia Waterfront Framework Plan, and the Comprehensive Plan. The report proposes uses of the Islands for recreational, environmental, and educational purposes.

Progress Assessment:

Project is progressing as planned.

KG0-SAWRN-STREAM AND WETLAND RESTORATION

Agency: DEPARTMENT OF ENERGY AND ENVIRONMENT (KG0)
Implementing Agency: DEPARTMENT OF ENERGY AND ENVIRONMENT (KG0)
Project No: SAWRN
Ward:
Location: DISTRICT WIDE
Facility Name or Identifier: WATERWAYS
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$2,000,000

Description:

DOEE requests \$2 million in GO bonds for Stream and Wetland Restoration Project focused on the Oxon Run stream restoration as well as interior and fringe wetland creation in the Anacostia River. This enhancement will fund the Designs and Environmental Assessment for both projects. These funds could be put in existing capital budget project entitled "Waterway Restoration." Environmental Assessments cost in a range from \$150,000 to \$250,000 and given the length of Oxon Run stream and area covered by the wetland work each should cost roughly \$250,000. Additionally, stream design project recently contracted by DOEE cost between \$200-400,000 but given the length of Oxon Run and the complexity of the design process (which could include moving sewerlines) the designs for Oxon Run will cost an estimated \$750,000. Similarly the design work for wetland creation along the Anacostia River should cost \$750,000. Design work will include stream and permitting which is both time consuming and costly as DOEE will have to obtain all local permits as well as work with the National Park Service, US Army Corps of Engineers, and Federal Emergency Management Agency obtain all federal project permits. Should project costs exceed \$2 million DOEE can use this local money as a match so that federal funds from one of our EPA grants could be used for this project as well.

Justification:

This project is necessary to help improve water quality in District waterways and to help meet the District's sustainability goals. Wetlands serve as vital filters in our waterways. The Sustainable DC Plan has a goal of adding 140 acres of wetlands to the District. Plan has a goal of adding 140 acres of wetlands to the District. Stream restoration at Oxon Run would enhance the stream corridor environmentally, allow for fish passage throughout the project reach, and provide continuity along the stream corridor on both DC and federal lands.

Progress Assessment:

NEW PROJECT (N/A). DOEE has completed flood modelling for Oxon Run but the stream and wetland design and environmental assessment work will be new projects.

Related Projects:

DOEE recently completed stream restoration projects at Springhouse Run, Alger Park, Pope Branch, and Nash Run. All of these stream project added wetland acres to the Anacostia Watershed. As we restore our tributary streams we improve water quality health in the Anacostia River which will aid in long-term success of the new wetlands. In recent years several schools along Oxon Run have been retrofitted to capture stormwater before it goes into the main channel. These stormwater projects help improve water quality and reduce water volume during storm events which will aid Oxon Run's long-term restoration.

KG0-BAG04-WATERWAY RESTORATION

Agency: DEPARTMENT OF ENERGY AND ENVIRONMENT (KG0)
Implementing Agency: DEPARTMENT OF ENERGY AND ENVIRONMENT (KG0)
Project No: BAG04
Ward:
Location: ANACOSTIA WATERSHED
Facility Name or Identifier: WATERWAYS
Status: Ongoing Subprojects
Useful Life of the Project: 10+
Estimated Full Funding Cost: \$4,522,000

Description:

As prioritized in the Sec. 6 (b) of the Anacostia River Clean Up and Protection Act of 2009, DOEE will utilize dedicated funds for capital Stormwater Retrofit projects. Specifically, these funds will be utilized for the Stormwater Retrofit projects on DC Pubic Schools and Department of Parks and Recreation properties through DOEE’s RiverSmart Schools program and Triangle Park Stormwater Retrofit project. These funds will be used on District lands throughout the District.

Justification:

Protects the aquatic and environmental assets of the District of Columbia.

Progress Assessment:

Ongoing project.

Related Projects:

The project is aligned and helps fulfill regulatory obligations that are also met with Project SWM05C.

(KT0) DEPARTMENT OF PUBLIC WORKS

MISSION

The mission of the Department of Public Works (DPW) provides the highest quality sanitation, parking enforcement, and fleet management services that are both ecologically sound and cost effective.

BACKGROUND

The capital program supports the various DPW administrations and programs which provide municipal services to District of Columbia residents and businesses. Some of the administrations and programs include:

DPW's Solid Waste Management Administration – which performs a number of daily operations including trash and recycling collection, sanitation education and enforcement, graffiti removal, public litter can service, fall leaf collection, and street and alley cleaning.

DPW's Parking Enforcement Management Administration (PEMA) - which enforces the District's on-street parking laws. In addition to routine enforcement, PEMA is charged with booting and towing operations and with removing abandoned and dangerous vehicles from public and private property.

DPW's Fleet Management Administration - which supports municipal operations by procuring, fueling and maintaining thousands of District government vehicles, from sedans to heavy equipment. Fleet Management also is responsible for purchasing environmentally friendly, alternative-fuel vehicles (AFV) for the city.

CAPITAL PROGRAM OBJECTIVES

1. Ensure DPW fleet equipment will be available for the agency's core services and maintain replacement cycles to maximize cost savings on fleet maintenance.
2. Provide safe and clean facilities for DPW employees to perform their core duties.

RECENT ACCOMPLISHMENTS

- Ordered 67 replacement vehicles in FY18. Sourcing plan developed to procure 150 vehicles in FY19. A methodology was established to determine the vehicle replacement strategy for the next 5 years.
- Completed final repairs to fuel sites.
- Issued solicitations for HVAC system upgrade and Fort Totten tipping floor replacement projects.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

KT0-BRUFA-BENNING ROAD TRANSFER STATION FACILITIES UPGRADE

Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Implementing Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Project No: BRUFA
Ward: 7
Location: 3200 BENNING ROAD NE
Facility Name or Identifier: BENNING ROAD TRANSFER STATION
Status: New
Useful Life of the Project: 7
Estimated Full Funding Cost: \$2,900,000

Description:

This project is for facility repairs at the Benning Road Transfer Station needed to remediate safety hazards identified by the Office of Risk Management, to achieve ongoing compliance with federal storm water requirements, and to meet District demands for timely transfer of solid waste to disposal facilities. Repairs include replacement of the tipping floor, replacement and repair of exterior siding, replacement of grappler equipment, consolidation of electrical switches, weatherproofing, lighting upgrades, foundation repair, and replacement of sump pumps.

Justification:

The Office of Risk Management has identified several issues that are classified as ‘serious’ that are in need of immediate remediation to ensure the health and safety of personnel and users of the facility. The operational and environmental performance through storm water quality, loss of recyclables to trash, and the ability to expediently transfer refuse currently is hindered by the issues identified. This enhancement request is intended to fulfill these urgent needs.

Deferred maintenance on a facility that is over thirty years old.

Progress Assessment:

N/A

Related Projects:

The only related project is the Fort Totten Transfer Station Tipping Floor Replacement Project.

KT0-CNGFS-CNG FUELING SITE UPGRADE

Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Implementing Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Project No: CNGFS
Ward: 5
Location: 1835 WEST VIRGINIA AVENUE NE
Facility Name or Identifier: WEST VIRGINIA AVE FUELING STATION
Status: New
Useful Life of the Project: 7
Estimated Full Funding Cost: \$1,500,000

Description:

The purchase and installation of new compressed natural gas (CNG) fueling infrastructure for the DPW West Virginia Ave NE fuel station. It will drastically improve reliability, provide redundancy during repairs or outages, increase fuel capacity to allow the purchase of more CNG vehicles, and in turn reduce greenhouse gas (GHG) emissions and petroleum usage in the District fleet.

Justification:

The existing CNG infrastructure was purchased preowned and installed in 1999. Many components of the existing system are no longer produced and if they fail would cause significant downtime for all of the Districts 100+ CNG vehicles. The infrastructure was also initially purchased to fuel a limited fleet of small light duty vehicles. Since that time CNG vehicle applications have now mainly focused on larger vehicles that realize more fuel savings. The current infrastructure does not have the capacity to fuel a growing fleet of larger CNG vehicles.

•Increased system reliability will reduce downtime of existing CNG vehicles. Twice in the past six months the existing CNG system was out-of-service for repairs for over 4 days in a row. During these instances all District CNG vehicles were unusable and therefore all productivity associated with those vehicles (parking enforcement, trash pickup, etc.) was lost. Without new equipment these instances will undoubtedly increase in the coming years.

•A larger and redundant CNG system will offer an option for increased alternative fuel usage and therefore reductions in GHG emissions. This will provide the District fleet another valuable option to meet the District Climate Action Plan goals of reducing emissions 50% by 2032 and 80% by 2050 by purchasing CNG vehicles in place of higher polluting unleaded models.

AM0-CP201-COMPOSTING FACILITY

Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Implementing Agency: DEPARTMENT OF GENERAL SERVICES (AM0)
Project No: CP201
Ward:
Location: TBD
Facility Name or Identifier: COMPOSTING FACILITY
Status: New
Useful Life of the Project: 30
Estimated Full Funding Cost: \$8,100,000

Description:

Resource Recycling Systems (RRS) recently released a study commissioned by DPW and required under the Sustainable Solid Waste Management Amendment Act of 2014 regarding the feasibility of compost collection in the District. The study recommended, among other strategies, building a compost facility within the District. The study states that such a facility could recover up to 148,796 tons of organic waste per year, or about 60 percent of the District's organic waste. The facility could also generate approximately \$5 million in tipping fees each year, which over several years would be more than enough to recover the costs of the facility's construction. The type of facility recommended by the RRS report—a covered aerated static pile (ASP) compost facility—would need a ten to twenty acre parcel of land and would provide benefits such as odor control, nuisance control, faster material composition, and a higher quality finished material than alternative models. The RRS report estimates that the facility would have 6 - 12 full-time employees, in addition to collection crews. The Committee is committed to helping the District reach its waste diversion goal of 80 percent and believes that construction of this facility is crucial to meeting that goal.

An FY 2019 enhancement of \$100,000 was provided for site selection and design. Funding for construction is being provided in FYs 2022 and 2023.

Justification:

The type of facility recommended by the RRS report—a covered aerated static pile (ASP) compost facility—would need a ten to twenty acre parcel of land and would provide benefits such as odor control, nuisance control, faster material composition, and a higher quality finished material than alternative models. The RRS report estimates that the facility would have 6 - 12 full-time employees, in addition to collection crews.

KT0-FLW04-DPW - FLEET VEHICLES < \$50K

Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Implementing Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Project No: FLW04
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: DPW VEHICLES
Status: New
Useful Life of the Project: 7
Estimated Full Funding Cost: \$11,251,000

Description:

This project funds the needed DPW vehicle replacements for the fleet vehicles with costs that are less than \$50,000 each. These include pick-up trucks with plows, crew cab trucks, automobiles and, similar vehicles. To provide critical public safety and sanitation services for the District, DPW must have a fleet of fully functional vehicles in good working order, and that are operational at all times. As vehicles are used, they naturally age, and their condition deteriorates with continued use and additional mileage, thus driving up the costs to maintain the vehicle and even to keep it in service. Timely replacement of vehicles when they reach a critical age, condition, or state of repair is essential for DPW to continue to meet service expectations of the District.

Justification:

Using the Capital Asset Replacement Scheduling System (CARSS) vehicle needs assessments have been modeled for all the District’s fleet. The vehicle needs identified in this project represent the sum of the individual vehicle data of the same type for this agency. The replacement needs are driven by the assessment of a combination of; the vehicle age, condition, mileage, engine hours and, anticipated ongoing maintenance costs trends. This project represents the needs and timing of the vehicle replacements of this type needed to have a fully functional fleet that is in good condition and, available to serve the needs of the agency in providing service to the District.

Progress Assessment:

Progressing as planned.

KT0-CHS20-ELECTRICAL CHARGING STATIONS

Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Implementing Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Project No: CHS20
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: CHARGING STATIONS
Status: New
Useful Life of the Project:
Estimated Full Funding Cost: \$3,000,000

Description:

Installation of 50 new electric charging stations per year at a cost of \$10,000 per station. Stations would be located at District agencies coinciding with the purchase of electric vehicles.

Justification:

Purchasing electric vehicles when possible for the District's fleet is projected to reduce fueling costs by 50 percent per vehicle. Electric vehicles require electric charging stations.

Progress Assessment:

TBD

KT0-SSISI-SHARED SERVICES SYSTEM

Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Implementing Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Project No: SSISI
Ward:
Location: 2000 14TH STREET NW
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project: 5
Estimated Full Funding Cost: \$1,000,000

Description:

This multi phased project will assess and implement a robust integrated asset inventory and workflow management system across DPW that will focus on non-IT and IT assets, infrastructure and system refresh that aid in providing sanitation, fleet management and parking enforcement services to our DC community.

This initiative will allow for major enhancements and improvements by developing fully integrated modern system that will maximize operational efficiencies with assets with new functionality, simplify system maintenance requirements, ensure compliance and allow real-time data transfer between systems for intelligent reporting and analysis, which are critical to delivering excellent public work services to our residents.

Justification:

DPW currently provides diverse variety of sanitation, fleet management and parking enforcement services to our DC residents. These services require the use of wide variety of systems and assets. To meet audit and security compliance regulations, DC owned assets must be tracked and managed from “cradle to grave”, systems must meet compliance standards and service requests must be fulfilled within predetermined service level agreements. DPW lacks a dynamic integrated system for request intake, workflow management, and provisioning of district assets and service requests, through their life cycle. Today,

- DPW core services - (sanitation, fleet, facilities and parking enforcement) asset and requests are tracked and managed in disparate ways using redundant systems. These systems are fragmented and operate in silos.

- DPW administrative units including Risk and Safety Management, IT, and HR do not track assets or requests in any system.

KT0-GRETS-TRANSFER STATION GRAPPLER REPLACEMENT

Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Implementing Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Project No: GRETS
Ward: 5
Location: 4900 MCCORMACK RD & 3200 BENNING RD NE
Facility Name or Identifier: TRANSFER STATIONS
Status: New
Useful Life of the Project: 7
Estimated Full Funding Cost: \$13,800,000

Description:

This project is to secure a total of six (6) new Grapplers for the Transfer Stations within the District over a three year period. These new Grapplers will ensure the continuous and productive hauling of waste materials while creating a safe and humane environment for both District employees and its constituents.

Justification:

There are a total of six (6) Grapplers between the two (2) transfer stations within the District. All were purchased five (5) years ago. Four (4) were purchased refurbished (i.e. rebuilt from previously used parts) and two (2) were purchased new. Grapplers are used continuously daily to move waste that has been collected into containers that can haul them for destruction. The four (4) refurbished Grapplers are well past their life expectancy and are beyond normal monthly maintenance. They average a mechanical shut down about two times a week. The two (2) newer Grapplers are also well into their life expectancy and although they are being maintained, they are being overworked due to the other four (4) constant mechanical breakdown. They will need to be replaced within the next four (4) years. It is important to note that for over past year there have not been more than four (4) working Grapplers at a time between the transfer stations.

Progress Assessment:

New project

Related Projects:

The only projects that have some synergy are the Benning Transfer Station Upgrade project and the Back Up Generator Replacement

KT0-TWIRE-TRUCK WASH INSTALLATION

Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Implementing Agency: DEPARTMENT OF PUBLIC WORKS (KT0)
Project No: TWIRE
Ward: 5
Location: 4900 MCCORMACK ROAD NE
Facility Name or Identifier: FORT TOTTEN TRANSFER STATION
Status: New
Useful Life of the Project: 7
Estimated Full Funding Cost: \$500,000

Description:

This project is for the replacement of the current truck wash facility located at 4902 John McCormack Drive NE. The expected impact will be to improve the on-site vehicle washing capabilities for DPW which will assist in extending the useful life of vehicles in the fleet.

Justification:

The current truck wash facility is not designed to handle the volume and type of vehicles that need to be cleaned on a regular basis. The facility requires constant repair.

The original design did not adequately consider the usage level of the facility. The wash equipment was installed in 2002 and has exceeded its useful life.

The project will replace the current wash equipment and facility with one that has the capability to service the volume and type of equipment that must be washed on a regular basis.

(KV0) DEPARTMENT OF MOTOR VEHICLES

MISSION

The mission of the Department of Motor Vehicles (DMV) is to promote the safe operation of motor vehicles and public safety while providing outstanding customer service.

BACKGROUND

Department of Motor Vehicles became an independent agency in October of 1998. Prior to its independence, DMV was a bureau within the Department of Public Works. DMV is achieving its mission by providing the following basic services to District residents: licensing, identification, adjudication and vehicle inspections, titling and registration. There are currently four service centers and one adjudication facility. In addition, there is one vehicle inspection station and two road test sites for commercial and non-commercial testing.

CAPITAL PROGRAM OBJECTIVES

Capital programs for the Department of Motor Vehicles targets new and improved systems and technology citizen services including inspections, adjudication and ticket processing, licensing/identification, and vehicle registration. Specific capital projects in progress during FY2016 are listed below:

- Development of new ticket processing contract Request for Proposal to replace the current system which has not had a major technology upgrade in over 20 years.
- Development of new licensing/registration Request for Proposal to replace the current system which was implemented in 2002 with dated technology. This project also supports the Office of the Chief Technology Officer's requirement to move applications off the mainframe.
- Renovation of inspection station facility and technology server room which has not been upgraded in over 20 years

RECENT ACCOMPLISHMENTS

- Recent accomplishments have included migration of Destiny to current versions of the desktop software, upgrade of servers, implementation of a configuration management system and process, and numerous enhancements to business processes, including web services.
- Recent enhancements in adjudication services include migration to a web-based system with enhanced online payment capabilities.
- The Inspection Station system was upgraded to meet EPA emission regulations as well as numerous operational and process changes for, passenger taxi and commercial vehicle inspections.
- Driver license and vehicle registration changes supported operational changes in the issuance in credentials (i.e., central issuance versus over-the-counter), enhanced queuing system, and enhanced driver knowledge testing capabilities.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

KV0-MVS16-DESTINY REPLACEMENT PROJECT

Agency: DEPARTMENT OF MOTOR VEHICLES (KV0)
Implementing Agency: DEPARTMENT OF MOTOR VEHICLES (KV0)
Project No: MVS16
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 15
Estimated Full Funding Cost: \$8,000,000

Description:

The District of Columbia, Department of Motor Vehicles (DMV) has a requirement for a modernized, state-of-the art Driver License and Motor Vehicle Information System. DMV seeks to acquire contract services for the development, customization, and systems integration through the issuance of a Request for Proposal (RFP) for new application software for the motor vehicle’s system.

A new web based motor vehicle system will reduce the complexities of maintaining the multitude of software products and improve efficiency when making application software changes based on evolving DMV business rules. Today there are more companies out there with better products and knowledge in the DMV field. There are also more knowledgeable and trained web-based technical resources available to support new web based technologies. After the deployment of the new system, DMV will be looking at a reduction in the cost for maintenance in future years.

(PO0) OFFICE OF CONTRACTING AND PROCUREMENT

MISSION

The Office of Contracting and Procurement's (OCP) mission is to procure quality goods and services through a streamlined procurement process that is transparent and responsive to the needs of government agencies and the public, and ensures all purchases are conducted fairly and impartially.

SCOPE

The Office of Contracting and Procurement (OCP) manages the purchase of \$5.2 billion in goods, services and construction annually, on behalf of over 77 District agencies. In its authority under the Procurement Practices Reform Act of 2010 (PPRA), OCP is responsible for both establishing procurement processing standards that conform to regulations, and monitoring the effectiveness of procurement service delivery. Procurement processing and management are executed by procurement professionals who are assigned to agency worksites to directly collaborate with program staff throughout the entire procurement process. OCP core services include the DC Supply Schedule, Purchase card (P-Card) program, and the surplus property disposition and re-utilization program. OCP's learning and certification programs support on-going development of staff proficiency and procurement service quality.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. PO0-1PO01-ARIBA REFRESH

Agency: OFFICE OF CONTRACTING AND PROCUREMENT (PO0)
Implementing Agency: OFFICE OF CONTRACTING AND PROCUREMENT (PO0)
Project No: IPO01
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: Ongoing Subprojects
Useful Life of the Project: 10
Estimated Full Funding Cost: \$19,758,000

Description:

To support the improved transparency objectives of the procurement system that supports OCP's mission, we are requesting approval to move from paper based contracting to digital capabilities. In 2018 OCP is starting with contract lifecycle management utilizing electronic contracting documentation through the entire lifecycle of the contract. This will rely on electronic signatures and workflows taking the procurement lifecycle from inception to contract award. This will also provide a capability to archive and retrieve contracts and ensure improved compliance with district record retention policies.

Justification:

This project will allow more effective use of government procurement resources & centralization efficiencies. It is key to yield the maximum benefits at the lowest possible costs in-line with the Mayor's cost avoidance and cost saving objective. The system is critical to supplier communication and efficient procurement. It will also support the digital transition and procurement transparency. The Ariba system has been utilized by the district for 10 years and is in need of a refresh to position it for the next 10 years. The supplier (Ariba SAP) has announced that the current on-premise versions will all be de-supported in 2020 so the benefits of an on premises update will be overshadowed by the need to rapidly move to the cloud which is our only long term supported version from this software developer. The District also has 11,700 suppliers many of which are CBE's and DSLBD's utilizing the Ariba Supplier Network in the cloud which can be best leveraged by continuing the use of the Ariba product.

Progress Assessment:

New project.

Related Projects:

The next generation of SOAR will integrate with the fund and encumbrance accounting and will need to leverage the common elements such as the chart of accounts and the FY period dates.

(RL0) CHILD AND FAMILY SERVICES AGENCY

MISSION

The mission of the Child and Family Services Agency is to ensure the safety, permanence, and well-being of abused and neglected children in the District of Columbia and to strengthen their families.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

RL0-RL31A-CCWIS IMPLEMENTATION

Agency: CHILD AND FAMILY SERVICES AGENCY (RL0)
Implementing Agency: CHILD AND FAMILY SERVICES AGENCY (RL0)
Project No: RL31A
Ward:
Location: 200 I STREET SE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project: 15
Estimated Full Funding Cost: \$23,898,000

Description:

CFSA is the District of Columbia state child welfare agency with the legal authority and public mandate to protect abused and neglected children, and those at risk, in the District of Columbia and to assist their families. The Federal Health and Human Services (HHS), Administration for Children and Families (ACF) requires that the District performs this role using a child welfare information system that captures the entire process from initial reporting of information to the agency, to the exit & post exit of the child/adult from agency/services. The current system in use was implemented in 1999. The new comprehensive child welfare information system (CCWIS), proposed here, will address six (6) main challenge areas for the District as follows; 1- Meeting new federal mandates - In 2016, ACF introduced new regulations impacting states child welfare information systems. 2- Inefficient and Outdated software – CFSA legacy system (FACES) software code uses technology that prevents use of new common technology tools and is difficult to maintain and enhance. 3- Data quality – FACES lacks data validation capabilities, as a result over the course of 20 years, data quality has been declining causing significant challenges to data reporting, tracking recidivism and meaningful data mining and analytics. 4- Missing Functionality – Due to difficulties in enhancing the system, CFSA suffers from prefiltration of semi-manual data tracking processes, resulting in data about our children and providers being tracked and maintained outside of FACES. This impacts CFSA’s ability to monitor agency performance, keep data secure and address quality issues. 5- Limited data exchange capabilities – ACF rules and regulations require data interfaces with number of District, federal and community-based organizations. To date these exchanges have been limited to minimal batch processes or manual exchange of spreadsheets. 6- Expand Mobility – Due to complexity of FACES and its mobile companion, the uptake on use of mobile technologies has been very limited.

Justification:

The current District Child Welfare Information System (FACES) was first implemented in 1999, as required by the federal Administration for Children and Families (ACF). In 2016, the ACF came out with new regulations for state systems and agreed to provide matching funds at 50 percent of total eligible cost for the development of the new systems. The cost reported in this request are the total costs; these costs will be reimbursed at 50 percent of total eligible cost. The District taxpayers will benefit from the system through better services delivered by CFSA and our community partners due to reduced data entry requirements, freeing our social workers to perform direct services; higher quality of data and ability to take advantage of new technologies including but not limited to new browsers, ratification intelligence and others. CCWIS will support multiple of CFSA key performance indicators meeting the Mayor's priorities in cross-agency services to strengthen families and keep children safe. The ACF funding match is available now but it is not perpetual. Federal enabling regulations include: 1355.50 through 1355.59.

(RM0) DEPARTMENT OF BEHAVIORAL HEALTH

MISSION

The mission of the Department of Behavioral Health (DBH) is to support prevention, treatment, resiliency, and recovery for District residents with mental health and substance use disorders through the delivery of high-quality, integrated services.

BACKGROUND

DBH administration and direct services are located at 64 New York Ave NE, St Elizabeths Hospital, 821 Howard Rd SE, 35 K St NE, and Building 14 of the DC General Hospital Compound, and 150 Wayne Ave. Sixty-four New York Ave NE and 150 Wayne Ave are owned by private firms. The other facilities are owned by the District of Columbia Government.

CAPITAL PROGRAM OBJECTIVES

1. Maintain St Elizabeths Hospital's compliance with best practices, standards and federal and District regulations by replacing floors, reconditioning wall surfaces, upgrading the electrical system, modernizing the HVAC system, acquiring new equipment to maintain sanitation and hygiene in food preparation and delivery, and acquiring a staffing scheduling system and hand scanners.
2. Improve the provision of Early Childhood, School Mental Health and Child Behavioral Health Services at 821 Howard Rd SE facility by modifying and expanding the usable space and upgrading the IT infrastructure.
3. Improve the provision of Adult Behavioral Health Services by renovating and enhancing the staffing area of 35 K St NE.
4. Improve the provision of mobile assessment and referral for substance abuse treatment services by replacing the mobile clinic vehicle.

RECENT ACCOMPLISHMENTS

1. St. Elizabeths Hospital completed installation of an automated system to closely monitor and manage the issuing of keys to staff and staff's return of keys upon shift changes, in order to ensure safety, security and accountability in operations.
2. St. Elizabeths Hospital has currently reached 60 percent completion of the installation of a new video surveillance camera system.
3. DBH completed the renovation of the Comprehensive Psychiatric Emergency Program (CPEP) in building 14 of the DC General Campus.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

RM0-HX990-FACILITY UPGRADES

Agency: DEPARTMENT OF BEHAVIORAL HEALTH (RM0)
Implementing Agency: DEPARTMENT OF BEHAVIORAL HEALTH (RM0)
Project No: HX990
Ward:
Location: 821 HOWARD ROAD SE & 35 K STREET NE
Facility Name or Identifier: VARIOUS
Status: Developing scope of work
Useful Life of the Project: 10
Estimated Full Funding Cost: \$1,185,000

Description:

Facility Upgrades to General Areas at 821 Howard Rd. SE to include existing space modification and expansion; IT Infrastructure and Facility Enhancement of Staffing Areas at 35 K St. NE.

Justification:

DBH is looking to upgrade to DC-Net fiber based services at the 821 Howard Road location to include VoIP, Wireless, and a full infrastructure upgrade. This location houses the school-based mental health program. Requires build-out of secure area for equipment. Improved efficiency and effectiveness of the telecom infrastructure at the site. Improved staff morale as the current infrastructure doesn't meet the business needs, Workstation: staffing area enhancement will allow staff to better serve community in a more private environment.

RM0-DB203-INTERCOM SYSTEM

Agency: DEPARTMENT OF BEHAVIORAL HEALTH (RM0)
Implementing Agency: DEPARTMENT OF BEHAVIORAL HEALTH (RM0)
Project No: DB203
Ward:
Location: 1100 ALABAMA AVENUE SE
Facility Name or Identifier: SAINT ELIZABETHS HOSPITAL
Status: New
Useful Life of the Project: 7
Estimated Full Funding Cost: \$300,000

Description:

Replacement of the hospital Intercom System. The existing intercom system is outdated and needs to be upgraded. Repair/replacement parts are becoming more and more difficult to find or not available at all. The project would replace key systems for Intercom, Video and Access Control.

Justification:

The existing intercom system is operating at a diminished level due to main board failures that are no longer replaceable. Overall the system is outdated and needs to be upgraded because repair/replacement parts are becoming more and more difficult to find or not available at all. Key systems for Intercom, Video and Access Control are at a very high risk of failure and will hamper security operations severely.

Progress Assessment:

New project

RM0-HX993-PHARMACY MEDICINE DISPENSING UPGRADE (PYXIS)

Agency: DEPARTMENT OF BEHAVIORAL HEALTH (RM0)
Implementing Agency: DEPARTMENT OF BEHAVIORAL HEALTH (RM0)
Project No: HX993
Ward:
Location: 1100 ALABAMA AVE SE & 1905 E STREET SE
Facility Name or Identifier: MEDICINE DISPENSING SYSTEM
Status: New
Useful Life of the Project: 8
Estimated Full Funding Cost: \$1,038,000

Description:

Replacing aging Pyxis machines at St. Elizabeth’s Hospital (SEH) and implementing a medication management system at the Comprehensive Psychiatric Emergency Program (CPEP). The Pyxis medication dispensing system is now over 9 nine years old, the cabinets, pockets and drawers are all aging and experiencing issues due to use over time. This is a critical upgrade for the hospital and DBH as a whole, with the expansion of Pyxis use at CPEP. Upgrades to the machines to allow for better medication management and improve patient safety.

Justification:

The Pyxis medication dispensing system is now over 9 nine years old, the cabinets, pockets and drawers are all aging and experiencing issues due to use over time. These cabinets are outdated models that now cost more to support due to their age, the vendor informed us in 2017 that the cabinets would meet end of use in June of 2018. The operating system is old and needs to be updated as well. This will affect the security of our Network. This is a critical upgrade for the hospital and DBH as a whole, with the expansion of Pyxis use at CPEP. The Upgrades to the machines to allow for better medication management and improve patient safety at SEH as well as introduce the medication management at CPEP

Progress Assessment:

New project

RM0-DB202-THERMAL DOCKING STATION SYSTEM

Agency: DEPARTMENT OF BEHAVIORAL HEALTH (RM0)
Implementing Agency: DEPARTMENT OF BEHAVIORAL HEALTH (RM0)
Project No: DB202
Ward: 8
Location: 1100 ALABAMA AVENUE SE
Facility Name or Identifier: SAINT ELIZABETHS HOSPITAL
Status: New
Useful Life of the Project: 10
Estimated Full Funding Cost: \$500,000

Description:

Replace current thermal docking station and 54 carts, blast chiller, and tray line in the main kitchen due to normal wear and tear. The equipment has surpassed its life expectancy, equipment is dated 11 years old and the availability of parts is limited and becoming scares.

Justification:

The hospital has spent over \$150,000 each year for repairs. The cost to repair its trucks is approximately \$5,000 as opposed to upgrading to a new truck for \$12,000. The doors are not sealing properly which is causing a problem in maintaining the correct food temperature. Department of Health has cited the hospital on several occasion because the temperatures were not correct. In addition to maintaining compliance with accreditation and licensure requirements, modernizing the unique meal delivery solution requires coordination of tray tops with carts, allowing the operation to raise patient satisfaction scores with contemporary styling, improved hold times, practical ergonomics and unmatched durability.

(TOO) OFFICE OF THE CHIEF TECHNOLOGY OFFICER

MISSION

The mission of the Office of the Chief Technology Officer (OCTO) is to direct the strategy, deployment and management of District of Columbia Government technology with an unwavering commitment to IT excellence, efficiency and value for government, residents, businesses and visitors.

Background

As the central technology organization for the Government of the District of Columbia, OCTO provides technology services and support for District agencies to improve services to businesses, residents, and visitors. OCTO's goal is to establish the technology systems, policies, and standards that allow over 100 agencies to operate as one government. A typical workday includes the following:

- Detect and prevent 4.8 million cyberattacks.
- Connect over 650 government buildings with a 100 gigabit network.
- Provide 40,000 WiFi connections.
- Support 36 call centers that handle close to 5,000 phone calls.
- Offer 1,000 datasets available to the public.
- Process over 2 million emails.
- Host over 100 District agency websites, which receive over 68,000 visits.
- Operate over 3,900 servers and hundreds of applications for over 87 agencies.

Manage enterprise systems that make running the government possible, including the Human Resources system, which manages over 37,000 employment records, and the District's citywide procurement system, which conducts over 2,000 procurement transactions

PROGRAM OBJECTIVES

Objective #1: Provide a secure and trusted information technology environment

Objective #2: Enhance the quality, availability and delivery of information services to the residents, employees, business and government

Objective #3: Implement an enterprise approach to information technology infrastructure and common administrative systems that will foster innovation and collaboration

Objective #4: Enable and improve the availability of and integration of information

Objective #5: Achieve excellence in information technology management practices

RECENT ACCOMPLISHMENTS

- Administered the E-Invoicing project, including migrating 87 agencies to the new platform.
- Released the District's first Enterprise Dataset Inventory (EDI).
- Launched the E-Risk Platform to manage payments to DC workers injured on the job as the first phase of the District's Enterprise Risk Management System (ERMS) in support of the Office of Risk Management.
- Readied 27,314 District of Columbia Public School laptops for the first day of school.
- Developed a cloud-based system in support of the certification of business enterprises by the Department of Small Local Disadvantaged Businesses.
- Hosted two All Hands on Tech Events, which provided residents with free technical support for their laptops and other technology devices.
- Helped 19 agencies launch new, cloud-based intranet sites.
- Processed raises and retroactive payment for DC teachers per new union agreement.
- Completed 8 weekend Kids Ride Free (KRF) SmarTrip distribution events

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

TO0-N2518-DATA CENTER RELOCATION

Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Implementing Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Project No: N2518
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: DATA CENTER
Status: Ongoing Subprojects
Useful Life of the Project: 7
Estimated Full Funding Cost: \$40,000,000

Description:

The District of Columbia has two production data centers housing mission-critical data, voice, video, wireless, and Internet services in hardened and highly available facilities: in the heart of the city (ODC1 - 3919 Benning Road NE) and on the outskirts (ODC3). These facilities ensure access to the most critical aspects of the District's network infrastructure along with all agency mission critical applications and services. They have the capability to support increasing demands in city-wide application growth.

The District's data centers serve and operate as a critical network node for the District's fiber optic network and all voice and data services. They are the home for soft-switches that support approximately 40,000 voice users and house the core network electronics that provide connectivity to the Internet, via several Internet Service Providers (ISP's), supporting the District's information needs and those of the DC Public Schools, Libraries and all Public Safety agencies.

The data center facilities also serve as termination points for voice services (SIP or Session Initiated Protocol trunks) to allow telephone calls to be placed to points other than within only the District's offices; the hand-off to other carriers for "local" area calls and "long-distance" calls to neighboring states and other parts of the country. The data centers serve as a primary hand-off point to other carriers for District data traffic as well as a connectivity point for the Federal customers using the District's fiber network.

Justification:

This project will maintain continuous, secure and redundant data storage and operations of critical services while relocating DC government's primary data center pursuant to the agreed-upon terms with the owner of the current location.

Progress Assessment:

To support increasing demands in city-wide application growth

TO0-DPA20-DATA PRIVACY & ANONYMIZATION

Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Implementing Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Project No: DPA20
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project: 7
Estimated Full Funding Cost: \$620,000

Description:

A project to develop, purchase, and implement a suite of data privacy tools for use in data storage and interagency data sharing. These tools will provide encryption, access control, anonymization, de-identification for agency data stored on the DC Data Lake.

Justification:

As captured in the Chief Data Officer’s 2018 Enterprise Data Inventory, there are numerous data sources managed throughout District, each classified by the security level. OCTO is building the DC Data Lake as a place to store such data sets securely. The Lab @ DC and a number of key agencies such as DHS and CFSA have a need to perform high-end analysis on data containing Personally Identifiable Information (PII). OCTO has engaged these key stakeholders via presentations to Data Science DC, the Data Privacy Working Group, and bilateral discussions between The Lab and OCTO on Data Governance and Anonymization.

However, considerable work is needed to address Data Privacy and Anonymization at levels that satisfy privacy restrictions across multiple data regulations including HIPAA and FERPA. Beyond these requirements, there is much public concern over personal data ownership. There are reforms ongoing and on the horizon, like the Europe’s General Data Protection Regulation (GDPR). GDPR compliance is onerous and has become a top data protection priority and expense, with a majority of impacted CIOs spending over a \$1 million, and often more (ref 1). This project will introduce a proactive approach to help control these costs within the complex, distributed nature of the District’s data operations.

Providing shared privacy tools can help DC lay the foundation for good data privacy handling. According to a Pew research study, over half of Americans do not have confidence that government will keep their records “private and secure” (ref 2). For the citizens of the District of Columbia, we need to build tools that protect their privacy and prevent data breach, while maintaining transparency. The fragmented, distributed, ungoverned nature of District data management leaves it vulnerable to breach, and mishandling for privacy. We propose to purchase an array of individual tools and share them centrally, using custom development to enhance usability.

Project No: N9101
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: In multiple phases
Useful Life of the Project: 5+
Estimated Full Funding Cost: \$15,110,000

Description:

The purpose of this project is to support the District vision for Enterprise Cybersecurity services delivered by OCTO on behalf of the Mayoral and Non-Mayoral Agencies.

OCTO CWITS team provides Enterprise Cybersecurity services for all Mayoral and Non-Mayoral Agencies and deploys technologies/tools that will be used by CWITS Enterprise Cybersecurity Engineers and the Enterprise Security Operations Center. Both of these groups operate and maintain Enterprise IT Tools/Technologies.

The Capital Request is comprised of two components:

1. Deployment of new technology/tools to protect against newly discovered next generation cyber-security threats.
2. Re-deployment and replacement for end-of-life technology/tools that are no longer capable of performing the original task. OCTO follows the industry best-practices for Hardware Lifecycle Management (HLM); it is anticipated that each of the major Enterprise devices will require replacement within 5-8 years.

Justification:

OCTO uses the enterprise security tools purchased via this capital project to identify, protect, detect, respond to and recover from cybersecurity threats. These technologies/tools also ensure the District's ability to maintain regulatory compliance.

Progress Assessment:

Progressing in multi-phases

TO0-DSM20-DIRECTORY SERVICES MODERNIZATION

Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Implementing Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Project No: DSM20
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project: 5-9
Estimated Full Funding Cost: \$5,575,000

Description:

The goal of this project is to implement a modernized consolidated Active Directory environment that can be used to authenticate any device and/or user that access the District's enterprise-wide Information Technology and Communications network. A consolidated Active Directory environment enables user mobility, common user provisioning processes, consolidated reporting, and unified management of machines as well as Single Sign-On (SSO). As part of the Directory Services Modernization effort a modernized Identity Management System (IDMS) will be implemented that can be used to authenticate any device and/or user that access the District's enterprise-wide Information Technology and Communications network. The identity management system will also be leveraged to provide DC residents with access to government facilities and programs by improving authentication for systems such as DC One card.

Currently the District does not have a consolidated Active Directory, but instead has multiple Active Directory forests and domains. The current environment consists of 11 disparate forests and over 20 child domains. A simplified Active Directory environment will improve security and reduce compliance risks, particularly as the District has adopted multiple cloud-enabled applications such as Office 365, Salesforce and QuickBase, which heavily rely on Active Directory to provide authentication and authorization.

Justification:

- Consolidation of Active Directories
 - o Consolidated AD model is a more elegant approach to district wide user management.
 - o Results in user portability, shared GAL (Global Address List) and consolidated reporting enhance productivity
 - o Enables multi-factor authentication
 - Greatly reduce the risk of successful phishing attacks against the District.
 - Enable the use of single sign-on while reducing the risk that a single stolen password unlocks multiple District applications
- Allow the District to operate as one government
 - o Facilitates role-based security and governance (policies/procedures)
 - o Facilitate secure interagency application and data sharing such accessing sensitive data in the new data lake
- Unlock the potential for better integration with the District physical security systems (DGS) and credentialing system (DCHR)

TO0-DR018-DISASTER RECOVERY & COOP IMPLEMENTATION

Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TOO)
Implementing Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TOO)
Project No: DR018
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: In multiple phases
Useful Life of the Project: 5+
Estimated Full Funding Cost: \$18,590,000

Description:

The purpose of this project is to deploy a redundant and highly available infrastructure to host the failover systems for all the District's critical applications, to include those associated with public safety. The OCTO team will conduct a detailed analysis of all agencies and work with them to make every critical application fully redundant, creating resilient public safety functions that that will directly benefit citizens.

The project will deploy dedicated server virtualization platforms to run critical public safety applications for each agency. The dedicated platforms will be separated logically and physically to comply with local, state or federal security access requirements

Justification:

Currently, public safety agencies, as well as District agencies that provide critical services, do not have a redundant failover environment. The result is that these agencies are unable to seamlessly and quickly failover their systems to an alternate data center or deploy their applications in an architecture which would result in uninterrupted or minimal impact to critical services. This project will help to avoid extended service impact and downtime, enhancing public safety.

Progress Assessment:

TO0-EES20-ENHANCED EMAIL SECURITY AND HYGIENE

Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Implementing Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Project No: EES20
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project: 5
Estimated Full Funding Cost: \$925,000

Description:

The goal of this project is to greatly increase the security posture of the current email platform. 95% of cyber-attacks and data breaches involve spear phishing and 100% of spear phishing attacks involve identity deception. In the last year alone, we have seen a 30% uptick in email spear phishing attacks against DC Government staff. As part of this initiative, we are looking to acquire enhanced email security products to help protect against spear phishing attacks and identity deception email attacks. At the same time we are looking to deploy enhanced email domain security platform to prevent spoofing of DC Government emails externally outside of our network.

Enhanced Email Security Hygiene Protection further augments sender authentication and Business Email Compromise detection capabilities already available in our exiting email security platform. It integrates machine learning that combines local identity and relationship modeling with behavior analytics to protect against identity deception-based threats. It models trusted email behavior, within organizations and between individuals. This identity intelligence continuously adapts to drive a real-time understanding of senders and prevent costly breaches.

DC Government today relies on many internal and third party email senders for numerous DC Government communications. This can lead to attackers using the DC Government email domain {dc.gov} to breach our customers and partners making them vulnerable to attacks. This impacts the District's ability to easily communicate with our customers and partners. The most effective way to mitigate this vulnerability is to use the DMARC standard to authorize and authenticate all systems and applications that send emails on behalf of DC Government. DMARC is a technology that makes it easier for email senders and receivers to determine if a message is from a legitimate sender. Identifying all legitimate senders can be challenging because of the complexity of the DC Government email ecosystem, which relies on multiple external partners to send emails using the {dc.gov} email domain to both DC Government employees, constituents and partners. The list of these external applications is growing rapidly, with Salesforce, Oracle, Microsoft and Inuit, just to name a few of the applications that currently send out emails as @dc.gov.

Justification:

As part of this project, DC Government would deploy a Email Doman Protection platform to automate the DMARC email authentication process and give Citywide Messaging and Citywide Security visibility into our own internal as well as third-party email senders using the {dc.gov} email domain. The Email Doman Protection platform automatically correlates information into an easy-to-read report that lists who is sending email on our behalf and whether they are DMARC compliant. For those senders who are not DMARC compliant, the Email Domain Protection platform identifies and eliminate sources of illegitimate email to prevent phishing attacks impersonating DC Government systems.

TO0-CNU00-MP - CORE INFRASTR. NETWORK UPGRADE

Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Implementing Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Project No: CNU00
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: In multiple phases
Useful Life of the Project: 7
Estimated Full Funding Cost: \$5,419,000

Description:

OCTO is committed to extending public Wi-Fi coverage in the District in meaningful ways that maximize the benefit of this no-cost service to residents, visitors, and businesses to enhance quality of life and opportunities for growth. Expanding public Wi-Fi will strengthen the District’s commitment to realizing the Mayor’s vision to enhance quality of life, drive digital inclusion, and build pathways to the middle class by creating a technologically integrated city with digitally enhanced public services.

Justification:

Wai-Fi provides many benefits to the public: it helps foster city economic development, enhances tourist experience, supports public safety efforts, and helps bridge the Digital Divide by augmenting public access to the Internet near buildings such as schools, libraries, parks, public housing sites, and other community spaces. This capital funding request will expand wireless connectivity in critical parts of the District – supporting the Great Streets/Main Streets and Business Improvement District efforts – along with critical District facilities that directly support public safety and government operations.

TO0-EAP20-PEOPLESFT ENTERPRISE DATA RECLAMATION

Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Implementing Agency: OFFICE OF THE CHIEF TECHNOLOGY OFFICER (TO0)
Project No: EAP20
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: New
Useful Life of the Project: 5+
Estimated Full Funding Cost: \$750,000

Description:

The PeopleSoft Enterprise Data Reclamation project aims to examine, sanitize and/or realign the District’s Human Capital Management (HCM) data in the PeopleSoft HCM enterprise system to improve the quality of data that serves as the basis for all Human Resources and Payroll-related records in the District.

The initial phase of this effort focuses on the realignment of organizational department structure to facilitate further enhancements to the “reports to” (supervisory) hierarchy. This in turn will reduce the number of workflow errors and position the HCM system to consume department-level budget information from the successor to the SOAR financial system.

Justification:

This project will also examine business rules to ensure that the HCM system is synchronized with the District Personnel Manual (DPM) and labor organization collective bargaining agreements (CBA).

(UC0) OFFICE OF UNIFIED COMMUNICATIONS

MISSION

The mission of the Office of Unified Communications (OUC) is to provide a fast, professional, and cost-effective response to emergency (911) and non-emergency (311) calls in the District. The OUC also provides centralized, District-wide coordination and management of public safety voice radio technology and other public safety wireless and data communication systems and resources.

CAPITAL PROGRAM OBJECTIVES

In support of the Mayor's Safer, Stronger, Brighter DC initiative, and to enhance customer service delivery, the OUC seeks to improve public safety communications, including emergency dispatch and call-taking, and city service request management by maintaining and upgrading technology systems to meet the highest industry standards for all public safety communications activities.

In the coming fiscal years, the OUC will be working on:

- Public Safety Communications Center (PSCC) Infrastructure Improvements: The OUC will upgrade or replace the PSCC's critical systems and components which are at the end of their useful life.
- Electrical Power Redundancy at UCC Building: The OUC, in coordination with DGS, will upgrade the UCC's electrical system configuration to a true 2N design.
- Integrated Console Replacements for Call Takers and Dispatchers - The OUC will replace integrated consoles to improve overall workstation performance.
- 911 / 311 Hardware Replacement - The OUC will pursue key
- 911/311 systems hardware replacement initiatives following IT best practices.
- 911 / 311 Software / Application Replacement - The OUC will upgrade its existing 911 / 311 software applications following IT best practices.
- Radio Replacement for FEMS and MPD – In alignment with the OUC's equipment replacement schedule, the agency will replace all radios for FEMS and MPD users.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6-year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6-year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6-year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** If a project has operating impacts that the agency has quantified, the effects are summarized in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

UC0-UC304-911/311 RADIO CRITICAL INFRASTRUCTURE

Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Implementing Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Project No: UC304
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: COMMUNICATION INFRASTRUCTURE
Status: Ongoing Subprojects
Useful Life of the Project: 5
Estimated Full Funding Cost: \$14,628,000

Description:

Electrical system upgrades; PSSC Consolidated Environmental HVAC upgrades; UCC/PSSC Building Alarm system upgrades; UPS Replacement Batteries; Expand PSSC Call for 311 positions to match and space reconfiguration assessment and site work (road widening, site drainage, roof repairs, sprinkler system and 20% design/PM; PSSC Generator; Radio Site Upgrade; PSSC UPS Battery; Radio Sites Generator; UCC Generator; Call Center Lighting; Chairs; Audio/Visual Displays CTURE

Justification:

Project management services, and equipment from key vendors to complete the infrastructure projects listed below: Electrical System Upgrades, PSSC Consolidated HVAC upgrades, UCC / PSSC Building Alarm system upgrades, UPS replacement batteries, Expand PSSC call center for 311 positions to match UCC and space reconfiguration assessment and Site work (road widening, site drainage, roof repair, sprinkler system), PSSC Generator, Radio Site Upgrade / Enhancement, PSSC UPS Battery, Radio Sites Generator, UCC Generator, Call Center Lighting, Chairs, and Audio / Visual Displays.

Progress Assessment:

Ongoing project.

UC0-AFC02-IT HARDWARE 911/311 SYSTEMS

Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Implementing Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Project No: AFC02
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: COMMUNICATION INFRASTRUCTURE
Status: New
Useful Life of the Project: 15
Estimated Full Funding Cost: \$4,021,000

Description:

This project is to upgrade the hardware used in support of the District’s 911/311 systems. The UCC receives and processes calls to 911 and the District’s customer service line, 311. During major emergencies, the center becomes the District’s Emergency Operations Center (Mayor’s Command Center) and provides a central location for multiple agencies to address any variety of situations. Upgrades are needed to our system’s hardware to ensure that it is fully capable.

Justification:

The UCC receives and processes calls to 911 and the District’s customer service line, 311. During major emergencies, the center becomes the District’s Emergency Operations Center.

Progress Assessment:

New project

UC0-DWB02-IT SOFTWARE (911/311 APPLICATIONS)

Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Implementing Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Project No: DWB02
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$2,500,000

Description:

This project will upgrade OUC's existing 911/311 software applications following IT best practices. Specifically, it will provide for the bi-annual Radio System Software upgrade and every 5 year major 911 Computer Aided Dispatch software upgrade. In FY 2018, OUC's 911 services received nearly 1.3 million calls, and 311 services received approximately 1.7 million calls and processed over 680,000 service requests for 82 District Government agencies. OUC also serves as the custodian of all 911 and 311 communications records.

Justification:

This project will enable the OUC to continue to provide efficient and effective responses to 911 and 311 communications, minimize risks to system uptime availability, and enhance system security following industry recommended best practices.

Progress Assessment:

Progressing in multi-phases

UC0-UC302-MDC REPLACEMENT FOR MPD & FEMS

Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Implementing Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Project No: UC302
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: INFORMATION TECHNOLOGY
Status: In multiple phases
Useful Life of the Project: 5
Estimated Full Funding Cost: \$8,000,000

Description:

This project budget supports the cost of replacing Mobile Data Computers for MPD and FEMS as well as the Mobile VPN Server.

Justification:

In its role as primary support provider for all Mobile Data Computing for both Fire/EMS and Police departments in the District of Columbia, the Office of Unified Communications (OUC) has identified a cost saving solution and a method to improve the reliability and robustness of mobile data computing for first responders in the field. In this role, the OUC seeks to procure, install, configure and provide project management for first responder's mobile wireless communication routers and rugged computing platform that meets the needs of Public Safety first responders in the field.

Progress Assessment:

Progressing in multi-phases

UC0-UC303-MPD/ FEMS RADIO REPLACEMENT

Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Implementing Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Project No: UC303
Ward:
Location: DISTRICT-WIDE
Facility Name or Identifier: COMMUNICATION INFRASTRUCTURE
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$14,693,000

Description:

This project consists of replacing all radios for FEMS and MPD. The OUC policy is to provide redundancy and backup on all core systems, and 99.9% reliability. It is imperative that the OUC invest in replacing MPD and FEMS radios to fulfill this policy.

Justification:

State of the art radios for MPD and FEMS. The radios FEMS and MPD use are specific to their role as first responders.

Progress Assessment:

Progressing in multi-phases

UC0-CERCE-UCC ELECTRICAL RECONFIGURATION

Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Implementing Agency: OFFICE OF UNIFIED COMMUNICATIONS (UC0)
Project No: CERCE
Ward: 8
Location: 2720 MARTIN LUTHER KING JR AVENUE SE
Facility Name or Identifier: UNIFIED COMMUNICATIONS CENTER
Status: In multiple phases
Useful Life of the Project: 10
Estimated Full Funding Cost: \$8,400,000

Description:

The current electrical configuration in the Unified Communication Center needs revision and upgrades. Numerous IT solutions and technology changes have occurred since the building was first opened in 2006. Changes are needed to the electrical configuration to ensure uninterrupted service can continue for the District.

Justification:

I.T. upgrades

Capital Appendices

Appendix E

Appendix E

Capital Project Cost Estimate Variance

This appendix provides information on lifetime cost for each project in the approved FY 2020 - FY 2025 capital budget compared to lifetime cost for the project through FY 2019. DC Code Sec. 1-204.44(1) requires identification of capital projects whose lifetime costs in the approved capital budget increase by more than 5 percent compared to the previous year's capital budget. Appendix E excludes Federal Highway Administration funding since the project-based allocations for FY 2020 – FY 2025 are not yet determined. Projects are divided into four parts for presentation.

PART 1:

Existing Projects with FY 2020 Budget and FY 2019 Budget; FY 2020 Lifetime Budget Increment Greater Than 5 Percent. This section lists projects that are the focus of the DC Code requirement.

- Many of these projects fund ongoing work, with additional budget added each year to continue this work. Examples include (1) short-term bond funded projects to purchase replacement vehicles in the Metropolitan Police Department and the Fire and Emergency Medical Services Department, (2) the street and alley improvement project in the Department of Transportation, and (3) the District's capital subsidy to the Washington Metropolitan Area Transit Authority.
- Other projects represent true cost increases, either because of an expansion in the scope of work or an increase in the cost relative to prior estimates for the same scope of work.

PART 2:

Existing Projects with FY 2020 Budget and FY 2019 Budget; FY 2020 Lifetime Budget Increment Less Than 5 Percent (Or Negative). This section lists projects whose cost did not increase by more than the 5 percent threshold.

PART 3:

Existing Projects with FY 2020 Budget but not FY 2019 Budget. This section includes projects that were not part of the FY 2019 budget and thus are not the focus of the DC Code requirement. However, cost increases in the approved FY 2020 - FY 2025 capital budget can still be calculated compared to previous lifetime budget.

PART 4:

New Projects in the FY 2020 Budget. Projects in this section are receiving budget for the first time in the approved FY 2020 capital budget, so there are no comparable prior cost estimates.

Lifetime budget data through FY 2019 are the budget authority figures from SOAR, the District's financial management system.

Appendix H

Appendix H: FY 2020 - FY 2025 Highway Trust Fund

Overview

Approximately 199 of the District’s bridges and 400 miles of District streets and highways are eligible for federal aid. The Federal Highway Administration (FHWA) administers the Federal-aid Highway Program which provides funding for construction, reconstruction, and improvements on eligible routes and for other eligible programs and projects. The FHWA reimburses the District Department of Transportation for eligible expenditures related to approved highway projects according to cost-sharing formulas that are established in authorizing statutes. As an average, the federal share of the costs for approved projects is about 84 percent. The District’s share of eligible project costs is funded with the District’s local Highway Trust Fund (HTF).

The approved HTF summary budget for FY 2020 through FY 2025 is shown in Table H-1. The total budget for FY 2020 is \$203,706,713. It is anticipated that FHWA will make \$176,077,209 of federal aid available for HTF projects. The approved local match HTF budget of \$27,629,504 is based on estimates of local HTF revenues and anticipated local match requirements.

The Highway Trust Fund Support project is a local master project created to have the budget for capital activities that are part of this program, but are not funded by federal aid, and includes two subprojects: the Non-Participating Highway Trust Fund Support project and the Administrative Costs Transfer project. The budget provides \$1,000,000 for FY 2020 for these purposes. Non-participating costs include overhead and other costs that FHWA deems ineligible for federal grant funding. Overhead costs are incurred for employee positions that support the FHWA capital program but are ineligible for direct grant funding due to FHWA regulations. Other non-participating costs are for infrastructure improvements or equipment used on capital projects that FHWA deems non-essential for grant purposes, but necessary to complete the task. Costs that are reimbursable from other parties, such as Pepco or the DC Water and Sewer Authority, may also be budgeted as non-participating costs.

The sources of funding for HTF projects, excluding non-participating and administrative transfer costs, are detailed in Figure H-1. The federal share of project funding for FY 2020 is anticipated to be 86 percent and the local share is expected to be approximately 14 percent. The local share is derived primarily from motor fuel tax revenue, which can be supplemented with rights-of-way revenue, as needed to meet local match requirements. The current fund balance of the District’s Highway Trust Fund of \$56,643,153 is available to be used for any additional local match needed beyond the 14 percent.

■ Motor Fuel Tax Revenue ■ Federal Aid ■ Fund Balance Use

Highway Trust Fund Revenue

The HTF budget for FY 2020 is approved to be distributed between the seven master projects shown in Figure H-2. Budget is allocated from the master projects based on FHWA approval of federal funding to individual projects. Allocations can only be made to individual projects that are reflected in the approved six-year Transportation Improvement Plan (TIP). Non-participating budget will be allocated from the local master project LMHTSC, Highway Trust Fund Support.

Each year DDOT produces a multi-year HTF financial report as required by D.C. Code § 9-109.02(e) to ensure that there are sufficient financial resources to match FHWA grants for transportation projects. A copy of the report for FY 2018 through FY 2025 is presented in Table H-2.

Project Planning

The TIP is a 6-year financial plan that describes the schedule for obligating federal funds to state/District projects. DDOT completes a new TIP, approved through the Metropolitan Washington Council of Governments, each year. The TIP contains funding information for all modes of transportation including highways, transit, and other capital costs. The TIP (both current and archived versions) can be found at: <http://www.mwcog.org/clrp/projects/tip/>.

The TIP represents the intent to construct or implement a specific project and the anticipated flow of federal funds and matching local contributions. The TIP serves as a schedule of accountability to the Federal Highway and Federal Transit Administrations. Their annual review and certification of the TIP ensures the continuation of federal financial assistance for Washington area transportation improvements. Significant District projects in the TIP are the South Capitol Street Bridge and the St. Elizabeths Campus Access Improvements.

To ensure that DDOT can obligate all of its federal funds each year, the TIP contains more projects than DDOT has funding to complete. This strategy allows DDOT to implement alternative projects should there be an unexpected delay or if the agency should receive additional funding authority from the FHWA during its annual “August redistribution” process. August redistribution is the process by which states and FHWA centrally-managed programs that do not obligate 100 percent of their authority within the fiscal year must forfeit any remaining authority. FHWA then redistributes this authority (normally in August) to those states that are tracked to obligate 100 percent of their authority during the fiscal year and have projects that are ready to proceed. DDOT requests total budget authority of \$203,706,712 for HTF projects in FY 2020.

Highway Trust Fund Cash Prospective (Notes)

1. The beginning balance reflects the amount of unspent obligations carried forward from the previous fiscal year in support of long-term Capital Investment.
2. Federal aid apportionment is the funding provided by the Federal Highway Administration (FHWA) in each fiscal year. The FY 2020 anticipated apportionment of \$176,077,166, and the FY 2020 – FY 2025 anticipated annual apportionments include the August Redistribution. For FY 2020 through FY 2025, funding federal-aid is estimated to grow at an annual rate of 2.4 percent.
3. Grant Anticipation Revenue Vehicles (GARVEE) debt service. Payment on the District’s obligations for debt service on bonds secured by a lien on federal transportation funds received from the Federal Highway Administration.
4. Project Cost (Design/Construction) represents the planned expenditures for all phases of approved federal highway projects.
5. Non-Participating Costs are those costs not eligible for federal-aid funding. This includes labor, overhead costs, and other costs not covered by FHWA. Also included are miscellaneous costs/reimbursements that may possibly be converted to federal reimbursement upon approval by FHWA at a later date or will be reimbursed by another entity.

(KA0) DEPARTMENT OF TRANSPORTATION

MISSION

The District Department of Transportation (DDOT)'s mission is to enhance the quality of life for District residents and visitors by ensuring that people, goods, and information move efficiently and safely, with minimal adverse impact on residents and the environment.

BACKGROUND

DDOT oversees and maintains 7,787 intersections (1,678 signalized); 1,495 linear miles of sidewalks; 1,042 linear miles of roadways (interstate highways and neighborhood streets); 350 linear miles of alleys; 232 bridges (208 vehicle, 24 pedestrian); 16 tunnels and underpasses; 10,905 parking meters for 19,410 metered parking spaces; 160,000 street trees in the public right-of-way and another 75,000 on District-owned land; 75,000 streetlights; 500,000 street signs (excluding street name signs), 85 miles of bike lanes and 60 miles of trails; 72 DC Circulator buses operating 6 routes covering 44.23 miles; 6 DC Streetcars covering 2.4 miles on H Street NE; and 277 Capital Bikeshare stations across the District. Additionally, DDOT has responsibility for the District's traffic and pedestrian safety and managing the District's public space and rights-of-way.

CAPITAL PROGRAM OBJECTIVES

1. Maintain and enhance the District's transportation infrastructure.
2. Increase non-vehicular transportation modes to meet the mobility and economic development needs of the District.
3. Improve the safety of pedestrians, cyclists, and drivers throughout the District.

Transportation is critical to the safety, health, and welfare of residents and visitors of the nation's capital. The six-year CIP continues to support Mayor Bowser's Vision Zero Plan, by providing budget for dynamic Safety and Mobility projects, such as expanding production and installation of street signs, bicycle and pedestrian safety improvements, and planning, designing, constructing, and enhancing bike lanes and trails.

Delivering a safe and accessible transportation network is DDOT's top priority. At the core of the District's transportation infrastructure is the vast network of streets, alleys, and sidewalks. The six-year CIP makes significant investments to rehabilitate this network; significantly improving their overall condition. Additionally, the CIP provides budget to invest in streetscape projects that support safety, multi-modal, economic development, and livability goals along major corridors in the District

The six-year CIP includes funding to reconstruct two major bridges in the District: Frederick Douglass (South Capitol Street) Bridge and H Street NE (Hopscotch) Bridge. The 69-year old Frederick Douglass Bridge is functionally obsolete and in need of replacement due to condition. This project, which is expected to be completed in the winter of 2021, makes significant safety improvements and enhances beautification and public space offerings along the Anacostia River. The reconstruction of H Street (Hopscotch) Bridge will expand the transit network and foster further economic development, as it will incorporate the streetcar line and expand multi modal offerings, and enable Amtrak to increase its capabilities and provide for future development at Union Station

The six-year CIP also provides budget for DDOT to deliver significant modernization and innovation to DC's power infrastructure, by completing conversion of all District streetlights to LED technology, as well as undergrounding the most vulnerable electrical feeders in the District (DC PLUG). Both of these projects combine innovations in technology, project delivery, and finance. The streetlight conversion will utilize the District's first ever Streetlight Public-Private Partnership to fund a long-term contract (15 years) to complete this modernization. While most of the DC PLUG project cost will be offset by PEPCO rate payers, this CIP supports undergrounding of six electrical feeders. DDOT anticipates delivering the groundbreaking of the first feeder in winter of 2019.

The six-year CIP also establishes funding for dynamic transit system enhancements; spanning buses, bicycles, and streetcar. DDOT continues work to improve bus transit options for the District; with planned replacement of 18 Circulator buses in FY 2019 with clean diesel buses, as well as continued funding for the 16th Street NW Bus Priority Project. Budget is also provided for the design and construction of the streetcar extension to Benning Road and the expansion of Capital Bikeshare by 1,000 bikes and 100 stations across all eight wards of the District.

Finally, this CIP provides for the enhancement of the vitality, health, and beautification of the District by allocating resources to expand the urban tree canopy to meet the Sustainable DC Goal of 40%, and invests more than \$68 million in stormwater and green infrastructure projects.

Elements on this page of the Agency Summary include:

- **Funding Tables:** Past budget allotments show the allotment balance, calculated as allotments received to date less all obligations (the sum of expenditures, encumbrances, intra-District advances and pre-encumbrances). Agencies are allowed to encumber and pre-encumber funds up to the limit of a capital project’s budget authority, which might be higher than allotments received to date. For this reason, a negative balance on a project sheet does not necessarily indicate overspending or an anti-deficiency violation. A negative balance is permitted in this calculation of remaining allotment authority.
- **Additional Appropriations Data (\$000):** Provides a summary of the budget authority over the life of the project. The table can be read as follows:
 - **Original 6-Year Budget Authority:** Represents the authority from the fiscal year in which budget was first appropriated through the next 5 years.
 - **Budget Authority Through FY 2024 :** Represents the lifetime budget authority, including the 6 year budget authority for FY 2019 through FY 2024.
 - **FY 2019 Budget Authority Revisions:** Represents the changes to the budget authority as a result of reprogramming, redirections and rescissions (also reflected in Appendix F) for the current fiscal year.
 - **6-Year Budget Authority Through FY 2024 :** This is the total 6-year authority for FY 2019 through FY 2024 including changes from the current fiscal year.
 - **Budget Authority Request Through FY 2025 :** Represents the 6 year budget authority for FY 2020 through FY 2025.
 - **Increase (Decrease) :** This is the change in 6 year budget requested for FY 2020 - FY 2025 (change in budget authority is shown in Appendix A).
- **Estimated Operating Impact:** The agency summary of all projects with operating impacts that the agency has quantified, the effects are shown, by type, in the respective year of impact.
- **FTE Data (Total budget in FTE Table might differ from actual budget due to rounding):** Provides the number for Full-Time Equivalent (FTE) employees approved as eligible to be charged to capital projects by, or on behalf of, the agency. Additionally, it provides the total budget for these employees (Personal Services), the non personnel portion of the budget in the agency’s capital plan, and the percentage of the agency CIP budget from either expense category.
- **Facility Location Map:** For those agencies with facilities projects, a map reflecting projects and their geographic location within the District of Columbia.

KA0-AW000-SOUTH CAPITOL STREET CORRIDOR

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: AW000
Ward:
Location: WARDS 6 & 8
Status: Ongoing Subprojects
Useful Life of the Project: 30

Description:

The proposed improvements to South Capitol Street are intended to realize the vision set forth in the L'Enfant Plan through downgrading South Capitol Street from an expressway to an urban boulevard and gateway to the District of Columbia's Monumental Core. A key feature of this project will be the construction of a new and architecturally significant Frederick Douglass Memorial/South Capitol Street Bridge. This structure will spark the transformation of the South Capitol Street corridor and create a world class gateway between the east and west sides of the Anacostia River. Additional park lands will be created in the area adjacent to the new bridge to promote liveable communities, expand recreational options, and reconnect the city to the Anacostia riverfront. Economic development opportunities will be created and improved connectivity for residents will be provided to federal installations and job centers, including enhanced access to the Department of Homeland Security, U.S. Navy Yard, Bolling Air Force Base, the Anacostia Annex, and Andrews Air Force Base in Maryland.

KA0-HTF00-11TH STREET BRIDGE

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: HTF00
Ward:
Location: WARDS 6 & 8
Status: Ongoing Subprojects
Useful Life of the Project:

Description:

This project serves as the debt service payment for the 11th Street Bridge GARVEE Bonds. The 11th Street Bridges design build project represents a significant step forward in DDOT’s Anacostia Waterfront Initiative infrastructure endeavor. The project will improve mobility by providing separate freeway and local traffic connections to area roadways. The project provides multi-modal transportation options for cars, pedestrians, bicycles, and the future DC Streetcar; replaces existing structures that are both functionally deficient and structurally obsolete; provides an additional alternate evacuation route from our Nation’s Capital; and supports the overall environmental mission of the Anacostia Waterfront Initiative. This project is the largest project ever completed by DDOT and is the first river bridge replacement in the District of Columbia in more than 40 years. Completing this project will improve travel for both local and regional traffic.

KA0-MNT00-MAINTENANCE

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: MNT00
Ward:
Location: DISTRICT-WIDE
Status: Ongoing Subprojects
Useful Life of the Project:

Description:

Any routine preventive maintenance or minor rehabilitation project including, but not limited to, typical maintenance program, resurfacing, sealing, pothole repair; streetlight and signal maintenance not including major upgrades (which would be in “operations” section), and asset management.

- Bridge rehabilitation and maintenance (self explanatory)
- Interstate (projects on streets functionally classified as interstates or freeways)
- Primary (projects on streets functionally classified as National Highway System routes or Major arterials)
- Secondary (projects on streets functionally classified as minor arterials or collectors – technically local street projects are not “regionally significant” and therefore need not be in the TIP at all, nor are they eligible for highway trust fund investment anyway so these would be scrubbed out)
- Pedestrian and bicycle facilities (sidewalks, cycle tracks, and trails)

Related Projects:

Budget for the Master projects is allocated to individual projects as they are approved by the Federal DOT to receive budget. The individual projects within each master project can be found on the TIP at <http://www.mwcog.org/clrp/projects/tip/>

KA0-MRR00-MAJOR REHABILITATION, RECONSTRUCTION, REPLACEMENT

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: MRR00
Ward:
Location: DISTRICT-WIDE
Status: Ongoing Subprojects
Useful Life of the Project:

Description:

Any rehabilitation projects in excess of \$5M, all street reconstruction projects, all major streetscape projects, all new construction or vehicle lane additions. This would include significant transportation construction projects that integrate multi-modal facilities such as transit, multi-use trails, etc. in the appropriate corridor(s).

- a. Bridge replacement
- b. Interstate (interstate or freeway)
- c. Primary (NHS or other major arterial)
- d. Secondary (minor arterial or collector)
- e. Pedestrian and bicycle facilities (sidewalks, cycle tracks, and trails)

KA0-OSS00-OPERATIONS, SAFETY & SYSTEM EFFICIENCY

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: OSS00
Ward:
Location: DISTRICT-WIDE
Status: Ongoing Subprojects
Useful Life of the Project:

Description:

Any projects with a primary focus of improving the safety and efficiency of our transportation system. In practice, this involves a variety of safety initiatives including engineering, safety education programs and campaigns meant to reduce crashes, fatalities, injuries and property damage. The category also includes Intelligent Transportation Systems and architecture, congestion management and traffic management to maintain functional mobility on District roadways for people and freight, while also addressing impacts to local communities.

- a. Traffic operations and improvements including ITS
- b. Signal and streetlight system operations and upgrades
- c. Safety program
- d. Safe Routes to School
- e. Livable Streets
- f. Freight and motor coach program
- g. Parking program

KA0-SCG19-SOUTH CAPITOL STREET BRIDGE - GARVEE

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: SCG19
Ward:
Location: WARDS 6 & 8
Status: New
Useful Life of the Project:

Description:

This project serves as the debt service payment for the South Capitol Street Bridge GARVEE Bonds. The South Capitol Street Bridge design build project represents a significant step forward in DDOT 's Anacostia Waterfront Initiative infrastructure endeavor. The project will improve mobility by providing separate freeway and local traffic connections to area roadways. Providing these connections will allow for the creation of the "Grand Urban Boulevard" envisioned for the South Capitol Street Corridor. The project provides multi-modal transportation options for cars, pedestrians, bicycles, and the future DC Streetcar; replaces existing structures that are both functionally deficient and structurally obsolete; provides an additional alternate evacuation route from our Nation's Capital; and supports the overall environmental mission of the Anacostia Waterfront Initiative. The first phase of the innovative design build to budget project started construction in March 2018, and is scheduled to be completed in 2020. Completing this project will improve travel for both local and regional traffic.

KA0-ZU000-TRAVEL DEMAND MANAGEMENT

Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Implementing Agency: DEPARTMENT OF TRANSPORTATION (KA0)
Project No: ZU000
Ward:
Location: DISTRICT-WIDE
Status: Ongoing Subprojects
Useful Life of the Project:

Description:

Any projects that employ strategies to reduce single occupancy driving in the city and seek to reduce roadway congestion. This includes services and facilities that promote safe and attractive walking and bicycling as well as programs that promote mass transit, and other creative ways to provide alternatives to auto travel as well as significant outreach, education and promotion. Intermodal facilities that also promote non-single occupancy vehicle travel are included as well.

- a. Bicycle and Pedestrian Management Program
- b. Commuter Connections
- c. Bike share and bike station
- d. Intermodal facilities

Appendix I

Appendix I

The District of Columbia Water and Sewer Authority FY 2019 - FY 2028 Capital Improvement Program

Overview

The District of Columbia Water and Sewer Authority (“DC Water”) is an independent agency that provides essential retail water and wastewater services to over 700,000 residents and businesses, and 21.3 million annual visitors in the District of Columbia. DC Water also provides wholesale wastewater conveyance and treatment services to more than 1.6 million people in Montgomery and Prince George’s Counties in Maryland, and Fairfax and Loudoun Counties in Virginia. Governed by an eleven-member regional Board of Directors (“Board”), DC Water maintains and operates the water distribution system, sanitary and combined sewage systems, and Blue Plains the largest advanced wastewater treatment plant in the world.

The development and adherence to a capital improvement program and financial plan have been critical factors in implementing rate increases on a gradual and predictable basis, and maintaining strong bond ratings. DC Water’s long term credit ratings of Aa1/AAA/AA and short term credit ratings of P-1/A-1+/F1+ were reaffirmed by Moody’s Investor Service, S&P Global, and Fitch Ratings. These favorable ratings help reduce the interest rates DC Water pays on its debt borrowings, resulting in lower bills for customers.

Financial Policies

DC Water’s Board of Directors adopted a series of key financial policies for capital financing and reserves, rate-setting and budget, debt, and cash management and investment. These policies serve as key parameters used in successfully developing DC Water’s capital and operating budgets, and the ten-year financial plan. The policies will continue to guide the development and implementation of the Authority’s long-term financial plans.

Capital Improvement Program

Since its formation in 1996, DC Water has successfully undertaken significant efforts to improve its financial position and operations, a critical part of which has been the development and implementation of the Capital Improvement Program (CIP). DC Water’s enabling legislation requires a five-year financial planning period. However, because DC Water operates in a regulatory and capital project-driven environment, it uses a ten-year planning horizon for the CIP. The CIP enables DC Water to meet its key goals of providing the best service possible to its retail and wholesale customers, reducing long-term operating costs, meeting regulatory requirements, and continuing activities as an environmental steward. The ten-year financial plan integrates the impact of the CIP with DC Water’s Board of Directors’ policies, strategic plan, priorities, and provides guidance in several key financial areas.

DC Water’s CIP includes mandated projects as well as rehabilitation of assets required to meet permit requirements and service needs. Further, the CIP implements the water and sanitary sewer investments adopted by the Board to replace our aging infrastructure.

On April 4, 2019, the Board approved and adopted DC Water’s FY 2019 - FY 2028 CIP Disbursement Plan of \$4,956,780,000 and the related lifetime budget of \$12,127,945,000. The lifetime budget is the full budgeted amount for projects, which are active within the ten-year CIP, including expended and anticipated amounts to complete the projects. The capital disbursement plan is mainly an estimate of cash flows or actual spending on projects.

DC Water Fiscal Year 2020 Congressional Capital Authority Request

DC Water's FY 2020 capital authority request is \$4,517,663,000 for FY 2020 - FY 2028 planning period. For informational purposes, the following provides an overview of the major service areas for projected capital expenditures, recognizing that actual expenditures for individual service areas may vary up or down, subject to but not to exceed the amount of \$4,517,663,000.

Non-Process Facilities Service Area: \$122,758,000

The Non-Process Facilities Service Area accommodates projects approved under the Non-Process Facilities Master Plan and related improvements necessary to support DC Water activities and critical operations. The projects are designed to optimize efficient use of the Authority's existing land and facilities; and maximize flexibility for future treatment needs, innovative opportunities, green strategies and sustainable designs throughout DC Water's facilities.

Wastewater Treatment Service Area: \$908,759,000

Wastewater flows into the Blue Plains Advanced Wastewater Treatment Plant, from the District of Columbia, Montgomery and Prince George's Counties in Maryland, and Fairfax and Loudon counties in Virginia. The Plant facilities process liquids from sanitary wastewater and storm water, as well as residual solids removed during the liquids process.

Blue Plains Advanced Wastewater Treatment Plant treats an annual average of 290 million gallons per day (MGD), and has a design capacity of 384 MGD, and a peak wet weather design capacity to treat more than one billion gallons per day. Capital projects in the wastewater treatment area are required to rehabilitate, upgrade or provide new facilities at Blue Plains to ensure that it can reliably meet its National Pollutant Discharge Elimination System (NPDES) permit requirements and produce a consistent, high-quality dewatered solids product for land application.

Combined Sewer Overflow Service Area: \$1,146,417,000

Similar with many older communities in the Mid-Atlantic, Northeast, and Midwest sections of the country, a portion of the District is served by a combined sewer system. Approximately one-third of the system is combined, mostly in the downtown and older parts of the City. In dry weather, the system delivers wastewater to the Blue Plains Wastewater Treatment Plant. In wet weather, rainwater is captured by this system, and if the conveyance capacity of the system is exceeded, the excess flow spills into the waterways of the District.

This service area includes combined sewers projects that will rehabilitate or relocate combined sewers, control of wet weather related pollution, and upgrades to pumping stations.

There are 47 active Combined Sewer Overflow (CSO) outfalls in the District. The DC Clean Rivers project will further control CSOs in the District's waterways – the Anacostia and Potomac Rivers and Rock Creek. This project includes a system of deep tunnels, sewers and diversion facilities to capture CSOs and deliver them to Blue Plains Wastewater Treatment Plant. The Federal Consent Decree between the United States, the District Government, and DC Water was entered by the Court in March 2005, and modified in January 2016 to allow for large-scale green infrastructure installations and other modifications to the DC Clean Rivers project impacting the Potomac River and Rock Creek. The DC Clean Rivers project is by far the largest portion of this service area, and the schedule for completion spans over a 25-year period, ending in 2030.

Stormwater Service Area: \$64,388,000

Over 34 miles of rivers and streams in and around the District do not support swimming and all forms of aquatic life. Stormwater runoff from separated and combined sewers is the primary source of pathogens that cause impairments to the District's local waterways. The District's stormwater has approximately 580 miles of storm sewer pipes, catch basins, inlets, special structures and related facilities.

The District Government is responsible for operation, some capital replacement and management of the separate stormwater system under a MS4 (stormwater management) permit issued by the Federal government. The

central responsibility for managing the system lies with the District's Department of Energy and Environment (DOEE). Since 2007, DOEE has been responsible for the separate stormwater system and compliance with the Clean Water Act as the stormwater administrator. Among other things, DOEE coordinates the MS4 task force, making recommendations regarding stormwater priorities, goals and recommendations on the adequacy of funding mechanisms for stormwater management activities.

Several capital projects have been included to relieve local flooding and to address short-term needs for improvements to the storm sewers located in separate and combined sewer areas. In addition, there are projects for storm sewer rehabilitation and projects associated with the District Department of Transportation road projects, which often require relocation of storm sewers, inlets or other structures.

Sanitary Sewer Service Area: \$912,208,000

DC Water is responsible for wastewater collection and transmission in the District, including operation and maintenance of the sanitary sewer system of approximately 720 miles of large interceptor sewers and smaller gravity collection sewers, for a total of approximately 1,900 miles of sewer pipe. DC Water is also responsible for sewer lateral connections from the sewer pipes to the property lines (in public space) of residential, government, and commercial properties. In addition, DC Water is responsible for the 50-mile long Potomac Interceptor System, which provides conveyance of wastewater from areas in Virginia and Maryland to Blue Plains. The existing sanitary sewer system in the District dates back to 1871, and includes a variety of materials such as brick and concrete, vitrified clay, reinforced concrete, ductile iron, plastic, steel, brick, cast iron, cast-in-place concrete, and even fiberglass.

Aging sanitary infrastructure repairs and replacements include capital projects for sewer laterals, existing pumping stations and large diameter sewers. In 2009, DC Water completed the Sewer System Facility Plan. This document culminated a five-year effort involving sewer inspection and condition assessment, development of a sewer GIS database, hydraulic monitoring and modeling to assess system capacity and the development of prioritized activities for system improvements. In 2015, the Sewer System Facility Plan expanded to include recommendations for a 20-year planning period to extend the service life of the sewer system. It outlined the current-status of the DC Water sewer system, identified infrastructure improvement needs, and presented recommendations for prioritized activities for the continuing operation of the system.

Water Service Area: \$883,131,000

DC Water distributes safe, clean drinking water to customers throughout the District, and continues to comply with all federal and local regulations. Capital projects in the Water Service Area are designed to maintain an adequate and reliable potable water supply to customers and for fire suppression.

The water distribution system includes appurtenances necessary for proper system operation, inspection, and repair. DC Water's system includes approximately 1,300 miles of interconnected pipes, four pumping stations, five reservoirs, four water tanks and 43,860 valves of various sizes. A variety of valve types allow flow control, prevent air entrapment, allow water main draining, permit flow in only one direction, and allow water transfer between service areas during emergencies. The system also includes approximately 9,510 fire hydrants in public space maintained on behalf of the District Government in support of the District's Fire and Emergency Medical Services Department. The cost of the fire hydrant maintenance is reimbursable and does not affect rate adjustments for customers in the District.

Capital projects include rehabilitation or replacement of water mains, pumping stations and storage facilities, water quality projects, including dead-end elimination, and valve replacement.

Capital Equipment Service Projects Area: \$305,805,000

Capital equipment includes major information technology infrastructure and software initiatives, replacement or refurbishment of large equipment, vehicle fleet upgrades, and replacement of automated water meter equipment.

Washington Aqueduct Service Area: \$174,197,000

The Washington Aqueduct (Aqueduct) supplies treated water to distribution systems of DC Water, Arlington County, Fairfax County Water Authority (collectively, the Aqueduct Customers), the federal government, and other parts of northern Virginia. Under federal legislation enacted and a memorandum of understanding executed in 1997, the Aqueduct Customers have a role in the oversight of the Aqueduct's operations and its CIP. DC Water is responsible for managing the treated Water System that serves the District and several other governmental customers outside the District. DC Water purchases approximately 73.6 percent of the finished water produced by the Aqueduct; Arlington County and the Fairfax County Water Authority purchase the remainder. The Aqueduct CIP include improvements to the Dalecarlia and McMillan Water Treatment Plants, raw water conduits, pumping stations and reservoirs.
